THE NEW GYMNASIUM

A BRIEF HISTORY OF THE BUILDINGS OF QUEEN'S UNIVERSITY

By Gordon J. Smith, Arts '12, Sc. '15

THE earliest home of Queen's was a small frame house at 67 Colborne Street, Kingston. There the first classes were held on March 7, 1842, with ten students and two professors.

During the ensuing summer a more commodious building was rented—a new stone house on Princess Street, opposite the present St. Andrew's Church—and a rough-cast structure was erected next door for a preparatory school.

In 1844 the College moved again, this time to two stone houses on the north side of William Street, between Clergy and Barrie. And a year or more later the two adjoining buildings were leased, one for additional classrooms and the other for a students' boarding-house.

By 1853 still greater accommodation had become necessary; and "Summerhill," the substantial residence of Archdeacon George O'Kill Stuart, an Anglican clergyman, was purchased, together with six and a half acres of land, for the sum of £6,000. This was the beginning of Queen's University as we now know it. Previously the College had carried on in rented quarters; henceforth it had a home of its own.

"Summerhill" housed the Faculties of Arts, Theology, and Medicine for several years. Eventually its central part became the Principal's Residence, and its east and west wings, professors' homes.

The second building on the campus, what is now called the Old Medical Building, was erected in 1858, by means of governmental aid; and Medicine, along with some of the classes in Arts, moved into it. Medicine, by the way, had held its first session in a stone building near the foot of Princess Street, before taking up its quarters in "Summerhill" in 1855; and it later had two or three other

temporary homes during its eventful history. The Old Medical Building, with—in Dr. John Watson's words—"its little pepper-box on top intended as a belfry, and its general air of disdaining the meretricious advantage of architectural ornament," has been remodelled several times, the last being after the disastrous fire of 1924.

In 1879-80 the Arts Building, now the "Old Arts," was constructed as the result of the energy and initiative of Principal Grant in raising the necessary funds, largely from the citizens of Kingston. It was the first of the numerous buildings for which Grant was responsible, and which form such a striking monument to his twenty-five years at Queen's. The Old Arts Building accommodated the entire University, with the exception of Medicine, for many years. It is now occupied by the Theological College, the department of biology, the little theatre, and the art department.

Next came the John Carruthers Science Hall, in 1890. It was presented to the College by the late Mr. John Carruthers, whose eldest son subsequently became the first chairman of the board of governors of the School of Mining, and it was the first building erected at a Canadian university to house a department of chemistry. Since 1911, when chemistry moved into its new situation, Carruthers Hall has been devoted to civil engineering.

The square, frame structure at the rear of Carruthers Hall, latterly known as the "Old Mill," was provided by the Ontario Government as a mining laboratory in 1894, after the establishment by the Province in 1893 of the School of Mining and Agriculture, now the Faculty of Applied Science, at Queen's. It was the first

laboratory of its kind in Canada. Eventually, however, it outlived its scientific usefulness, and it is now occupied by the students' book-and-supply store, the Science clubroom, and the University carpentry and plumbing shops.

The Mechanical Laboratory, the other frame building on the campus, was erected by the University in the middle nineties, under the aegis of the late Professor Dupuis, who was much chagrined one bright morning to find that during the previous night some "disrespectful" students had printed the words "Tool Shed" just under the dignified name, Mechanical Laboratory, that he had placed on the

been taking place in the School of Mining. These were Fleming and Ontario Halls. The former, named in honour of Sir Sandford Fleming, then Chancellor of the University and a devoted and life-long friend of Queen's, accommodates the departments of electrical and mechanical engineering, and the Queen's radio station. The latter, familiarly known as the "Physics Building," held the physics, geology, and mineralogy departments until 1931, and now houses physics and chemical engineering.

Grant Hall was built in 1903-04, by means of student, staff, and alumni contributions. It was the culmination of

HOME OF QUEEN'S UNIVERSITY, 1853-58
Now Principal's Residence

front of the building. The "Tool Shed" is still serving as a machine and blacksmith shop for the practical instruction of the engineering students.

Kingston Hall, the New Arts Building, was made possible in 1900 by the generosity of the City of Kingston. It was completed in 1902, and all of the Arts classes, with the exception of those in pure science, are still held there. It was destroyed by fire in 1931, and was entirely reconstructed in the summer of that year by means of insurance and part of a \$150,000 grant made by the City. The remainder of the grant was used for the renovation of the Old Arts Building the following year.

In 1902-03 two new buildings were also erected by the Ontario government, to provide for the rapid expansion that had

hopes and plans cherished for several years for an adequate auditorium for University and student functions. The name "Frontenac Hall" had been originally proposed, in the hope that the County of Frontenac would assume part of the cost. This hope was not realized, and the building was finally named in memory of Principal Grant, who had striven so hard for it but who had died just prior to its erection. During the Great War it was used as a military hospital, along with Kingston Hall, and in 1934 it was entirely remodelled under the auspices of the General Alumni Association. Probably no other building at the University holds the peculiar interest that Grant Hall does for recent generations of Queen's men and women.

Three years later, in 1906, the students again helped to meet a serious need when

they subscribed about half the cost of the University's first real gymnasium, which served its purpose splendidly for almost a quarter of a century. It is now known as the "Old Gym," and at present houses the hydraulics and aerodynamics laboratories as well as a large drafting-room.

THE OLD MEDICAL BUILDING
As it looked before 1924 fire

In 1906-07 the Medical Laboratories Building was erected with funds provided by the Provincial Government. And in 1910 further assistance was given by the Province, when it made a substantial grant towards the construction of a new chemistry building, which was named Gordon Hall in honour of Principal Gordon. During this same period the Observatory, at the corner of University Avenue and Stuart Street, was also built.

Nicol Hall, the Mining Building, was erected in 1911 to house the departments of mining and metallurgy. The late Professor William Nicol, for many years head of the mineralogy department, supplied most of the funds for this building, and it was given his name. An extension was added several years ago to provide space for modern, miniature milling equipment.

In 1921 the George Richardson Memorial Stadium was donated to the University by the late Chancellor James A. Richardson, in memory of his brother, Captain George Taylor Richardson, a graduate of Queen's and a great athlete, who was fatally wounded while attempting to rescue two men of his company at Messines Ridge on February 9, 1916.

The Heating and Power Plant, situated on the shore of Lake Ontario, just south of the University proper, was built in 1922, with the aid of the Ontario government. It supplies light, heat, and power

for the University and the Kingston General Hospital, as well as serving as an excellent laboratory for the students in mechanical engineering.

The Douglas Library, erected in 1923, was made possible by a handsome gift from the late Dr. James Douglas, a former Chancellor of Queen's. It houses the University library as well as the administration offices and, with its subsidiary libraries, contains almost 200,000 volumes.

Contributions from graduates, students, and friends of the University enabled the first Jock Harty Hockey Arena to be built in 1923. It was named in memory of one of Queen's most noted athletes, and a substantial part of its cost was borne by the Harty family. It replaced the old iron-clad rink, of happy memories. The new Arena was destroyed by fire after only a year's operation, but late in 1924 it was replaced by the present fireproof structure, with an artificial-ice plant.

Ban Righ Hall, the main residence for the women students, was built in 1923. The alumnae were responsible for this splendid project, and raised a large part of the necessary funds. At present, four other residences for women form annexes to Ban Righ.

What could be more appropriate than that the Orphans' Home, situated on Union Street, should be chosen to become

THE OBSERVATORY
Situated near Ban Righ Hall

the Men's Union at Queen's, and such was the development that occurred in 1929. The remodelled building, with a new wing added, was named the Students' Memorial Union, in memory of the 194 Queen's men who fell in the Great War. It includes a special Memorial Room, as well as recreation rooms, a din-

ing-room and a banquet hall, and other non-residence quarters for men students.

The Richardson Pathological Laboratory, on Stuart Street, was erected in 1924, as part of the \$1,750,000 extension programme of the Kingston General Hospital in co-operation with the University. It was the gift of the late Mrs. H. F. Richardson.

Through the initiative of Mr. T. A. McGinnis, a Science graduate of '09, who raised from alumni and friends of the University a large part of the necessary funds, the New Gymnasium, one of the finest in Canada, was built in 1930. The students undertook to pay the balance of the cost of the "New Gym" by means of a special fee to be levied each year.

The largest building on the campus, Miller Hall, was erected in 1931, to accommodate the departments of mineralogy and geology and their accompanying museums. The building was named in memory of Dr. Willet G. Miller, former provincial geologist for Ontario and one-time professor at Queen's.

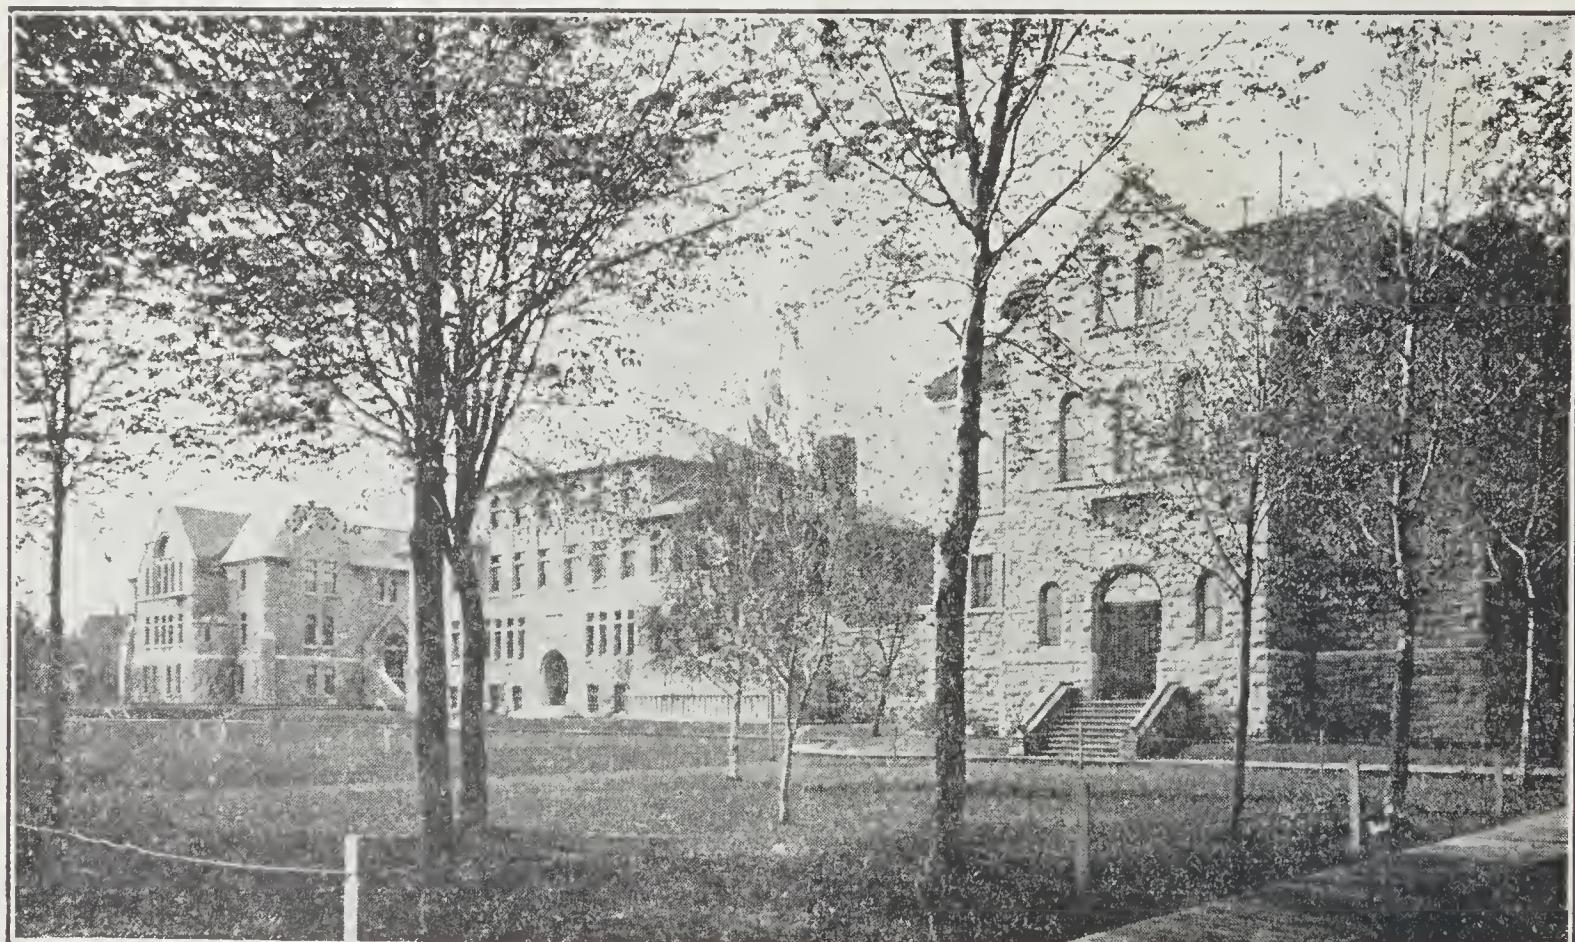

Since the Orphans' Home had become part of the University, it was fitting that the Infants' Home, also on Union Street, should follow in the same course. And so, in 1930, it became the Commerce

Building, and now contains the Commerce and Banking divisions.

The Craine Biochemistry Building, situated on Arch Street and completing the Medical quadrangle, was made possible in 1937 through the munificent bequest of Dr. Agnes D. Craine, one of Queen's earliest women graduates in Medicine. It houses the biochemistry, pharmacology, and obstetrics departments, and at present is also providing temporary quarters for the psychology laboratory and for the work in industrial relations.

The Sanitary Engineering Laboratory, constructed during the summer of 1937 at the east end of the Power Plant, is the last building to be erected. It contains fully equipped and up-to-date laboratories for the study of water supply and sewage disposal, and for the investigation of highway and soil mechanics.

Such has been the growth of Queen's. In 1842, a rented frame house as her home. Today, thirty-odd buildings, most of them of gray, Kingston limestone, worth more than \$5,000,000, and set in a campus made additionally attractive by stately trees, well-trimmed hedges, and beautiful flowers.

OLD VIEW OF INNER QUADRANGLE

THE WAR AND THE PRESS

By George W. McCracken, Arts '28

EARLY on the morning of September 1, 1939, extras were being shouted by newsboys on the streets of Canadian cities. The largest type across the front pages said that the Nazis had invaded Poland. There were news stories that fighting had broken out along the entire Polish frontier at 4.55 a.m. There was a report that the annexation of Danzig to Germany had been proclaimed. There was an announcement that the British Parliament would meet at noon.

In subsequent editions of the papers that day there was the news that Britain had sent a formal ultimatum to Germany demanding the withdrawal of German troops from Polish soil. There was the announcement that the War Measures Act had been invoked in Canada. There were despatches stating that Britain and France were mobilizing. On that first day of the war were also despatches from Washington and Rome on the front pages; one reported President Roosevelt's opinion that the United States could keep out of the war; the other reported the belief in Rome that Italy would not fight.

When Germany struck at Poland, the armed forces about to oppose the aggressor were merely at the beginning of mobilization. Even now, in the second year after the mobilization orders, we have not yet gathered all the military, naval, and air strength we shall need. Neither were the democratic countries politically mobilized; it was not until Poland had been occupied, and Norway was in the throes of a losing fight, that Mr. Churchill became Prime Minister of Britain. But the press of Canada, of Britain, and of the other countries of the British Commonwealth was mobilized. In actual fact, the press had already been at war for many months, reporting everything it could of the facts that the dictators would have been glad to keep secret until they were ready to strike. When it became clear that there was no chance for peace a few extra preparations were made. In the days immediately prior to September 1, 1939, a few members of newspaper staffs and of the staffs of great news-gathering services, Associated Press, Canadian Press,

Reuters, the Press Association of Great Britain, and half a dozen others, slept with their boots on. A little extra electricity was used keeping the molten type-metal in linotype machines at operating temperature day and night. A few correspondents were shifted to more strategic points. The president of the Canadian Press and the chief of its London bureau made a last-minute tour of the countries that would be involved. But very little had to be done in this final clearing of the decks. The news that went into those extras on the morning of September 1, 1939, was gathered and distributed by a vast, world-wide, swiftly-working, efficient organization that was already in action.

I doubt whether it occurred to many of the newspapermen who shared the job of gathering and distributing the news of the outbreak of war that theirs was one of the few sections of the democratic front that was as completely and superbly mobilized as the German military and air forces. They were a little busier than usual that day; too busy, perhaps, to dramatize themselves and bother about where they fitted into the civilian and military forces co-operating in the defence of the democratic way of life. Looking back at it now, however, it is possible to doubt that a democratic country could gather its strength for any emergency if it lacked an energetic and efficient press to keep its people informed. Certainly this much can be said: in the countries, such as Canada, which depended upon voluntary enlistment to recruit the personnel for their armed services, military, naval, and air mobilization would be very difficult, if not impossible, if the public were not adequately informed of events as they occurred.

The only existing means of keeping all the people of a nation well informed of current events is the system that has been developed by newspapers and their news-gathering agencies. This service, you may say, is now also performed by radio, but newspapermen would in turn point out that practically all the news you hear by radio is first gathered by newspapers and press associations. The only

exceptions are when someone in a position of great authority, such as Mr. Roosevelt or Mr. Churchill, makes an important announcement during a speech that is being broadcast.

VALUE TO DEMOCRACY

If one tried to imagine a democratic country without reliable newspapers the only picture that could come to mind would be one of utter chaos and confusion. There would be wild rumours on every tongue. Nobody would know whether or not the Government were doing its job properly. Individuals would have no clear idea of what they could or should do to serve in an emergency. Fears would sweep the country. Morale would break down, and an enemy would proceed to an easy victory. Something like this actually did occur in the case of France, where some of the newspapers were not reliable, and those that were did not have the strength to smash a vicious censorship.

The condition of its press and censorship was, of course, only one of many factors in the downfall of France. There are those who are not so sure that it was not the fundamental factor. If the people of France had been adequately and honestly informed, they might have cleaned up their political and military situation in time to save their country. I do not think there need be any fears as to the condition of the press in any British country.

Although the press of Canada was well prepared for the coming of war, the war had had innumerable effects upon the press, and the press would be doing less than its war-time duty if it could not claim to have some useful effects upon this Dominion's participation in the war. From a business point of view, newspaper publishing is affected in much the same way as any other business. There is one important exception. Costs for gathering and bringing news from abroad are tremendously increased. From the editorial point of view, however, newspapers are affected in a great number of ways that are peculiar to themselves alone.

Newspaper readers will have noticed many of the changes that have occurred.

The days are temporarily gone when the quintuplets had only to bite on a teething ring to make the front pages. It is now almost literally true that there is no news except war news. If readers sometimes become very weary of this, and no doubt they do, most of them would nevertheless quickly complain if the amount of war news in the newspapers were reduced. In any case there is very little news occurring that does not have some relation to the war. It is to the credit of the Canadian people that this is so, and the newspapers can do no less than report Canadian war-work activities along with the news from Greece, from Britain, from the Atlantic and the Mediterranean, to say nothing of all the diplomatic moves in the world capitals. Meanwhile the newspapers must not neglect reports of the need for increased Canadian cheese production so that the courageous people of Britain may be fed, nor dare they neglect statements of the need for tanks and ships and machine guns and airplanes. If newspapers did neglect to mention these things, some of the people of democratic countries might be inclined to take it for granted that they could safely sit back with hands folded and let the war win itself.

DEFENCE AGAINST PROPAGANDA

But there are other sides of the picture which readers do not see. They do not, for example, see the ceaseless vigilance guarding against attempts of the enemy to slip over propaganda in news stories from apparently reliable sources. They perhaps do not realize the care that members of the staffs of a Canadian newspaper take to make sure that they do not accidentally betray important military secrets. It is not always fully realized by readers that the war news itself is frequently gathered abroad by men who take exactly the same risks as those in the front line of battle. On his return to Canada after four years as superintendent of the Canadian Press Bureau in London, Edwin Johnson admits that he owes his life several times over to providence, fate, luck, or a guardian angel. Another member of the Canadian Press staff in London was working in his office a few weeks

ago when the building was damaged by a high explosive bomb.¹ Ralph Barnes, reporting the struggle between the Greeks and the Italians, was killed when the Royal Air Force bomber, in which he was flying as a passenger during actual military operations, crashed into a mountainside.

I have mentioned the vicious censorship that I believe contributed to the downfall of France. What of the Canadian censorship and of the British censorship? What of the reliability of news from British official sources?

EVALUATION OF CENSORSHIP

No newspaperman likes censorship. In my opinion there are only two grounds on which it can be justified in a democratic country. One is to prevent information of military importance from reaching the enemy. The other is to suppress untruthful or distorted reports or statements that might be disseminated for the purpose of sowing confusion, disunity, or uncertainty. Any other use of censorship is practically certain to weaken a democracy in ways that would make it less efficient for waging war. The people of a democratic country, certainly those of any British country, are at their strongest when they know the truth, the whole truth, and nothing but the truth. That applies both to pleasant truth and to bitter truth.

Under the direction of the two present chief press censors,² Canada probably has the soundest, most sensible, and most consistent press censorship of any belligerent country. Generally speaking, it suppresses only outright sedition and reports that would disclose military secrets. Since

the newspapers themselves have no desire to publish either, about the only type of debate they have with the censors is whether such and such a thing is really a military secret. The freedom of the press in Canada is virtually as great as it was in peacetime. In a typical day newspaper readers are deprived of no information beyond the movement of a troop train or some detail of the armament of a new ship for the Royal Canadian Navy. Even more important than this relatively great freedom in the reporting of facts is the practically complete freedom that exists for the expression of editorial opinion. The newspapers can still criticize the Government or any of its members or any of its policies. They can criticize any board or civil servant or dollar-a-year man at Ottawa. They can criticize the conduct or efficiency of any officer or man of the army, navy, or air force. In brief, we still live in a democracy.

The British censorship is almost as sensible and reasonable most of the time. However, for some reason or other it goes into a tail spin every few months and becomes over-cautious. The British press then goes to work on it and blasts it back to normal. As to the reliability of the news from British official sources, it seems to be absolutely dependable, but sometimes it is rather slow in being released. If it errs, it is most likely to be on the side of understatement of successes.

The relative importance of the press to other sections of the democratic front in this war is something that will be more easily estimated a few years from now. If, however, democratic peoples are at their strongest when they know the truth, whether it be bitter or pleasant, the people of Canada and the other British countries should be strong. Their press is keeping them not only accurately but also well informed about the war.

Broadcast Over CFRC

DURING the month of December the following participated in the week-by-week radio series broadcast over Queen's station CFRC: Mr. George McCracken, Mr. A. D. Kent, Mr. E. C. Kyte,

¹ The same building, which housed both the Canadian Press and the Associated Press offices in London, was subsequently destroyed during the first intensive incendiary bomb raid. The staffs of both organizations tried to smother the bombs and fought the flames until they saw it was impossible to save the building. Then they hurried to nearby London newspaper offices, where they were given temporary desk room and resumed the writing of their despatches.

² Wilfrid Eggleston, Arts '26, and F. Charpentier.

Queen's Glee Club, Mr. H. B. Sandwith, Mr. W. R. Belcher, Prof. R. L. Dorrance, Prof. Henry Alexander, Mr. H. M. MacKinnon, Miss Margaret Davis, Mr. J. S. Sibbitt, St. George's Cathedral Boys' Choir, and Dr. G. S. Graham.

RECEIVE ACCLAMATION IN RE-ELECTION TO BOARD

IN the nominations for benefactors for the Board of Trustees, only two names were submitted for the two existing vacancies, which were thus filled by acclamation. The nominees—Mr. T. A. McGinnis and Mr. J. M. Campbell—were retiring members of the Board.

For many years a highway contractor with headquarters in Kingston, Mr. McGinnis has been a trustee since 1932, as representative of the benefactors in general. He will now serve on the Board in the same capacity until March, 1945.

Mr. Campbell is a prominent Kingston business man and has many interests. He has been a trustee since 1926, sitting as a special representative on the Faculty of Applied Science. He will serve until 1944.

EARL OF ATHLONE TO VISIT UNIVERSITY NEXT FALL

HIS EXCELLENCY, the Earl of Athlone, who recently accepted the position of rector of Queen's, will probably deliver his rectorial address this fall, according to information received by the Alma Mater Society.

It had been hoped that the Governor-General would be able to visit the University during the present term, but his secretary informed the student body that the pressure of official duties precluded this possibility. If he is able to come in the fall, his visit will make an interesting feature of the centenary programme.

Water Colours Displayed

AN exhibition of water colours by Miss Gwen Dawson and Miss Margaret Robbie was on display in the Old Arts Building for two weeks beginning December 9. Scenes of Ontario, Nova Scotia, and Australia, were featured.

LECTURE SERIES LAUNCHES CENTENARY PROGRAMME

"SOME Great Men of Queen's" is the title of the University's Monday afternoon series of lectures being delivered during the current term. This represents the first of the special events scheduled in connection with the Centenary celebration. The lectures are broadcast over Queen's radio station CFRC. The programme is as follows:

January 13—"George Monro Grant," by Rev. J. R. Watts, D.D.

January 20—"John Watson," by Dr. J. M. MacEachran.

January 27—"Nathan Fellowes Du-puis," by Dean John Matheson.

February 3—"James Cappon," by Dr. W. E. McNeill.

February 10—"William George Jordan," by Rev. W. T. McCree.

February 17—"Adam Shortt," by Dr. O. D. Skelton.

TWO QUEEN'S OFFICERS AWARDED HIGH HONOURS

HIGH honours for bravery have been awarded to Lieut. J. M. S. Patton, Sc. '39, and Capt. D. W. Cunningham, Sc. '38. The former was given the George Cross, a reward for acts of gallantry connected with enemy action, and the latter received the George medal, for gallantry and distinguished conduct.

The awards were made in connection with the removal of a delayed-action bomb from an important war-time industry in England where it endangered the lives of workmen and hampered essential production. Lieutenant Patton lowered himself down to the huge bomb, fastened a steel cable to it while enemy planes roared overhead, and with Captain Cunningham hauled it away in a truck to an open field.

Facilities of Douglas Library Offered to Soldiers in Kingston

THE splendid facilities of the Douglas Library have been made available to the officers and men of the Canadian army, both active and reserve formations, stationed in the Kingston area. Officers

commanding the different units will take the names of those who are interested in borrowing or consulting books, and will act as guarantors that all books are returned in good condition.

COL. C. F. CARSON, ARTS '08 KNIGHTED BY KING GEORGE

AMONG those cited by His Majesty King George VI in his New Year's honour list is Col. C. F. Carson, Arts '08, who was knighted for his services to the government of India. Sir Frederick is now in England, where he is chief engineer in charge of repairs and clearance of bomb damage.

He attended Queen's for one year, 1904-05, before entering the Royal Military College. As an undergraduate he was a prominent athlete, playing quarterback on the Queen's team that won the senior Intercollegiate football championship in 1904. At R.M.C. he finished first in his class and won the Governor-General's medal. During his final year he was battalion sergeant-major. Sir Frederick also attended Queen's after the war, taking a one-year's postgraduate course in economics, 1922-23.

After graduation from R.M.C. he joined the Royal Engineers and proceeded to England. Three years later he went to India as an employee of the North Western Railway, third largest in the world. During the World War he served in France with the Royal Engineers, where he won the Military Cross with a bar and was mentioned in despatches.

Returning to India, he rejoined the North Western Railway, and in 1936 he was made general manager. In 1933 he made an economic analysis of the railway operations which proved a great benefit in changing the financial position of that great enterprise. Sir Frederick resigned in June, 1940, and returned to England to offer his services to the British army command.

Sir Frederick is a brother of Dr. Orrin A. Carson, Sc. '23, assistant professor of metallurgy at Queen's, and of George E. Carson, Com. '25, collector of income tax in Kingston, Ontario. His wife is a sister of Brigadier H. O. N. Brownfield, Sc. '20.

FIFTEEN NOMINATED FOR COUNCIL ELECTIONS

FOR this spring's University Council election, fifteen names have been placed in nomination by graduates, or by the executive committee of the Council. Nine of these candidates are to be elected and will hold office until 1947.

Ballots are being mailed to the graduates, and these must be returned to the secretary of the Council on or before March 31. For the guidance of voters, brief information regarding each candidate is given on the reverse side of the ballot.

The nominees are as follows: M. I. Beeshy, Arts '15, Ridgeway; A. H. Brown, Arts '96, Ottawa; Florence Dunlop, Arts '24, Ottawa; J. C. Elliott, Arts '19, Toronto; Dr. J. F. Houston, Med. '16, Hamilton; Dr. P. H. Huyck, Med. '11, Kingston; Rev. N. M. Leckie, Arts '02, Theol. '02, D.D. '30, Grimsby; A. A. MacKay, Sc. '10, Montreal; A. G. MacLachlan, Sc. '22, Ottawa; Dr. G. G. McNab, Arts '02, Paed. '24, Guelph; G. C. Monture, Sc. '21, Ottawa; B. L. Simpson, Arts '03, Hamilton; D. W. Stewart, Arts '84, Renfrew; F. D. Wallace, Arts '09, North Bay; N. B. Wormith, Arts '05, Toronto.

LIEUT.-COL. H. A. KENT RETURNS TO QUEEN'S

LIET.-COL. H. A. KENT, principal of Queen's Theological College, has returned to the University after completing a year's service with the Canadian forces in England. He had been granted twelve months' leave of absence from the College.

Until August 22 of this year Lieutenant-Colonel Kent was senior Protestant chaplain of the First Division and since that time he was assistant principal chaplain of the Canadian Active Service Force, with headquarters in London.

New Airport at Collins Bay Named In Memory of Hon. Norman Rogers

IN tribute to the memory of the late Hon. Norman McLeod Rogers, minister of national defence and federal member for Kingston, Ontario, the Kingston

City Council has named the new airport at Collins Bay the "Norman Rogers Air-drome." A former member of the teaching staff at the University, Mr. Rogers was rector of Queen's at the time of his death.

DR. SKELTON AND MR. GREER RE-ELECTED TO BOARD

THE two vacancies for alumni representatives on the Board of Trustees have been filled by acclamation. Dr. O. D. Skelton and Mr. V. K. Greer, both of whom were retiring members of the Board, are thus to serve for another three-year period.

Dr. Skelton has been Under-Secretary of State for External Affairs for the Dominion of Canada since 1925. Formerly Dean of Arts at Queen's and rector from 1928-34, Dr. Skelton has been a member of the Board since 1926.

Mr. Greer is chief inspector for the public and separate schools of the Province of Ontario. He is now embarking on his tenth year as a trustee of the University.

MAJOR COLIN A. CAMPBELL HEADS UNIT AT GIBRALTAR

UNDER the direction of Major Colin A. Campbell, Sc. '22, Arts '23, former minister of public works for Ontario, a detachment of a tunnelling company of the Royal Canadian Engineers is now doing vital work in connection with the defence of the Rock of Gibraltar.

The first Canadian unit ever sent to Gibraltar for duty there, the engineers are hard-rock miners from every province in the Dominion. The company had been doing special work in the defence lines of Britain during recent months, but this latest assignment is the biggest. The Canadians are said to be the first to use diamond drills in tunnelling on Gibraltar, and it is reported that the sappers are working twenty-four hours a day, seven days a week, on their important mission.

Second Term Opens

Classes for the second term opened on January 6. Examinations for half-courses began on the fourth.

FORMER STAFF MEMBER RECEIVES FINE TRIBUTE

A SPLENDID tribute to W. D. Bonner, M.A., Ph.D., and his family is contained in the article, "The Chemical Bonners," which appeared in a recent issue of the *News Edition* of the American Chemical Society. From 1910 to 1915 Dr. Bonner was on the staff at Queen's, first as lecturer and then as an assistant professor of chemistry.

Dr. Bonner received his education at Nebraska Wesleyan, Princeton, and Toronto Universities. At Queen's he obtained his first important teaching position. In 1915 he accepted the post of professor of chemistry and head of the department at the University of Utah. His twenty-five years of service at the latter institution constitute a fine record of achievement. Dr. Bonner is regarded as an authority on azeotropic, or constant boiling, solutions, and many of his students have gone on to prominence in the chemical world.

"The Chemical Bonners" points out that Dr. Bonner does not have a monopoly on the chemical ability of his family. Mrs. Bonner has assisted him for many years in conducting a special class, and five sons and one daughter hold teaching or research positions at various institutions of learning.

500 C.O.T.C. CANDIDATES WRITE FIRST EXAMINATION

MORE than 500 candidates of the Queen's University Contingent, Canadian Officers' Training Corps, wrote the first qualifying examination in December for lieutenants' commissions in the Canadian militia. In addition, arrangements were made for seventy-four Summer School cadets to write this examination at various centres across Canada, but accurate figures as to how many took advantage of this opportunity are not yet available. The test was common to all arms.

By arms, the students wrote as follows: artillery, 138; engineers, 152; infantry, 70; medical corps, 104; signals, 45; total, 509.

ON HIS MAJESTY'S SERVICE

SOON after the outbreak of war the *Review* began to publish a monthly list of the names of alumni who had joined some branch of the fighting services. Twelve lists have appeared on these pages and now a complete summary is presented.

As the *Review's* news-gathering facilities are limited, this list is far from complete. Readers are urged to send in any names that have been omitted, together with such additional information as is pertinent, in order that the University records may be changed accordingly. Branch officers should be particularly helpful in

this connection. In this way it will be possible to pay full honour to the Queen's alumni who are now serving their King and their country.

Equally important is news of those Queen's men and women who are contributing to the war effort in a non-military capacity. Press clippings and other data referring to war-time work will be most welcome. Address all contributions to the *Queen's Review*, Queen's University, Kingston, Ontario.

Corrections of errors noted in these columns will also be much appreciated.

STUDENT ACTIVITIES

THE campus was shocked to learn of the death of John Parry, Med. '42, which occurred suddenly at Windsor, Ontario, on December 12. Injured in an automobile accident a few weeks previously, he had been convalescing at his uncle's home. He was highly popular

with the student body, and last fall was elected secretary of the Alma Mater Society. He was widely known as an athlete, being prominent in track events and in wrestling. He was also successful as a student, with several scholarships to his credit. The funeral was held at Port

Hope December 15, and was attended by a number of students and University staff members. * * * *

Chosen by the flip of a coin, R. J. Dickson, Arts '43, gave a blood transfusion to Major W. E. Swaine, musketry instructor of Queen's Contingent, C.O.T.C., who had suffered a severe abdominal hemorrhage. Lieut. Sam Adelkind, Com. '38, adjutant of the C.O.T.C., asked at the Students' Union for blood volunteers and six men volunteered. Of these, three were found to have the right blood type, and Dickson was selected. Major Swaine is now reported to be making a rapid recovery.

* * * *

Members of the Queen's Glee Club, under the direction of Dr. F. L. Harrison, resident musician, paid their annual visit to the homes of Queen's staff members December 15 and sang Christmas carols. Donations received were turned over to a local war-aid committee. At the residence of Dean and Mrs. Etherington the carols were sung indoors and the singers were treated to refreshments. After completing their calls the students were entertained at the home of Mr. and Mrs. C. H. Rooke.

* * * *

Very Rev. T. P. McLaughlin, C.S.B., D.C.L., of St. Michael's College, Toronto, conducted the University church service in Grant Hall December 1. He spoke on "The Fellowship of Believers." . . I. M. Drum, Sc. '37, of the Kingston Die and Chemical Company, spoke on "Detergents" at a combined meeting of the

Chemical Engineers and Chemists' Clubs December 3. . . . Miss Gladys Arnold of the Canadian Press addressed an open meeting of the Levana Society December 5 on her experiences in Europe just prior to the capitulation of France. . . . W. V. Percival, Arts '30, Com. '32, senior auditor of the Canadian General Electric Company, was the speaker at the Commerce Club luncheon December 12.

* * * *

The Ski Club is planning an ambitious programme of activities. Trips will be made every week-end when conditions are favourable. . . . Rodney Grey, Arts '44, won the second annual freshmen's public-speaking contest held under the auspices of the Queen's Debating Union. . . . Levana debaters lost to McMaster at Queen's and to the University of Toronto away from home on December 4. The topic was "Resolved that Canada Should Become a Member of the Pan-American Union." . . . The Queen's Revue, advertised as a variety show, will be held in the K. C. V. I. auditorium the latter part of February. The dance choruses have been practising faithfully for several weeks and amateur playwrights have been working feverishly over humorous skits. The proceeds will be given to the Queen's War Aid Commission. . . . Seventy-five girls have qualified for St. John Ambulance certificates and five others have passed tests for vouchers, which is the second stage in the training. The 1941 *Tricolor*, under the editorship of Ed Barks, Com. '41, will be sold for \$3.95.

THE BOOKSHELF

The Carnegie Fund enables the Douglas Library to purchase books that no one department of the University might consider to be within its scope. Some of the volumes so purchased are noted below. All these, though primarily intended for undergraduate students, are at the disposal of alumni who wish to read them, and the Librarian will be pleased to forward any that may be desired.

ALLEN, FREDERICK LEWIS — SINCE YESTERDAY; THE NINETEEN-THIRTIES IN AMERICA, SEPTEMBER 3, 1929 - SEP-

TEMBER 3, 1939. This tale of the tenth of a century enables us to note how far round the circle we have come, how much

has changed, and how desperately some things need to change.

BATSFORD, HARRY — *THE GREATER ENGLISH CHURCH IN THE MIDDLE AGES*. A beautiful book, not only for its photographs but also for its revelation of the spirit of worship in a country and a people.

BOTTRALL, RONALD — *THE TURNING PATH*. Poems by a new singer, able to write lyrics and not so concerned with his own feelings as with those of the common folk.

CLOSS, HANNAH — *TRISTAN*. Another rendering, with careful attention to period, of the immortal love story from Ireland to Lyonesse.

CUTRIGHT, PAUL RUSSELL — *THE GREAT NATURALISTS EXPLORE SOUTH AMERICA*. Chapter first, on Wallace, Darwin, and other great naturalists; then, amusing and interesting chapters, each devoted to an animal—jaguars, tapirs, armadillos, and the like.

DARLING, F. FRASER — *ISLAND YEARS*. This is the story of a famous naturalist who loved islands, especially those off the west coast of Scotland. A fine book, beautifully illustrated.

DAVIS, WATSON — *SCIENCE PICTURE PARADE*. The enormous advances in civilization that adventures in scientific investigation have made possible.

ADAMS, W. G. S. — *THE DEEPER CAUSES OF THE WAR AND ITS ISSUES*. A reasoned account of the national and economic forces that have set Germany at odds with democracy.

EATON, EVELYN — *QUIETLY MY CAPTAIN WAITS*. An excellent Canadian novel about Louise de Freneuse and Pierre Denys de Bonaventure. Authentic historical characters. The setting is Acadia, and period, 1691 to 1706.

FORESTER, CECIL SCOTT — *TO THE INDIES*. When Columbus visited the Indies for the third time he took with him a young lawyer, Bartholomew Rich—which makes a great story.

GABRIELSON, IRA NOEL — *BIRDS OF OREGON*. Anyone interested in birds will like this beautifully illustrated and authoritative book.

GARCIA LORCA, FEDERICO — *POEMS*. New poems by one of the finest poets of

New Spain, translated into poetic English, with original Spanish on opposite pages.

GARRATT, GEOFFREY THEODORE — *EUROPE'S DANCE OF DEATH*. A powerful and gloomy account of our immediate past and our probable future.

GONO, JEAN — *JOY OF MAN'S DESIRING*. A deepened sense of the oneness of all created things with the poetry and naturalism so evident in *Song of the World*.

JACOBY, HANS — *ANALYSIS OF HANDWRITING*. Actually, the analysis of character through the study of handwriting. The book is distinguished by a more scientific treatment than this subject usually gets.

LEWIS, MICHAEL — *ENGLAND'S SEA-OFFICERS; THE STORY OF THE NAVAL PROFESSION*. A proud and magnificent record such as no other country can equal.

LUCAS, FRANK LAURENCE — *JOURNAL UNDER THE TERROR, 1938*. The spectacle of Central Europe, Nazi dominated; more bestial because more deliberately controlled than was the French Revolution.

LUNDIN, LEONARD — *COCKPIT OF REVOLUTION; THE WAR FOR INDEPENDENCE IN NEW JERSEY*. "The American Revolution was a crime against God and man," but much honesty, much courage, and sterling patriotism went into it.

MATSUI, HARU — *RESTLESS WAVE*. The autobiography of an emancipated girl who lectures in the U.S.A. for the benefit of oppressed China.

MAYNARD, THEODORE — *APOSTLE OF CHARITY; THE LIFE OF ST. VINCENT DE PAUL*. A story of one who was truly a saint on earth, and a very human person.

RICH, HAROLD THOMPSON — *MORE THAN MERE LIVING*. How a man and his wife lived above their incomes—in one sense; and yet added no sorrow to their budget.

SACHS, CURT — *THE HISTORY OF MUSICAL INSTRUMENTS*. Extensive in scope; all times, all countries, every type of instrument. Style is concise and not too technical. Many excellent illustrations.

SHERWOOD, ROBERT EMMETT — *THERE SHALL BE NO NIGHT*. A fine play, dealing with the Russian invasion of Finland, and the greatness of humanity.

WARD, EDWARD — DESPATCHES FROM FINLAND; JANUARY - APRIL, 1940. Illustrated, factual, and as unbiased as possible for a man who saw magnificent heroism constantly shown.

WU, AI-CHEN — TURKESTAN TUMULT. The centre of Asia is Turkestan, and there Russia, China, and Japan, with England keeping a watchful eye on their intrigues, strive to gain political domination of the uneducated inhabitants.

AT THE BRANCHES

Porcupine

AN informal supper in the auditorium of the McIntyre Arena was held on December 6 in honour of Principal Wallace, who had come to Timmins to be guest speaker at the high school commencement exercises on the invitation of J. L. Murray, Arts '20. Approximately ninety alumni and friends of Queen's were in attendance. C. S. Gibson, Sc. '22, president, acted as chairman.

D. E. Keeley, Sc. '10, honorary president of the branch, introduced Principal Wallace to the gathering. An account of life at Queen's at the present time was given by the Principal, who made particular reference to the valuable contribution to the Canadian war effort in the military training programme and in the research being carried on at the University.

Ottawa

AT a recent meeting it was decided to forego the pleasure of the annual dance this year and, instead, direct the members' energies into war work.

A plan was adopted to sponsor support of the British evacuee children in the city. While the exact details have not yet been worked out, the most popular suggestion appeared to be the sale to the public of shares or units, which may be paid for in instalments. Any Ottawa alumni who have not yet been approached regarding this matter are requested to get in touch with a member of the committee.

The project is under the direction of C. D. Wight, Sc. '28, who is assisted by Dr. B. R. MacKay, Sc. '08, W. H. Losee, Sc. '12, D. K. MacTavish, Arts '20, J. J. Dunlop, Arts '15, and Ward McGill, Com. '31, Arts '33.

THE alumnae held an enjoyable tea December 8 at the home of the president, Mrs. J. E. Plunkett (Marion Moffatt), Arts '26, for the women graduates of the last two years. Mrs. Plunkett received, and the tea table was presided over by Mrs. T. K. Waddell (Jean Govan), Arts '20.

Toronto

TWO meetings of the luncheon group were held during the month. On the second, Dr. B. T. McGhie, Med. '16, deputy minister of health for the province of Ontario, spoke on "Your Provincial Health Service." On the fifteenth, Mr. Ted Reeve, former coach of the Queen's football team, was the speaker and his topic was "Sport in War-Time."

London

AN enjoyable bridge party was held at the Eastern Star club rooms on December 6 with about thirty graduates and their friends in attendance. After the refreshments were served, President H. A. Stewart, Arts '26, spoke briefly, welcoming in particular the newer graduates and out-of-town guests, a number of whom were wearing the R.C.A.F. uniform. O. H. Banks, Arts '28, moved a vote of thanks to the committee in charge.

Montreal

THE second regular meeting was held in the Mount Royal Hotel December 11, with President C. A. Root, Arts '19, in the chair.

Mr. R. E. Gohier, chief engineer of the Quebec department of highways, was the guest speaker. His address on "Our Que-

bec Highways," was illustrated by slides and motion pictures of highway development in the province. The members were greatly impressed by the rapid strides being made in building radial arteries from Montreal to Quebec and to the United States and Ontario boundaries.

A resolution expressing regret at the passing of O. M. Montgomery, Sc. '05,

was recorded in the minutes on the motion of J. B. Stirling, Arts '09, Sc. '11, and R. J. Vogan, Com. '26.

* * * *

The alumnae held their annual buffet supper at the University Women's Club December 3. Mr. A. E. Perks was the guest speaker.

ALUMNI NEWS

Births

Craig—At Douglas Memorial Hospital, Fort Erie, Ont., on November 6, to C. E. Craig, Sc. '38, and Mrs. Craig, a son (Douglas Booth).

Davies—On December 24, in Toronto, Ont., to Robertson Davies, Arts '36, and Mrs. Davies, a daughter.

Dundass—At St. Joseph's Hospital, Sudbury, Ont., on November 25, to William Dundass, Sc. '36, and Mrs. Dundass, Creighton Mine, Ont., a daughter (Carolyn Jean).

Fox—In Port Arthur, Ont., on January 1, to E. L. Fox and Mrs. Fox (Marguerite Lemmon), Arts '35, a son.

Harcourt—On October 18, at Sudbury, Ont., to G. Alan Harcourt, Sc. '32 (Ph.D. Harvard), and Mrs. Harcourt, a son (Gordon Alan).

Janes—At Sudbury, Ont., on December 20, to T. H. Janes, Sc. '38, and Mrs. Janes (Margaret Way), Arts '39, a son (Ronald Thomas).

Jolliffe—At Ottawa Civic Hospital, Ottawa, Ont., on December 23, to A. W. Jolliffe, Arts '29, and Mrs. Jolliffe, a daughter (Mary Catherine).

Kelley—On January 2, at the Ottawa Civic Hospital, Ottawa, Ont., to Dr. C. W. Kelley, Med. '28, and Mrs. Kelley, a daughter.

Kennedy—At St. Joseph's Hospital, Guelph, Ont., on October 15, to C. E. Kennedy, Arts '29, and Mrs. Kennedy, a son (Michael Byron).

Laughland—At Mercy Hospital, Buffalo, N.Y., on November 5, to Mr. Milton Laughland and Mrs. Laughland (Norah O'Connor), Arts '29, a son (William Patrick).

McIlroy—At St. Michael's Hospital, Toronto, Ont., on December 30, to W. F. McIlroy, Com. '29, and Mrs. McIlroy, a son.

McNab—On December 19, at the Private Patients' Pavilion, Toronto General Hospital, to K. G. McNab, Arts '27, and Mrs. McNab, a daughter.

Miller—At Wapella, Sask., on December 7, to Dr. R. G. Miller, Med. '37, and Mrs. Miller, a daughter (Marilyn Friendship).

Rattray—At the Kingston General Hospital, on January 3, to D. E. Rattray, Sc. '35, and Mrs. Rattray (Edith Brown), Arts '35, a son.

Richards—At the Private Patients' Pavilion, Toronto General Hospital, on October 12, to V. L. Richards, Sc. '32, and Mrs. Richards, a daughter (Margaret Inez).

Robb—On December 10, at Halifax, N.S., to A. Stuart Robb, Sc. '36, and Mrs. Robb, a daughter (Barbara Ann).

Saylor—At the Private Patients' Pavilion, General Hospital, Toronto, Ont., on December 29, to Flying Officer James W. Saylor, Arts '23, and Mrs. Saylor, a daughter.

Smith—At the Ottawa Civic Hospital, on September 10, to Douglas A. Smith, Arts '30, Com. '31, and Mrs. Smith (Jean David), Arts '31, a son (David Fraser).

Turnpenny—On December 28, at the Private Patients' Pavilion, General Hospital, Toronto, Ont., to J. H. Turnpenny, Arts '27, and Mrs. Turnpenny, a daughter (Sandra Eleanor).

Watts—At the Ottawa Civic Hospital, Ottawa, on January 8, to G. S. Watts, Arts '30, and Mrs. Watts, a son (George Foster).

Wright—At Edmonton, Alta., on December 29, to Lieut. Errol H. Wright, Sc. '34, and Mrs. Wright, a son (Neale Harcourt).

Marriages

Booth-Dargavel—At St. Peter's Anglican Church, Cobourg, Ont., on December 31, Frances Dargavel, Arts '38, to Donald James Booth, Arts '38. They will live in St. Thomas.

Boyd—On November 4, Marion Fawcett to William Edward Boyd, Sc. '38, of the United Kingdom Technical Mission at Nobel, Ont.

Cooke—At Morgan Memorial Chapel, Queen's University, on December 27, Doreen Morton to Lieut. John R. Cooke, Arts '40.

Davidson—During the latter part of December, Flora Secord of St. Catharines, Ont., to Hugh P. Davidson, Com. '33, Montreal.

Queen's University

KINGSTON

-

ONTARIO

Incorporated by Royal Charter 1841

Situated in the oldest city in Ontario; thirty modern buildings; health insurance provided during session; placement office gives free service to students and graduates.

Degree courses in Arts, Commerce, Applied Science, Medicine, — regular winter session opens September 25, 1941.

Extramural work in Arts and Commerce up to four courses yearly. It is possible to get a pass degree in Arts or to complete three years of an Honours Course through Extramural and Summer School study.

Summer School — six weeks in July - August.

Scholarships and Prizes: one hundred and seventy-five in all, including:

Nine Provincial Scholarships—One scholarship for each province of the Dominion, \$100 in cash in each of three years and free tuition for three years. (Value in Faculty of Arts \$750, Faculty of Applied Science \$996, Faculty of Medicine \$944). Apply before May 1.

Nine Ontario Scholarships — \$75 in cash in each of three years and a tuition credit of \$150 a year for three years. Apply before May 1. Awarded on examinations written in June.

Fifteen Ontario Matriculation Scholarships ranging from \$132 to \$180. Apply before May 1. Awarded on examinations written in June.

Rural Bursaries—Eight bursaries of the value of \$125 each. Open to sons and daughters of farmers who have completed Senior Matriculation requirements. Apply before May 1.

The Scholarship Pamphlet, which is planned with the intention of giving able students some idea of the amount of financial help that may be earned through high scholastic standing, may be obtained by writing to the Registrar, Queen's University at Kingston, Ontario.

Write for a copy of *Queen's in Pictures*.

Eileen Graham, Arts '39, was the bridesmaid. Mr. and Mrs. Wainwright will reside in Virginiatown, Ont.

Deaths

Bogart—An internationally famous surgeon, Dr. I. Gordon Bogart, Med. '01, died suddenly January 12 at his home in Kingston, Ontario. Although in indifferent health since a heart attack in the spring of 1938, he was still active. He died while sitting on a chesterfield, listening to a radio pro-

gramme. Dr. Bogart was born at Winchester, Ontario, in 1868. He received his preliminary education there and at Morrisburg. He also attended Ottawa Normal School. After teaching at Highgate in Western Ontario for six years, he enrolled in medicine at Queen's. As an undergraduate he was a brilliant scholar and on graduation with his M.D., C.M. degrees in 1901 he won the medal in surgery and the honour of the medal in medicine. After a period of post-graduate study in London, Edinburgh, Chicago, and Philadelphia, and at the Mayo Clinic and Johns Hopkins Hospital, he opened a surgical practice in Kingston in 1903, which he carried on until 1938. Dr. Bogart was appointed demonstrator in surgery at Queen's in 1904 and acted in that capacity until 1912. In 1919 he was made lecturer in surgery and rose to the position of associate professor, which he held at the time of his retirement in 1935. As a hobby he owned and operated the beautiful Loughboro Orchards at Inverary, near Kingston, which he developed until the 20-acre farm became one of the show places of the district. For eleven years Dr. Bogart practised in partnership with his son-in-law, Dr. D. W. Boucher, Med. '28. At the time of his retirement, Dr. Bogart had performed more than 38,000 operations. His skill saved many lives and people travelled from all parts of the continent in order to avail themselves of his services. Among the survivors is his daughter, Mrs. Boucher (Thelma Bogart), Arts '27; his wife predeceased him in 1935.

Draper—At Sherridon, Manitoba, Walter George Draper, Sc. '39, died on November 22 at the age of twenty-six. Mr. Draper was born at Winnipeg, where he attended St. John's College School and the University of Manitoba. He entered third-year mining engineering at Queen's in 1937. During the summer months he worked at San Antonio Gold Mines, Bissett, Manitoba, and at the Young-Davidson

Mine, Matachewan, Ontario. Since graduation he had been employed at the Sherritt-Gordon Mines, Sherridon. Among the survivors is his wife.

Fraser—A minister of the gospel for more than forty years, Rev. James R. Fraser, Arts '93, Theol. '98, D.D. '28, passed away in a Toronto, Ontario, hospital on November 29, after an illness of a few days. Dr. Fraser was born in Pictou County, Nova Scotia, in 1868, and received his early education at Pictou Academy. After teaching school for a short time he enrolled at Queen's in 1889. He obtained his B.A. in 1889 and his M.A. in 1895, with honours in philosophy. Soon after completing his course in theology in 1898 he accepted a call to the Presbyterian Church at Uxbridge,

Ontario, where he laboured until 1920. His next charge was at Columbus and in 1925 he became a member of the United Church, serving at Gravenhurst and South Porcupine. He retired from the active ministry three years ago. A member of the Board of Queen's Theological College for many years, he was made the recipient of an honorary D.D. degree in 1928. Mrs. Fraser (Annie Bryan), Arts '98, predeceased him many years ago. Among the survivors are a daughter and a son, Capt. N. C. Fraser, Arts '24.

Hutcheon—Author of several religious books, Rev. Dr. Robert James Hutcheon, Arts '92, Theol. '95, died suddenly at Orlando, Florida, December 18. Dr. Hutcheon was born at Campbellford, Ontario, in 1870, and received his preliminary education in the schools of that community. He entered Queen's in 1886 and obtained his M.A. in 1892. He completed his theological course three years later. Soon afterwards he was ordained as a minister of the Presbyterian Church and subsequently he became identified with the Unitarian Church. From 1906 to 1913 he served in Toronto, Ontario, leaving to join the staff of Meadville Theological School, Meadville, Pennsylvania. For twenty-four years he was professor of psychology and philosophy. Since his superannuation three years ago he had been serving as minister of the Unitarian Church at Orlando. Among the survivors is one son. His wife predeceased him last year.

Powell—After an operation for throat trouble, Miss Mary Powell, Arts '31, died in the Kingston, Ontario, General Hospital on December 12, at the age of thirty-one. Miss Powell was born at Escott, Ontario, and was educated there and at Brockville Collegiate Institute before entering Queen's in 1927. Four years later she graduated with her B.A. degree in Latin and Greek. She attended the Ontario College of Education for one year and then taught school at Onslow Corners, Quebec, and at Portland, Ontario. Miss Powell also attended the Ottawa Normal School. Since the death of her mother four years ago, she had remained at home in Mallorytown, Ontario. Miss Powell was active in church and Red Cross work.

MARY POWELL

Notes

1880-89

Rev. Dr. Ebenezer Hooper, Med. '85, celebrated his ninety-fourth birthday at the home of his son in Toronto, Ont., on January 3. Dr. Hooper was a professor in the first Women's Medical College, at Queen's, and first superintendent of the Kingston General

W. G. DRAPER

Hospital. For many years he practised medicine and surgery in Toronto, and was for seven years the pastor-physician at Beverly Street Baptist Church.

1890-99

T. A. Brough, Arts '93, was presented with an engraved key at the official opening of the \$100,000 addition to the Magee High School, Vancouver, B.C., on December 13. Mr. Brough recently retired after a long and distinguished career in the teaching profession.

Dr. W. B. Munro, Arts '96, LL.D. '12, professor of history and government at the California Institute of Technology, Pasadena, delivered an address entitled "Boards of Trustees and College Faculties," at the autumn meeting of the Association of Colleges and Universities of the Pacific Southwest, Los Angeles.

1900-09

R. H. Anson-Cartwright, Sc. '04, is with the Mining Corporation of Canada, 30 Bay Street, Toronto.

Rev. Salem Bland, D.D. '03, Toronto, was bereaved by the death of his brother on December 19.

P. W. Brown, Arts '05, formerly of North Bay, Ont., is now retired and is living at 6 Benlamond Drive, Toronto.

F. M. Connell, Sc. '06, has been named as chief assistant to **G. C. Bateman**, Sc. '05, metals controller of the department of Munitions and Supply at Ottawa. Mr. Connell has had an extensive experience in prospecting and exploration, and for the past twenty-

five years has been continuously identified with important developments of the mining industry in all parts of Canada.

F. McArthur, Sc. '07, is township engineer for Etobicoke, Ont.

J. F. McGuire, Arts '01, Gananoque, Ont., inspector of public schools, retired December 31, 1940.

D. I. McLeod, Arts '08, has been elected a Canadian governor in the Investment Bankers Association of America. President of McLeod, Young, and Weir Company, Limited, Toronto, Mr. McLeod has been in the investment business since graduation.

J. M. Macdonnell, Arts '04, has been appointed to the federal committee on canteen funds at Ottawa.

Major S. M. Polson, Arts '05, Med. '10, officer commanding Kingston Military Hospital, has been promoted to medical officer of Petawawa Camp.

Rev. Dr. J. R. Watts, Arts '01, Theol. '04, D.D. '26, of Queen's Theological College, attended the biennial meeting of the Federal Council of Churches of Christ in America early in December.

Dr. T. B. Williams, Sc. '09 (Ph.D. Wisc.), engineer and geologist, of Calgary, Alta., is at present in charge of the British Columbia Government petroleum development at the Pine River Well, Dawson Creek, B.C. Mrs. Williams was **Winifred Girdler**, Arts '09.

1910-1919

Dr. W. A. Mackintosh, Arts '16, economic adviser to **Dr. W. C. Clark**, Arts '10, LL.D. '35, deputy minister of finance, has been

"I sure gave the boss a piece of my mind."

"You'd get further if you gave him Sweet Caps."

SWEET CAPORAL CIGARETTES

"The purest form in which tobacco can be smoked."

named chairman of the advisory committee to the federal Unemployment Insurance Commission.

Rev. H. A. McLeod, Arts '18, is the minister of First United Church, Victoria, B.C. Mrs. McLeod was Doreene Taggart, Arts '18.

A. E. O'Neill, Arts '11, Oshawa, has been elected first vice-president of the Ontario Secondary School Teachers' Federation.

Dr. G. W. Runnels, Med. '19, is superintendent of the United Church Hospital at Hafford, Sask.

Miss Janet Saunders, Arts '18, resigned her position in the League of Nations Library, Geneva, Switzerland, last May and has returned to Canada. She is now assistant librarian of the International Labour Office in the new headquarters in Montreal.

I. L. Sills, Sc. '19, is the assistant plant manager of the Dominion Glass Company, Limited, at Hamilton, Ont. His residence address is 36 Grosvenor Ave. S.

Dr. Charlotte Whitton, C.B.E., Arts '17, executive director of the Canadian Welfare Council, was the guest of the American Public Welfare Association at its conference on defence and social services in Washington during the first week in December. In New York she was the guest speaker at the Canadian Women's Club, her subject being "Our King's Wards and Canada's Guests."

Major J. B. Willoughby, Med. '16, was recently appointed to command the Military Hospital at Kingston. He was formerly camp medical officer at Barriefield, Ont.

1920-29

J. R. Bain, Sc. '28, of the Northern Electric Company, is now living at 4504 Old Orchard Ave., Montreal, Que.

G. G. Campbell, Sc. '23, is mine manager of Uchi Gold Mines Limited, Uchi Lake, Ont.

Dr. D. R. Hall, Med. '21, was recently re-elected mayor of Napanee, Ont., by acclamation.

Mrs. H. C. Jenkinson (Elizabeth Graham), Arts '27, Arvida, Que., and Robert Graham, Sc. '37, Noranda, Que., were bereaved on October 4 by the death of their mother.

J. E. Jerome, Sc. '26, is manager of Wood Cadillac Mines Limited, Kewagama, Que.

C. E. Kennedy, Arts '29, formerly employed with Beardmore and Company Limited, Acton, Ont., has taken a position as assistant accountant with Trinidad Leaseholds Limited, Pointe-a-Pierre, Trinidad, B.W.I.

R. A. Lavell, Arts '29, Com. '30, was recently transferred from Cleveland to the Detroit office of the Manufacturers Life Insurance Company.

George McCracken, Arts '28, was recently appointed managing editor of the Kingston "Whig-Standard."

Miss Mary Macgillivray, Arts '29, is the librarian at Oakville, Ont.

Miss Isabel McNeely Arts '29, is teaching in the high school at Timmins, Ont.

Mrs. N. A. MacRae (Flo Barrington), Arts '28, Ottawa, was bereaved on January 2 by the death of her father.

Flying Officer Guy Minard, Sc. '28, was bereaved on December 17 by the death of his mother.

W. W. Orr, Sc. '27, Toronto, was bereaved on December 15 by the death of his mother.

Paul Sykes, Com. '23, Canadian government trade commissioner, and Mrs. Sykes have returned to India, after having spent the past few months in Canada.

Miss Margaret Wilton, Arts '22, had her first book of verse, "Pageantry of Days," published by the Macoomb Press in December.

1930-40

C. A. Bailey, Arts '37, has been appointed science teacher on the staff of Carleton Place High School, Carleton Place, Ont.

Malcolm Bews, Arts '37, is now with the Canadian Industries Limited plant at Valleyfield, Que.

Dr. W. J. G. Breckenridge, Med. '38, is now doing orthopedic surgery at the Children's Hospital in Boston, Mass.

Miss Roberta Brodie, Arts '40, is doing postgraduate work at Bryn Mawr College, Pennsylvania.

Roland Browne, Arts '33, is working towards his doctorate at the University of Cincinnati. During his spare time he is serving as an assistant to Dr. Good on "The Dictionary of Education." He and Mrs. Browne (Lee Williams), Arts '32, are living at 2363 Ravine St., Cincinnati, O.

Mrs. R. B. Card (Mary Madeline Heagle), Arts '36, Napanee, Ont., was bereaved by the death of her father on December 27.

Lt.-Col. J. V. A. Cavanagh, Med. '30, has been appointed district medical officer for Military District No. 3, Kingston. He is being transferred from Military District No. 6, where he held a similar position.

Miss Frances Clark, Arts '40, has accepted a position in the Civil Service at Ottawa.

DR. GEORGE MONRO GRANT
Principal of Queen's, 1877-1902

SOME GREAT MEN OF QUEEN'S

Excerpts from the three lectures in the Monday afternoon series presented at the University during the month of January as part of the centenary celebration. These papers are being printed in full by the Ryerson Press

GEORGE MONRO GRANT

By Dr. J. R. Watts

IT is wholly fitting that in the University's centenary year the Lectures Committee should provide a series of "Some Great Men of Queen's." In such a course it was inevitable, I think, that George Monro Grant, principal from 1877 to 1902, should have first place. Of the men to be honoured in this series he was neither first in time nor length of service, but with one voice, if they could speak, all would demand for him this pre-eminence. Without question they would acknowledge a quality in him that entitled him to this preferment.

* * * *

It has been said too often perhaps that Grant was Queen's and Queen's was Grant. Like all easy generalizations this statement has truth enough to keep it alive and error enough to be quite misleading. One has only to remember that during his tenure of the principalship he had as colleagues Watson, Dupuis, Cappon, McNaughton, and Shortt to detect its partiality. Indeed, Grant would have been the first and most vigorous in its denial. No one knew better than he how much the university owed to their scholarship, their loyalty, and their power to inspire in students a love for truth.

Yet the statement was not without its measure of truth. He had something the others had not, which again for lack of a more definable word I must call personality. Without them Grant could not have made Queen's what it came to be in his hands, a national institution with an educational standard second to none in Canada. But it is equally true that they without Grant would have lacked the something that was essential to success. His

courage, his eloquence, his driving power, his statesmanlike grasp of public questions, his broad sanity, and his power to win and hold the love of generations of students gave the University a place in the public estimation of that time which it would be difficult to exaggerate. To the man in the street who knew little of the patient labours of cloistered scholars Grant was Queen's and Queen's was Grant. He typified to thousands who never heard of Watson and the others the virility, the spirit of free enquiry, the public spirit, and the reverence for truth that are the hall-marks of a living institution.

* * * *

His pen was constantly busy. He once told a professor who approached him for an increase in salary that when he needed money he wrote an article for the press, an admonition that failed to comfort the disconcerted staff member.

* * * *

On national problems he spoke often and wrote much. Never as the adherent of a party but always as a citizen who put principle above party interest. Inevitably he was misunderstood by smaller men who called him inconsistent. Sir John A. Macdonald in the home of his brother-in-law, Vice-Principal Williamson, once said to Grant, "How I wish that you would be a steady friend of mine." Grant replied, "But Sir John I have always supported you when I felt you were right." "My dear man," said the Prime Minister, with a friendly touch and a humorous twinkle of the eye, "I have no use for that species of friendship."

* * * *

Though trained in the humanities himself Grant saw the new day that was dawning and braced himself to equip the College for the changes that were on the way. In one sentence the result was the

School of Mining, the Science Faculty, the reabsorption of the Royal Medical College by the University, the still-born Veterinary School, the Dairy School, and the School of Navigation.

* * * *

During the eighties the university confederation controversy was the outstanding phenomenon on the educational horizon. The strongest pressure was put on Grant to move Queen's to Toronto as an affiliated college in Toronto University. In the course of the negotiations he was invited by Sir Oliver Mowat to become provincial minister of education, and was promised, when vacant, the principalship of the provincial university. Stoutly supported by graduates and trustees he refused all inducements, persuaded that Ontario needed more than one university, that Queen's had a place in Eastern Ontario which it would be disloyal to desert, and which the government in one fashion or another, sooner or later, would have to acknowledge by financial support.

* * * *

One factor that threatened the normal growth of Queen's was the insignificant number of its graduates teaching in the high schools. Behind this was the matriculation situation in which each college conducted its own examinations and maintained its own standards, with the result that teachers preferred to prepare students for their own university. Grant used all his influence to secure a uniform matriculation with the result that students were free to enter the college of their choice. More and more Queen's graduates turned to teaching until the former inequality was more than redressed and their presence and university spirit in many schools was a quiet but powerful influence in directing the thoughts of their students to Queen's.

* * * *

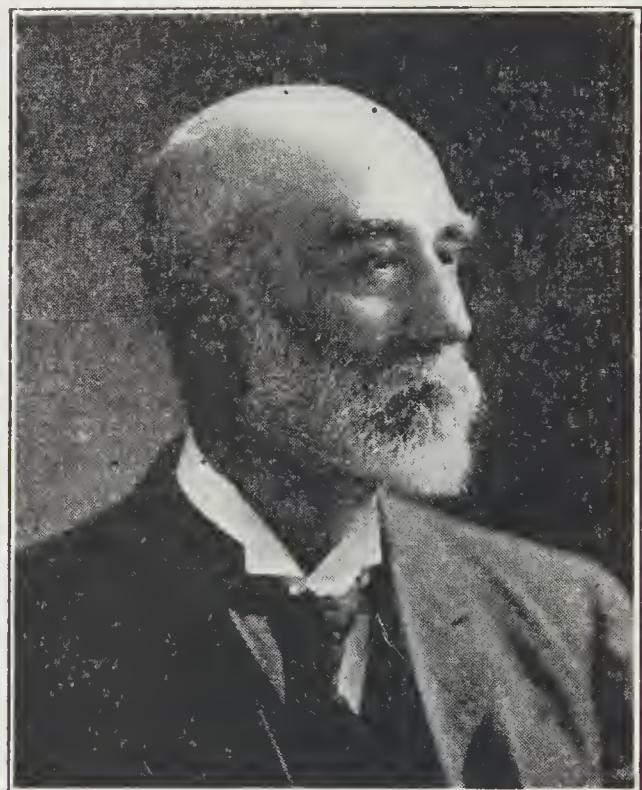

Had then this hero of ours no frailties? No man escapes the defects of his qualities, but there is little joy in looking for weakness where there is so much strength and virtue to admire. Perhaps his quick temper may sometimes have led him to expect sacrifices from the staff that were too great for average human nature. It may even be that in his concern for the University's interest some of his methods,

in the eyes of tepid people, may have had at least a superficial resemblance to the methods of the political manipulator. But no man could asperse his motives. He sought nothing for himself, and his weaknesses, such as they were, had their roots not in any pettiness of nature but in the bigness of his ends and his eagerness to see them realized.

JOHN WATSON

By Dr. J. M. MacEachran

DR. WATSON was for fifty-three years professor of moral philosophy, during which time he won wide recognition as a philosopher and brought

DR. JOHN WATSON

great distinction to this university. For twenty-five years he was vice-principal. Through his teaching, his writings, and his wise counsel in administrative affairs he made rich contributions to those robust qualities which have been so distinctive of Queen's as an intellectual and educational centre and which have made her so well known and highly respected at home and abroad.

* * * *

I should like to have spoken at greater length of Professor Watson's personality and his relation to his students to whom he was reverently and affectionately known as "Wattie." His influence upon them was deep and abiding and they car-

ried it throughout the length and breadth of this country and beyond it. But he spoke through his writing to a much larger world. The extent and value of his contributions to that world were duly recognized by his fellow-workers when he was invited to give the Gifford Lectures in the University of Glasgow. These were delivered during the years 1910-12 and were published in 1912 in two volumes under the title: *The Interpretation of Religious Experiences*.

* * * *

Watson proved to be a man of great clarity and penetrating power of thought, a brilliant interpreter of the great masters of philosophy, a tireless contributor to philosophical literature, and a great and inspiring teacher. . . . Yet his intensive preoccupation with intellectual pursuits did not preclude the active participation in wider interests in which his keen enjoyment of outdoor life, his broad, sympathetic nature, his rare sense of humour, his warm love of home and family, and his great capacity for friendly intercourse with colleagues and other congenial souls found free and full expression. To those who knew him intimately he was a charming personality and a most stimulating companion.

* * * *

To the smooth and even course of his life Mrs. Watson contributed much. She was Margaret Patterson-Mitchell, whom he married in 1874. She gracefully presided over a home well known for its friendly hospitality, and was held in high esteem by the students in whose social life she always took a deep and helpful interest. She died in 1929. Professor Watson died after a brief illness on January 26, 1939. He was in his ninety-second year. He enjoyed life and retained an active mind till the end.

* * * *

If I were asked to express as briefly as possible the spirit of Watson's philosophy, I would say it is this: The supreme purpose of life is self-realization in accordance with the spiritual perfection of God as revealed in the speculative insight of reason. The fulfilment of that ideal involves knowledge of the fundamental values of life and self-discipline in ac-

cordance with that form of human understanding that reveals to man his duties to himself and to his fellows in the attainment of a common goal.

* * * *

The greatest service that a professor can render to his students is, I believe, to train them to think independently, and, above all, in thinking independently, to think wisely. That service Professor Watson rendered to the students of Queen's University for half a century. Whether or not his students succeeded reasonably well in attaining that ideal, they would all, I am sure, agree that he always strove diligently and unceasingly to show the way to its attainment. That was the spirit of his contribution to this university and to the community that it has striven to serve. That is why today we would pay our humble tribute to his memory.

NATHAN FELLOWES DUPUIS

By Dean John Matheson

ABOUT a century ago, an English clockmaker by the name of William Smith set up the business in Kingston which is still carrying on under the name of Smith Brothers, Jewellers. One day a story came to his ears of a lad thirteen or fourteen years of age, living in the country a few miles from the city, who had made a clock from bits of materials which he was able to pick up around the farm. The clock was said to be hanging in the barn and to be going and keeping good time. It had already become the marvel of the neighbourhood. Mr. Smith went to investigate, and found that the story was true. The lad was Nathan Fellowes Dupuis. It is interesting to know that the same clock has been hanging for years, and still is, in the old Dupuis home at 144 University Avenue, across the street from the Douglas Library. The young clockmaker and the older one met and became life-long friends. The boy was induced to come to the city to learn clockmaking with his new friend. He made such progress that in a few months he had learned all that the local business was able to teach him, but he practised the trade for four years.

Nathan Fellowes Dupuis was born in 1836, five years before Queen's University was born. His father was of French-Canadian stock and his mother was United Empire Loyalist. He thus combined two strains of thorough Canadianism. After leaving the business of Mr. Smith he prepared himself to be a teacher, and taught in public schools for six years. He then entered Queen's University as a student and graduated in 1866 at the age of thirty. His course was a brilliant one, with special work in mathematics and the sciences. In the following year he was appointed professor of chemistry and the natural sciences at Queen's, which position he held for thirteen years. In these years he taught not only chemistry, but also physics, geology, mineralogy, and biology. . . . In 1880 he was appointed professor of mathematics, and held this position until the time of his retirement in 1911. He died in California in 1917.

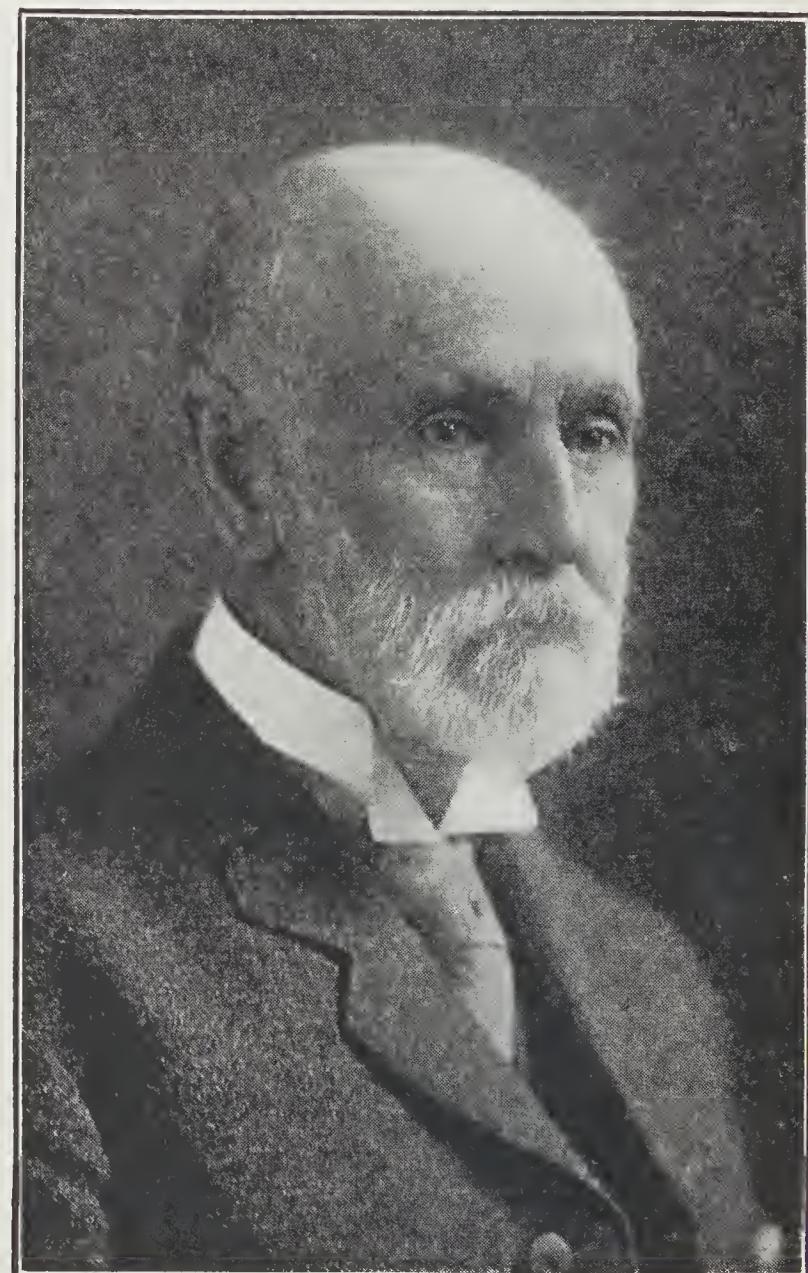

* * * *

A Queen's student visited McGill and saw the fine appliances and equipment in the laboratories there. Principal Grant was anxious lest this visit make the student regret that he had come to Queen's. He was relieved, however, to hear that the student's comment was, "I am glad I went to Queen's because Professor Dupuis teaches us to make our own equipment."

* * * *

In 1889 he published his elementary synthetic *Geometry of the Point, Line, and Circle*, a complete break from the traditional geometry of Euclid and the first venture of the kind in Canada. For many centuries Euclid was the standard by which all geometry in the schools was judged, and it had acquired the status of a sacred book. Dupuis used to tell of the time when a question was eliminated from a paper which he had set for the Ontario high school examinations, on the ground that it might shake the faith of the pupils in the infallibility of Euclid. . . . There is no doubt but that his book helped a good deal to hasten the departure of Euclid as a text from the Ontario schools, an event which took place early in the present century.

He was above all else a teacher. . . . The instincts of the teacher were part of his being. They coloured his thinking and determined his methods. He said himself after his teaching days were over that he had never gone before a class without thoroughly mapping out beforehand what he intended to teach and giving careful thought to the details of method, in order that the students should understand.

DR. N. F. DUPUIS

Perhaps the most outstanding example of his constructive suggestions in the councils of Queen's was the plan which was largely his for the establishment of the School of Mining, now the Faculty of Applied Science here in Queen's. . . . The School of Mining began its work in 1893, and Dupuis was proud of it. He became Dean of Applied Science, and through his mechanical skill he had much to do with the growth of the work shops for both iron and wood.

It is of interest to note a few of the instruments which were made by Dupuis, and are still here. In his former residence at 144 University Avenue there is a clock which is unique. Its mechanism runs nine dials, one for mean time, one for sidereal time, one for the day of the month, one for the positions of the planets in the ecliptic, one for certain information about the positions of the moon, and four for positions of the sun. Another clock is familiar to all, namely, the one in the Grant Hall tower. Professor Dupuis designed it and it was made from his plans in the university shops. There are also other clocks which he made, as for example the mean time clock in the university observatory. . . . There are numerous other small things, such as mathematical models and laboratory instruments, which could be mentioned, some of them of delicate workmanship.

* * * *

Queen's has had some critical times in her history in which it appeared as if it would take but little to weight the balance on the wrong side. But on each such occasion the scales turned in her favour by the weight of strong, wise, and unselfish personalities. The university has been extraordinarily fortunate in this. Not only has her existence been assured in times of crisis, but also elements of sincerity and truth and stability have been woven into her traditions by the lives of these men. In this service, as a maker of Queen's, Professor Dupuis will ever hold an honoured place.

Soldiers Use Library

SINCE the facilities of the Douglas Library have been made available to the officers and men of the Canadian army stationed in the Kingston area, the reading room has taken on a decidedly military aspect. Judging from the response, the offer filled a decided need.

Art Exhibitions Held

TWO excellent art exhibitions were on display at the University during January. The first consisted of paintings and drawings by Elizabeth Harrison, wife of W. E. C. Harrison, assistant professor

of history. The other was composed of early Canadian water colours belonging to the Coverdale collection.

APPEAL FOR ASSISTANCE ISSUED TO ALUMNI

TO all Queen's men and all Queen's women a call has gone forth—a call to rally to the support of their Alma Mater.

In a comprehensive statement mailed to the alumni during January, J. C. Macfarlane, Arts '11, chairman of the endowment committee, presented factual information about the University and the financial problems now being faced. This statement, which merits the careful consideration of all Queen's people, was accompanied by an earnest appeal for their immediate and continued assistance.

Under present conditions, large gifts to the University are certain to be fewer than under more normal circumstances. Queen's must therefore depend upon a greater number of smaller contributions for a substantial part of the funds required to carry on her work. It is hoped that the majority of the alumni will find it possible to help by making modest donations year by year. Contributions of any size—from \$1 to \$1000 or more—will be welcomed and sincerely appreciated.

Queen's has approximately 9300 living graduates and about 4600 former students. If these were to make an average annual gift of \$5, the financial worries of the University would be greatly lessened.

Mr. Macfarlane's statement pointed out that Queen's gave her students their education at a fraction of its cost. The generosity of previous generations of graduates helped to make this possible. The alumni are now asked to help Queen's extend similar privileges to oncoming students.

The University is playing an important and vital part in Canada's war effort. The help of the alumni is asked to enable her to carry on.

Contributions may be made through alumni branches or class secretaries, or may be sent directly to the Director of Endowment at the University.

BOARDS OF TRUSTEES AND COLLEGE FACULTIES

By William B. Munro, Arts '96, LL.D. '12

An address delivered before a meeting of Colleges and Universities of the Pacific Southwest, Los Angeles

HERE is an amusing passage in the American version of *Alice in Wonderland*, which most of you, I daresay, have never seen:

"I am making up my budget," said the White King.

"I see," said Alice, trying to look as if she did. "And what are budgets?"

"You know midgets," said the White King.

"Yes," said Alice, "I've seen pictures of them."

"Well, budgets are just the opposite, and they're getting bigger every year!"

Yes, they are getting bigger every year, in colleges as in cities, counties, states, and nations. What people do not always realize, however, is that in a college the budget is the thing that fundamentally determines the course of educational policy. This stodgy document embodies an educational not less than a financial programme. Its array of figures determines what shall be taught, by whom, and how. The direction and rate of growth in every educational institution is conditioned on the appropriation of funds for expansion. Every item in the college budget, therefore, has its educational repercussions, as college professors well know. The money goes where those who hold the purse think best to put it. Hence one might say of the budget-making authorities that where their heart is, there will their treasure be also.

Were it not for the perennial problem of balancing the budget there would be little difficulty in maintaining an atmosphere of all-pervading serenity in academic circles. Troublesome questions of promotion, increases in salary, new additions to the teaching staff, more clerical help for those who think they need it—they would all disappear overnight. But colleges must strive to keep their expenditures within their income, and it is the business of the trustees to see that they do it. In the doing of it they must inevitably give a flat negative to many requests that they would be glad to grant if the money were at hand.

Now all this suggests that the easy and logical division of authority between fac-

ulty and trustees which has been proposed from time to time in professorial circles is neither so easy nor so logical as it looks. The faculty, it is said, should have "complete charge of all educational matters," while the trustees should assume responsibility for "the financial and business affairs" of the institution. The trouble with this facile formula is that it greatly over-simplifies the problem. No such clean-cut apportionment of functions turns out to be practicable. Every educational problem has financial ramifications. And by the same token there is scarcely any important question of college financing that does not have a bearing upon the educational policy of the institution, present or future. The two fields of jurisdiction are not separate and distinct; on the contrary they overlap and interlock at almost every point.

The ultimate decision on all questions of income and expenditure must necessarily rest with the trustees of an educational institution, for theirs is the legal responsibility; but in view of the educational implications which are involved it is desirable that there be avenues through which faculty judgment and opinion can be made clear to those whom the ultimate decisions rest. Faculty judgment on matters of college finance should not be controlling, it is true; but it should be carefully weighed along with the other considerations when the budget is being made. In many institutions there is an arrangement for doing this through joint committees on which both the faculty and the board of trustees are represented.

To make a hard-and-fast division of functions between the two principal governing bodies of an academic community, trustees and faculty, is quite impossible, and in the long run any attempt in that direction is likely to do more harm than good. Lawyers are in the habit of saying that when you try to express the common law in terms of a statute you usually make a mess of it. There are some human relationships which do not lend themselves to description in precise terms. The rights and duties of husband and wife, or

of parent and child, are offhand examples. They cannot possibly be reduced to legal phraseology, yet they are understood with sufficient clarity in all harmonious households. They are matters of mutual understanding, with adjustments from time to time as the occasion demands. Surely nothing would be gained, and much would be lost in any attempt to formalize them into a code of family by-laws, set forth with the meticulous exactness of a wage-and-hours law.

COLLEGE GOVERNMENT

The relationship of those who have to do with college government belongs in the same category. I do not believe that the respective rights, responsibilities, duties, and limitations of college trustees and college faculties can be sharply delineated as though one were drafting a state constitution or a city charter. College government is not, and ought not to be, an affair of checks and balances, based upon the proposition that anyone who obtains authority is likely to abuse it. It is a device for giving to both trustees and faculties the largest possible scope for the exercise of their initiative in a joint enterprise. The exercise of authority by one of these bodies is not necessarily at the expense of the other; on the contrary it frequently results in the enlargement of authority on the part of the other.

Education at all levels is a co-operative affair. Without the co-operation of all who are engaged in it, the educational process gets nowhere. In colleges it requires the co-operation of students, faculty, administrative officers, trustees, and alumni. The activities of these various groups cannot be segregated into watertight compartments. They flow over from one into the domain of the other, and there should be no immovable barriers dividing them. As between trustees and faculty there are many things with reference to which the respective jurisdictions should not be exclusive but concurrent. There are functions which should be shared by both, rather than monopolized by either. And the sharing should not be a matter determined by exact formulas which apportion jurisdictions as a matter

of right; it should develop out of mutual confidence and friendliness. When the attempt is made to determine them by rule, it usually indicates a lack of this confidence.

EDUCATIONAL PROBLEMS

So when you give a college faculty complete authority over educational questions this does not preclude all likelihood of conflict with the other authorities in college government. What college problems can be designated as of a strictly educational character? One might make a long list of things which at first glance appear to be purely matters of educational policy but are by no means altogether in that category. Should instruction be given in large lecture courses or by the recitation method in small sections? It makes quite a difference in the cost. Should tutorial assistance be provided for undergraduate students? There is no easier way to skyrocket the expense of instruction. Should there be a limitation on the size of the student body? That question, on its face, would seem to be one for faculty determination because it is directly concerned with effective teaching and the maintenance of educational standards; yet in any institution which depends heavily upon tuition fees it also raises an important question of collegiate finance. And the financial implications of limited enrolment are of greater importance today than ever before because the income from college endowments is steadily dropping and one of the ways of recouping this loss is by augmenting the revenue from tuitions, either by increasing the size of the student body or by raising the fees, or both. So it cannot be fairly said that either faculty or trustees should have exclusive authority over such things. Both should have a part in deciding what is the best course because educational and financial considerations may sometimes be at variance.

And how about the addition of new courses or new departments to the curriculum? The determination of such matters calls for the exercise of expert educational judgment, which only the faculty can provide; yet the expansion of the curriculum is one thing which cer-

tainly cannot be left to any college faculty for free and unrestrained decision. To pursue a policy of that sort would be to assure the ultimate insolvency of any institution. College professors, almost without exception, are educational expansionists. I have never known any department which did not believe itself to be the most important in the whole curriculum. And every professor regards his own particular field of interest, and his own courses, to be just about the most important in the department.

ACADEMIC ENTHUSIASM

It is the glory of the academic profession that this is the case, and no one should wish to see it otherwise. An instructor cannot do his work effectively unless he is brimful of enthusiasm for it, and counts it the most consequential subject in the whole realm of human knowledge. So it hurts him to see that courses are being given in some neighbouring institution which are not being provided in his own, or that new instructors are being added to other departments and not to his.

But the inevitable result of this expansionist enthusiasm is to increase the pressure which comes upon the budget from all sides. Every department, almost without exception, pleads annually with the dean and with the president for more courses, more instructors, larger appropriations. I have said it before, but it will bear repetition, that right here is the phase of college government in which faculties and departments of faculties need the most rigorous restraint, especially in the days which are ahead of us. Already in many institutions the dilution of the curriculum has proceeded beyond all need or reason. The multiplication of courses, half courses, and even quarter courses, has been carried to a point where it has reduced broad fields of human interest and knowledge to something that looks exactly like the little bits of glass in a kaleidoscope. The process has bewildered students, overloaded instructors, and dissipated resources which would better have been devoted to improvements in the quality of the existing instruction.

There is hardly an institution of liberal arts in the country which could not profit by a considerable reduction of the number of formal courses in its curriculum. The student would obtain in his individual studies a broader and better view; the instructors would spend less time in the classroom; and there would be more money available for the payment of salaries. Here, at any rate, is a field in which no faculty can well be permitted to exercise the power of final decision, least of all in times which are going to call for serious retrenchments in college expenditures. "Companies of scholars," as President Conant of Harvard once remarked, "have not made an enviable record in the matter of self-direction over a long period of years."

LACK OF CONTACTS

Most of the friction which has occasionally arisen between the two principal organs of college government results from a failure to provide easy and diversified contacts between the two. As a general rule the president of the college is virtually the sole liaison officer; he carries to the trustees the judgment of the faculty and to the faculty he announces the actions of the trustees. Some college presidents have been very jealous of the prerogative and have discouraged any approach to individual trustees by members of the college staff. One of my colleagues told me not long ago that at a certain Eastern university, from which he had come, the president had notified his faculty that under no circumstances were professors to discuss any matters of institutional policy with individual members of the board of trustees.

One may be glad that such an attitude does not exist in many institutions; on the other hand it can fairly be said that there are few colleges in which frequent and informal contacts between professors and trustees are actively encouraged and promoted. This is unfortunate because the two groups have a common interest and could be helpful to each other in the prevention of misunderstandings. Where lack of harmony has arisen it is usually because they have not fully understood

or appreciated each other's point of view. I can say this with some assurance because I have been, for a considerable number of years, simultaneously a college professor and a college trustee. On a few occasions I have attended a faculty meeting and a trustee meeting on successive days, with the result that the differences in point of view and in procedure have been most vividly brought home to my mind.

BUSINESSLIKE MEETINGS

Trustees as a rule are loyal, interested, shrewd, capable, but busy men. The time which they give to the college is taken, often at great personal sacrifice, from the crowded hours of their business and professional lives. Hence it is not surprising to find them impatient of details and bored by long discussions. When prosy reports are being read to them they let their eyelids droop, or stretch their legs and smother yawns. They are accustomed to seeing an agenda put through in businesslike fashion, one item after another brought up and settled deliberately, with no extraneous discussion or rambling debate. Recommendations made by one of the board's own committees, or by the president, are in most cases taken on faith and approved by unanimous consent, with few elucidations given and fewer questions asked.

College faculties, on the other hand, never take anything on faith or do anything by unanimous vote, at any rate almost never. They accept nobody's recommendations as a matter of course, nor do they hesitate to reject the reports of their own committees whenever it suits them. They are relieved by a motion to lay a new proposition on the table and bewildered by an attempt to amend an amendment. Faculty discussions often drag on for hours; then the matter is postponed to the next meeting when everybody has forgotten what was said before, and it is all said over again. There is a world of difference between the meetings of these two bodies, yet the procedure in each is not so badly adapted to the work that has to be done. Faculties are deliberative, and trustees are deliberate; so when

the two work in a spirit of team-play their joint efforts are to the advantage of the institution which they serve.

Unhappily there is often a social aloofness between faculties and trustees, and a closer relationship is greatly to be desired, yet this is by no means an easy thing to bring about. To formalize the contact would be to defeat its main purpose; nevertheless most of the proposals emanating from faculty sources have been established in some institutions, and to a degree they have served a useful purpose. They have been particularly valuable in connection with the choice of a new president when an institution has had that problem before it.

FINAL AUTHORITY

But when it is suggested that representatives chosen by the faculty should meet regularly with the trustees and exercise voting power, there is reason to doubt the wisdom of any such proposal. "When two men ride a horse," says Shakespeare, "one must ride behind." Final responsibility cannot be divided. The ultimate legal authority of a board of trustees over everything that goes on at an institution of higher education should be frankly recognized. The powers of the faculty, whatever they may be, are delegated powers. Those powers are delegated to the faculty because they can be better exercised by it than by anyone else. But the delegation of authority cannot safely go beyond that point, nor can it be made with the precision which the phraseology of statutory law implies. In every well-administered institution there will be a twilight zone in which both faculty and trustees should be assumed to have a concurrent interest. It is because of this inevitable overlapping that the need is so urgent for tolerance and a forgiving spirit on both sides.

It has been said, somewhat facetiously, of the oldest college governing board in the United States, the Harvard board of overseers (established in 1642), that the chief function of the overseers is to "overlook things," especially to overlook the invasion of prerogatives by others. A wise board of trustees will not resent the action

of a faculty in overstepping its bounds when the motives are good. Nor will a sensible faculty take the position that trustees must restrict themselves to purely business functions and should never, under any circumstances, concern themselves with matters of educational procedure. An enthusiastic interest in the college, and a loyalty to it, will at times impel both bodies to edge out beyond their appropriate boundaries and much is lost if such action causes resentment on either side. It is for this reason that one may seriously doubt whether any unpliant division of powers between the two groups is likely, in the long run, to serve a useful purpose.

There is a maxim of Euripides which might be freely translated by saying that "a sound tradition is better than any law."

That aphorism holds true in education as in government. No educational institution ever ensured co-operation, harmony, good will, and mutual confidence between trustees and faculty by the simple device of framing a set of by-laws, howsoever carefully the task has been performed. There is no magic in a parchment delineation of boundaries. But by the upbuilding of sound traditions, by developing a common law of academic intercourse the result can be achieved. Greater frequency of informal contact between faculties and trustees, the promotion of personal acquaintanceships between members of the two bodies, and the encouragement of both to overlook the sins and shortcomings of the other—these things will do more than anything else to ensure harmonious co-operation. There are no shortcuts to academic serenity.

SKELTON OF QUEEN'S

By Gerald S. Graham, Arts '24*

IT has been said of Principal Grant that to have known him was to have been in touch with greatness. A younger generation recognized and felt the greatness of Dr. Skelton, and his death has come as a shocking blow to his former pupils, who not only revered but loved him.

O. D. Skelton represented that exceedingly rare combination of scholar, teacher, and humane man of the world. No scholar of finely tempered mind can ever suffer fools gladly, but no teacher could have shown more tolerance, more charity, and more understanding in his dealings with students, whether of A class or D. In the Dean's office, the reprobate may have had his conscience pricked, but not his pride. Skelton was incapable of rudeness, and he never used the weapons of sarcasm or scorn on the most wayward of academic mortals. Indeed, his outstanding personal characteristic was his humanity—his respect for the individual and the right of that individual to think and act for himself. No man's ideas were so muddy that the Dean could see no value in them; no man's conduct so erring that

he deserved the restriction of his freedom.

Like the philosophic radical, John Stuart Mill, he believed that there had never

DR. O. D. SKELTON

been more necessity for defending independence of thought, speech, and conduct. With democracy in full career, he believed and taught the need for maintain-

*Assistant professor of history at Queen's.

ing and safeguarding the human personality—originality of mind, individuality of character, and all the other qualities that make the human race superior to a herd of animals. On that issue only—personal freedom—was the serenity of his mind ever seemingly disturbed, and on that issue alone he was unbending and almost doctrinaire.

The very tenacity of his stand on this principle was proof sufficient of his own personal integrity. On rare occasions the Irish in him would out; but there was no guile in his make-up, and the strength of his character made for high standards of conduct within the university halls. In Skelton's presence, men shrank from saying or doing the petty thing.

He had a dry and whimsical sense of humour, and when students swapped stories in the Arts club room there was usually one about "Skelly." But his wit, like his advice, was always gentle; there was no sting in it. To the girl who was worried about her inability to work because of unending social engagements and dances, the Dean replied: "Why not try wearing a veil?" To the frantic colleague who had been told to go to hell following his efforts to thwart an invading Science mob, he proffered the calming counsel: "Well, don't go!"

No one will forget his unobtrusive entrance into the lecture room—the hair askew, the coat rumpled, the kind eyes blinking behind the thick glasses, and the routine beginning: "Well, as we were noting last day," and five minutes before the end of the hour: "Well, to sum up." He did not enjoy public speaking, but his lectures were always an invigorating education in clear thinking. Even in the junior courses, one could see the scholar's mind at work.

Governments have changed and constitutional and social theories with them, since I listened to Skelton in the early twenties; but the great qualities that marked his interpretations are permanent. When he talked in Economics 2 and expounded his views on the evolution of the state or on the development of democratic institutions, not merely the forms but the spirit of ancient structures came to life, and one beheld the growth of a na-

tion—primitive customs growing into complex organisms, clumsy theories becoming stable ideas, and the nebulous aspirations of by-gone politicians and philosophers working out into an ordered system of parliamentary government. Skelton's lectures were a training in hard reasoning, in the observation and interpretation of detail, and he had the breadth of mind to fit the detail into the larger pattern so that the immature mind could see and comprehend the process.

In 1924, after long mental see-sawing, he doffed the academic robes to take the post of under-secretary of state for external affairs. It was a painful decision. All his past work and experience had prepared him for the task of guiding Canada into full nationhood; on the other hand, he was fond of teaching, he liked students, and he loved Queen's. He found it hard to tear himself away, and even when his friend, Mr. King, applied pressure, he did not burn his bridges completely. He went to Ottawa as counsellor on a year's leave of absence. Long afterwards he told me that the dean's office loomed in retrospect as a peaceful haven of rest. He missed his books, his students, and the quiet scholarly life. The public service gained, but Canadian scholarship lost heavily when Skelton went to Ottawa.

When a coming generation writes the history of our times, Skelton will take his place as a Maker of Canada. More than any other single man, he created Canadian foreign policy, and the story of Canada's relations within the British Empire before and after the enactment of the Statute of Westminster is largely the story of Oscar Douglas Skelton. Some have felt that his attitude in relation to the Empire was too North American, but whatever his personal and political predilections, they never affected his complete loyalty to the governments he served. He became the trusted adviser of two prime ministers who were poles apart in their constitutional ideals and philosophies. It is to the credit of Mr. Bennett that his earlier suspicions vanished as he learned to know the biographer of Laurier. He leaned on him and relied on him as fully as did Mr. King.

But those of us who had the privilege of his friendship are not now concerned about his achievements in statecraft or in scholarship. Of these things others will write in due time. We mourn the loss of the noble, simple human being who in days past patiently listened to our troubles and gave us wise counsel. There are plenty of good, unselfish people in the world, but goodness is not always combined with high intelligence, and intellect is rarely matched with profound humility. Dr. Skelton was a great and good man. He left Queen's almost seventeen years ago, but his memory remains our enduring possession.

Oscar Douglas Skelton was born at Orangeville, Ontario, in 1878. He received his early education in the schools of Orangeville and Cornwall, and entered Queen's in 1896. As a student he won many prizes and scholarships, including the Mackerras Memorial, the University medal in Latin, the University medal in Greek, and the University prize for Greek prose. He obtained his M.A. at Queen's in 1899, and his Ph.D. at the University of Chicago in 1908. From 1902-05 he served as assistant editor of *Booklovers' Magazine*, and for a time he was engaged in newspaper work in Philadelphia. For eleven years, 1908-19, he was professor of political science at Queen's, and for the next six years he served as dean of the Faculty of Arts. In 1925 he was appointed under-secretary of state for external affairs. He was the author of several authoritative books and articles of biography and politics. He served as rector of Queen's from 1928-34, and he was a member of the Board of Trustees representing the graduates since 1926. His death took place suddenly in Ottawa, Ontario, January 28, 1941.

He is survived by his wife, Isabel Murphy, Arts '01, two sons, D. A. Skelton, Arts '28, and H. H. Skelton, Com. '33, and one daughter, Miss Sheila Skelton, Arts '39.

Dr. J. H. Orr Appointed Chairman Of Students' Union Council

DR. J. H. ORR, Med. '23, professor of bacteriology, was appointed chairman of the Students' Union Council at the annual meeting on January 22. Dr. Orr succeeds the late Prof. W. P. Wilgar. Prof. S. N. Graham, Sc. '00, professor of mining engineering, was named as vice-chairman. Dr. G. S. Melvin, pro-

fessor of physiology, has been appointed by the Alma Mater Society as one of the student representatives, filling the vacancy created by the death of Professor Wilgar.

DR. AND MRS. C. J. L. BATES FORCED TO LEAVE JAPAN

DRAVEN out of Japan in the general eviction of foreigners, Rev. Dr. C. J. L. Bates, Arts '03, and Mrs. Bates, were given a spontaneous and rousing farewell at the C. P. R. dock, Kobe, by loyal Japanese friends, according to word which has reached Canada. Dr. Bates had been serving as president of Kwansei Gakuin, or "West Japan College," which celebrated its fiftieth anniversary in 1939.

For two hours a crowd of students, graduates, staff members, and friends milled about, paying their respects. The Kwansei-Gakuin band played *God be with you, till we meet again*, and other appropriate selections, while the crowd cheered and sang. It was a remarkable display of loyalty and affection, particularly in view of the conditions that forced Dr. and Mrs. Bates to leave the country.

Sir Edward Peacock in New York On Banking Mission for Britain

ADIRECTOR of the Bank of England and of Baring Brothers and Company, Sir Edward Peacock, Arts '94, arrived at New York, January 31, to dispose of British fixed assets in the United States. The proceeds will be used to pay for war purchases.

Questioned in a newspaper interview about the threatened Nazi invasion, Sir Edward said, "We kept them out when we weren't very ready and we certainly can do it now when we are."

After graduating from Queen's, Sir Edward was English master at Upper Canada College from 1895 to 1902, when he took a position with the Dominion Securities Corporation of Canada and London. Subsequently he was concerned with the direction of power and traction companies in Spain, Brazil, and Mexico. During the past twenty years he has occupied an important place in British finance.

COLLECTING CANADIAN SPEECH

A talk by Prof. Henry Alexander of the English department broadcast over the C.B.C. national network

IT does not often happen that a University professor is arrested while on his job. But if his job is to ask questions and he asks them in secluded places on the coast of Nova Scotia in war-time it is not surprising if he runs into trouble. Last summer I was arrested, first by the navy, then by the army. After telling my story I was released; you may be interested to hear what that story was all about.

I go around the country collecting speech. Just as some people collect postage stamps and others autographs, so I collect words and sounds. I find it a much more human occupation. It is part of a large project which in time will map out the speech of the whole of North America. A good deal of work has already been done in the United States; the Canadian work is just beginning.

The object of this survey is to get a clear picture of the way people speak in different localities. This is shown on maps, which look very like weather maps, only instead of winds and temperatures you find words and pronunciation. Besides these local differences in speech these records will also show differences due to age, that is, the speech of different generations. This will show us how the language is changing. Another kind of variation that will appear is due to education; we shall attempt to distinguish between the speech of literate and illiterate people. In this way we hope in time to build up a cross-section of Canadian English. Some specimens of interesting Canadian dialects will also be electrically recorded, so that we may have a permanent collection of actual Canadian speech.

This is not an attempt to reform our speech, but merely to find out the facts. A uniform standard speech is not possible or even desirable. As long as a speaker remains in his own community he would naturally use the dialect of that group; it is the easiest and most natural means of communication and, after all, language is given to us so that we can communicate with our fellow-men. If the speaker moves out to a wider sphere, a very marked local dialect may sometimes prove

a barrier to communication. But I can think of many men and women who have risen to high positions and still used a dialect form of speech. One need only mention Ramsay Macdonald and Lloyd George—neither of them spoke B.B.C. English. Their accents—Scottish and Welsh—helped to give colour to their personalities and to make them stand out from the mass of more conventional parliamentary orators. A certain amount of local colour in one's speech need not be a handicap. A scornful attitude towards dialects is stupid and unscientific. We must also remember that these dialects are not mere imperfect imitations of an ideal "standard" language; they are old-established varieties of English, with their roots deep in the past; their pedigree is just as ancient and honourable as any other kind of speech. After all, everyone talks some sort of dialect.

So far my work has been mainly in the Maritime Provinces. Here many kinds of dialect are heard. This is not surprising when we think of the way in which these regions were settled. Take Nova Scotia, for instance. The population is very mixed in origin. There are English settlers from various parts of England, American settlers from different places in the States, Scots, both Highland and Lowland, Welsh, Irish. Besides these British strains there are the Germans of Lunenberg, Scandinavians, and other non-British groups. There are also negroes and Indians to add to the racial mixture. It is not surprising that all this should produce a great variety in speech.

There is another reason too. Nova Scotia is a thinly settled province. There are no large cities. A great many people live in isolated places off the beaten track. They are not even exposed to the radio and the movie, which tend to produce a more uniform speech.

In a region of this kind it is therefore not difficult to find communities which have a definite local dialect. The next problem is to discover in such a community one or two people who are willing and able to act as representative speakers and

to answer about five hundred questions. I generally try to get one elderly person and one who is middle-aged, thus showing the speech of two different generations. I get in touch with speakers by various methods, often quite by accident. Sometimes I snoop round the village store, which is a sort of local club, and pick up someone. Sometimes the minister, the school-inspector, or the teacher helps me out and leads me to a suitable victim. In one town in Cape Breton the priest said: "I know exactly the man you want." He threw open the window and called out: "Come here, Laughie!" and when Laughie arrived he was just the right person. Besides answering five hundred questions he insisted, although nearly seventy-five, on showing me how to do the Highland Fling.

VARIOUS QUESTIONS

These questions cover almost every side of life. I begin with the weather, names for the various parts of the house and farm, utensils, animals, the calls to the animals—*ko, ko, ko*, or *so, boss* to the cow, *wutshy, wutshy, wutshy* to the pig, *nanny, nanny, nanny* or *kiry, kir, kir* to the sheep, and so on, words connected with social events, illnesses, death, terms of praise and abuse, everything under the sun. The object is to find out, first, what words are used by the speaker, secondly, how he pronounces these words, thirdly, how he handles grammar, and fourthly, what meaning he attaches to certain words. Let me make this clearer by giving a few examples. First, the word that is used: a certain fish is called a *gaspereau* in some parts of Nova Scotia and New Brunswick, in other parts a *kyack*, and in others an *alewife*. These will all go on the record and be shown on the speech map. Second, pronunciation; the yellow part of the egg is called in some places the *yoke*, in others the *yelk*, in others the *yolk*; other speakers may have a different word, the *yaller*. Third, grammar: does the speaker say The sun *rose* or The sun *riz*? Does he say: I *climbed* a tree or I *clum* a tree or I *clim* a tree? Fourth, meaning: the word *clever* in many parts of Eastern Canada means not *smart*, but

good-natured, kind, hospitable. These are just half-a-dozen out of five hundred points that have to be settled. It takes time and patience to do the job. I ask my questions in all sorts of places so as to fit in with the informant's way of life, on fishing-wharves by the sea, perched on the counter of a village store, standing round in the barn, but mostly round the kitchen stove. I've sat in several hundred Canadian kitchens and always felt at home.

OBJECT OF SUSPICION

At first, quite naturally, I am the object of some suspicion. Now I am thought to be a German spy, but previously I was supposed to be an old-age-pension official, a fish-peddler, and even a talent scout from Hollywood.

Anyone who does work of this sort has to be on his guard against over-refined speech. People often "put on the dog" when speaking to a stranger. I've run into several amusing examples of this. For instance, I have to find out how a husband would refer to his wife. One speaker said: "Oh, I call her my wife." But a few minutes later, when I was asking about some domestic matter, he said, quite naturally: "I must ask the woman about that." One day the same speaker told me he said *sausages* when I asked him directly about the pronunciation of this word. The next day I dropped in and he was cooking some sausages. I went over to the stove and said: "What are these?" "Oh, them's sassengers," was his reply. As a matter of fact none of us speaks the same language all the time; we all change our speech according to circumstances.

On the whole, folk-speech is fairly outspoken, but one runs up occasionally against curious dislikes. Sometimes in the country districts, especially among older women speakers, there is a feeling that the names of the male animals are rather crude and impolite. I have a fairly large collection of substitutes for the word *bull*—the gentleman and the gentleman cow are perhaps the most common. One lady in Cape Breton would not say the word at all. When I asked her the name

of the male cow, she hesitated for a long time and then said: "Oh, that's b-u-l-l." When I suggested, I fear much to her embarrassment, that she could not always go round spelling the word she answered: "Well I might say: 'One o' them big fellers'." This was as far as she would tread on such dangerous ground.

VARIETY OF TERMS

Certain terms seem to show much more variety than others as one travels round the country. The two that so far have appeared to change most were the *seesaw* or *teetertotter* and the *shivaree*. I have found at least a dozen words for the seesaw. In the northern part of Nova Scotia it is often a *teeter* or a *teeterboard*; down the south shore it is frequently a *tilt*; *seesaw* is not so common though I heard it in three places in Cape Breton; other terms are *teeter-totter*, *tippin-board*, and a curious word *sawman* that I picked up in Cape Breton.

The *shivaree* refers to a noisy ceremony that used to be held outside the house of a newly married couple. The neighbours would collect and fire guns, beat on tin cans, ring cow-bells, and make themselves a nuisance generally until they were given something to eat and drink—especially drink. It was a kind of honeymoon racket and still persists in some parts of the country. There are many names for it. *Shivaree* is the most common; I found it in Guysborough, Cape Breton, and New Brunswick. *Salutin(g)* is another common word, especially in the northern part of Nova Scotia; other terms are *serenade*, *celebration*, *jamboree*, and *tin-panning*.

ENLIGHTENING EXPERIENCE

This last example will show how collecting speech brings us in close touch with folkways. You pass easily from people's speech to their lives and, after sitting two or three afternoons in their kitchen asking questions you learn a great deal about how they think and how they live. And these interesting contacts with people in the rural districts of Canada have given me a profound respect for them. I feel I have made many good friends and been privileged to meet many

exceedingly fine characters. It has been a fascinating and enlightening experience and I hope to continue this work for many future summers.

One final question. I am often asked what is the use of such a survey, apart from providing professors with pleasant summer holidays. This would take too long to answer in detail. Let me say briefly that it forms part of the problem of communication. The function of speech is to convey our ideas and emotions, but we know very little about how this is done and the communication is often imperfect. The same word often means one thing to one person, quite a different thing to another. An extreme case is seen when two people speak different languages; it is an amazing fact that when Chamberlain and Hitler met in 1938 at one of the critical moments of history these two men could not communicate directly with each other. But even among speakers of the same language this problem is present in a less extreme form and causes much misunderstanding and loose thinking. Any study which helps to throw light on language as an instrument for human intercourse is therefore useful. In these critical times we need all the skill we possess in appealing to men and women on behalf of the causes we think are just and sacred. The effective use of language is a technique that we cannot afford to neglect.

Dr. Margaret O'Hara Bequeathed Kaisar-I-Hind Medal to Queen's

THE famous Kaisar-I-Hind medal awarded to the late Dr. Margaret O'Hara, Med. '91, LL.D. '32, in recognition of her "public services in India," has been bequeathed to the University.

Dr. O'Hara, who served for thirty-four years as a medical missionary in India, left the medal to Queen's in her will. The three great enthusiasms of her life were said to be the Presbyterian Church, Queen's University, and the British Empire. Her death occurred in Smiths Falls, Ontario, in August, 1940.

It is planned to put the medal on exhibition in the Douglas Library with others awarded to Queen's people and in

some cases to the University itself. The latter include awards for distinguished service by the University of Paris, the Royal Society, and the Academie Francais.

NEW SCHOLARSHIPS IMPROVE FINANCIAL RESOURCES

AMONG the scholarships and bursaries recently established, or now in process of establishment, coinciding with the centenary effort to strengthen the financial and academic resources of the University, are the following:

The Robert F. Segsworth Scholarship—Founded by Mrs. Mabel E. Segsworth of Toronto. Value, \$500. Available to students entering the mining course at Queen's from centres in Northern Ontario.

The San Antonio Mines Scholarship—Established by the San Antonio Mines, Limited. Value, \$500. Available to matriculants entering the mining or metallurgy course at Queen's from Bissett, Manitoba.

The McLean Rural Bursaries—Established by Mr. J. S. McLean of Toronto. Value \$1000 (in units of \$100 or \$75). Available to matriculants from Ontario rural areas.

The James Cappon Memorial Scholarship. Founded by Miss Alice L. Macnee of Kingston. Value, \$40. Available to students in English 2.

The Katherine Doyle Scholarships—Established by will of the late Miss Katherine Doyle of Kingston. Value, \$80 (two units of \$40). Available to matriculants from Regiopolis College and Notre Dame Convent, Kingston.

The A. J. McNab Scholarship—Founded by A. J. McNab, Arts '02, Sc. '02, of New York. Minimum value, \$400. Available to postgraduate students in geology.

Chemical Engineering Scholarship—Established by anonymous benefactor. Value, \$400. Available to postgraduate students in chemical engineering.

The Andrew McCulloch Scholarships—Founded by will of the late Mr. Andrew McCulloch of Thorold. Value, approximately \$1200 (in units of about \$400). Available to students in public speaking,

Latin, and English language and literature.

The J. J. Denny Memorial Scholarship—Being established by members of the classes of Science '03-'06. Present value, \$100. Available to students entering third year of the mining or metallurgy course.

The W. P. Wilgar Memorial Scholarship—Being established by members of the classes of Science '03-'06 and other friends of the late Prof. W. P. Wilgar. Value, probably \$100. Specific allocation not yet determined.

The J. B. Tyrrell Scholarship—Founded by J. B. Tyrrell, LL.D. '40, of Toronto. Value, \$240. Available to postgraduate students in economic geology.

The International Nickel Company Scholarship—Established by the International Nickel Company of Canada, Limited. Value, \$500. Available to postgraduate students in mining, metallurgy, geology, and chemical engineering.

The Duncan Byron MacTavish Scholarship—Increased from \$20 to \$100 by D. K. MacTavish, Arts '20, Mr. A. L. MacTavish, and Miss K. S. MacTavish, of Ottawa. Available to matriculants from Ottawa Collegiate Institutes.

The American Legion Scholarship—Established by Dr. George E. Hayunga, Med. '90, of New York. Value, \$100. Available to members of Queen's Contingent, Canadian Officers Training Corps.

ARMY LIST

NUMBER FOURTEEN in the series of the monthly lists of those who have joined some branch of the fighting service is presented below. Readers are requested to send in news of alumni who are serving with the forces, either overseas or in Canada.

Royal Canadian Naval Volunteer Reserve—Lieut. K. D. Heath, Com. '34; Sub. Lieut. J. W. Telfer, Arts '35.

Royal Army Medical Corps — Major Donald Young, Arts '25, Med. '30.

Royal Canadian Air Force — Hon. Flight Lieut. H. E. D. Ashford, Theol.

'24 (Canadian Chaplain Service); Pilot Officer R. H. Bray, Sc. '32 (aeronautical engineering branch); Flight Lieut. Clarence A. Buck, Med. '31 (medical branch); Leading Aircraftsman H. M. Cowan, Arts '33; Pilot Officer W. L. Gilliland, Com. '30 (accounting branch); Squadron Leader L. H. Leggett, Med. '24 (medical branch); Flying Officer A. F. McKillop, Arts '16; Flight Lieut. H. G. Smith, Med. '37 (medical branch); Pilot Officer John B. Topper, Arts '40; Aircraftsman C. D. Hamilton, Arts '42; Sgt. R. E. Mooney, Sc. '42; Flight Sgt. S. R. Radcliffe, Sc. '42.

Royal Canadian Army Medical Corps—Lieut. A. M. Glover, Med. '34; Lieut. Jacob Kussner, Med. '38; Capt. R. E. Ralph, Med. '34; Capt. E. Perry White, Med. '34.

Infantry and Rifles—Philip Grandjean, Arts '41 (Essex Scottish Regiment).

Royal Canadian Engineers—Lieut. Thomas B. Doherty, Sc. '36.

Canadian Forestry Corps—Lieut. Norman A. Burke, Sc. '34.

Royal Canadian Army Service Corps—Lieut. C. C. Hillmer, Com. '36 (corps reserve of officers).

W. D. Keeley, Sc. '38, is with the 5th Field Coy., T.A.E.C., Nairobi, Kenya Colony.

The following Queen's doctors are in the Royal Canadian Army Medical Corps (R.F.) and are attached to No. 1 Field Ambulance, Kingston: Lt.-Col. Bruce Hopkins (Queen's staff), Officer Commanding; Major P. A. McLeod, Arts '21, Med. '26, Capt. R. C. Burr, Med. '32, Capt. W. F. Connell, Med. '29, Capt. A. M. Doyle (staff), Capt. E. A. Clark, Med. '24, Lieut. D. W. Boucher, Med. '28, Lieut. S. S. Robinson, Med. '33, Lieut. T. N. Tweddell, Med. '36, Lieut. E. M. Robertson (staff).

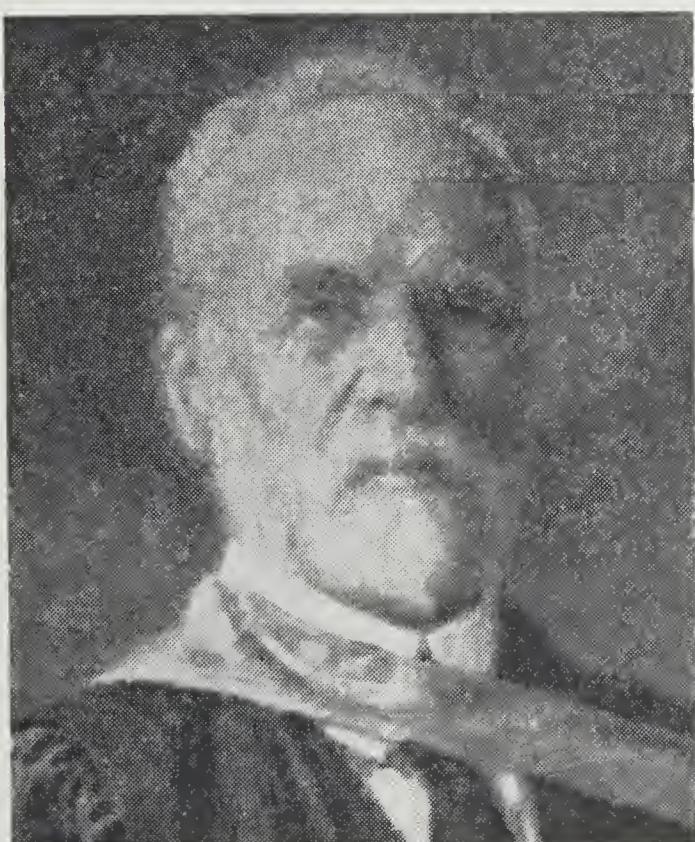

THE LATE WILLIAM LAWTON GOODWIN

DISTINGUISHED scientist, author, prospector, and teacher Dr. William Lawton Goodwin, emeritus professor of chemistry, died on January 17 at his home in Montreal. With his death a brilliant scholastic, academic, and research career

was ended and the University lost another of those "Makers of Queen's" who had served her so faithfully and so well.

For thirty-six years Dr. Goodwin was a member of the staff of Queen's. One of Geordie Grant's ablest men, he was a member of the group responsible for the establishment of the School of Mining, and the development of this important venture was left to his care. His name will always be prominent in the history of Queen's University.

Dr. Goodwin was born at Baie Verte, New Brunswick, in 1856. At the age of fourteen he entered Mount Allison at Sackville, and started his long teaching career at seventeen. He returned to Mount Allison at the age of twenty as a teacher of Latin. The following year he won a scholarship which paid for three years' study in Edinburgh and London. At Edinburgh he won another scholarship which provided him with one year's study at Heidelberg, Germany, where he studied under the great chemist, Bunsen, and the great mineralogist, Rosenbusch. He spent a year at University College, Bristol, and

DR. W. L. GOODWIN

then returned to Canada with a B.Sc. and D.Sc. from the University of Edinburgh, and a B.Sc. from the University of London.

After one year as professor of science at Mount Allison, he was appointed professor of chemistry at Queen's, and thus began a significant association. In the early 1890's, Principal Grant, Dr. Goodwin, and Dr. Dupuis conceived the idea of a school of mining, with an independent charter and its own board of governors.

The staff was extemporized from the University professors, the members working in a dual capacity, but with single salary. Some practical help was obtained from teachers of the Royal Military College for surveying and allied subjects, and some temporary appointments were made. Courses were offered in all branches of engineering—a bold stroke that was well justified by the outcome. Dr. Goodwin was made director of the new School. Blessed with a keen discernment of character, he gradually built up a strong staff.

During his time at Queen's Dr. Goodwin designed two buildings for the teaching of chemistry. Carruthers Hall was the first erected at a Canadian university to house a department of chemistry. But only for a short time was it devoted to chemistry alone—the new School of Mining soon had it busy with other activities. A mining laboratory was added and after an interval Fleming and Ontario halls were built. This eased the pressure on Carruthers Hall, which then reverted to its intended use, chemistry. But as all the Science and Medical students, and a substantial part of the Arts undergraduates, studied chemistry, it was soon overflowing again. In 1910 the Ontario Government was induced to put up the funds for a new chemistry building, and Dr. Goodwin was able to incorporate in it many features that were not even thought of when he laid out Carruthers Hall twenty years previously.

The war years worked hardships on Dr. Goodwin, as on so many others. Once more he took on the multiplicity of duties that had been his lot during his youth, but which were now burdensome

to one of his years. Serving as dean of the Faculty of Applied Science, into which the School of Mining had developed, he seemed to have a fond regard for the students who had enlisted, and provided special facilities to help them obtain their degrees when the war had ended. When the last of these "war" classes were safely through, he resigned after thirty-six years of service to Queen's.

A phase of Dr. Goodwin's activities that probably had just as much influence on the fortunes of the mining industry as any other was the instruction of prospectors. At an early stage he saw that trained prospectors were needed to discover and develop the mineral deposits before the mining engineers would have anything in Canada on which to expend their talents.

The first attempts to instruct the Ontario prospectors was made in 1892 and 1893 by Dr. Goodwin. Eastern Ontario was the most active mineral area of the province at that time, and so he gathered the miners and prospectors in the school-house or hall at the various mining centres where they lived, and instructed them in mineralogy and geology. These first classes proved so popular that in the summer of 1894 summer classes were established at Copper Cliff, Rat Portage, and other mining centres. Dr. Goodwin had to give up the work in 1908 because of the pressure of other duties. On his retirement from Queen's he was induced by the provincial government to resume them and he remained in charge until 1927, when he retired at the age of seventy-two. In that year he wrote the *Prospectors' Handbook*, which sums up his long experience.

In Dr. Goodwin another of the "Makers of Queen's" has left the earthly scene, but his good works will live long after him. He made an impression on the minds of hundreds of young men that is a lasting heritage. Queen's has been richly benefitted by his presence.

Those surviving are his wife, one son, William M. Goodwin, Arts '09, Sc. '11, and three daughters, including Mrs. Ernest Anders (Alice Goodwin), Arts '19.

LETTER ENCOURAGES CENTENARY FUND COMMITTEE

OUT of all the responses that have been received from the alumni to the recent appeal issued on behalf of the University's Centenary Fund, none was more welcome or heart-warming than a letter from Dr. A. E. Lavell, Arts '91, Toronto. The letter read, in part, as follows:

"During my college course I was extremely immature, and while wonderfully enjoying all the subjects, and all equally, I could take in but little of the wealth spread before me. I had then no appreciation of the fact that I was being taught by what the late Principal Hutton once told me was "the greatest galaxy of great teachers" he had ever known in one institution. I threw myself wholeheartedly into a good many things, but, though of course I attended lectures, tried to grasp them, and passed examinations, intensive study was not on the list. I was just a carefree boy who thoroughly enjoyed life in action. My real interest was in all kinds of student activities.

"It was only after graduation that I awakened to the consciousness that I had merely completed a kind of apprenticeship, and that the real work and problems of life had now to be faced and tackled. Since that time I have applied myself to some serious study, some research, and some public service in various ways. The stimulus and preparation for these came almost entirely from Queen's, for while there I received more than I dreamed I was getting, and my obligation to her is quite beyond payment.

"As the years passed I became more and more conscious of the debt, and increasingly realized what it had meant to be associated with great teachers, fine scholars, clear thinkers, fearless, humble, and patient, who had devotedly given their all to me—who had been so unable to appreciate it at that time. In the whole institution there was a fine and far vision and breadth, and an undaunted spirit of courage and sacrifice. All this has been a perennial inspiration. I know well that I have accomplished little, but the influences of Queen's on my life have been of

incalculable value and have been a main source of all high endeavour and of a few small achievements. . . I would be mean indeed if I were not willing and ready to serve Queen's in every way within my power."

Dr. Lavell's relationship with Queen's has been by no means casual. His father served on the staff as a professor of medicine and seven brothers attended the University. As an undergraduate he was the author of the Queen's yell and founder of the Arts Society. As a graduate he has been a living symbol of the Queen's spirit. For these reasons this letter has been of the greatest encouragement to those who have been trying to better the University's position through the Centenary Fund.

Important Conferences and Meetings To Be Held at Queen's This Year

IN recognition of Queen's centenary year, many distinguished societies and organizations will hold meetings at the University. During the month of May there will be gatherings of the Royal Society, Canadian Historical Society, Canadian Political Science Association, League of Nations Society of Canada, Canadian Institute of International Affairs, and the Social Science Council of Canada. It is planned to hold the fourth in the series of conferences on Canadian-American affairs during June. During this month the first conference of Canadian artists will also take place,

Broadcast Over CFRC

DURING the month of January the following participated in the week-by-week radio series broadcast over CFRC: Mr. J. D. Gardner, Prof. J. A. Corry, Mr. Bruce Jay, Dr. H. M. Estall, Mr. Leonard Harmon, Mr. H. Hughes, Dr. S. M. Gilmour, Dr. G. H. Clarke, Prof. F. A. Knox, Mr. Kenneth Thrasher, Mr. E. C. Kyte, Prof. J. L. McDougall, Rev. J. M. Shaw, Dr. Harold Angrove, Mr. Glen Shortliffe, and several members of the Medical Faculty. A wide variety of topics was offered, ranging from "Shakespeare's Theatre" to "What Has Happened to the Church in Russia?"

STUDENT ACTIVITIES

THE purchase of a field ambulance at an estimated cost of \$1400 has been established as the objective of the Queen's War Aid Commission for the current academic year. Money is being raised in various ways: special stamps to place on letters are sold for one cent each, and the comparative progress of sales in each Faculty is noted on thermometers hung around the campus; the *Journal* staff played Levana in a benefit hockey game and made \$70 for the cause; the proceeds from Drama Guild and Campus Frolics performances have been earmarked for this fund; and it is planned to bring in several outstanding speakers.

* * * *

A St. John Ambulance Association course in home nursing was started during the latter part of January. Dr. G. S. Melvin and Dr. J. H. Orr of the Medical staff and Miss Louise Acton of the Kingston General Hospital are giving the lectures. The course will last six weeks.

* * * *

The social highlights of the month were the annual Arts and Levana At-Homes. For the first time in the memory of the oldest inhabitant, the Arts Formal committee not only managed to balance the budget but actually made a profit of \$219 from the sale of special war corsages; this has been turned over to war aid. "Pete" Mumford, Arts '41, was the convener of this committee. The Levana Society likewise raised a substantial sum for the war effort by banning corsages and inflating the price of each ticket by fifty cents. Miss Agnes Richardson, Arts '41, headed the committee in charge of the Levana Formals, this year known as "Mirror Balls."

* * * *

Following out the Alma Mater Society policy of "simple, inexpensive pleasures," student skating nights have been arranged at the Jock Harty Arena. When it was discovered that the erection of an outdoor skating rink was not feasible this year, the Athletic Board of Control offered the use of the Arena to the students for two nights. So great was the response that

such evenings are now a regular feature, a nominal admission charge being made to cover operating expenses. Consideration is being given to an ice carnival.

* * * *

The Open House affairs in Grant Hall continue to attract hundreds of students and apparently have met a long-felt need on the campus. No admission charge is made and facilities are provided for dancing, bridge, and ping-pong. Student entertainers add to the enjoyment of the programme.

* * * *

Lovers of sport still have something to cheer for despite the ban on Intercollegiate competition. Seventy-five per cent of the strong Kingston Combines hockey team is composed of Queen's players, headed by the Williamsons and the Neilsons. Mel Williamson recently hung up some sort of record when he made fourteen scoring points in one game. Two senior basketball teams are heading a local league. The boxers and wrestlers have competed with a soldiers' team and won all but two of the bouts.

* * * *

Prominent speakers who visited the campus included the Rt. Rev. Philip Carrington, Lord Bishop of Quebec, who urged a University Church Services audience on January 12 "to take a complete working religion, whatever denomination you may be, stick to it determinedly, and be a religious man or woman," . . . Hon. J. G. Gardiner, minister of agriculture and of war services, spoke on "The Battle of Britain," at an open meeting of the Queen's War Aid Commission on January 8. . . . Rev. Hugh MacMillan, general secretary and one of the founders of the Student Christian Movement, visited the University during the week-end of January 11. . . . G. C. Bateman, Sc. '05, metals controller for Canada, was the guest speaker at the annual meeting of the Mining and Metallurgical Society January 24. He spoke on "The Mining Industry of Canada in War-Time." . . . Mr. F. A. MacGregor, commissioner of the Combines Investigation Act and a member of the War-Time Price Control

Board, addressed the Commerce Club January 22. * * * *

Mr. J. W. Pierce, O.L.S., Peterborough, Ontario, told the Civils Club on January 22 of his experience while surveying the Ontario-Manitoba boundary line. . . . Mr. F. C. Beaudry, telegraph editor of the *Whig-Standard*, addressed the Press Club January 14. . . . Madam Krystyna Zbieranska, Polish refugee scholar now at Queen's, spoke to the Levana Society January 15 regarding the need of increased assistance to Britain.

* * * *

Forty members of the Mechanicals Club visited the Frost and Wood plant, manu-

facturers of farm machinery, at Smiths Falls, January 16. . . . William Grisdale, Sc. '42, has been appointed chairman of the Union House committee in succession of James Courtright, Sc. '41, who is no longer eligible because he is Alma Mater Society president. . . . The members of Levana are working daily for the Red Cross. . . . The Drama Guild has presented three one-act plays at the various soldiers' camps in the Kingston area and is planning to give several more performances. . . . Osgoode Hall debaters defeated Queen's January 24 by one vote, upholding the affirmative "That the divorce laws of Canada be made easier."

AT THE BRANCHES

Kootenay

ALUMNI in the Kootenay area held a theatre party at Trail, British Columbia, on the evening of December 14. The feature of the programme was the Queen's film, "Paths of Learning." The picture proved highly popular, with its old familiar scenes bringing up fond memories.

Afterwards, the group enjoyed refreshments at the home of A. M. Chesser, Sc. '24, and Mrs. Chesser. Somewhere in the midst of reminiscences, sandwiches, and coffee, a business session was worked into the programme and the following executive was elected for the ensuing year: Honorary president, Mr. Chesser; president, C. E. Marlatt, Sc. '23; vice-president, C. H. Simpkinson, Sc. '29; secretary-treasurer, L. M. DeLong, Sc. '27; executive—A. E. Allison, Arts '20, K. D. McBean, Sc. '21, F. C. Ransom, Sc. '30, and Dr. N. E. Morrison, Med. '34.

Science '14

NINE members of the class of Science '14 held an informal reunion at the Laurentian Club in Ottawa on January 23 on the occasion of a visit to Eastern Canada by Roy McCannell of Regina,

president of the year. Bill Noonan brought the president from Kingston to Ottawa in his car. It was reported that they found the roads in excellent condition until they left those under Bill's jurisdiction; from that point on the snow and ice presented considerable difficulties. Among those present at the gathering were Messrs. McCannell, Noonan, Alex. MacRae, Harold Beer, Norman Bunker, John Stinson, William Miller, Howard Scott, and Alf Ball.

Montreal

WELL-KNOWN newspaper man and radio commentator, Mr. Walter O'Hearn was the guest speaker at the regular meeting of the Montreal branch held in the Mount Royal Hotel on January 15. He spoke on "The News Behind the News." The president, C. A. Root, Arts '19, was in the chair.

Mr. O'Hearn was introduced by D. C. MacDonald, Arts '38, and was thanked on behalf of the meeting by E. M. Patton, Com. '26. More than usual interest was taken in the subject of the address, as indicated by the fact that the discussion that followed lasted for more than an hour.

Toronto

TWO well-attended meetings of the luncheon group were held at the Piccadilly Hotel during January. On the sixth, R. M. Smith, Sc. '13, deputy minister of highways, spoke on "Express Highways and Their Place in Ontario." On the twentieth the guest speaker was

J. Wesley Bready, Arts '13, author and lecturer, who spoke on "Why Britain Will Win." * * * *

The annual dinner and smoker will be held at the Granite Club on March 21 at 6.30 p.m. The Club facilities will be available to alumni. The admission charge is \$1.25.

ALUMNI NEWS

Births

Connell—At the Kingston General Hospital, on February 4, to Dr. W. Ford Connell, Med. '29, and Mrs. Connell, a son (James Douglas).

Corbett—At "Roselawn," Kingston, on January 28, to Lieut. John S. Corbett, Sc. '33, and Mrs. Corbett, a daughter.

Destefano—On November 18, 1940, at St. Joseph's Hospital, Sudbury, Ont., to Nicholas Destefano, Sc. '36, and Mrs. Destefano, a daughter (Margaret Ellen).

Leishman—At the Mount Hamilton Hospital, Hamilton, Ont., on January 3, to M. A. Leishman, Sc. '35, and Mrs. Leishman, a daughter (Christine Susan).

Limoges—At the General Hospital, Penetanguishene, Ont., on February 2, to Dr. L. E. Limoges, Med. '34, and Mrs. Limoges, a daughter (Patricia).

McConnell—At the Private Patients' Pavilion, Toronto General Hospital, on January 7, to Captain William McConnell, Sc. '39, and Mrs. McConnell, a daughter (Joan Phyllis).

Mallory—At Prince Edward County Hospital, Picton, Ont., on January 30, to J. R. Mallory, Arts '34, and Mrs. Mallory, a daughter.

Monk—At the Hotel Dieu Hospital, Kingston, on January 26, to Lieut. A. O. Monk, Sc. '35, and Mrs. Monk, a daughter (Margaret Anne).

Perrie—At Nicholls Hospital, Peterborough, Ont., on January 9, to Rev. D. K. Perrie and Mrs. Perrie (Helen Hamilton), Arts '35, a daughter (Anne Elizabeth).

Ransom—At Mater Misericordia Hospital, Rossland, B.C., on January 23, to F. C. Ransom, Sc. '30, and Mrs. Ransom, a daughter (Judith).

Ross—At the Catherine Booth Maternity Hospital, Montreal, on November 30, 1940, to A. H. Ross, Sc. '36, and Mrs. Ross, a son (Alvin Craig).

Sanford—At the Private Patients' Pavilion, Toronto General Hospital, on February 1, to Lieut.-Col. Chris Sanford, Sc. '23, and Mrs. Sanford, a daughter.

Shortill—At the Private Patients' Pavilion, Toronto General Hospital, on February 4, to W. H. Shortill, Com. '33, and Mrs. Shortill, a son.

Marriages

Bell-Belwa—In Ottawa, on January 7, Geraldine Gertrude Belwa, Arts '39, to Dr. Robert Glenn Bell, Med. '39.

Clark—On February 8, in the chapel of Timothy Eaton Memorial Church, Toronto, Barbara Fenn to Alan Page Clark, Com. '40.

Fitzpatrick—At St. Peter's Church, Trenton, Ont., on December 24, Christine Sarah Murray to Michael James Fitzpatrick, Arts '39.

Kent—On December 19, at Chickamauga, Georgia, Virginia Lee Bowen to John Harvey Kent, Arts '29, of the staff of McCallie Boys' School, Chattanooga, Tenn.

Kindle—On January 26, at the Dutch Reformed Church, Nyack, N.Y., Mary Ethel Smyers to Dr. Cecil Haldan Kindle, Arts '26 (Ph.D. Princeton).

McManus—In December, at Winnipeg, Man., Norma Rose Shumway to Lieut. Joseph Forde Anthony McManus, Med. '38, of the Royal Canadian Army Medical Corps.

Stevenson—On December 31, in Barrie, Ont., Jane Shirley Orchard to Pilot Officer John Hutton Stevenson, Com. '38, of the Royal Canadian Air Force.

Deaths

Begg—Specialist in genito-urinary diseases and one of the founders of the American Urological Association, Dr. Colin Luke Begg, Arts '95, Port Washington, Long Island, died suddenly in New York City on January 15 at the age of sixty-six. Just before his death he had presented a case at the twentieth anniversary meeting of the James Buchanan Brady Foundation and had delivered the principal address of the meeting of the Academy of Medicine which followed. He then left in a taxicab with some associates, and it was while laughing and joking with them that he was stricken with a heart attack. He died before the group could reach the New York Hospital, where he was chief of clinic. Dr. Begg was born in Glasgow, Scotland, son of the late Alex-

ander Begg, member of the Royal Geographic Society and former Commissioner of Immigration for Canada. He was taken to Canada in his infancy, and received his preliminary education in the schools of Orillia, Ontario. He entered Queen's in 1891, and graduated with his B.A. degree four years later. He then enrolled at the University of Toronto, where he obtained his M.D. degree in 1889. After a period as house surgeon at Toronto General Hospital, Dr. Begg went to New York in 1901. He was surgeon at the Bellevue and New York Hospitals out-patient departments and consulting urologist at the New York Skin and Cancer Hospital. He served as a professor for twenty-five years at the New York Post-graduate School of Medicine and Hospital, and was a member of the staff of the department of urology, James B. Brady Foundation, at the New York Hospital. Among the survivors are his wife, two sisters, and two brothers.

Goodearle—At the age of forty-three, Harold Lee Goodearle, Sc. '19, died at Dallas, Texas, January 23. Born at Kingston, Ontario, he attended the schools of that city and in 1914 he entered Queen's. In 1919 he received his B.Sc. degree in chemical and metallurgical engineering. Shortly after graduation he joined the staff of the American Clay Company at Langley, South Carolina, and in 1927 he was made superintendent of the Langley plant. At the time of

his death he was an executive of the Pullack Paper and Box Company at Dallas. He is survived by his wife, one son, and one daughter.

Mooney—At the age of sixty-four, Dr. Thomas T. Mooney, Med. '96, died at Rochester, New York, on January 14. He was born at Garden Island, Ontario, and received his early education in the public and secondary schools at Kingston. He entered Queen's in 1892 and graduated with his M.D. degree four years later. For many years he carried on a large and successful practice in Rochester. He served on the city council for a time and also officiated as Monroe County coroner's physician.

Sadler—Veteran of the first Great War, Dr. George S. Sadler, Med. '99, died at Combermere, Ontario, on January 14, at the age of sixty-six. He was born at Pakenham, Ontario, and attended the schools there and at Almonte. He entered Queen's in 1895, and graduated with his M.D., C.M. degrees four years later. He practised for a number of years at Clayton and then at Combermere. In 1917 he went overseas. Surviving are his wife and two sisters.

Watts—Lecturer in physics and mathematics at Queen's for more than ten years, Rev. John O. Watts died suddenly in the Kingston General Hospital January 21 after a brief illness. He was sixty years of age. Better known as "Cappy," he was highly popular with the student body. Year after year he was elected honorary president of

the first-year Science class and this term he was, as well, honorary president of the Queen's Theological Society. For years he conducted the Students' Forum. He enjoyed the confidence of many undergraduates and his advice was eagerly sought. Mr. Watts was born in the north of England, and he graduated from Cambridge University. In 1912 he came to Canada as a clergyman, and during the first Great War he went overseas as a chaplain. Upon his return to the Dominion he became a lecturer at Queen's and from 1920 to 1922 he also served as minister of the First Congregational Church. When that church united with another, he left Queen's and assumed charges at Haileybury, Waterloo, and Pittsburg, Ontario. In 1932 he returned to Queen's and since then has been a lecturer in the faculties of Science and Arts. For many years he was presbytery convener on the Missionary Committee of the United Church. His funeral service was conducted by Rev. Dr. H. A. Kent, principal of Queen's Theological College and a friend of twenty-five years' standing; many students and members of staff were in attendance. Among the survivors are one daughter and three sons, including T. O. Watts, Sc. '33, and J. P. Watts, Sc. '36.

Notes

1890-1899

Dr. H. A. Guess, Arts '95, LL.D. '26, vice-president of the American Smelting and Refining Company, New York City, was bereaved on December 24 by the death of his wife.

1900-1909

G. C. Bateman, Sc. '05, metals controller for Canada and secretary-treasurer of the Ontario Mining Association, was the guest speaker at the annual dinner of the Association of Professional Engineers of the Province of Ontario held at the Royal York Hotel, Toronto, on January 14. Mr. Bateman is immediate past president of the Association.

Rev. Dr. C. J. L. Bates, Arts '01, who for twenty-five years has been president of Kwansei-Gakuin University in Japan, has returned to Canada. He and Mrs. Bates are at present spending some time at the home of their daughter, Mrs. Claude deMestral, 268 May Avenue, Verdun, Que.

T. S. Mills, Arts '09, Sc. '11, of the Department of Mines and Resources, Ottawa, presented a paper on "Canada's Highway—Banff to Jasper" at the fifty-fifth annual general and professional meeting of the Engineering Institute of Canada which was held in the Royal Connaught Hotel, Hamilton, Ont., on February 6 and 7.

F. W. Sheppard, Arts '02, is retired and living at 314 Glenmanor Drive, Toronto, Ont.

Dr. T. B. Williams, Sc. '09 (Ph.D. Wisconsin), consulting engineer and geologist, Calgary, Alta., is at present in charge of the British Columbia Government's petroleum

development at the Pine River Wells, Dawson Creek, B.C.

1910-1919

Miss Winnifred Balfour, Arts '16, is teaching in the H. B. Beal Technical and Commercial High School, London, Ont.

H. F. Berry, Sc. '12, is mill superintendent of the O'Brien Gold Mines, Kewagama, Que.

W. C. Griesbach, Sc. '12, chief engineer of the Foundation Company of Canada, Montreal, has written an article "The Spire of Christ Church Cathedral," which appeared in the January issue of the "Journal" of the Engineering Institute of Canada.

J. C. Macfarlane, K.C., Arts '11, general counsel for the Canadian General Electric Company, Toronto, has been appointed vice-president of the company.

Squadron Leader John McNab, Arts '14, Theol. '20, senior Protestant chaplain of No. 1 Command, Toronto, has been appointed assistant to Col. G. A. Wells, principal Protestant chaplain to the Canadian forces. Squadron Leader McNab will be stationed at Ottawa as the direct representative of the Air Force.

W. C. Miller, Sc. '17, city engineer at St. Thomas, Ont., has been elected vice-president of the Association of Professional Engineers of Ontario for 1941. **R. A. Elliott**, Sc. '10, general manager of the Deloro Smelting and Refining Company, and **E. T. Sterne**, Sc. '13, manager of G. F. Sterne and Sons, Brantford, Ont., were elected councilors of the chemical branch of the Association.

Dr. G. W. Runnels, Med. '19, is superintendent of the United Church Hospital, Hafford, Sask.

1920-1929

H. J. Armstrong, Com. '25, who taught formerly in the Northern Vocational School, Toronto, is now on the staff of the Western Technical-Commercial School, Evelyn Crescent, Toronto.

Dr. R. W. Beattie, Sc. '24, (Ph.D. Pennsylvania State College), has left the Halowax Corporation, Bloomfield, N.J., to join the staff of the Melon Institute of Industrial Research, Pittsburg, Penn.

Eric Cross, K.C., Arts '24, member of the Ontario Legislature for Haldimand-Norfolk, who recently resigned as Minister of Municipal Affairs and Public Welfare in the Ontario Government, addressed a conference of municipal, state, and federal officials representing the twelve states in the southeast, held on January 27 at Tuscaloosa, Alabama. Mr. Cross spoke on the financial experience of the Canadian provinces and municipalities in both the first Great War and the present one.

Mrs. D. W. Boucher (Thelma Bogart), Arts '27, past-president of the Kingston Horticultural Society, who has been elected president of the Ontario Horticultural Society, was honoured recently by the Kingston Society at its annual meeting when she

was awarded the Association's diploma. This is given annually for the most outstanding contribution to horticulture in the city and was presented to Mrs. Boucher for the honour she had brought to the local society through her election to the highest office in the provincial organization.

R. J. Clench, Sc. '22, is teaching at the Westdale Technical School, Hamilton, Ont.

W. R. Dalton, Sc. '29, has joined the staff of John T. Hepburn Limited, machinists, Toronto, Ont.

D. M. Ellis, Arts '28, mathematician with the Canada Life Assurance Company, Toronto, has been appointed assistant actuary for the company.

Miss Dorothy Gibson, Arts '26, is English secretary to the management of the Tropical Oil Company, Cartagena, Colombia.

Dr. H. E. Hanna, Med. '28, has been promoted to the rank of temporary Flight Lieutenant in the Royal Canadian Air Force.

Dr. J. H. Lochead, Med. '23, physician at Lansdowne, Ont., has been elected president of the town's Chamber of Commerce.

Dr. Donald C. G. Mackay, Arts '29, is assistant professor of zoology at the University of Connecticut, Storrs, Conn.

R. D. Reavie, Arts '29, is teaching at the H. B. Beal Technical and Commercial High School, London, Ont.

H. S. Rees, Sc. '29, at the outbreak of war transferred from the Royal Canadian Corps of Signals to the Royal Canadian Air Force, with the rank of squadron leader in the

aeronautical branch. After being at headquarters in Ottawa for some time he was transferred to Winnipeg last November to command No. 15 Technical Detachment, in No. 2 Air Training command.

Miss Laura Rorke, Arts '22, teaches in the Glebe Collegiate Institute, Ottawa.

A. G. Sheppard, Sc. '28, is the engineer in charge of engines, pumps and chassis for the American La France and Foamite Company, Elmira, N.Y.

Dr. R. K. Start, Med. '28, has returned to Canada from Japan, arriving in Vancouver on November 16. He is at present living at his home, 105 Melville Ave., Toronto. **Mrs. R. N. Savary** (Betty Rice), Arts '37, also returned from Japan on the same boat.

J. T. Thwaites, Sc. '25, who is development engineer of special products for the Canadian Westinghouse Company, Hamilton, Ont., is the author of an article "Ignitron Rectifiers for War Industries," published in the January issue of the "Journal" of the Engineering Institute of Canada. The paper was presented at the General Professional meeting of the Institute held at Hamilton on February 4.

R. W. Willis, Sc. '27, is still employed by the Canadian Bridge Company at Walkerville, Ont. It was incorrectly reported in a recent issue of the "Review" that Mr. Willis had gone with the Ford Motor Company.

1930-1940

F. M. Alderson, Arts '31, is now at the Kahancha Mine, P.O. Kisii, Kenya Colony, British East Africa.

"But they won't wait for us!"

"They'll wait for our Sweet Caps."

SWEET CAPORAL CIGARETTES

"The purest form in which tobacco can be smoked."

J. W. Bavis and **L. H. Johnston**, Com. '40, are on the staff of Price Waterhouse and Company, chartered accountants, Toronto, Ont.

Dr. R. M. Billings, Med. '38, is on the staff of the Psychiatric Hospital, Toronto, Ont.

Dr. S. E. Bishop, Med. '39, is in general practice at Kentville, N.S.

Dr. Malcolm Brown, Med. '38, who recently received the degree of doctor of pathology at Oxford University, is now serving as assistant house surgeon at Radcliffe Infirmary, Oxford. The main section of his thesis has been accepted by the "Journal of Physiology" for publication.

Major Desmond T. Burke, Med. '32, is radiologist at the Petawawa military camp, Petawawa, Ont.

Miss Elizabeth Buckley, Arts '40, is on the staff of the Bank of Canada, Ottawa. Her sister, **Miss Margaret Buckley**, Arts '40, is in the Dominion Bureau of Statistics.

J. W. Carmichael, Sc. '38, is in the chemical testing laboratory of the Department of Public Works, Ottawa.

T. A. Carter, Sc. '31, has been appointed to the position of plant superintendent for the Aluminum Production Company of India Limited, Cochin, India. **Mrs. Carter** (Jean Dunlop), Arts '32, and their two children expect to join him in the near future.

Lieut.-Col. J. V. A. Cavanagh, Med. '30, who has been with No. 3 Detachment, Royal Canadian Army Medical Corps, Kingston, was recently appointed to command the Ottawa Military Hospital.

W. H. Craig, Arts '37, is with the Northern Electric Company, Toronto.

C. C. Cuthbertson, Sc. '38, of the staff of Canadian Industries Limited, Shawinigan Falls, Que., was recently promoted to the position of assistant production superintendent of the alkali division.

A. S. Duncan, Sc. '39, is with Defence Industries Limited, Nobel, Ont.

A. K. Edwards, Sc. '38, is assistant chemical engineer for Joseph Stokes Rubber Company, Welland, Ont.

F. L. Edwards, Sc. '36, is shift boss at the International Nickel Company's mine at Levack, Ont.

E. R. Ellard, Sc. '35, is metallurgist in the brass division of the Canada Wire and Cable Company, Montreal.

C. R. Engler, Sc. '34, is now working at the Aluminum Company of Canada, Kingston, Ont.

J. P. Estabrook, Sc. '39, is junior chemical engineer for Price Brothers and Company, Riverbend, Que.

D. A. Farnsworth, Sc. '31, is at Sigma Mines, Bourlamaque, Que.

R. E. Freeman, Sc. '38, is now radio engineer for the National Research Council, Ottawa.

Dr. L. M. Gibson, Med. '38, is chief interne at St. Joseph's Hospital, London, Ont.

Flying Officer E. C. S. Gould, Sc. '37, has been transferred from No. 4 Service Fly-

ing Training School, Saskatoon, to the No. 7 School at MacLeod, Alberta.

W. M. Graham, Sc. '40, is aircraft inspector at the Ottawa Car and Aircraft Company, Ottawa.

J. W. Hay, Sc. '39, is on the staff of the Abitibi Power and Paper Company, Pine Falls, Manitoba.

Lieut. K. D. Heath, Com. '34, who has left his position in the sales department of the Chrysler Corporation, Windsor, Ont., to do active service with the Royal Canadian Naval Volunteer Reserve, was guest of honour on January 10 at a farewell dinner in Windsor given by fellow employees of the Chrysler Corporation and by members of the Windsor Kinsmen Club, of which Lieutenant Heath was vice-president. **J. Douglas Wilson**, Sc. '22, was chairman of the dinner.

C. H. Hilliker, Sc. '33, is superintendent of the caustic finishing department of Canadian Industries Limited at Windsor, Ont.

Dr. George Hunt, Med. '33, Marlbank, Ont., was bereaved on January 12 by the death of his mother, Mrs. Joseph Hunt, Newburg, Ont.

G. A. Hutchinson, Sc. '37, of the Bailey Meter Company, has been transferred from Montreal to Toronto.

Miss Kathleen Jarvis, Arts '34, is director of the Family Welfare Association in Saskatoon, Sask.

J. L. Johnston, Sc. '38, who has been with Canadian Industries Limited since graduation, is now chief chemist at the company's general chemicals division in Hamilton, Ont.

Flying Officer R. A. Kennedy, Arts '31, who joined the R.C.A.F. last August, was posted to No. 4 Bombing and Gunnery School, Fingal, Ont., until early in the new year, when he was transferred to Trenton to take the instructor's course in armament.

Miss Jean Keith, Arts '30, is principal of the public school in Wroxeter, Ont.

C. I. Little, Com. '32, is office manager for the Burgess Battery Company, Niagara Falls, Ont.

J. N. McCarey, Sc. '35, is with the Ford Motor Company of Canada, Windsor, Ont.

Miss Lorna McFadyen, Arts '34, has been on the staff of the Ontario Hospital, Toronto, since 1936, formerly as a case worker and since 1937 as supervisor of social work.

C. C. MacKinnon, Sc. '36, aircraft inspector, British Air Ministry, is now stationed at the Wright Aeronautical Corporation, Paterson, N.J. Mrs. MacKinnon was Barbara Adsit, Arts '39. They are living at 37 Hamilton St., Paterson.

C. B. McMillan, Sc. '36, recently joined the department of research and development of the Canadian National Railways, Montreal.

Dr. John H. Mauer, Med. '37, is practising at 470 Raymond St., Rockville Centre, Long Island, N.Y.

E. C. Mayhew, Sc. '36, has been appointed deputy chief inspector of armaments, Department of National Defence, Ottawa.

Major H. V. Morris, Med. '36, of the Indian Medical Service, is now in charge of No. 12 Indian General Hospital, Malaya. After studying at the Royal Military College, Mill Bank, London, England, for several months, Major Morris left for India early in 1939 and was stationed at the Indian General Hospital, Lahore, until his present appointment in July, 1939. Major and Mrs. Morris are living at 31 Crescent Flats, Katong, Singapore.

Miss Margery Morton, Arts '38, is with H. B. Bignell and Sons Limited, insurance brokers, Quebec City.

Roy Musgrove, Sc. '40, is doing underground work at the Hudson Bay Mining and Smelting Company, Flin Flon, Manitoba.

J. R. Muter, Sc. '40, is employed with the Sherritt Gordon Mines, Sherridon, Manitoba.

Midshipman Raymond Phillips, Com. '40, of the Royal Navy, who served on the British cruiser "Southampton," recently sunk following an attack by German and Italian dive-bombers, is reported safe at a Mediterranean port.

Jean Pierre Potvin, Sc. '40, is employed by the East Malartic Mines, Norrie, Que.

Miss Fern Rahmel, Arts '40, is teaching at the King George School in Peterborough, Ont.

R. E. Ralph, Med. '34, has been promoted from the rank of Lieutenant to that of Captain in the Royal Canadian Army Medical Corps.

T. L. Reid, Sc. '38, is safety engineer at the Sherritt Gordon Mines, Sherridon, Manitoba.

V. L. Richards, Sc. '32, was appointed works manager of Canadian Hansen and Van Winkle Company, Toronto, last July.

Flying Officer G. W. Richardson, Arts '34, who left the Canadian Broadcasting Corpo-

ration, Ottawa, last June to serve in the R.C.A.F. as an administrative officer, is at present posted to No. 2 Wireless School, R.C.A.F., Calgary, Alberta.

Dr. J. B. Roberts, Med. '36, is assistant radiologist at the Jubilee Hospital, Victoria, B.C.

Miss Lorraine Robertson, Arts '38, has qualified for the degree of M.Litt. (Master of Letters) at Cambridge University, England. Miss Robertson, who is the daughter of Prof. J. K. Robertson, of the physics staff at Queen's, and Mrs. Robertson, will continue her work at Cambridge for the present.

G. W. Robinson, Sc. '36, is mine superintendent at the Stadacona Mine, Rouyn, Que.

G. M. Robson, Arts '39, has accepted a position with the T. and N. O. Railroad. He is in charge of the development of lignite at Onakawana, Ont.

Miss Kathleen Richardson, Arts '40, and **Miss Monica James**, Arts '35, are on the laboratory staff of the Aluminum Company's plant in Kingston.

Capt. Homer Rogers, Med. '37, of the Indian Medical Service, is attached to the staff of No. 10 Indian General Hospital, Cairo, Egypt.

A. H. Ross, Sc. '36, formerly of the explosives division, Canadian Industries Limited, McMasterville, Que., has been transferred to Defence Industries Limited, Valleyfield, Que., to take over the position of superintendent of the acid plant.

Frederick Sackfield, Sc. '39, has been employed by the International Nickel Company of Canada, Copper Cliff, Ont., since graduation. He is in the casting department of the copper refining division.

S. R. Scott, Com. '40, is with the Provincial Paper Company, 388 University Ave., Toronto.

B. F. Vowles, Arts '40, is on the staff of the Hendry Connell Research Foundation, Kingston.

Miss Sheila Wallace, Arts '40, is attending the Library School at the University of Toronto.

A. B. Wilson, Sc. '35, is export manager for Canadian Refractories Limited, Montreal. He has been with this company since graduation, first at the company's plant in Kilmar, and for the past three years in the head office, Montreal. He recently completed an eight-months' business trip to England, Scotland, South Africa, the Rhodesias, and the Belgian Congo.

A. E. Wrinch, Sc. '35, was recently promoted from Captain to the rank of Major in the Royal Canadian Corps of Signals.

General

Mr. André Biéler, resident artist at Queen's, is delivering a series of lectures on "Realism and Idealism" at the National Gallery, Ottawa. On January 24 he spoke on

"Goya and Picasso." Other dates include February 7, "El Greco and Velasquez," and February 21, "Mexican and Canadian Art."

Sir Gerald Campbell, LL.D. '39, British High Commissioner to Canada since 1938, left Ottawa recently for Washington to take over his new post as British Minister to the United States.

Prof. J. A. Corry, associate professor of political science at Queen's, spoke recently on "The Federal Dilemma" in the second of a series of lectures on problems of modern government which is being given under the auspices of the department of political economy of the University of Toronto.

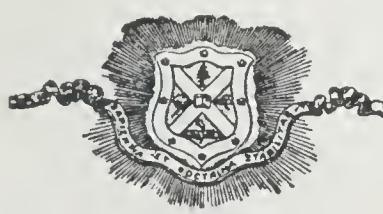

Prof. A. E. Prince, of the History department, spoke on "Egypt Today" over the C.B.C. radio network on January 19.

Prof. L. T. Rutledge, associate professor of mechanical engineering, has been elected a councillor of the mechanical branch of the council of the Association of Professional Engineers for the province of Ontario.

The QUEEN'S REVIEW is published monthly, October to May inclusive, and in August. Annual subscription is \$3.00. If subscriber is an alumnus of Queen's, REVIEW subscription is included in the annual membership dues of the General Alumni Association.

Editor and Business Manager—Herbert J. Hamilton, B.A.

Assistant Editor—Anna F. Corrigan, B.A.

Address all communications to the QUEEN'S REVIEW, General Alumni Association, Douglas Library, Queen's University, Kingston.

DR. JAMES CAPPON

1854-1939

SOME GREAT MEN OF QUEEN'S

Excerpts from the three concluding lectures in the Monday afternoon series presented at the University during the month of February as part of the Centenary celebration.

These papers are being printed in full by The Ryerson Press.

JAMES CAPPON

By Dr. W. E. McNeill

JAMES CAPPON came out of a Scotland that still talked proudly of Thomas Carlyle, just seven years dead. From him Cappon derived some colouring of style and a belief that the world was very wrong. Carlyle was then one of the cults of studious youth. Almost as potent was the living influence of Matthew Arnold. From him Cappon derived his fundamental critical principle: The study of literature is the study of life and of the best that has been known and thought. He used these words very often.

* * * *

The greatest influence on Cappon was the University of Glasgow. It had a small Arts College of about ten professors, all bred in the same tradition. Half of them were among the most famous in Europe—such a group as rarely comes together in one place. There was Lord Kelvin, physicist in universal honour; there was Jebb, later to be knighted, first classical scholar of his day; there was John Nichol, the brilliant etcher of Carlyle, Burns, and Byron for the *English Men of Letters* series; and, most important of all for Cappon, there was Edward Caird, one of a notable group of thinkers gallantly maintaining the speculative idealism of Kant and Hegel against the advancing science of Huxley and Tennyson and the utilitarianism of Mill and Spencer. . . . Out of this rich background of men, manners, and thought he came to us. He was nearly thirty-five years of age, with mind and character well-matured, with views of life and literature definitely shaped. He was of noble intellectual lineage. Through him the little Arts College in Kingston allied itself with the best culture of the day.

Cappon came to Queen's wholly dedicated to the study and teaching of literature. For the first ten years he zealously kept the faith. He was an active editor of the *Queen's Quarterly*, founded in April, 1893, and contributed in its first four years about a dozen articles. Then came an apparent shift of interest. In the years between 1899 and his retirement in 1919 his total literary production was ninety-five pages, only slightly exceeding the work he had done in the previous four years. But he had not been idle in these twenty years. Just as Milton put off his singing robes for twenty years of the Civil War and the Commonwealth in order to engage in the controversies of the time so Cappon gave up literary writing for pamphleteering, using the *Quarterly* as his printing press. Altogether he dealt with 116 different subjects, some of them requiring an enormous amount of work.

* * * *

Cappon had not been long at Queen's before he realized that its students had something he lacked. He was always afraid to speak in public without manuscript and usually read lectures and addresses—sometimes even after-dinner speeches. His Glasgow days had been purely academic and the Queen's way of life was a revelation to him. In the Alma Mater Society he saw students get a training in ready speech which he envied. In social functions he saw men and women mingle naturally in graceful dance and gay talk. He recalled that in his student days he had been at only one party—given by a professor to his first twelve prize men. He was socially inexperienced. Finding himself inescapably on a sofa with a girl and not knowing what to say, he did the only thing he could—he talked metaphysics to her for

three solid hours. One man in the group circulated freely and had a good time, but then he was far down on the prize list.

* * * *

In 1906 he was made dean of the Faculty of Arts. He kept no office, neither typist nor typewriter. What he wrote he wrote with his own hand. He saw no students about cuts or courses or anything else. "The principal duty of the Dean of Arts," he wrote, "is to see that the very great amount of administrative work done by the Faculty is done wisely and with full consideration of the consequences near and remote. That means he must be chairman of the more important committees and he is in a special sense responsible for the reports of them all." So he pondered and domineered over all university problems. He was far-seeing, firm-minded, heavy-handed. No motion failed that he strongly supported; no motion passed that he strongly opposed. "I will not permit," he once insisted. Then even the mover did not vote for his own proposal.

* * * *

Cappon's strength as a teacher lay partly in the power of his personality, partly in the inspiration of his high idealism. Though delving everywhere for treasure he found the best English vein in Wordsworth and Browning, in Carlyle, Ruskin, and Arnold. In his later years he had to notice the new writers—free versists, symbolists, imagists, the new Celtic group, and Russian novelists. He got from these what good he could, but they were not for his Pantheon. They were of unclassical derivation, ethically arid, artistically null. For him the study of literature at its highest was a study of the way in which each age expressed its deepest thoughts about life and he constantly insisted that the present could be understood only in its relation to the past. The neglect of the old seemed to him the great fault of the modern world.

* * * *

Edward Caird had prophesied that as a teacher Cappon would be a living influence. Let two Queen's graduates, well qualified to judge, speak for the rest. One says, "A large number regarded him with veneration; his classes were an anteroom to the universe." The other says,

"He was a quickening and liberating power. I may truly say that he was the high priest of my salvation. One evening I told him how greatly he had helped us all and what a wonderful power he had been in our lives. He was silent for a little and then said simply, 'I loved my subject.'" Homage like this came from hundreds of true disciples who have proudly said, "This was our master."

* * * *

The greatest Cappon of all is the Cappon who lost the world but saved his own soul, the Cappon who was the patient, silent scholar. His activities were not seen, only felt. He took all humane learning as his field—literature, history, philosophy, theology, art—in all ages, in all countries. He had to know it all and reflect upon it all. He had complete command of Greek and Latin, of French, German, and Italian, and a working knowledge of other tongues. He once told a group of ministers how to study: "Get your own impressions and write them down." That he was always doing. . . . Through his whole life he worked and pondered and gained wisdom.

He had the scholar's conscience for completeness, the saint's aspiration for perfection. On being told that he was too painstaking, he recorded in his notebook: "It is the little more that always makes the difference. To give that is my highest morality."

WILLIAM GEORGE JORDAN

By Rev. W. T. McCree

DEEPLY religious from his youth, he became a circuit minister in the United Methodist Free Church at the age of twenty. But there was a spirit of unrest abroad, for this was a period of social ferment. . . . Jordan took a young liberal's enthusiastic interest in the general movement towards reform.

* * * *

Of his wife, Marianne Taylorson, to whom he was married in 1880, it is impossible to speak with anything like adequate appreciation in a paper of this kind. For fifty-seven years she shared his interests and his griefs, promoted his well-being, engineered the limited finances of a none-too-well-to-do minister and professor.

She helped to make the home on Barrie Street the Mecca of Queen's professors and graduates who loved good conversation and fine pictures, and the haven of those students in need of womanly advice and comfort—and mostly these were men. Often there would be a group in

DR. W. G. JORDAN

the study, and one or two in the sewing den at the head of the stairs. She was a woman of wit, forthright in her speech, and in her likes and dislikes. None but her husband ever knew how much she was the helpmeet for him.

* * * *

No one can understand the power of Jordan as a professor who does not know of his power as a preacher. It might be thought that his short-sightedness would have proved a handicap, but in the end it became a source of strength. He had so cultivated an already attentive memory that he needed but the scantiest of notes for a sermon packed with exquisite thoughts, both his own and those of other scholars, and with apt quotations from poets, known and unknown. And he handled the Bible as one so familiar with its contents that the open page seemed sufficient to recall the passage to be read.

* * * *

The intuitive sense, which enabled him to share the worshipper's attitude, was

often evident in his prayers. A young man went into the church at Almonte, somewhat against his will, to hear Professor Jordan preach. Thirty years later he wrote saying that a sentence used by Dr. Jordan in the prayer had served him as the working creed of his life. It was a petition, asking for strength to do the duties of each day, according to the light given for each day. The doctrine of progressive revelation which had caught and anchored the faith of so many who had been drifting on the unknown sea of evolution had gripped the soul of both preacher and hearer that day.

* * * *

There was hardly a subject but he had some pertinent contribution to make, often gathered from some little-known book by an authority on the subject. A remarkably retentive memory enabled him to use this knowledge to illumine conversation, whatever the topic. There are many of us who remember with keen delight those hours spent in his study, the air growing bluer and bluer with smoke. The talk would turn to some vital matter, for, when Jordan was present, conversation never lingered on a trivial plane—and somewhat loosely held views would be presented, until the professor would begin to quote a sentence from a recognized authority and the loose ends would be brought together into a patterned whole. What mattered it if he seemed to monopolize the conversation; it did not reflect an egotistical spirit, but only a keenly interested soul who desired you to share with him the riches he had gathered from many mines of knowledge.

* * * *

There was another phase of his teaching that contributed largely to his influence upon his students. He was no recluse, but kept in constant touch with the great questions that agitated the currents of life in every sphere. It was the ordinary thing in his lecture hour, keenly anticipated by the students, for him to branch away from his subject, inspired by a passing reference, to the discussion of some topic that was arousing public interest. In the pre-war days, when the great corporations were defying the laws of the United States, he pointed out the

danger of their disregard for law, and their tacit claim to wreak injustice since it lay in their power. At the end, in that rising tone that marked his indignation, he cried, "But what can you do? These corporations have no souls to save and no pants to kick!" At another time, it was matrimony that claimed the attention of the class, and with a twinkle in his eye and a chuckle at the end of it, he gave them this advice, "If you wish a comfortable life, marry an Englishwoman; if you want thrift, marry a Scotchwoman; but if you want an interesting time, marry an Irishwoman."

* * * *

His journeys across the continent were like Royal Progresses, for he stopped off here and there on the road to stay for a night or a week-end with former students. And the affairs of the local congregation and the church at large would be discussed, a service taken, if a Sunday intervened, and a book or a magazine dealing with a theme of interest to the recipient left as a perpetual reminder that Jordan remembered the bent of the mind of his host.

* * * *

Jordan was also the ambassador-extraordinary of College and Church. It is amazing the journeys he took, the colleges he visited, and at which he lectured, the General Church Councils he attended. He was never a robust man, and it was no uncommon experience for him to suffer serious illnesses, even while on a journey. He had to be careful both with his strength and in his diet, and yet few men in the colleges or the church spent so much time on this extramural work.

ADAM SHORTT

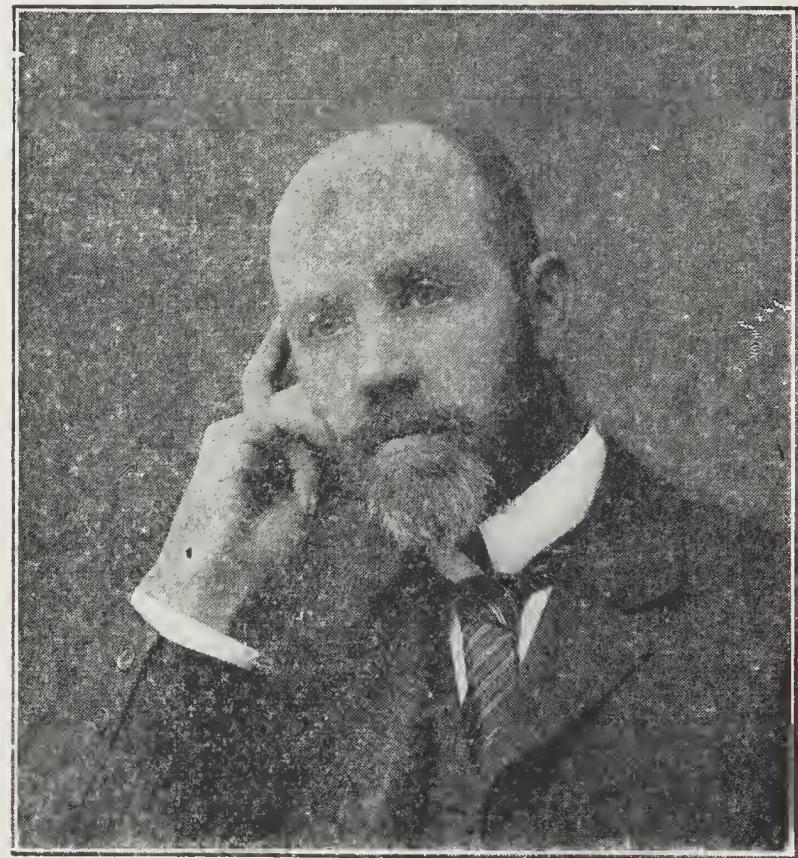

By Dr. W. A. Mackintosh

UNLIKE others whose names appear in this series, Adam Shortt was born and bred in Canada. He suffered even the handicap of not being born in Pictou County, Nova Scotia. He was Ontario-born and was a graduate of this university.

* * * *

Adam Shortt emerged on graduation in 1883 as University medallist in philosophy. The next three years he spent at

Glasgow and chiefly at Edinburgh, where he once more distinguished himself in philosophy, but in the broad curriculum of the Scottish universities he also pursued further studies in botany, physics, and chemistry; to the end of his days he remained an enthusiastic and competent botanist. In 1886 he returned to Queen's to accept a minor position as tutor in the department of philosophy, giving some

DR. ADAM SHORTT

assistance also as an instructor in botany and as a demonstrator in chemistry. . . . In the spring of 1888 he was officially appointed John Leys lecturer in political science, beginning then a period of service which was to last for twenty years. In 1891, a chair was established and he became Sir John A. Macdonald professor of political science.

* * * *

To the end of his days these distinguished students were a great joy to him. Haydon, Peacock, Munro, Brisco, McLaren, Skelton, McArthur — these and others were students of whom any teacher would be proud, but more than students they were his close friends to the last.

* * * *

One important phase of Shortt's work at the University cannot be overlooked, particularly by his successors. He firmly grasped the truth that strong academic departments are built of men and libra-

ries. For a short period he was University librarian, and always the library had special interest for him. He had the discerning nose and prehensile fingers of a book collector. Some of the valuable parts of the University library are the result of his persistent energy. How he managed to stretch tiny appropriations so far is a secret which any of us would be glad to know. He not merely collected books and documents for the University library, but during his lifetime he built up two successive libraries of his own which have gone to Canadian universities. He collected an enormous number of photographs and prints of prominent historical figures which he gave to Queen's University and which were framed by the generosity of his former student, Andrew Haydon.

* * * *

Already the second phase of Shortt's working life was beginning. In 1904 he was appointed a member of the Railway Taxation Commission of the province of Ontario, and from then on he was diverted more and more to public service. In 1907 he became engaged in work for which he was eminently fitted. Early in that year the Industrial Disputes Investigation Act was passed by the Dominion Parliament. Of the first boards Adam Shortt was the chairman, and much of the fame of the legislation rests on the work that he did. . . . Aside from the persuasive and enduring influence of an ardent teacher, it is his greatest single achievement.

* * * *

As a conciliator he was patient, persistent, and impartial, but he was no anaemic neutral. When facts had been stripped to their essentials he was quite capable of speaking his mind bluntly even though his opinion might be unpopular. He made profoundly clear to employers that collective bargaining was not only desirable, and an employee's right; it was a practical necessity imposed by the conditions of modern industry and employment. But the ranks of organized labour had not finished cheering before he told the most powerful group among them that the seniority system of promotion was uneconomic.

This work of public service gave him a national and public reputation. The place which he had already made as a teacher was confirmed, and people outside the universities, who had accepted his position as a scholar, now recognized his sound practical sense. Inevitably, wide opportunities opened for him, and the chance to put into practice some of the ideas worked out in his study lured him. Rejecting offers of university presidencies, he resigned from Queen's in 1908 to become one of two members of the first Civil Service Commission of Canada. He always said that he went with an easy conscience in that he had already provided a successor in O. D. Skelton.

* * * *

Shortt went to his new work with high enthusiasm. He had seen enough of Ottawa to know the need for a competent Civil Service of the highest capacities and of the highest standards of integrity. He saw an opportunity to build up in Canada something like the British Civil Service or the Indian Civil Service. . . . His hopes for the Civil Service seemed to end in disappointment, but great contributions to the ends he desired have been made by two of his students, O. D. Skelton at Ottawa and Duncan McArthur at Toronto. W. G. Clark, deputy minister of finance, B. M. Stewart, deputy minister of labour, and R. M. Fisher, deputy minister of municipal affairs at Winnipeg, are of the second generation, while C. H. Bland, now chairman of the Civil Service Commission entered that office under Shortt's administration.

* * * *

To the University from which he started he left a cherished tradition. As I have apprehended it, it is one of honest and untrammelled inquiry. It is a tradition of attack on Canadian problems and the pushing of inquiry through to the formulation of policy. It is a tradition of following the inquiry where it leads, and choosing the appropriate tools, regardless of changing intellectual fashions—a tradition which makes initiative and intellectual self-consciousness cardinal sins. But, beyond these easily identifiable influences, the results of his devoted and unremitting work go on in scores of un-

identified ways and places, a kind of immortality that belongs especially to the teacher.

CENTENARY FUND INSPIRES MANY INTERESTING LETTERS

“I AM enclosing a cheque for \$5 as a contribution to the Centenary Fund. Perhaps in the future I may be able to do more for our Alma Mater.”

“You will find enclosed a money order for \$15 for 1941. We are sorry it is not larger, but we shall try to keep up the \$15 annually.”

“My subscription form is enclosed and also a draft for \$100 for the current year. Very best wishes for the success of your efforts.”

These are sample excerpts from a few of the many letters that have accompanied contributions to the Centenary Fund. The response has been generous; the alumni have been ready to rally to the assistance of Queen's. Readers who have not yet sent in their contributions are urged to do so at once.

Gifts totalling nearly \$5,000,000 from 16,000 alumni and friends were recently received by the University of Pennsylvania on the occasion of the two-hundredth anniversary. What will the Queen's total be by the time of the Centenary next October? It is for the alumni to say.

Other interesting quotations from letters received by the Director of Endowment are as follows:

“I have sent \$500 to the Receiver-General at Ottawa wherewith to buy a \$500 bond of the next War Loan issue, the said bond to be registered in the name of Queen's.”

“As in the last war, a very important point for each of us is to do what we can to win the war and preserve our freedom and civilization. An almost equally important duty is to assist those agencies which, after the war is over, will be faced with the tremendous task of encouraging us to hold fast to what is right morally and spiritually. As a firm believer that our universities will, as in the past, be a helpful agency to this end, I am glad to be able to do something, if only a little.”

“I regret that my contribution is small, due to my continued pursuit of know-

ledge, but hope, in the years to come, to be able to give more substantial aid to the Fund.”

“My only wish in connection with the enclosure is that the amount were larger.”

“The enclosed contribution of \$50 for the current year is unrestricted. I like your propaganda—no slush, no beating about the bush, a direct appeal to conscience. I almost think Queen's has been too modest about asking aid. As far as I can recall, I have received no request since 1926 until now.”

“I, of course, do not need to be convinced of the necessity at this juncture of the alumni of Queen's coming to her aid, and I very highly approve of the plan, among others, of annual contributions of some size or other from every alumnus, as the best means of increasing Queen's annual income at this time. I have signed your form for an annual contribution of \$20—a very small one—but if things turn out better than I expect, I will increase it.”

“Thank you for your encouragement to give small amounts as well as large. It gives everyone the privilege of contributing.”

“Herewith my annual contribution to the Centenary Fund. I hope to do better next year. The appeal, I think, is excellent in form and space and every way.”

“I am enclosing a cheque for \$20 and hope to make a yearly donation to help out in your gallant struggle against adverse winds. I can never forget my indebtedness to Queen's.”

“I sincerely hope that all those who are in a position to afford assistance will do so as, undoubtedly, we owe a great debt to the institution that did so much to teach us the proper way of life.”

“Please find enclosed \$1 for the Centenary Fund. I wish it were more. Thanking you for the many good things that Queen's did for me.”

“Enclosed please find my cheque for \$100 to assist the University in her good work in these difficult times. While I cannot make any definite promise, I hope to be able to continue making this contribution yearly. I heartily endorse the policy of asking for annual donations from

the graduates, and all who are in position to do so should be glad to assist."

"It would be a pity indeed if the day should ever come in Canada when a university education would be out of the question for the sons and daughters of people of average means. I don't want to see that happen, and it likely will happen if the universities are not given sufficient financial support. My contribution of \$5 a year is much smaller than I would like to give, but it is about as much as I can afford for the time being at least. I wish you every success in your efforts."

"I am sending my little contribution to the University. I am sorry that it is not larger."

"You can count on my help in your Endowment work. The will to do or the willingness to help is, after all, the deciding factor in just what everyone performs."

"In a very real sense, the contributions I make at this late date are only belated returns for great blessings received."

"I did not wish to send my modest contribution to the Centenary Fund without expressing my hope that the efforts you are so valiantly making on behalf of Queen's may be entirely successful."

"Sorry that I am not in the big figures, but unfortunately the pocket cannot keep pace with the heart."

"Enclosed please find cheque for \$100, which I hope to make an annual event. I feel that I should now start to repay, to a small extent, my debt to Queen's."

"War savings, income tax, and the variety of other assessments will not make the task in hand easy, but I feel that 'Charity begins at home,' and Queen's is pretty close to home for all of us."

Faculty Women's Club Entertains Airmen and Soldiers At Dance

UNDER the auspices of the Faculty Women's Club, a dance was held in Grant Hall February 8 for British airmen and soldiers stationed in the Kingston district. Other guests included members of Levana, nurses-in-training at the Kingston General Hospital, and daughters of the members of staff. The visitors were received and welcomed by Prin-

cipal and Mrs. Wallace and Dr. A. V. Douglas. Mrs. S. N. Graham was the general convener.

PLANS MADE TO CELEBRATE QUEEN'S CENTENARY

PREPARATIONS are being made for the celebration of Queen's centenary, and although the plans are not as ambitious as would be the case under normal conditions, nevertheless an interesting programme has been drawn up.

A series of addresses on "Some Great Men of Queen's" has already been presented at the University. These papers are being printed in full by the Ryerson Press; summaries have appeared or are appearing in the *Review*.

During the year an official history of Queen's will be published. The author of this book is D. D. Calvin, Arts '02, who has long been a valued contributor to the *Queen's Quarterly*.

Many distinguished societies and organizations will hold meetings and conferences at the University. These include the Royal Society of Canada, Canadian Historical Society, Canadian Political Science Association, League of Nations Society of Canada, Canadian Institute of International Affairs, and the Social Science Council of Canada. The fourth in the series of conferences on Canadian-American Affairs will be held during June, as will also the first conference of Canadian artists ever scheduled.

A centenary celebration will be held at the University from October 16 to 19 and will include a special convocation at which it is hoped that His Excellency, the Governor-General, will deliver his rectorial address. A series of addresses by eminent scholars and scientists, reviewing the progress of thought in the last hundred years in the humanities, the sciences, theology, and business and administration will be presented. Other items include a University reception and dinner, various graduate and student functions, and a centennial religious service.

The appeal to the graduates and other friends of the University for financial assistance is, of course, one of the most important features of the centennial year.

AFTER THE WAR—WHAT?

By Sir Norman Angell

An address delivered at an open meeting held in Grant Hall on February 18

TWENTY-TWO years ago we ended victoriously a war in which Canada had given generously of her blood and treasure. We believed that the victory so obtained would give the world peace and security. Yet that purpose was so little achieved, and that victory was so little permanent, that here we are, after a couple of decades, fighting it all over again.

There must surely therefore be in the hearts of all of us, whether expressed or not, a tragic question: How do we know that the next victory will be any more permanent than the last? And that our children may not twenty years hence have to fight it all over again just as the boys now entering this struggle have to walk the tragic road their fathers trod?

To leave that question unanswered must be in some measure to leave doubts, which, especially as the sacrifices get stiffer, may nag at us and end by taking some of the heart out of the fight. The sensible thing, the courageous thing, and certainly a necessary part of war morale, is to face that question squarely and answer it.

For it can be answered. If the last victory failed of its purpose it was not because the soldier did not do his job, but because we civilians did not do ours. We made bad use of the gift of victory which the soldier brought. It is up to us now to see in what way we misused it—to profit by experience, so that the failure shall not be repeated.

It is commonly said now that the victory was undone because we made a bad peace; that we are at war now because of the character of the Treaty of Versailles.

But if this war is due to the Treaty of Versailles what caused the war of 1914? The world of 1914 was not living under a Treaty of Versailles. Yet it drifted to war. So merely to say "It is all because of Versailles" plainly will not do. The treaty might have been the best treaty possible and still we should be at war if after the signing of the treaty we had done and left undone, in the

twenty years which followed it, the precise things we have done and left undone.

Indeed you cannot make peace merely by making a treaty, however good, and then going home and bothering no more about it. It is as though we should say: "Why need our country bother with parliament and politicians? Why does not parliament make good laws for the country once and for all and then shut up shop and pester us no more?" We know that that would not work. Society is a living and growing thing, and grows out of its old clothes. If a given law is good for today it may prove bad tomorrow, when circumstances have changed. The maintenance of peace is a continuing process, mainly indeed the maintenance of institutions which ensure that changes shall be made peacefully. And the very first condition of peaceful change is that change shall not be made by war at the dictation of the war-maker; that the war-maker shall be resisted by all those who desire peace for themselves.

This indeed was the basic principle of the League of Nations which we founded after the war, namely, that all should defend the victim of violence so that violence, war, should become too costly, too hazardous to be waged by anybody. But no sooner had we signed the Covenant of the League, its constitution, than we began to evade the most fundamental condition of its success, this obligation to defend others as the indispensable condition ultimately of being able to defend ourselves. We failed to see what was fundamental and vital, and what less so. We did not put first things first.

When aggression took place in 1931 in Manchuria we could then, ten years ago, have done much more easily and safely what we are actually doing now; we could have given aid to China. Had we done so the likelihood is that we should not now be at war. The risks of resistance would have been small then: Hitler had not come to power; and there would have been no bombs on London. But we were preoccupied with other things, the depression was in full flood upon us and

we did not see very clearly or incisively how the defence of a country on the other side of the world was part of our own defence. We did not see why it was worth while to fulfil the obligations we had undertaken in the Covenant. So aggression spread, from Manchuria to Abyssinia, to the Rhineland, to Austria, to Spain, to Czechoslovakia, until finally we had to make a stand. If we had ten years earlier made it clear that we would do what at long last we were compelled to do, we should not have had to do it. Because we would not listen to the cries of the children rising in the ruined homes of China ten years since, we have to listen to the cries of the children buried in the ruins of British homes. This ever-recurring note of seeing the necessary thing too late is the tragic element in the whole of this vast episode.

CONSTITUTIONS AND PEACE

Men ask now a plan, or scheme, or constitution for the future. And constitutions are important. But constitutions of themselves can never produce peace and order unless those who have to work them understand what is essential and what non-essential. During the nineteenth century when certain South American republics had a revolution every six months or so and lived under bloody military dictatorships, most of those republics had constitutions just as good as those of Canada or Britain. But the constitutions did not give British or Canadian results. Indeed, Britain has no constitution at all in the sense of a written document. Yet order and liberty are pretty well preserved because the British people have a sense of what is indispensable to constitutional government. We know, first of all, that violence, particularly violence coming from armed parties—Communist or Fascist—trying to bring about change by armed force must be resisted by the nation as a whole, or constitutional government will collapse as it has collapsed in those South American republics during the nineteenth century. Unless such violence is restrained by the action of the whole national community, the great mass of the people may find them-

selves at the mercy of a tiny minority, a little armed gang of terrorists.

It is indeed precisely that thing that has happened to the nations of continental Europe where the great civilized majority has fallen under the rule of an uncivilized minority because the majority have in the past repudiated the obligation to defend any one of its members when it happened to be the victim of violence.

DOMINATION BY FEW

We have seen fifteen nations, the independence of some of which, like that of the Scandinavian democracies, has been maintained for a thousand years, completely lose their independence and pass under the power of the invader and his inhuman terror. All in less than twenty months. How comes it that these fifteen nations have thus been destroyed by one? That the majority in Continental Europe have fallen under the power of a relatively very small minority—a minority which is loathed by the majority who suffer its tyranny? That the greater is dominated by the less? That something in the order of two hundred and fifty million human beings are living under a terror brought about and maintained by ten or fifteen million Nazis—for we should not forget that a great part of the people within Germany itself detest the regime under which they are compelled to live. How comes it that the few can dominate the many?

This aspect of the monstrous events in Europe is singularly neglected. Yet it is precisely the aspect most worth our attention.

The explanations commonly given for this fall of the European democracies are quite inadequate. We are told that the democracies had become soft, or pacifist, or corrupt, or incompetent, unwilling to make the necessary social changes to meet the "wave of the future." Would you describe Finland as pacifist or soft or unwilling to adopt social change? She showed a valour unsurpassed by any people in the world and as ready as Norway or Denmark to introduce social change. But whatever virtues a Norway might

have shown, it is on the face of it impossible for a nation of three million to defend itself by its own power against a nation of eighty million. Norway might have devoted ninety per cent of its resources to defence, and still have been defenceless. One thing alone could have saved her: Combination with others, a policy of collective, united defence against the tyranny which threatened them all alike. And it is precisely that policy which the continental democracies for a variety of reasons refused to adopt. They were not pacifist. Each declared that it would fight, but only for itself, only to defend its own soil. From the moment they took that line they were all at Hitler's mercy, for he could apply to them the most hackneyed device of tyranny, divide and rule. He was able to attack and destroy the first of the fifteen while the remaining fourteen stayed neutral; then the second while the thirteen remained neutral; and so with all. In that way ten men can overcome a thousand, for they do not meet a thousand; they only meet one, one at a time.

DOWNFALL OF FRANCE

This applies not merely to the security of small states. German propaganda managed so to work upon France before the war as to separate her people in a large degree from Britain. We recall the slogans which gained currency in France: "This is Britain's war, not ours. Britain will fight to the last Frenchman." So that sections of opinion in France were half-hearted, went into the war half-heartedly. That was enough for the Nazis. It helped them achieve their purpose. And today France lies under the heel.

And note the characteristic feature of the appeal by which the Nazi divides those he afterwards destroys. He does not attempt to make a case for Germany. You find, for instance, in the United States today practically no attempt anywhere to create a feeling for Germany; but you find many attempts to create a feeling against Britain, to create doubts as to Britain's purpose, and above all doubts as to whether Britain's cause is

America's. You find exactly the slogans so common in France before the war and in its earlier stages: "Why fight for Britain? This is Britain's war, not yours." But note that the result of this anti-British propaganda in France is not that Britain has gone down, but that France has. The immense majority of Frenchmen have now learned at tragic cost that the willingness to fight with Britain was the only means by which in the end they could fight effectively for France.

FAITH IN COMMONWEALTH

The instinct of Canada in this matter has been sounder. We of the British Dominions do, I think, know in our bones that we must indeed hang together if we are not to hang separately. The British Commonwealth has proved to the world that it is possible for nations to be completely independent in all their internal affairs and yet stand together in common resistance to violence, to organize the collective defence of freedom.

I doubt whether Canadians yet realize how far-reaching in its effects her momentous decision has been. Had Canada decided to stand aside in this war, all the forces of isolation in the United States would have been enormously strengthened; so strengthened that the aid which that vast community to the south is now giving might not have been forthcoming or been forthcoming too late. But because Canada did not fail, because her moral insight was sound, her example has not been an obstacle but an immense encouragement to those who desire to preserve, with us, our common freedom.

The British Commonwealth has shown that men can be free, yet make a society based on the truth that we are members one of another. By our victory, that truth will be taught to the world; and make it free.

Addressed Baconian Society

DR. HENDRIK DAM, associate professor of the Biochemical Institute, University of Copenhagen, spoke on "Vitamin K" at an open meeting of the Baconian Society in Convocation Hall,

February 5. The meeting was held by arrangement with the American Scandinavian Foundation.

PRESIDENT SIDNEY E. SMITH GAVE A. M. S. LECTURE

GREATER faith in the values of democracy was urged by President Sidney E. Smith, LL.D. '37, University of Manitoba, in the Alma Mater Society Lecture in Grant Hall February 26. The speaker said that the ideals of freedom had inspired too many words and not enough action in the past, and advised his listeners to correct this state of affairs before it was too late. His topic was "Education and Faith."

Grant Hall was filled for the occasion, which was the first in a series of annual lectures to be given by outstanding speakers. Two years ago the Alma Mater Society executive turned over its entire reserve to the University's endowment fund and the income from this is to provide the Lecture.

James M. Courtright, Sc. '41, Ottawa, A.M.S. president, acted as chairman. The speaker was introduced by Dr. A. V. Douglas, dean of women and honorary president of the Society, and was thanked by J. G. Mumford, Arts '41, Ottawa.

While in Kingston, President Smith was the guest of Dr. and Mrs. W. E. McNeill. On the evening preceding the Lecture the A.M.S. executive attended a reception held by Dr. and Mrs. McNeill in honour of President Smith. The members entertained their visitor at a luncheon in the Gymnasium the following day.

Missing Issues of "Alumnae News" Needed To Complete Reference Set

SEVERAL numbers of the *Alumnae News* are required to complete a set that is being prepared for binding and which will be used for reference purposes. The missing issues are those of 1919, 1920, 1922, and 1929. Graduates who have copies of these numbers to spare are asked to communicate with the alumnae archivist, Mrs. S. A. Hitsman (Minnie MacKay), Arts '07, 637 Johnson Street, Kingston, Ont.

QUALIFY FOR COMMISSIONS AT C.O.T.C. CENTRES

ALUMNI who are taking the Canadian Officers' Training course at various universities this year are as follows:

University of British Columbia—J. R. Allen, Com. '38; H. O. Bulmer, Arts '27, Sc. '29; G. P. Eligh, Com. '39; G. F. MacDonnell, Sc. '26; H. M. McIlroy, Sc. '28; C. E. Walker, Com. '39; J. B. Wilkinson, Arts '37.

University of Western Ontario—D. G. Burr, Arts '36; J. D. Ralph, Arts '24; W. L. Gilliland, Com. '30; H. A. Stewart, Arts '26; D. M. Hoople, Arts '32.

University of Toronto—P. V. Alexander, Arts '40; T. E. Annable, Arts '40; H. J. Armstrong, Com. '25; J. K. Barnard, Arts '35; E. G. Bauman, Arts '34; D. A. Baxter, Com. '34; E. E. Bimm, Arts '36, Sc. '38; W. P. Brace, Arts '37; M. N. Brooks, Com. '31; T. A. Carey, Com. '24; C. J. Chandler, Arts '37; A. F. Cliff, Com. '33; K. F. Crowther, Arts '24; H. T. Davoud, Arts '34; N. A. Dickens, Sc. '38; B. C. Diltz, Arts '21; A. R. Elmer, Arts '42; R. E. Foster, Arts '38; G. K. Free, Com. '40; E. O. Gerrow, Arts '29; R. B. Gibson, Sc. '36; A. M. Jones, Arts '37, Com. '38; A. R. Jones, Arts '33, Com. '34; G. A. Kerr, Arts '34; J. C. MacDonald, Sc. '38; J. L. MacLeod, Com. '40; R. U. Mahaffy, Arts '33; R. E. Malone, Com. '33; W. C. Newman, Arts '39; J. B. Palmer, Com. '34; J. R. Proudfoot, Arts '37; J. R. Rutledge, Arts '22; F. P. Shaw, Com. '35; S. R. Spence, Sc. '33; E. C. Stevens, Arts '37; A. L. Teal, Arts '35; B. M. Webb, Arts '32; D. W. White, Com. '36; R. J. Wilkie, Arts '39.

McGill University—T. J. Allen, Arts '36; Louis Bacal, Com. '34; J. M. Candler, Arts '41; D. Cohen, Sc. '40; H. Cohen, Com. '34; Horace Friedman, Arts '34; R. C. C. Gardiner, Sc. '31; M. D. Gile, Arts '39; David Kaufman, Arts '33; Rupert Lazarus, Arts '38; W. D. M. Macdonald, Arts '39; J. G. McDiarmid, Arts '34; C. W. McDougall, Com. '38; R. S. Pibus, Arts '38; C. E. C. Ratchford, Com. '22; J. A. Ritchie, Arts '26; A. Rivers, Arts '38; T. Saunders, Arts '39; C. Shapiro, Sc. '40; H. W. Snyder, Com.

'30; W. D. Stewart, Sc. '33; F. L. White, Arts '31, Sc. '33; R. T. Wiseman, Arts '28; extramural students—P. N. Boultbee, O. L. Brewer, J. H. C. Chaput, W. I. Cook, R. G. Corkran, W. H. Ebbitt, G. A. Flint, E. H. Hall, J. W. Hamblin, W. H. Hambly, J. C. B. Hansen, G. A. R. C. Hart, W. E. Henderson, F. E. Holloway, L. D. Jack, R. E. A. Kerr, C. L. Lynch, J. E. Miller, J. E. Mitcham, V. C. Morrison, G. M. McKeown, C. D. O'Gorman, J. B. S. Oldaker, R. F. H. Russell, J. J. Schull, S. A. Shepherd, W. G. S. Stafford, I. M. Stewart, H. P. Ward.

Queen's University — R. S. Brown, Arts '32; W. C. Brown, Arts '30; R. S.

Bull, Arts '32; J. L. Burrows, Sc. '40; J. G. Campbell, Arts '38, Sc. '40; T. F. Golley, Arts '22; G. S. Graham, Arts '24; Donald Caplan, Sc. '40; H. A. Cohen, Arts '28, Sc. '30; R. A. Doherty, Sc. '33; W. D. Fritz, Arts '35, Sc. '40; R. E. Freeman, Sc. '38; S. M. Gilmour, staff; W. H. Godwin, Arts '40; E. J. A. Hamilton, Arts '39; J. E. Hawley, Arts '18; J. M. Hitsman, Arts '39; H. H. Lockwood, Sc. '39; Percy Lowe, Ph.D. '25; A. D. McGinnis, Sc. '38; E. B. Paul, Arts '40; R. W. Reed, Arts '40; J. W. Reid, Arts '39; G. A. Revell, Sc. '30; D. C. Smiley, Sc. '40; E. M. Squires, Com. '32; John Stanley, staff; E. A. Stephenson, Arts '39; J. W. Ward, Arts '32.

CANADIANS IN BRITAIN, 1939-1940

By Lt.-Col. H. A. Kent*

THE Canadian Corps is part of the defence forces of the British Isles. It has been passive defence up to now, but before these lines are printed it may well have turned into very active defence. And sooner or later it will become offensive action. When or where no man can now foresee, but it will come.

The kernel of the Canadian Corps is the first Canadian Division, the first contingent of which left this country on December 10, 1939, arriving in Britain exactly a week later. Both days were Sundays: the one began and the other ended with a religious service. As the flagship of the five big transports left the berth to sail, the special flag authorized for the First Division was run up to the mast-head, but not until it had been dedicated by the Senior Chaplain in association with Captain Roy, the Roman Catholic Chaplain of the Royal 22nd (French) Battalion. At the end of the voyage, just as the anchor was being dropped in a British harbour, a service of thanksgiving to Almighty God for the safety of the voyage was held in the lounge-room of the flag-

ship. Both services were recorded by the Canadian Broadcasting Corporation and may have been heard by many Canadian listeners some days later. The flag ceremony may have interest in later days. If it should ever happen that a special Canadian flag is adopted for the Dominion it might well be this flag of General McNaughton, now the commander of the Canadian Corps.

The winter of 1939-1940 in England was unkind to the Canadian troops. To cold they were accustomed, but cold and damp combined were more difficult. People in England said the winter of 1939-1940 was the most severe in seventy-five years. But it came to an end and compensation was found in a most glorious summer from May to September. The troops by this time were under canvas and were moved about to various places in England, always hidden away under the trees and invisible from the air. The loveliness of England could never have been lovelier than in June and July, 1940. Sunday church parades were held for the most part under the noble trees. I myself have had a whole regiment of artillery under two chestnut trees which gave the parade complete invisibility from the air. The long daylight made lights

*Assistant Principal Chaplain, Canadian Active Army (Overseas); Principal of Queen's Theological College.

for tents unnecessary. One could read a book until 10 p.m.

The first move toward active service was in the direction of Norway, but the units chosen did not get further than Scotland. Then there were two moves toward France. The first party did not get away from the British port, the second one was able to accomplish nothing in France, due to the collapse of the French, and returned to Britain minus most of its equipment. This was a sore disappointment to the troops. One Brigadier said to me, "If only my men could have had one shot at the Germans they would feel better." But they and their comrades soon settled down to the very essential task of fortifying the citadel of Britain against the anticipated descent of the Germans upon her shores.

Then came the great air battles of August and September. The first of them was on Thursday, August 8, and was fought practically over the heads of the First Canadian Division. The objective of the Germans was the Croydon air field, and though some damage was done the defeat of the Germans was complete. From beside our shelter trenches, in complete kit, with gas-masks at the alert, gas-goggles and steel hats on, and anti-gas capes over our shoulders, we watched and listened to the fight in the sky. All the world knows now how the Germans tried again and again to break the R.A.F. in mass attacks and how they were simply hurled out of the sky by the British fliers. No words of praise can be too high for these brave soldiers of the air.

The savage night assaults on English cities, especially London, throughout the autumn months were galling to impatient troops. They would have dearly liked to do something to these marauders, but could only listen to them at night droning high over their heads in the direction of suffering London. The worst thing in air-raids is not the noise of the guns—that indeed is rather a relief. The worst thing is the steady roar overhead of death riding high in the skies.

My own duties took me to London after August. Many have written and spoken of the fortitude and grim endur-

ance of the people of London. Their story is not exaggerated. When the history of this war is written a high place of honour will be found for the civilian folk of England, especially London, in the autumn of 1940.

Never was Britain a more Christian country than she is today. There is more unselfishness, more care for the unfortunate, the helpless, the homeless, and the distracted than ever there has been in the country's long history. There is less class distinction, less insistence upon privilege, less flaunting of riches in the face of poverty. And there are more people on their knees in Britain than there have ever been. Not because they are afraid, but because this struggle and suffering has thrown them back upon the ultimate realities of life which are spiritual. Millions of English folk have repeated over and over during their lives, "There is none other that fighteth for us but only Thou, O God." They know now better than they ever knew before what those words mean.

60 Per Cent of C.O.T.C. Candidates Are Successful in First Test

OF the 564 candidates of the Queen's Contingent, Officers' Training Corps, who wrote the first paper for military qualification in December, 60 per cent passed.

It is interesting to note that of all certificates of qualification issued to C.O.T.C. members in Canada during the past twelve months, almost one-fifth were awarded to members of the Queen's Contingent.

Inspection of the various arms of the Queen's Contingent by the District Officer Commanding Military District Number 3 have been arranged to take place in March. The Auxiliary Battalion was inspected February 27.

Needed For Files

THE Douglas Library is anxious to secure a copy of the *Calendar* of the Faculty of Arts for 1924-25 to fill a gap in this important file. Alumni are asked to communicate with the librarian if they can help in this connection.

ARMY LIST

NUMBER fifteen in the series of the monthly lists of those who have joined some branch of the fighting services is presented below. Readers are requested to send in news of alumni who are serving with the forces, either overseas or in Canada.

Flight-Lieutenant the Rev. J. G. Sparling, Arts '33, has been appointed chaplain of No. 5 Service Flying Training School at Dunnville, Ontario. Flight-Lieutenant Sparling served almost four years with the Princess Patricia's Canadian Light Infantry during the first World War, entering the ranks as a private and emerging at the end of the war as a sergeant. He was awarded the Military Medal and Bar. After the war he enrolled at Trinity University, graduating with the degree of Doctor of Theology. He attended Queen's from 1929 to 1932, after which he was appointed rector of St. Peter's Anglican Church, Brockville, Ontario. For the last eight years he has been chaplain of the Brockville Rifles.

Royal Canadian Naval Volunteer Reserve—W. S. Brass, Arts '43, Surgeon-Lieut. G. R. F. Elliott, Med. '35, Sub-Lieut. H. R. MacKinnon, Sc. '39.

Royal Canadian Artillery—Lieut. W. B. Airth, Sc. '26 (Armoured Corps).

Royal Canadian Engineers—Lieut. R. A. Kirkpatrick, Sc. '27, Lieut. W. J. Bright, Sc. '34, Lieut. J. E. Bright, Sc. '38.

Royal Canadian Army Medical Corps—Lieut. J. P. Bonfield, Med. '29, Lieut. S. H. Calnek, Med. '15, Lieut. C. B. Caswell, Med. '36, Lieut. Francis Martin, Med. '39, Lieut. A. F. W. Peart, Med. '40, Capt. C. F. Williams, Med. '12.

Royal Canadian Ordnance Corps—Lieut. W. G. Hamilton, Arts '38, Sc. '40, Lieut. E. G. Pallister, Sc. '38.

Infantry and Rifles — Lieut. G. R. Allan, Arts '28 (Argyll and Sutherland Highlanders), Lieut. E. H. Gilmour, Arts '34, Lieut. James Lochead, Arts '32, Lieut. J. A. McNabb, Arts '32.

Royal Air Force—Sgt. Pilot F. W. Anderson, Sc. '39.

Royal Canadian Air Force—Flying Officer H. J. Andrews, Arts '38; L. A. C. Lynnwood Cliff, Com. '43, Pilot Officer A. P. Fawley, Sc. '38, Pilot Officer W. L. Gilliland, Com. '30, (accounting branch), Pilot Officer A. H. Laidlaw, Arts '39, Pilot Officer W. J. Loney, Com. '37, Pilot Officer B. G. McIver, Sc. '40, Flying Officer R. A. Sheppard, Sc. '35 (radio branch).

Military Training Centres — J. W. Grimmon, Arts '32, Lieut. and Adjutant at No. 10 Military Training Centre, Kitchener, Ont.

Queen's University Contingent C. O. T. C. Second Lieutenants (Supply)—M. W. Huggins (staff), C. M. Bartley, Sc. '41, P. E. H. Brady, Arts '41, R. M. Callum, Arts '41, H. L. Cohen, Sc. '42, R. L. Coleman, Sc. '42, S. J. Dixon, Sc. '43, D. M. Ewart, Med. '41, D. E. Finlayson, Sc. '42, H. C. McWilliam, Arts '41, L. I. Mitchell, Med. '42, W. W. Maynard, Sc. '42, H. J. Pickup, Med. '42, E. M. Stewart, Sc. '42, W. J. Sutherland, Sc. '43, R. G. Trout, Sc. '41.

Broadcast Over CFRC

DURING February the following participated in the week-by-week radio series broadcast over the Queen's station, CFRC: Mr. André Biéler, Mr. W. M. Nickle, Dr. Thomas Gibson, Mr. E. C. Kyte, Dr. Benjamin Kropp, Mr. H. J. Hamilton, Miss Adele Wilson, Mr. Harry Atkinson, Dr. G. H. Clarke, Mr. R. H. Chambers, Dr. B. W. Sargent, Mr. Donald Lapp, Dr. H. S. Angrove, Major James Annand, Mr. Alex Sorgat, Dr. E. G. Taylor, Mr. A. C. Hanley, Miss Pearl Johnston, and members of the Medical Faculty.

Autographed Speeches Displayed

INSCRIBED "from a proud alumnus of Queen's," an autographed set of the collected speeches of President Franklin D. Roosevelt was placed on exhibition in the Douglas Library during February. The President received an honorary LL.D. at a special convocation held in the Richardson Stadium in 1938.

1100 PEOPLE HONOUR DR. AND MRS. S. R. WALKER

A TRULY fine tribute in recognition of outstanding service to the community was recently paid at Chebanse, Illinois, when eleven hundred people participated in a programme honouring Dr. S. R. Walker, Med. '89, and Mrs. Walker, on the occasion of their Golden Anniversary. For Dr. Walker it also marked the successful conclusion of fifty-one years in the medical profession.

From far and near, friends gathered in the Chebanse school auditorium to pay homage to the venerable doctor and his wife. The Chebanse *Herald* said "the folks gloried in being permitted to join in the celebration, which proved to be second to none in the history of the entire state." Speakers lauded the Walkers' virtues, poems were read in their honour, and songs were paraphrased to suit the occasion. The happy couple received many fine gifts.

Dr. Walker has always been an enthusiastic alumnus and Queen's supporter. In the fall of 1929 he was sole representative of his year to turn up for his class reunion, but that did not prevent him from enjoying the festivities.

Held Missionary Conference

"THE Why of Missions" and "What Christianity Is Doing Abroad" were discussed at the annual two-day missionary conference at the Queen's Theological College in mid-February. The gathering was held under the auspices of the Queen's Missionary Group.

Convocation May 17

SPRING Convocation will be held for all Faculties on Saturday, May 17, at 3 p.m., in Grant Hall. This will be the third time that a joint ceremony has been held for the Faculties of Arts, Applied Science, and Medicine.

Etchings on Display

AN exhibition of etchings by contemporary artists was on display in the Old Arts Building from February 17 to 28.

OUT OF THE PAST

A Story of Yesteryear

THE death of Dr. William Lawton Goodwin in January recalls many of the good works he achieved during his term of service at Queen's. Not the least of these was his gift of electric lighting to the University and the City of Kingston. Here, in his own words, in a memoir of a few years ago, is how he described this event:

"Electric lighting was started in the old Limestone City by a university professor! With no money to buy machinery, with nothing but an idea, it looked hopeless. But I, the professor, could not see it that way.

"At the Locomotive works an early type of internal combustion gas engine was being tried out. I offered to install one in the basement of the School of Mining building if the management would make us a present of it. It was done, and so we were over the first fence.

"Then, with a letter of introduction from the invincible Principal Grant, I went to Peterborough and told the Canadian General Electric Company such a convincing story that they gave me a generator!

"The unthinking reader of this story may jump to the conclusion that my troubles were all over, that the job was done. He would be wrong. The generator was all right, an easy-going reliable machine, but we had that gas engine to reckon with. Its ignition apparatus was not complicated, just a tube heated by a gas jet; it was simple but unreliable, for reasons which I understood and tried to remedy, with moderate success only.

"There were other uncertainties about that engine. It was decidedly temperamental. When the janitor, Alfred Dean, could not make it go, Engineer Hiscock was sent up from the Locomotive Works. After a long trial he also failed and gave

it up. Then the high-brow theorist, the professor, took it in hand and made the plaguey thing go!

"So I had my lecture room wired and was soon giving evening lectures by electric lights served by that generator. But, keeping in mind the uncertain temper of the gas engine, I kept the gas lights in reserve. If the engine balked, Alfie ran for the doctor (myself), even if I was in the middle of a lecture!"

"That little generator introduced electric lighting to Queen's and to Kingston in a way that was convincing, so that by the time Roentgen's wonderful discovery of X-rays was announced in the early nineties, the electric current was all ready at Queen's to try it out. As far as is known the first X-ray photographs made in Canada were done in the attic of the building where that generator was installed."

THE BOOKSHELF

A DOZEN NEW BOOKS

Allen, F. L.—*Since Yesterday*.
 Cranwell, J. P., and Crane, W. B.—*Men of Marque*.
 Hughes, M. V.—*A London Family Between the Wars*.
 Lambert, R. S.—*Old Country Mail*.
 Large, E. C.—*The Advance of the Fungi*.
 Litten, I.—*A Mother Fights Hitler*.
 Low, C. M.—*Edward Gibbon*.
 Anonymous—*My Name is Million*.
 Sherrington, Sir Charles—*Man on his Nature*.
 Sherwood, R. E.—*There Shall Be No Night*.
 Toller, E.—*Letters from Prison*.
 Wu, A. K.—*Turkistan Tumult*.

A NY list of the books received month by month in the University library has an interest of extreme diversity. Under thirty or forty headings are included books new and old that range from art to theology, from anatomy to social science, from chemistry to philosophy. The volumes noted above are some that make a wide appeal, perhaps a general appeal. They are representative of the much larger number, over 200 volumes, added in the month of February; they are mentioned here because they can be lent to any graduate or student of Queen's who may desire to read them.

Perhaps there is (it is natural in the circumstance of events) some emphasis upon the conflict in which we are now engaged. We have chosen Toller's *Letters from Prison* as the work of an enlightened German, now dead in his prison, but struggling to the last against the terror that has gripped his fatherland. We contrast with it *Old Country Mail*, letters from the land that is still free, letters that

breathe the sturdy independence, sense of humour, and sense of collective responsibility that is the heritage of English people. Unfortunately, from the point of view of balance, hopefulness kicks the beam. Sherwood's fine play, *There Shall Be No Night*, sombre as it is, ends on a note of belief that humanity will still come through with some rags of idealism clinging to it; but both *A Mother Fights Hitler* and *My Name is Million* end practically in loss, depression, and defeat. *My Name is Million* is the experience in Poland of an anonymous English woman married to a Polish officer. She tells a story so stamped with truth and so informed by horrors that the reader must accept it, however unwillingly. It is unbelievable, but it is true; it is impossible today, but it happened; and as the title states, it happened over and over again to many hundreds of thousands of people. *A Mother Fights Hitler* is the story of a German woman who tried every possible way for more than two years to obtain the release of her son from German con-

centration camps and prisons. Again we are astounded that such perfidy, such absence of all human decency as is here revealed, can exist in a state that has at times been accounted civilized; yet the knowledge that this also is true is forced upon us.

I have said nothing about a book by Edward Benes concerning Nazi barbarism in Czechoslovakia, or of Feuchtwanger's *Paris Gazette*, which lifts a portion of the enormous veil yet shrouding the collapse of France. These are also in the library with other books on those two unhappy countries. It is a relief to turn to Mr. A. K. Wu's *Turkistan Tumult*, to push wars and rumours of wars a little further off, and to engage Russians and Mongols in a nomadic struggle that may have political consequences for us, but that is not so desperately on our doorsteps. It is a further relief to go with Messrs. Cranwell and Crane into a lively consideration of the War of 1812 and the American privateers that wrought such havoc on the seas among British shipping. The Douglas Library has a special collection of books on the War of 1812, some of considerable importance; and this brilliant account from an American side will take its place as one of the best.

Biography gains by the work, *Edward Gibbon*. Even if the *Decline and Fall of the Roman Empire* is not read as it was at one time, even if its very saucy footnotes are no longer consulted, the life of their author is one that merits our close attention, and his story is told here with a sparkle that renders it most pleasing. A little nearer to our own day comes Mrs. Hughes' *A London Family Between the Wars*. It is a sequel, but one that can be read without any dependence for in-

formation upon a previous work, and its vivacity, humour, and kindness, as well as its knowledge of London fifty years ago, make it very precious reading. Allen's *Since Yesterday* is well illustrated; fortunately so, for without these illustrations we should hardly believe that the scenes and fashions noted were in truth so lately past.

Biology concerns itself with birth and rebirth, among other things, which makes it opportune for a conclusion. *The Advance of the Fungi* is science written by a novelist whose book, *Sugar from the Air*, had a great success in England. This volume is well documented and gives us a remarkable account of how the vegetable kingdom invades us. We have been warned previously that the rat is gaining ground and that man is losing in his fight against the insect world; now, it is to parasitic fungi that our marshalled attention must be turned.

Man on his Nature constitutes the Gifford lectures of 1937-38. It is divided into twelve chapters, each under one of the signs of the Zodiac; it deals with natural science and takes for its protagonist Jean Fernel, a physician in the Court of Henri II of France. Fernel's philosophy is one that the author of our book approves. Here he deals with the "Natural and superstitious," "Life in little," "The wisdom of the body," "Earth's reshuffling," and, in general, the wonderful human body which prompted Hamlet to exclaim: "What a piece of work is man." This is a remarkable book, a great encyclopaedia of knowledge, and one that if studied with humility will lead the student to act as did the man in Stevenson's fable who found the Touchstone of Truth and turned its light upon the dust.—E. C. K.

STUDENT ACTIVITIES

BETTER than ever, as usual, the annual Engineering Society At-Home in the Gymnasium on February 14 was an unqualified success. The setting was that of ancient Greece, and the Temple

of Mercury was the centrepiece of the highly effective decorations. A crystal star hung from the ceiling and cast its myriad rays on the festive guests. Harvey Marshall, Sc. '41, Ravenna, Ont., was

convener of the committee in charge. The music was supplied by Len Hopkins and his orchestra, Ottawa.

* * * *

The Drama Guild's version of *Charley's Aunt* was presented to capacity audiences in Convocation Hall on February 18, 19, and 20. It was considered the most successful production in many years. Dr. William Angus of the English department was the director. . . . Also popular was the *Campus Frolics* staged in the K.C.V.I. auditorium February 26, 27, and March 1. A student orchestra under the direction of Bill Stevens, Sc. '40, Oshawa, supplied the music for the dance choruses, songs, skits, and novelty numbers.

* * * *

The Kingston Combines, composed largely of last year's senior Intercollegiate team, won the eastern group of the Ontario Hockey Association's senior "B" finals by brushing aside all opposition in the play-offs. The boys earned a large following with their fast brand of hockey and played to record crowds all season. The team is endeavouring to win further laurels.

* * * *

Queen's students won three out of five essay awards given by the Canadian Institute of Mining and Metallurgy. J. R. Macdonald, Sc. '41, Inverness, Scotland, received the gold medal and prize of \$25 for his essay, "Narrow-Vein Stoping with Reference to No. 2 Mine, Central Patricia Gold Mines Limited." Other Queen's winners were D. A. Sloan, Sc. '41, Vancouver, B.C., and R. A. Elliott, Sc. '41, Deloro, Ont., who obtained \$25 prizes, and R. T. Hukki, Sc. '41, Helsinki, Finland, who won honorable mention.

* * * *

Prominent speakers who visited the campus during February included Dr. G. D. Kilpatrick, principal of United Theological College, Montreal, who preached at the University church service in Grant Hall February 16. . . . Dr. K. J. Laidler of the National Research Council addressed the Queen's branch of the Canadian Institute of Chemistry on "Chemical Change" February 2. . . . Mr. G. K. Long of the Bell Telephone Company gave an illustrated lecture on telephone

development at a meeting of the Engineering Society February 19, and Mr. W. H. M. Laughlin of the Dominion Bridge Company spoke on "Structure of Steel" at the meeting on February 28. . . . Mr. T. G. Jaycocks, better known as "Jay," staff photographer for Toronto *Saturday Night*, was the guest speaker at the Levana Society meeting February 20.

Dr. J. J. Heagerty, author of *Four Centuries of Medical History in Canada*, spoke on "The Early History of Medicine in Canada" at the annual dinner of the Aesculapian Society February 18. . . . Miss Dorothy King, director of the Montreal School of Social Work, discussed social service with interested students at Ban Righ Hall February 23. . . . Dr. A. E. Berry, director of the sanitary engineering division of the Ontario department of health, addressed students and staff at the meeting of the Kingston branch of the Engineering Institute of Canada, February 24. . . . E. B. Paul, Arts '40, spoke on "Atom-Smashing Equipment" at a meeting of the Mathematics and Physics Club February 7. . . . W. J. Coyle, Arts '19, head of the advertising department of the Kingston *Whig-Standard*, was the speaker at the Press Club meeting February 14.

* * * *

Queen's debaters won three out of five Intercollegiate competitions during February. On the first, the Tricolour won from Varsity, opposing the resolution "That the Russo-German pact of 1939 constitutes an alliance for aggression." On the sixth, Queen's lost to McGill, upholding the negative of the resolution "That man's self-respect and woman's becoming modesty are injured by the Dutch-treat system." On the tenth, the Tricolour lost to Victoria College, supporting the resolution "That Canada should enter the Pan-American Union." On the twentieth, Queen's won from Western, taking the negative side of the resolution "That it is to the advantage of the British Empire that the United States remain out of the present war." Four days later, Queen's successfully opposed Varsity on the resolution "That the Union favour the adoption of the Rowell-Sirois report."

"Problems of Modern Marriage," a series of lectures sponsored by the Social Problems Club, was presented during February by members of the University staff. . . . From now on, students dining at the Union cafeteria will receive a maximum of two butter pats per person, as an economy measure. It is expected that this restriction will result in a saving of \$100 a month. . . . Bill McDonnell, Arts '42, Calgary, Alta., has been appointed chief justice of the Alma Mater Society court for next year. . . . A committee has been set up by the A.M.S. executive to investigate the annual elec-

tion system with a view to suggesting improvements. . . . Miss Doris Smith, Arts '43, Toronto, has been declared ping-pong champion of Ban Righ Hall. . . . The Engineering Society published a Science issue of the *Journal* February 13 under the editorship of Harry Meanwell, Sc. '42, Windsor. . . . Miss Dora Tottenham, Arts '42, Kingston, won the University badminton singles title. . . . Principal Wallace delivered the third in his annual series of lectures to first-year students on February 19. He spoke on the meaning and interpretation of beauty, literature, ethics, and religion.

AT THE BRANCHES

New York

THE New York alumni held an unusual Queen's party on February 5 at the Columbia University Men's Faculty Club—unusual because there were no speeches and no appeals. The president, Dr. N. A. Brisco, Arts '98, welcomed the eighty guests, many of whom had come long distances. Among the latter were Harris Campbell, Sc. '28, and Mrs. Campbell, from Philadelphia, and Dr. C. D. Moore, Med. '28, and Mrs. Moore, from Newtown, Conn.

Each guest was presented with a thousand dollars in stage money and, after a delicious dinner, the committee provided races, card and dice games, roulette, and other games of chance. A surprising aptitude and enthusiasm were revealed. Bets were placed freely and perhaps injudiciously, but there is no doubt that all players enjoyed themselves.

By 10.30 o'clock, when some were quite bankrupt through riotous living, five of the most successful plungers qualified for the final drawing. Mrs. W. P. Bartels succeeded in the difficult task of picking the white ball from ten black balls on the first try and was rewarded with theatre tickets for a current Broadway success. Among others who qualified for the drawing were Mrs. W. L. Dawson, who did some heavy betting at the roulette table,

Miss Margaret Wright, Arts '37, Miss Maude Edmison, Arts '38, and Miss Joan Swift, Arts '37. Among the persistent losers was Dr. H. S. (Skit) McCartney, Med. '27, who seemed to enjoy his misfortunes, and when broke sought solace in cribbage.

Miss Margaret Halligan, Arts '36, spun the wheel of fortune, while D. R. E. Whitmore, Arts '39, and H. E. Searle, Sc. '22, were the bankers. Some doubt was expressed whether the proficiency displayed by these gentlemen had been acquired at the Y. M. C. A. The chuck table proved highly popular under the supervision of O. B. J. Fraser, Sc. '16. Mr. Searle, chairman of the entertainment committee, was in charge of the evening's programme.

Among those present, in addition to the above-mentioned, were the following: Dr. W. P. Bartels, Med. '28, H. A. Batzold, Sc. '23, Dr. C. H. Berry, Med. '30, Mrs. N. A. Brisco, Miss Elizabeth Clarke, Arts '35, Mrs. D. M. J. Buttars (Honor Bailey), Arts '34, Dr. W. T. Clark, Med. '34, and Mrs. Clark, Dr. W. M. Cliff, Med. '31, Dr. C. H. Cohoon, Med. '24, W. L. Dawson, Sc. '13, Stuart Drewry, Sc. '17;

Dr. A. J. Drury, Med. '23, Dr. T. W. Faulkner, Arts '21, Med. '24, J. G. Ferguson, Sc. '23, and Mrs. Ferguson, G. F. Geiger, Sc. '23, Dr. Maxwell Gosse, Arts

'24, Med. '26, D. O. Hepburn, Sc. '23, Dr. Kenneth Keill, Arts '19, Med. '22, Dr. Marion Laird, Arts '22, F. L. LaQue, Sc. '27, and Mrs. LaQue, Dr. H. A. C. Leigh, Med. '35;

Dr. J. L. MacDowell, Med. '03, G. L. McRory, Sc. '23, Dr. F. J. Matthews, Med. '11, and Mrs. Matthews, Dr. A. J. D. Medley, Med. '39, N. A. Morrison, Sc. '23, and Mrs. Morrison, Dr. A. J. O'Leary, Sc. '28, Dr. J. A. Polson, Arts '07, Med. '10, H. P. Salter, Com. '23, and Mrs. Salter (Flossie Gray), Arts '22, Mrs. H. E. Searle, Dr. Samuel Shenkman, Med. '33.

Dr. L. D. Stevenson, Arts '16, Med. '16, and Mrs. Stevenson, Dr. J. F. Stanness, Arts '14, Med. '19, Dr. A. B. Sussman, Arts '26, Med. '28, T. W. Third, Arts '15, D. R. E. Whitmore, Arts '39, Dr. J. E. Zbar, Arts '32, Med. '36, and Mrs. Zbar, Dr. A. E. W. Ada, Arts '24, Med. '26, Dr. S. W. Willis, Arts '26, Med. '28, and Mrs. Willis, Dr. Herbert Mohan, Med. '11, and Mrs. Mohan;

Dr. A. F. Ash, Med. '00, and Mrs. Ash, Dr. C. J. Garofalo, Med. '16, Miss Mary Hickey, Com. '27, Mrs. W. E. Jordan (Katharine Malcolm), Arts '32, Dr. P. J. Miranti, Med. '36, Dr. J. M. Murphy, Med. '21, Dr. G. H. Steacy, Med. '28, Dr. S. E. Thompson, Med. '11, R. H. Hay, Sc. '36, and Mrs. Hay (Helen Lancaster), Arts '33, and a number of guests.

Toronto

THE Eaton Auditorium was again the scene of the annual at-home of the Toronto branches of the General Alumni Association and the Queen's Summer School Association on February 7. Hon. Duncan McArthur, Arts '07, LL.D. '35, and J. C. Macfarlane, Arts '11, chairman of the University's endowment committee, graciously lent their patronage. On the receiving line were Dr. W. R. Patterson, Arts '02, Med. '06, and Mrs. Patterson, Mrs. D. G. Geiger (Goldie Bartels), Arts '22, and J. B. Palmer, Com. '34. Music for the dancing was supplied by Harry Lewis and his orchestra. More than 300 were in attendance.

* * * *

The regular monthly executive meeting was held on February 11, when more

definite plans regarding the endowment campaign were formulated. A committee with W. D. Stone, Com. '29, was appointed to work out the details for the drive in Toronto.

* * * *

TWO excellent meetings of the luncheon group were held during February at the Piccadilly Hotel. On the third, W. H. Shortill, Com. '33, spoke on "Real Estate Today," and on the seventeenth, Rev. James McKay, Arts '13, Theol. '16, pastor of the Church of All Nations, gave an address on "Understanding Our New Canadian Neighbours."

Montreal

INSPECTOR C. W. HARVISON of the Royal Canadian Mounted Police was the guest speaker at the regular monthly meeting in the Mount Royal Hotel on February 12. The president, C. A. Root, Arts '19, was in the chair.

The Inspector delivered a most enlightening address on "Subversive Activities." This was followed by a lengthy question and discussion period. The speaker was introduced by A. E. Orwell, Sc. '30, and was thanked on behalf of the meeting by Pilot Officer M. M. Smith, Sc. '37.

Victoria

MENTIONING places, incidents, and characters well-known to all Queen's alumni, Dr. R. Bruce Taylor, former principal, brought back many memories of the University at the annual dinner held February 7.

Dr. Taylor, who recently returned from France, escaping just prior to the German occupation, described highlights of his thirteen-year term as head of Queen's. He told of the growth of the institution, the increase in student enrolment, and the many new buildings that had been erected.

The speaker especially mentioned the part played in international affairs and the contribution made to Queen's by the late Dr. O. D. Skelton. The alumni paid silent tribute to the memory of this outstanding Queen's graduate.

Dr. Taylor was introduced by H. S. Pringle, Arts '99, and was thanked on be-

half of the alumni by Rev. H. A. McLeod, Arts '18.

During the business part of the meeting the following officers were elected for the ensuing year: president, R. D. Matthews, Arts '26; vice-president, Miss Hazel Sargent, Arts '28; secretary-treasurer, J. E. Sanders, Arts '26.

Niagara Peninsula

J. C. MACFARLANE, Arts '11, chairman of the Queen's endowment committee and former president of the General Alumni Association, was the guest speaker at the annual dinner dance of the Niagara Peninsula branch held in the Hotel Leonard, St. Catharines, February 28. He spoke on "Queen's University — One Hundred Years." The president, A. L. Brooks, Arts '14, was in the chair.

In his illuminating address, Mr. Macfarlane briefly traced the history of the University, studding his remarks with many colourful anecdotes and personal reminiscences. He pointed out that Queen's had grown from a small college, with two professors and ten students, taking classes in a rented, frame house, to a great institution, with a staff of 360, an undergraduate body of 4000, and thirty-three buildings.

The speaker mentioned the various principals who had served Queen's, with particular reference to Dr. G. M. Grant, Dr. D. M. Gordon, Dr. R. B. Taylor, Dr. W. H. Fyfe, and Dr. R. C. Wallace. He said that the University was indeed fortunate to have a man of Principal Wallace's calibre at its head during these trying times.

Referring to the University's Centenary Fund, Mr. Macfarlane pointed out that the scheme of asking the graduates for annual contributions had been tried with much success by American universities. It was hoped that this system would

solve some of the financial problems now confronting the University.

The speaker also mentioned the programme that will be presented at Queen's next fall in connection with the centenary celebration. He outlined some of the features and expressed the opinion that the alumni would enjoy the events that had been planned.

Mr. Macfarlane was introduced to the gathering by E. W. Henderson, Sc. '05. He was thanked for his excellent address by H. J. Hamilton, Arts '32, secretary-treasurer of the General Alumni Association.

During the course of the evening, Dick Buss, Sc. '27, led the meeting in the rendition of Queen's yells and songs. Mr. Buss also moved a hearty vote of thanks to Mr. Brooks for his hospitality in entertaining the guests at an informal gathering prior to the dinner. The remainder of the evening was spent in dancing.

Credit for the success of the affair belongs to the committee in charge, including Mr. Brooks and F. S. Duran, Sc. '33. Particularly effective were the extensive decorations in which the Queen's colours were employed to good advantage.

J. C. MACFARLANE

Hamilton

ALUMNAE in the Hamilton area held a delightful tea at the home of Mrs. W. G. Cornett (Jessie Ewart), Arts '21, during February. The guests were received by Mrs. Cornett and Miss Margaret Newton, Arts '36. Tea was served in the candle-lit dining room by Mrs. H. G. Medhurst (Helen Talcott), Arts '25, Mrs. A. A. Numbers (Charlotte Gutteridge), Arts '22, Mrs. D. A. Cooper (Marion MacAlpine), Arts '24, Mrs. William Greenwood (Margaret Kerr), Arts '27, Miss Helen Tillotson, Arts '30, and Miss Dorothy Dowsley, Arts '26.

Ottawa

AHIGHLY successful bridge party and fashion show was conducted by the Ottawa alumnae on February 8 in the Chateau Laurier. The president, Mrs. J. E. Plunkett (Marion Moffat), Arts '26, received the guests.

The committee in charge was composed of Miss Kaye Derry, Arts '30, Miss Elnora Wilson, Arts '28, Mrs. R. MacLean (Margaret Davis), Arts '37, and Mrs. G. C. Monture. Mrs. T. K. Waddell (Jean Govan), Arts '20, drew the

winners of the prizes, which were war-savings stamps.

The models for the smart fashions included Mrs. MacLean, Miss Kaye Wayling, Arts '36, Miss Patricia Lipsett, Arts '40, Miss Lillian Gardner, Arts '39, and Miss Eleanor Clark, Arts '40.

ALUMNI NEWS

Births

Allen—At the Ottawa General Hospital, on February 28, to Dr. J. D. Allen, Med. '31, and Mrs. Allen, a daughter.

Anderson—At the Richelieu Hospital, Sorel, Que., to T. D. Anderson, Sc. '35, and Mrs. Anderson (Jeanne Scobie), Arts '32, a daughter (Donna Lynne).

Bleau—At the St. Sacrament Hospital, Quebec City, on March 3, to Alphonse Bleau, Sc. '32, and Mme. Bleau, a daughter (Clémence).

Bonfield—At the Ottawa General Hospital, on March 1, to Dr. J. Patrick Bonfield, Med. '29, and Mrs. Bonfield, a daughter.

Davis—At the Kingston General Hospital, on March 3, to Harold P. Davis and Mrs. Davis (Dorothy Horwood), Arts '33, a daughter.

McDiarmid—At the Women's Pavilion, Royal Victoria Hospital, Montreal, on March 4, to F. J. McDiarmid, Sc. '33, and Mrs. McDiarmid, a son.

McNeely—At the Private Patients' Pavilion, Toronto General Hospital, on February 5, to Norman McNeely and Mrs. McNeely (Marion Phillips), Arts '32, a daughter (Marion Dianne).

Pelletier—At Sudbury, Ont., to R. C. Pelletier, Sc. '36, and Mrs. Pelletier, a son.

Stone—At the Private Patients' Pavilion, Toronto Western Hospital, on February 25, to W. D. Stone, Com. '28, and Mrs. Stone, a son (William Barry).

Stronach—At the Ottawa Civic Hospital, on March 1, to Lieut. R. S. Stronach, Sc. '37, and Mrs. Stronach, a daughter.

Marriages

Brown—On March 1, at MacVicar Memorial Church, Montreal, Edna Florence Clarke to Flight Lieut. Ralph Cuthbert Brown, Sc. '33, Ottawa.

McDougall—On November 16, 1940, in Buffalo, N.Y., Edna Marguerite Koehler to Dr. John Wallace McDougall, Med. '37. Dr. and Mrs. McDougall are living at 35 Garden St., Brockville, Ont.

McGillivray—On March 1, at St. Paul's Church Chapel, Toronto, Mary Errington Parsons to Pilot Officer William Neil McGillivray, Sc. '40.

McLachlan—On December 30, 1940, at the United Church, Timmins, Ont., Evelyn Gill to Hugh Hector McLachlan, Sc. '37.

Murray—On February 15, at St. Patrick's Church, Quebec City, Anna Powell to Lieut. Kenneth Lawrence Murray, Sc. '37, of the Royal Canadian Ordnance Corps. They are living at 265-A Fraser St., Quebec City.

Wing—At St. Patrick's Church, Quebec City, on February 22, Ruth Edith Bastien to John William Wing, Sc. '36. They will live in Toronto, where Mr. Wing has accepted a position with the International Nickel Company of Canada.

Deaths

Banting—World-famous as the co-discoverer of the insulin treatment of diabetes, Sir Frederick Banting, LL.D. '23, was killed February 21 when the airplane in which he was flying to England crashed on the remote shores of Newfoundland. He was conveying important research data that was expected to have important results in the field of aviation. His premature death came as a severe shock to the British Empire. Dr. Banting was born at Alliston, Ontario, in 1891. He received his early education there and at Victoria College, Toronto. He graduated from the University of Toronto in 1917. During the first Great War he won the Military Cross, after he was wounded in France while serving as medical officer of the 44th Battalion, Canadian Expeditionary Force. From 1919 to 1920 he was resident surgeon at the Hospital for Sick Children in Toronto. For the next year he practised medicine in London, Ontario, and was part-time assistant in physiology at the University of Western Ontario. Discovery that removal of the pancreas resulted in diabetes in animals was made two years before Dr. Banting's birth. It remained for Dr. Banting and Dr. C. H. Best, however, working under the direction of Dr. J. R. MacLeod, to extract insulin from the pancreas and to discover that lack of insulin caused diabetes. The story of this successful research is one of the most thrilling in medical annals. Dr. Banting's achievements won him many honours, including the Nobel prize and a knighthood.

Queen's gave him an honorary LL.D. degree in 1923. He was a frequent visitor at the University. Not content with his insulin discovery, Dr. Banting pressed on to lay bare more medical secrets. Since the war started he had concentrated largely on aviation medical research and was said to be close to solving a major problem when his untimely death occurred.

Green — Associated with the treasury branches of four departments of the Dominion government since going to Ottawa in 1931, Lloyd Clinton Green, Com. '28, died at a Ottawa hospital on February 18. He had not been in good health since the beginning of the year. Mr. Green was born at Brantford, Ontario, in 1903 and was educated in the schools of that city. He entered Queen's in 1925 and obtained his B.Com. degree three years later. On going to Ottawa he joined the staff of the Bureau of Statistics. Later he was transferred to the Department of National Defence, then the Department of Public Works, and about a year ago he was changed to the Department of Transport. The survivors are his mother, two sisters, and a brother.

Irving — One of the foremost authorities in western United States on legal matters pertaining to water, William G. Irving, Arts '93, died suddenly at his home in Riverside, California, February 25. While he had not been in good health for some time, his condition was not regarded as critical, and his

death came as a great shock to a wide circle of acquaintances throughout the state. Mr. Irving was born at Kingston, Ontario, in 1870, and was educated in the schools of that city. He entered Queen's in 1889 and obtained his B.A. degree in 1894. Two years later he was admitted to the Bar of California. In 1902 he was an unsuccessful candidate for Congress on the Democratic ticket. He was referee in bankruptcy 1902-'06, and from 1911 to 1917 he served as city attorney for Riverside. During the Great War he was commissioned as a lieutenant in the Home Guards. From about 1913 he specialized in law pertaining to water rights in the State of California. He was one of the pioneers in water law and assisted in writing into the State Constitution the doctrine of reasonable use of water. During his career he had been counsel in water litigation for the cities of Glendale, Burbank, Riverside, San Bernardino, Santa Barbara, and Lindsay-Strathmore Irrigation District. He is survived by his brother, R. M. Irving, Arts '96, and his sister, Mrs. J. M. Mylne (Lilla B. Irving), Arts '90.

McPherson — A leading citizen of Castor, Alberta, Dr. J. J. McPherson, Med. '09, died on May 10, 1940, at the age of sixty-two. Dr. McPherson was born in Prince Edward Island, where he received his preliminary education. After teaching school for a number of years he entered Queen's and received his M.D., C.M. degrees in 1909. The following year he went to Castor, where he

opened up a medical practice in partnership with Dr. A. T. Spankie, Med. '07. Keenly interested in the community, he served on the Council, the public and separate school boards, the Castor Agricultural Society, the Curling Club, and other organizations. For many years he was Medical health officer for Castor. He is survived by his wife, one son, and two daughters.

McQueen—In one of the worst aviation tragedies in Canadian history, Prof. Robert McQueen, head of the economics department at the University of Manitoba, and formerly a member of the Queen's staff, was killed on February 6 when a Winnipeg-bound Trans-Canada Airlines' plane crashed in the dense bush country one mile south of Armstrong, Ontario, taking the lives of twelve persons. Professor McQueen served at Queen's during the 1934-35 session, in the absence of Dr. W. A. Mackintosh, and was a member of the Summer School staff for three years. He was highly respected at the University as a teacher and a friend. Professor McQueen was born at Edmonton, Alberta, in 1898. He graduated from the University of Alberta and from the Massachusetts Institute of Technology. During the first Great War he served with the air force. Afterwards he returned to Canada as a member of the staff of the University of Alberta, where he also took his M.A. degree. In 1921 he went to England and studied at the London School of Economics for two years. In 1924 he became assistant professor of political economy at the University of Saskatchewan, where he spent ten years. After one session at Queen's, he was appointed professor of political economy in the University of Manitoba in the fall of 1935. In the same year he was made a director of the Bank of Canada, and he was returning from a meeting of this organization when the crash occurred. "He was, despite his age, a great Canadian," commented Dr. S. E. Smith, LL.D. '37, president of the University of Manitoba. Professor McQueen is survived by his wife and mother, two children, three sisters, and a brother.

Moore—Ninth on the seniority list of Queen's graduates, Rev. John Moore, Arts '81, Theol. '84, died in Strathroy, Ontario, February 22. Mr. Moore was born at Madoc, Ontario, in 1856, and received his early education privately. He entered Queen's in 1877 and obtained his B.A. degree four years later, and his *testamur* in theology in 1884. He was ordained in Allanford Presbyterian Church in 1884 and remained there for seven years. Mr. Moore then accepted a call from the Burnbrae and Ryleston circuit, where he officiated for thirteen years. His next charge was at East Williams, which he held until his retirement twelve years later. After church union, Mr. Moore was appointed a member of the board of stewards of Strathroy United Church, a post he held for sixteen years. He is survived by a son and a daughter.

Pope—Former secretary of the Boyce Thompson Institute for Plant Research at Yonkers, New York, Dr. Frederick John Pope, Arts '91, died in New York City, February 10. He was born at Elginburg, Ontario, in 1879 and attended Sydenham High School before entering Queen's. He obtained his M.A. degree in 1891, and then taught science in the high schools in Kingston and Stratford for a number of years. In 1896 he returned to Queen's as demonstrator in chemistry, assisting the late Dr. W. L. Goodwin. In 1898 he won the Exhibition of 1851 Scholarship and proceeded to New York, where he obtained his Ph.D. degree at Columbia University in 1900. For a number of years thereafter he was a consulting chemical engineer in Nevada, Texas, Arizona, and South America, and later went to Wall Street, New York City, in an advisory capacity to W. B. Thompson, copper magnate. In 1924 Dr. Pope was made the first secretary of the Boyce Thompson Institute for Plant Research and continued to serve in that capacity until his retirement in 1936. Dr. Pope was given charge of the organization, and a very fine group of laboratory buildings was assembled, equipped, and manned. The Institute has made remarkable investigations in plant and vegetable diseases to date. He was also curator of Colonel Thompson's collection of jades and minerals, which has been described as "one of the most artistic exhibits in the United States." He is survived by a sister.

Notes

1890-1899

A. F. Byers, Arts '99, is in the building and contracting business in Montreal, head of the firm of A. F. Byers and Company, Limited, engineers and contractors. After leaving Queen's Mr. Byers studied at McGill University, where he obtained his B.Sc. in 1900.

Mrs. Clarence Dickinson (Adele Snyder), Arts '95, is living in New York City, where her husband is professor of music at Union Theological Seminary and organist at the Old Brick Presbyterian Church, Fifth Avenue.

Archibald Ferguson, Arts '83, is living at 1205 May St., Victoria, B.C.

A. A. McGibbon, Arts '98, is on the staff of International Paper Sales Company, Montreal.

A. W. Poole, Arts '99, formerly of Toronto, is now living at 41 Bates Road, Outremont, Que.

Rev. S. A. Woods, Arts '96, Theol. '00, retired from the Presbyterian ministry a year ago and took up residence in Beamsville, Ont. He is active in the educational affairs of his community, having been elected chairman of the educational committee of the Board of Education some time ago. Recently he was appointed to the executive of the Lincoln County Trustees Association.

1900-1909

Rev. Dr. H. D. Borley, Arts '02, was bereaved on December 9 by the death of his wife, Gertrude Robertson Borley. Dr. Borley retired from the ministry of Central Presbyterian Church, Zanesville, Ohio, in 1939.

Dr. A. D. Falkner, Med. '04, practises at 377 Metcalfe St., Montreal.

C. R. McIntosh, Arts '08, is the editor of the "North Battlefield News," North Battleford, Sask. On February 14, a special edition of twenty-eight pages was published. On the front page was a fine editorial tribute to the late Dr. Norman McLeod Rogers, former Minister of National Defence and Rector of Queen's.

Rev. I. A. Montgomery, Arts '06, is minister of Kensington Church, Godfrey Avenue, Montreal.

1910-1919

W. E. Black, Arts '19, Com. '23, teaches in the Montreal High School.

B. W. Franklin, Sc. '15, is with Canadian Vickers Limited, Montreal.

Mrs. H. W. Harkness (Eva Maude Brownlee), Arts '13, has been elected regent of the Cataraqui Chapter, I.O.D.E., Kingston.

A. W. Lang, Arts '11, teaches in the Willingdon School, Montreal.

K. P. Macpherson, Sc. '14, is on the staff of the Northern Electric Company, Montreal. He lives at 488 Wood Ave., Westmount.

Miss Ruby Nash, Arts '13, is spending the winter in California, where her address is 1530 East Ocean Ave., Long Beach.

Rev. W. G. Shaw, Theol. '16, is United Church minister at Innerkip, Ont.

J. G. Smith, Sc. '16, is in the plant engineering department of the Bell Telephone Company of Canada, Montreal. He lives at 4588 Draper Ave.

Leonard Wheelton, Arts '19, formerly principal of the Hon. W. C. Kennedy Collegiate Institute in Windsor, Ont., is now superintendent of schools for that city.

1920-1929

A. P. Austin, Sc. '23, is with Canadian Industries Limited, Montreal.

G. A. Coombs, Arts '27, has retired because of ill health and is now living at Trevor Farm, Gorron, Cornwall, England.

C. F. Davison, Sc. '23, who has been works superintendent of the alkali plant of Canadian Industries Limited, Windsor, for some years, was recently transferred to Defence Industries Limited, Montreal.

Dr. Florence Dunlop, Arts '24, psychologist and supervisor of special classes in the Ottawa public schools, addressed the annual meeting of the International Council for the Study of Exceptional Children in New York City on February 21. She also spoke at the annual meeting of the National Educational Association held in Atlantic City, N.J., on February 25 and at a meeting of the American Association of School Administrations which also met in Atlantic City in connection with the larger conference.

 THOROLD, ONTARIO
 J. Buss, Sc. '19 C. R. Buss, Sc. '27

Scott Haydon, Arts '28, formerly of Toronto, is now on the Foreign Exchange Control Board, Ottawa. He lives at 132 Renfrew Ave.

Mrs. Gwyn Hughes (Marion Sullivan), Arts '25, of Waltham, Mass., was bereaved on March 9 by the death of her father, Mr. George Sullivan, deputy warden of the Kingston Penitentiary, Kingston, Ont.

Dr. I. W. James, Med. '21, for nineteen years a prominent medical practitioner in Carleton Place, Ont., has given up his practice to become medical adviser to the Pension Commission, Ottawa.

Miss Katherine Keenan, Arts '27, head of the Kingston welfare department and secretary of the welfare committee of the Kingston City Council, was one of the speakers in the series of lectures on social work given in Convocation Hall, Queen's University, from February 21 to March 21 under the sponsorship of the Council of Social Agencies in Kingston and district. Her subject was "Public Relief."

Dr. Wilfred Lalonde, Med. '24, is practising at 33 Kindersley Ave., Town of Mount Royal, Que.

Lieut.-Col. L. H. Leggett, Med. '24, commanding officer of 2/11 Field Ambulance, has resigned his command and has joined the active service of the R.C.A.F. He is stationed at St. Thomas Technical Training School as surgeon for the R.C.A.F.

Gerald Lyons, Sc. '24, is with the Bell Telephone Company of Canada, Montreal. His address is 4552 Draper Ave.

Dr. W. P. E. Paterson, Med. '26, has been appointed chairman of the Board of Managers of Chalmers United Church, Ottawa, for 1941.

G. W. Read, Sc. '23, is with General Motors of Canada Limited, Oshawa, Ont.

J. J. Roche, Sc. '22, is on the staff of the Northern Electric Company, Montreal.

Mrs. Watson Sellar (Gwen Gauley), Arts '20, was recently re-elected regent of the Elizabeth Tudor Chapter, I.O.D.E., in Ottawa.

J. S. Stark, Arts '28, and Mrs. Stark, of Carleton Place, Ont., were bereaved last October by the death of their son, Horace, who was drowned when the destroyer "Margaree," on which he was serving as chief wireless operator, was sunk in the North Atlantic. Previous to this he had been wireless operator on H.M.C.S. "Fraser" when it was doing convoy duty in the Atlantic. He was on his way home to Canada to visit his parents when the "Margaree" was sunk, and had just lately celebrated his twentieth birthday.

M. J. Vechsler, Com. '26, is Canadian Government Trade Commissioner at Lima, Peru, also having under his jurisdiction Chile, Ecuador and Bolivia.

J. B. Whitton, Sc. '24, formerly assistant district engineer at Kingston for the Ontario Department of Highways, has been appointed town engineer for Renfrew, Ont.

Rev. N. R. Wright, Arts '21, Theol. '25, for the past five years minister of the United Church at Winnipegosis, Man., has been granted leave of absence to become Legion supervisor for No. 10 Air Training School at Dauphin, Man. He is chairman of the Dauphin Presbytery of the United Church.

Major Donald Young, Arts '25, Med. '30, of the Royal Army Medical Corps, is now first surgical specialist of 19th General Hospital, Egypt.

1930-1940

Sgt.-Pilot F. W. Anderson, Sc. '39, left the West Rand Consolidated Mines in South Africa last July to join the Royal Air Force. He has been in training since then in England and received his wings just recently.

D. B. Annan, Sc. '40, C. S. McLean, Arts '38, and G. L. Sprague, Arts '38, of the Royal Canadian Air Force, recently completed their course under the British Commonwealth Air Training Plan and received their wings on March 7 at a ceremony at the Uplands Airport, Ottawa.

A. B. Ballantine, Com. '34, who was working abroad for the Coca Cola Company until war broke out, is now stationed in Toronto as assistant secretary-treasurer of the company in Canada. Mr. Ballantine was attempting to return to Canada when Italy declared war and was delayed in Egypt for several weeks. Eventually he managed to board a plane and had a very interesting trip home flying through Palestine, Iraq, down the Persian Gulf, through India, Burma, Siam, French Indo-China and up to Hong Kong. From there he went by boat to Shanghai and sailed soon afterwards for Vancouver, reaching Canada a few months ago.

Rev. C. L. Brown, Arts '30, Theol. '32, formerly of Goderich, Ont., has accepted a call to Calvin United Church, Pembroke, Ont. His duties will begin July 1.

Charles Camsell, Sc. '32, is with Dominion Rubber Company, Toronto, as mechanical salesman.

C. B. Carlyle, Sc. '34, J. C. Pattinson, Arts '37, and E. R. Smith, Sc. '31, are on the staff of the Electro-Metallurgical Company of Canada, Welland, Ont.

Surgeon-Lieut. A. P. C. Clark, Med. '34, of the Royal Navy, is surgical specialist at the Royal Naval Auxiliary Hospital, Invergordon, Scotland.

J. A. Cluff and R. E. Murray, Sc. '39, are at the Gold Eagle Gold Mines, McKenzie Island, Ont.

Dr. W. J. Elliott, Med. '37, who joined the crew of the "Empress of Canada" as ship's surgeon in November, 1939, transferred to the British Navy in June, 1940. He is now Surgeon-Lieut. on H.M.S. "Burnham."

Miss Sally Farlinger, Arts '34, is teaching at Humberside Collegiate Institute, Toronto.

Attention

Alumni !

Membership in the General Alumni Association includes subscription to the "Queen's Review."

Keep in touch with Queen's and with your fellow-alumni through the pages of the "Review."

Membership fee is \$3.00 for the year (life membership is \$50. Combined annual fee for husband and wife is \$4). All fees include branch membership.

Fees may be paid either directly or to your branch secretary.

News items are always welcome.

Miss Helen Frye, Arts '34, was recently appointed private secretary to the Hon. Mr. Laurier, Minister of Mines in the Ontario Government.

J. F. Galloway, Arts '30, formerly of Regina, Sask., is now living at 18 Dundonald St., Toronto.

Dr. W. C. Gibson and Dr. E. M. McLean, Med. '40, are interning at the Metropolitan General Hospital in Windsor, Ont.

V. E. Isaac, Sc. '36, is with RCA Victor Company, Montreal.

G. V. Knowles, Sc. '39, recently joined the staff of Canadian Vickers Limited, Montreal.

E. S. Little, Sc. '33, has been employed by the Ontario Department of Mines as electrical mining inspector since last June. His address is Box 68, Swastika, Ont.

Miss Bessie McIntyre, Arts '34, is secretary to the managing director and superintendent of Lake Shore Mines, Kirkland Lake, Ont.

J. L. McIntosh, Sc. '40, is in the metallurgical department of the Steel Company of Canada Limited, Hamilton, Ont.

Ernest Marks, Arts '34, is a junior member of the firm, Conant and Annis, barristers and solicitors, Oshawa, Ont.

J. L. Milton, Sc. '37, has been transferred from the head office of the American Can Company, New York City, to Hamilton, Ont., where he is technical assistant to the superintendent.

W. W. Papove, Sc. '38, is now with the Canadian Marconi Company, Montreal, as transformer design engineer.

R. L. Pugsley, Sc. '38, is with Defence Industries Limited, Valleyfield, Que.

M. F. Pummel, Arts '32, formerly principal of Marlborough School, Windsor, Ont., moved to St. Catharines recently, where he is supervisor of education for that district.

J. L. Reid, Sc. '38, is now at the Roan Antelope Copper Mines, Luanshya, Northern Rhodesia.

Dr. E. E. Reinke, Med. '31, of Pembroke, Ont., was bereaved on February 5 by the death of his mother, Mrs. Rudolph G. Reinke, of Eganville, Ont.

A. G. Roach, Sc. '32, formerly at Goldboro, N.S., is now on the staff of Jerome Gold Mines, Biscotasing, Ont.

Dr. Samuel Shenkman, Med. '33, New York City, was bereaved on February 12 by the death of his father, Mr. Max Shenkman, Ottawa, Ontario.

J. M. Stonehouse, Arts '40, has joined the staff of the Deloro Smelting and Refining Company, Deloro, Ont.

Dr. H. L. Thoman, Med. '39, is practising at 780 Main St. E., Hamilton, Ont.

John Walter, Sc. '33, has been on the staff of the Ontario Department of Highways for some time. He is at present at the University of Michigan, where he is taking a course in the preservation of soil for road surfaces in rural districts. His permanent address is 1305 Hall Ave., Windsor, Ont.

F. G. Wright, Sc. '33, teaches in the vocational school at Sudbury, Ont. Mrs. Wright was Geraldine Scott, Arts '29.

REV. DR. THOMAS LIDDELL
First Principal of Queen's University
1842-1846

SOME OLD LETTERS OF QUEEN'S

by E. C. Kyte*

ONE hundred years of human life represents great age; of a university's life hardly more than early manhood, the attainment of discretion. And, as a young man, on reaching his majority, may amuse himself with some of the events presaging and surrounding his birth, so Queen's University in vigorous youth recalls the puny and wailing infant that arrived in the world one hundred years ago.

Even as early as 1839 the Glasgow North American Colonial Society was giving anxious thought to the preliminaries. Here is the beginning of a letter from the secretaries of that Society to William Young, who was executive for the General Assembly of Scottish Churches Colonial Committee:

"We are instructed to call the very serious attention of the Gen. Assembly's Committee on Colonial Churches to the subject of a Literary and Theological Seminary for Canada, as submitted to us at considerable length by the Rev. Messrs. Machar, of Kingston, and MacNaughton, of Lancaster, U.C., in name of the Synod of the Church of Scotland in Canada. . . . We are satisfied that no time should be lost in coming to some definite resolution as to the practical measures to adopt.

"The experience of years convinces us that the hope of being able to supply the occurring vacancies and the growing settlements which have not yet been provided with ministers at all, from the ranks of ministers and licentiates in Scotland is becoming yearly more feeble, while the demand for able and laborious clergymen for the British Colonies is continually augmenting. The plan of seeking supplies from their own resources is thus necessarily forced upon the Colonists . . . But it is manifest that without an educational establishment of their own the idea is untenable . . . Other churches have

either adopted the plan already, or are in the course of its adoption. Shall the Church of Scotland be the only church which possesses no visible representative of her existence in a land where so large a part of the population owe allegiance to her as the church of their fathers and their own?"

The Directors were willing to back their opinion to the extent of a donation of £1000, and "this donation we are ready to follow up by an appeal to the liberal and wealthy friends of the Church of Scotland in Scotland and in England."

The Synod of the Presbyterian Church in Canada had already been interested in the matter of a Theological Seminary. The project for the establishment of King's College at Toronto was agitating the Anglicans, but there seemed to be no probability that Presbyterian candidates might obtain a theological education there. The letter from the Glasgow Committee ends: "There is reason to hope that a sum sufficient for the erection of suitable buildings may be got from the Colonies themselves; and were the sum of £1000 per annum secured in the way of endowment a favourable commencement might be made with three professors in the department of literature, and two in the department of theology."

The knowledge that the first thousand pounds had been subscribed and that people in Scotland were interesting themselves in the establishment of a Theological Seminary served to put heart into those men of Kingston who had long been moving in the matter.

A provisional Board of Trustees was elected and the man who, more than any other, was to have the weight of Queen's upon his shoulders took the centre of the stage. This man was William Morris. On December 24, 1839, T. A. Harper, who was the treasurer of the movement, wrote to Morris. After urging a joint address to Her Majesty to

have the Capital of Canada in this province he continues :

"The Presbyterian College Bill is also received. I showed it to Mr. Machar and others who are much pleased with it so far as it goes. But they are of opinion . . . that something should be more particularly explained relative to the professorships of general science and literature. For instance, state the number, or give the power to make any number . . . and we are also of opinion that it would be better to have the name 'University of Queen's College of Kingston' thereby putting it at once on a par with King's College, and should the Bill be left for the Queen's assent it is much better to get it (that is, the name) at once than leave it over for another time. All here have been behind in their subscriptions under the impression that professors will be appointed as soon as practicable for mathematics and other sciences which are so much required in a new country."

SUPPORT FROM DISTRICT

He begs Morris to use all his influence to gain support for Queen's throughout the province. "Our subscriptions here are now £1700 and have no doubt of being over £2000 in this district alone. I am going out today with Mr. Machar and others to look for a site on the west of the town. My opinion is that it should be as near it as possible in order that the young should be able to avail themselves of it."

William Morris was the focus for letters regarding Queen's both from Scotland and from Ontario. On April 6, 1840, Dr. Robert Burns wrote to him from Paisley:

"I have just learned the success of our application for the name and the charter. Principal Macfarlane has had a letter from Mr. Smith in the name of Lord John Russell announcing that Her Majesty has been graciously pleased to grant both the name and the charter; and the letter notices certain forms to be gone through in order that the Charter may be followed out. These matters you are better acquainted with than I can be, and I pre-

sume you will employ some agent or friend at London to attend to what is requisite. The Governor-General has been a warm friend and his aid will I hope be given to the more important matter still, I mean the donation of Crown lands.

GOVERNMENT GRANT

"I have not yet heard from Mr. Gillespie as to what movements he may have made, but I rather suspect that as no notice was taken of this matter in your address to the Queen it must be proceeded with in some other way; and I do not think that Lord John will recommend a grant without the approbation of the Governor. But I shall write Mr. Gillespie on the subject, and as it is likely that a deputation may go up from our Assembly Committee soon on the Clergy Reserve Bill I shall take care that this other matter be not overlooked.

"As to a donation from the Queen—that must be kept in view when an agent or agents are sent up to England, and Her Majesty must be got to subscribe *Propria Manu*, the Vellum Subscription paper.

"As yet nothing has been done in regards to subscriptions and I have resolved not to pay my £10-10 (Miss Campbell's gift) into the Edinburgh Treasury for this reason, that the resolution adopted at Edinburgh to raise money was simply to enable the application committee to offer £300 or £400 a year to some one whom they may nominate to a Theological Chair. This did not appear to me to be following out the proposal of the Commission of Canada to ensure £5,000 by May, to be vested in the Trustees of the College funds behoof. I urged a donation of £1000; to be followed up by installations up and down the country; but in this I was unsuccesful.

"I wrote you a few days ago regarding the nomination of professors, etc. I retain my sentiments the more decidedly the longer I look at the matter, and my great fear now is that the nomination of two individuals (as urged by Mr. McGill's letter of July 1 to the Principal) may be proceeded in with a precipitancy that will arrest the college at its very

opening. The Principal's remark to me was a just one; that for £300 or £400 there was no prospect of getting better men than five or six clergymen already in Canada. He alluded to Messrs. Machar, Cook, McGill, etc. I shall write Mr. McGill soon and in the meantime congratulate you on the success thus far."

It is possible that the Rev. Robert McGill felt that he should be Principal of Queen's. It is also possible that he was genuinely of opinion that the Presbyterians of Upper Canada should concentrate upon construction of a Theological College, for which the endowments of King's College would partly pay.

NOTE OF DISCORD

Here, at any rate, is the first note of a discord that was almost to wreck the infant institution. The friends of Queen's included some able men who yet had grave doubts as to the wisdom of beginning in a small way. His Excellency, the Governor-General, was full of doubts. Dr. John Cook reports thus to William Morris, under date July 3, 1840:

"I dined last night with His Excellency and had a good deal of conversation about the College. I fear from what he said that there is not much chance of an endowment and that he thinks £1000 a year much too large a claim for us to make on the funds of King's College." There was thus already an inclination to give up to Toronto the University of Queen's and to make her only a Theological College. On July 14 Cook writes again:

"It was only in a conversation with the Governor after dinner that I thought it expedient to broach the matter of endowment. He expressed himself unfavourably—but I did not give him an opportunity to do so decidedly—you are vastly more likely to have weight with him in the matter and nothing he said to me leaves us without excuse for forcing the matter on his attention. I trust therefore that you will apply to him on the subject as soon as he returns, so that we might have some hope in making application to the Colonial Office. I found him much more willing to abuse King's College than

to give any hope of aid for the establishment of ours—and I am inclined to think that £500 a year endowment is all we are likely to have for our Theological Professorship.

SEARCH FOR SITE

"I propose to leave for Scotland on the 27th. via Halifax. I beg you will furnish me with credentials as Chairman of the Board. I am not yet sure whether Mr. Rintoul will come our way or by New York. Perhaps you will be good enough to send me a copy of whatever document you furnish me with to him also—each document serving for us both. You may depend on it we shall leave no stone unturned—May God direct and assist us."

William Morris set his face firmly against any retreat. Queen's University was to be a university in deed as well as name, and even if her beginnings were small he already had a prophetic vision of what she might become. Others, however, were not so minded and some of these had been among the early sponsors of the agitation for a university.

Harper continued to write cheerfully. On October 26, 1840, he said: "I am happy to inform you that Mr. Hutt has sent me £220/3/10 as a further subscription from persons in or connected with the Hudson's Bay Company in North America, thus making, with former subscriptions, £562/7/10, a very handsome contribution." He found, however, that the search for a convenient site was complicated by the fact that the Government was buying up the land around Kingston. "Mrs. James Morris has sold her lots of land to the Government for £5,800, a good price; her sister has also disposed of hers for £4,000. It appears the Government want the whole; also Herchmer's lot of two hundred acres. This looks like the intention of fixing the seat of government here." Harper also approved of Morris' idea that a Preparatory School should be among the first things done in the spring for on it dependence would be placed for a supply of students for the University.

In 1841, in spite of doubts and fears and difficulties, in spite of the abandon-

ment of plans to buy lots on what is now called College Heights, matters had gone so far that Alexander Gillespie could write thus to William Morris: "My Dear Sir: I send the present by the Rev. Principal Liddell to whose care I have committed a box containing the charter of Queen's College, and I sincerely hope that both principal and charter may reach Kingston in safety: to protect the College from loss I shall, however, ensure the latter."

QUEEN'S COLLEGE OPENS

On March 14, 1842, Harper wrote to Morris: "The College opened last Monday with nine students and I understand as soon as the roads are good many more may be expected. Three from town have since joined, making twelve in all. Some, not being able to pass, will not be allowed to matriculate until next session."

Principal Liddell himself writes cheerfully on March 26: "You request me to inform you about our state in College. Our number admitted is fifteen—but of those there are five whom we could not, after examination, matriculate as students, their elementary knowledge being exceedingly deficient. We represented to their parents, however, that if they chose to send them to the Latin and Greek schools we should allow them to attend that they might derive as much advantage from such attendance considering that there was no Classical Preparatory School to which they could send them. This offer was most readily accepted by the parents. I refer to this step which we have taken for the purpose of stating it to you as my decided conviction that a Classical School, attached to the College, is next to indispensable. . . I find Mr. Campbell to be all I could have desired, a most efficient and amiable coadjutor. We move on most cordially together, which I assure you is to me most gratifying."

He represents, however, that he and his colleagues are each employed in teaching for seven hours a day. The devoted ten were learning Latin, Greek, French, Hebrew, mathematics, church history, theology, logic, and natural philosophy. He

feels that "the experiment which existing circumstances constrained us to make . . . has succeeded tolerably well." But in spite of this optimism it was not many months before he (the Principal) in conjunction with McGill, a senior trustee, was proposing that the infant university should be strangled and the body given to Toronto.

HUNDREDS OF CONTRIBUTIONS SENT TO CENTENARY FUND

FROM the Transvaal to British Columbia, from Peru to Northern Manitoba, Queen's alumni are sending in their contributions to the Centenary Fund.

Several hundred have been received already, ranging in size from \$1 to \$8000. In addition, most of these have been accompanied by promises of continued assistance. Officials of the University are grateful and wish the alumni to know that their support has been appreciated.

It has been pointed out, however, that many graduates and former students have not yet sent in their contributions. They are urged to do so at once. The slogan is "A contribution, no matter how small, from every alumnus every year."

Several of the branches of the General Alumni and the Alumnae associations are following up the printed appeal by personal solicitation, and others are planning to co-operate in this way. This assistance is most valuable in assuring the success of the appeal.

It is realized that war conditions are imposing heavy additional demands on everyone, but Queen's alumni are asked to remember that their Alma Mater and other Canadian universities are playing no small part in the war effort.

New York's Membership Drive Enrolls 50 Per Cent of Alumni

AS a result of the drive conducted by the New York branch of the General Alumni Association, there are now 144 paid-up members in the area. This is slightly more than 50 per cent of the alumni listed within a radius of eighty-five miles from the heart of New York City.

AROUND THE WORLD IN WAR-TIME

By A. B. Ballantine, Com. '34*

THIS narrative really begins a few weeks prior to the outbreak of war, when, after a short vacation in Canada, I returned to Europe where I had been living for the previous four years.

As the magnificent *Queen Mary* slowly headed out of New York, accompanied by the noise of horns, shouting, and all the rest of the "trimmings" of a sailing, none on board realized that in a few short weeks he would be frantically trying to leave those far-away shores to which he was now so happily travelling. Even those of us who had lived in the vapours of that simmering cauldron of Europe through recent years, although realizing that fuel was being piled around us ever and ever higher, vaguely believed (wish being father to the thought) that somehow the pot would not really boil over but would eventually calm down again, perhaps to go on gently simmering forever.

In England, life went on much the same as it had before I left. The August Bank Holiday crowds were as high as ever, the Sunday cycling enthusiasts still raced down the highways in swarms, and the B.B.C. still ground out its monotonous programmes advising the world at large how to eliminate cut-worms from the petunia beds, and so on. Then suddenly war was upon us. No matter how obviously it had been marching closer and closer, that last little stretch between peace and war seemed to have been covered by a sudden and startling jump.

Awakening rather late on a beautiful Sunday morning in early September, I telephoned a friend to arrange something for the day. He told me he had heard on the radio that Britain was at war, and then the air-raid sirens started wailing, whereupon he excitedly shouted "air-raid" and hung up on me, saying he would see me later—he hoped. All this had happened with such rapidity that, as I left

A. B. BALLANTINE

the telephone and went to the window, had a bomb landed on the window-sill right then I should not have been at all surprised. However, nothing happened and life went on in London in the same way as on any other Sunday, the only noticeable difference being the hundreds of silvery barrage balloons which stretched away in the distant sky as far as the eye could see.

But then life became somewhat different. People who had patiently dug the soil and created those lovely English gardens were now digging air-raid shelters. Everywhere one saw gas masks slung over shoulders, even then carried not so much because of Government insistence or fear, but because one could not get into a cinema without a gas mask. At night came the black-out, and gay, brightly lighted London became as a subterranean cavern, the only light being the twinkling of the stars above and the intermittent twinkling of flash-lights below.

Shortly after the outbreak of war I went to Holland by way of Belgium. Mobilization and troop movements caused considerable confusion in transportation on the Continent. My trip from Brussels to Amsterdam, in normal times being about three hours by one express train, now took most of the day and five different trains. Soon, however, Holland returned to more normal conditions. Troops had already been mobilized and, as everyone could think up many reasons why Holland's neutrality would be respected as in the last war, people went about their business and enjoyed the autumn sunshine while sitting at the sidewalk cafés along the placid canals. No black-outs, no gas masks, only the troops and thousands of refugees and the inactivity in Rotterdam harbour reminded one that all was not as it should be. Then the movement of German troops on the Belgian and Dutch borders began. November 11 was approaching. Would Hitler, with his love for the spectacular, invade the Low Countries on the anniversary of Armistice Day? Complacency gave way to doubt, and doubt to fear, and then the crisis had passed. At this time, my mission completed, I returned to England.

*Assistant secretary-treasurer of the Coca-Cola Company in Canada.

In England conditions were much the same as before—black-outs, conscription, and food rationing, to the inconvenience of which were added the worst snow storms and cold England had experienced in many years.

In the spring I left for Egypt and the East. Travelling through France to Marseilles, I spent several days in Paris. Paris, ever beautiful in the spring, seemed even more so after the cold, dark winter in England. On the surface it seemed as always—myriad taxis, crowded buses, innumerable restaurants and night clubs, and the Seine flowing peacefully on. But gone were the excited, care-free tourists; in their place, only the careworn refugees, and everywhere soldiers. Who would have thought that they too, in a few short weeks, would be replaced with terrifying suddenness by the armies of the invader?

From Paris I went to Marseilles, there catching a boat for Egypt. There were only a few passengers, mostly Englishmen and their families returning to their posts in the Sudan Government after a furlough in England. The voyage through the Mediterranean was relaxing and uneventful, only one call being made, at Valetta, Malta. From there we proceeded to Alexandria and docked among the units of the British and French Mediterranean fleets.

As I had no business to attend to in Alexandria, I proceeded by train to Cairo, where I ran into black-outs again, as already precautionary measures were being tried out. Cairo, the home of the pyramids, the Sphinx, native bazaars, beautiful mosques, lovely parks, and many other interesting sights, also managed to produce more disagreeable odours, noises, and flies than I have ever found anywhere. The flies were so bad that I very quickly adopted the custom of carrying a horse-hair fly switch wherever I went, to keep from being eaten alive. Almost as numerous were the street vendors. On the streets of Cairo one can buy, from native vendors, almost anything that can be carried. Anyone setting foot outside his hotel becomes legitimate prey for innumerable guides, vendors, beggars, and bootblacks, who believe in persistence, if nothing else. As a relief from the heat

and turmoil of the day, however, the Egyptian nights were cool. Egypt is really at its best in the clear, moonlight nights, with the palm trees softly stirring in the desert breeze.

Soon, Italy entered the war and the excitement and turmoil became even worse. The Mediterranean and the Red Sea were

THE GATEWAY TO AIX, MARSEILLES

closed to shipping and there were thousands of Italians in Egypt. No one knew what to expect. Anyone who did not have to stay there was advised to leave. I received notice to return to Canada immediately, but that was more easily said than done. With sea routes closed and 'plane services cancelled, I found myself marooned and remained so for almost a month. During this time there was little else to do but listen to the news broadcasts and make daily rounds of the travel agencies to find out when I might get on something and go somewhere. The means of transportation and its ultimate destination were rapidly losing importance. There were many more in the same predicament. Eventually, it was suggested that I might get a 'plane to South Africa and go from there to America by cargo boat. A cable to South Africa produced the discouraging news that the first available accommodation would be to South America in August or North America in December. As it was now only June, I abandoned all hope of using that route.

Finally, word came that the air service to the East was to be resumed, and on a lovely summer morning I climbed aboard a four-motor flying boat bound for Hong

Kong, some five days away. As a parting gesture, the last two nights in Cairo were interrupted by air-raid sirens and the screams of anti-aircraft shells, as the Italians had sent over a few 'planes on reconnaissance flights.

OVER DESERT SANDS

The first day of flying was rather rough, with a beam wind swaying the tail of the 'plane from side to side and air pockets lifting it up and down. Away we sailed, over the seemingly endless desert—nothing but sand as far as the eye could see. Soon we crossed the Suez and flew up the coast of Palestine, then swinging inland made our first landing on the Sea of Galilee, a truly lovely spot. On we went again into Iraq at a height of eleven thousand feet, while far below us stretched still more desert. Here and there were small villages but no perceptible vegetation until we got near Basrah, when great swamps appeared and, later, groves of date palms. We landed at Basrah about dusk and were put up in a very good air-conditioned hotel at the airport. The only thing of interest there was the waiter, who continually squirted our legs with insecticide while we were at dinner in the garden.

Next morning at dawn we were off again out over the Persian Gulf and down the coast of Arabia. This was, I think, the most enjoyable flight of the trip, as we cruised high in the fleecy clouds over the Persian Gulf, with here and there the white sail of a fishing boat dotting the blue expanse of water, and stretching away on one side the white sands of Araby. We called at Bahrein Island, reported by many to be the hottest spot on earth, and then flew on down the Gulf. Every few miles or so could be seen small Arab villages on the shore, each with its cluster of huts, its small boats drawn up on land, and its semi-circle of watch-towers just outside the village as a precaution against the "protective occupation" of the camp by any neighbouring sheiks.

Farther on at the southern end of the Gulf the sandy desert gave way to rugged and parched hills. Formerly the hide-out of Arab pirates, they now looked deserted

except for the occasional hut and patch of tilled soil perched high on some inaccessible hilltop.

Leaving Arabia behind us we swung out over the Gulf of Oman and the Arabian Sea toward India. Late in the afternoon we landed at Karachi, where misfortune descended on our crew. Having flown continuously for several days in bringing the 'plane up from South Africa, they now were going on a week's holiday at Karachi. As soon as the health officer heard that they had been through the yellow fever area in Africa, he would not allow them off the 'plane until he had dressed them up in rubber coats and mosquito netting, and then he marched them off to quarantine for a week.

OFF FOR CALCUTTA

The next morning we took off for Calcutta. Beneath us passed the hills and valleys and native villages of India, while all around us the dark clouds of the monsoon scudded by. At last we reached Calcutta, which at that time of year was very hot. Driving to and from the airport, I could see much of interest—the natives with their white robes and umbrellas, the crowded little native shops and houses and the numerous people sleeping on the sidewalks at night, with a cow or two in the midst of them. Sleep for me was almost impossible, despite the mosquito-netting tent and fans going in the hotel room, but 3.30 a.m. came eventually and we started off once more.

This day took us over the Bay of Bengal and down the coast of Burma. It was rather a rough journey as we were in the midst of the monsoons. The weather was so bad that we could not land at one refueling station but went on to Rangoon. Fortunately, we had enough gasoline to get us that far. From there we flew on over the dense jungles and rice fields to Bangkok, Siam.

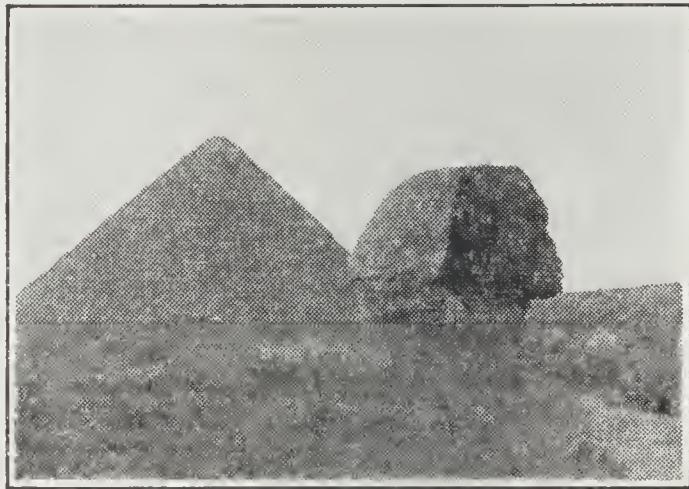

I found Bangkok to be the most interesting of any of the places visited on the trip. Arriving there somewhat earlier than usual, I had time to travel around the town. Taking a guide and open car, I toured the various parts of this modern oriental city. In strange contrast were

some of the fine streets, well-kept buildings, some natives in European clothes, and the student priests in bright yellow robes, the small native markets, rickshaws no longer propelled by the running coolies but by a tricycle, and the picturesque temples. In the setting sun the temples were beautiful, their spires and gables decorated with many-coloured pieces of porcelain in bright clusters of flowers, figures, and mosaic patterns. Inside, they were just as fascinating, with their gold-leaf, mosaics, murals, and statues of Buddah collected from the various tribes in the country. In the Temple of the Sleeping Buddah there was a reclining statue of Buddah, about thirty yards in length. Originally this was covered with gold leaf, but there was very little remaining, as the guide informed me American tourists peeled it off bit by bit for souvenirs.

The next morning I was up again before dawn for the final leg of the journey to Hong Kong. By this time there was only one other passenger and we flew in a small land 'plane, the flying boat having gone south to Singapore and Australia. Before taking off, the pilot obligingly informed us he did not know whether we would get through, as on the previous day the Japanese had bombed a village within two miles of our refueling station in China and that furthermore one of the passenger 'planes had been shot down a few months before. Nevertheless, off we went, not without some misgivings. We soared over the mountains and jungles of Indo-China into China and up the coast to Hong Kong, where we arrived without anything in the nature of an "incident." As I had never flown before and had now been flying for five days, it was with considerable relief that I saw the hills of Hong Kong appearing in the distance.

Arriving in Hong Kong, it seemed as though my long flight had taken me out of the frying pan only to land me in the fire. I got there in time to find that all European women and children were being evacuated from the island because of possible action by the Japanese. As I had two weeks to wait before my boat sailed, I had plenty of opportunity to get ac-

quainted with this small British colony. It, also, was full of contrasts—on the one hand, the innumerable coolies, the rickshaws in which one could travel incredible distances for next to nothing, the narrow streets, the bright banners over the Chinese shops, the junks of all sizes and description in the harbour; on the other hand, the excellent hotels, modern stores, fine buildings and residences. In the small Chinese shops one could buy all manner of silk, ivory, lacquer, and curios

SPHYNX AND PYRAMIDS, CAIRO

at ridiculously low prices. Talking to some of the Chinese proprietors of these shops, I was told that they do not worry about the war with Japan and that in the end China will win. The Japanese calculate the war in terms of years, but to the Chinese anything less than a generation is not worth bothering about.

Finally the day arrived for my boat to sail, and as boys dived into the water for coins tossed by the passengers we started for Shanghai. The boat was crowded with people leaving various parts of the East for safer shores. Because of Admiralty regulations a strict black-out was enforced, which meant all portholes and doors were painted over and kept shut all night. As the weather was very hot, sleep was impossible, there being practically no ventilation; consequently, many of us spent the nights on deck curled up in deck chairs. We arrived at Shanghai in darkness and as we remained only a short while there was no opportunity of seeing much of this famous city.

From there we sailed on up to Japan, calling at Nagasaki, where Japanese wo-

men loaded coal into the ship's hold by means of wicker baskets; that job completed we went on up to Kobe and Yokohama. The voyage through Japanese waters was the most enjoyable part of the ocean trip. The weather was warm and bright and all day we cruised among the hundreds of little islands, passing fishing boats and junks, while away in the distance the mountains on the larger islands disappeared in the blue haze. This was marred only by the sudden appearance of a submarine, which, however, continued on its way, leaving us in peaceful contemplation of the scenery.

IN MODERN YOKOHAMA

I had one day in Yokohama and spent it wandering about the city. Sections of this Japanese port, chiefly the business districts, might have been taken from Toronto or Montreal, the large office buildings being definitely Western in character. A glance at merchandise in some of the stores would lead one to believe it consisted of well-known trade-marked products from abroad; a closer inspection revealed that it was Japanese but in similar containers. Some articles were marked "Made in Sweden" or some other country and on investigation they, too, were found to be Japanese, the villages where they were made having been given these occidental names to help the export trade. Ambling through the streets and shops I found the Japanese people to be very polite and obliging, with no sign of unfriendliness, which, in view of political events, rather surprised me.

Late at night we left Japan and sailed eastward across the broad expanse of the Pacific ocean, arriving in Vancouver some ten days later. A few days more through the magnificent Rockies, the endless prairies, and the ever-changing scenery of Ontario, and I was home again.

As my unexpected round-the-world trip came to a close, I thought to myself there may be lands with softer climes, there may be lands with older philosophies and civilization, but truly, as a land in which to live and to enjoy life, Canada is the place for me.

100 RADIO TECHNICIANS TO TRAIN AT QUEEN'S

QUEEN'S will be one of thirteen universities assisting the Royal Canadian Air Force in the training of 2,500 radio technicians this summer. A short, intensive course will be given in radio work in Canada and then the men will go overseas to take their places in the ground defences.

It is expected that one hundred men will be sent to Queen's. The course will start on June 16 and will last for thirteen weeks. It will be under the direction of H. H. Stewart, Sc. '26, assistant professor of electrical engineering and designer of the Queen's radio station CFRC.

The R.C.A.F. proposes to take untrained radio men, provided they have passed their junior matriculation or attained an equivalent standard, for this work. The age limit is from eighteen to forty-five, with preference for those from twenty to twenty-seven. Medical standards will not be as strict as for those entering the air-crew, but call for "sound health."

Men recruited as radio technicians will be posted to a manning depot for one month's training and outfitting and then will be sent to one of the thirteen universities where their technical training will be undertaken. "This will mean an intensive course of hard study as much must be crowded into the short space of time available," says the announcement in the official R.C.A.F. bulletin. "A progress examination will be held five weeks after commencement of the course and those who are not capable of absorbing the necessary instruction will be weeded out at that time."

Radio technicians will be regarded as second-class aircraftsmen. Graduates will be reclassified as leading aircraftsmen. Commissions will be granted to graduates of outstanding ability.

Radio Frequency Changed

QUEEN'S radio station CFRC has been given a new frequency of 1490 kilocycles on the dial. This was done during March when changes were made for 1000 radio stations in Canada, United

States, Newfoundland, Cuba, Mexico, and the Dominican Republic, in an effort to afford better reception to radio listeners.

THREE NEW MEMBERS ADDED TO UNIVERSITY COUNCIL

THREE new members were chosen and six retiring members were returned, to hold office until 1947, in the University Council elections which closed on March 31. There were fifteen nominees.

The newcomers to the Council are Miss Florence Dunlop, Arts '24 (Ph.D. Columbia), Ottawa, Ont.; B. L. Simpson, Arts '03, Hamilton, Ont.; and F. D. Wallace, Arts '09, North Bay, Ont. Dr. Dunlop is psychologist and supervisor of special classes for the Ottawa Board of Education. Mr. Simpson is principal of Westdale Collegiate and Vocational Institute in Hamilton, and Mr. Wallace holds a similar position with the Collegiate and Vocational Institute in North Bay.

Members who were re-elected are J. C. Elliott, Arts '19, Toronto, Ont.; J. F. Houston, Med. '16, Hamilton, Ont.; A. A. MacKay, Sc. '10, Montreal, Que.; A. G. MacLachlan, Sc. '22, Ottawa, Ont.; Dr. G. G. McNab, Arts '02, Guelph, Ont.; G. C. Monture, Sc. '21, Ottawa, Ont.

National Organizations To Hold Conferences At Queen's This Year

PREPARATIONS are now being made for the important conferences that will be held at the University during the next few months. Programmes have been drawn up, meeting places arranged, and schedules drafted. The meetings will be held as follows: Royal Society of Canada, May 19-22; Canadian Historical Society, May 22-24; Canadian Political Science Association, May 22-24; League of Nations Society, May 23; Canadian Institute of International Affairs, May 24-25; Canadian Social Science Council, May 24-26; Conference on Canadian-American Affairs, June 23-25; Conference of Canadian Artists, May 26-28. An industrial relations conference is also being planned, and will likely be held in September.

CONVOCATION SCHEDULED FOR SATURDAY, MAY 17

THE one hundredth session of the University will be brought to a close with a joint Convocation ceremony for the Faculties of Arts, Medicine, and Applied Science in Grant Hall on Saturday, May 17.

The annual meeting of the Board of Trustees will be held in the evening at 8.15 o'clock in Room 221, Douglas Library. Other events scheduled for Convocation week-end include the annual meeting of the University Council and the semi-annual meeting of the Board of Directors of the General Alumni Association.

It is expected that the Alumni Association will sponsor a Convocation Dance in Grant Hall on the evening of May 17.

DR. GERALD S. GRAHAM WINS GUGGENHEIM AWARD

DR. GERALD S. GRAHAM, Arts '24, assistant professor of history at Queen's, was one of six Canadians to receive a John Simon Guggenheim Memorial Foundation fellowship this year. The awards were among eighty-five given by the Foundation to United States and Canadian scholars, artists, writers, and musicians. Regarded as the highest scholastic awards of their kind on the continent, the fellowships are tenable for one year.

An authority on naval history, Dr. Graham will leave in September to write a book on "The influence of sea power on the political history of Canada: A study of the effect of the strategical situation in the Atlantic on the development of Canada from colonial times to the present day." He expects to divide his time among New York City, Washington, and Harvard University.

In April, Harvard Historical Studies will publish a book written by Dr. Graham entitled *Sea Power in British North America 1783-1820*. He is also the author of *British Policy and Canada 1774-1791*, as well as a number of articles.

Awards are not new to Dr. Graham, who has had a distinguished career as a scholar. After graduating from Queen's

with his B.A. in 1924 and his M.A. in 1925, he went to Harvard on a travelling fellowship. From 1927 to 1929 he was at Trinity College, Cambridge, on a Sir George Parkin Scholarship from Canada. In 1929, when he received his Ph.D. degree from Cambridge, he won a Rockefeller Fellowship, and he went to Germany to study Germany's colonial policy.

From 1930 to 1936 he was instructor in history at Harvard, and then he came to Queen's as assistant professor of history.

Known as an able speaker, Dr. Graham addressed many clubs and organizations after his return from a visit to the Balkans just before the outbreak of war. He also served as a commentator on the CBC Week-End Review.

A FRENCHMAN'S REASONS FOR JOINING THE FREE FRENCH MOVEMENT

by Prof. Marcel Tirol*

*An address delivered over Queen's radio station CFR*C

I AM speaking to you as a Frenchman.

In 1870, in the first Franco-Prussian war, one of my uncles had both feet frozen. My mother saw France invaded twice by the Germans during her life-time. All the men of our family fought in the last world war. There were seven of the younger generation in the army between September, 1939, and the twenty-second of June, 1940. For the last three-quarters of a century, war against Germany has been a recurrent calamity in the average French family.

In the latter part of May of last year, I went regularly to see the large map of the operations in France, exhibited in a window of the Kingston *Whig-Standard*. Three narrow black strips, marking the advance of the enemy westwards and south, were always growing longer, and every day I remained anxious over and puzzled by their unbroken thinness! At one time, there seemed to be some stop towards and about Abbeville. The German *communiqué* conceded that the defence on that point had proved "ingenious." The officer in charge was a General Charles de Gaulle. However, this did not spread, and the mass movements south by the German troops did not seem to meet with any lasting resistance. One knew that there were some millions of refugees pushing their way on the roads of France, bottling them up so as to prevent any mobility of fighting troops. But

the black lines looked so thin! Why were they allowed to grow and grow? Our Government had fled from Paris, and appeared uncertain as to where to go. There were rumours of political upheavals. And then suddenly, one felt, the Germans had entered Paris, and there was an armistice. One had read that a Canadian corps had sailed from Britain, only to be re-shipped before it had gone into action. One was afraid of listening in to the radio. One remained stunned with the consciousness that France had been defeated, and did not know if there had been truly any fight.

In the last war, the head of the Allied armies was Marshall Foch. How he inspired us when he said, in the critical days of 1917: "I shall fight in front of Arras, I shall fight behind Arras, but I shall fight." And his Chief of Staff was known as a valorous soldier, and most skilful organizer, General Weygand. Soon, one heard that it was Weygand, as General-in-Chief, who had insisted on an armistice being asked for; and also that another of our great generals, the man who had stemmed the rush of the Germans before Verdun, Marshall Petain, eighty-two years of age, had become the head of the French Government. He had been the French ambassador to Spain under France. One knew that his political leanings were not liberal, one was not sure of what form of republic he would favour. Next to him came a man for whom one had scant respect as to motives, political views, and above all as to his well-known desire for a *rapprochement* with

* Member of the French department, Queen's University.

Germany: Pierre Laval. And, by decree of this non-elected government, the French Constitution was changed. After a short while, Weygand left for Algiers. The British, in self-defence it seemed (and regret for this action was expressed later by Mr. Winston Churchill), had to destroy part of the French Mediterranean fleet at Oran and at Mers el Kebir. Where would a lone Frenchman in Kingston turn to find an objective truth?

FREE FRENCH MOVEMENT

Then the press began to point to a movement that had started among the French people who were in England. It was headed by this former commander at Abbeville, General Charles de Gaulle. For a short time, before the armistice, he had been French minister of war. On the eve of that fateful day, from London, he had broadcast an appeal to the French people, adjuring them to carry on the fight. Outlawed by the rulers in his country, he was in London, organizing the French soldiers who had survived Narvick and Dunkirk. He had with him an officer of the French Fleet, Vice-Admiral Muselier, in charge of the naval units that had gone over to England rather than remain in the French ports occupied by the Germans. Here, in Ontario, the news was so brief, one could not know! Mr. Winston Churchill seemed to hold General de Gaulle and what he represented as serious enough to enter into a correspondence with him. I quote here from a letter of the Prime Minister dated August 7, 1940:

.... I am sending you a memorandum which, if you accept it, will constitute an agreement between us for the organization, utilization, and conditions of service of your forces.

I seized this opportunity to declare that His Majesty's Government is decided, when the allied arms have gained the victory, to insure the integral restoration of the independence and greatness of France.

Yours sincerely,
Winston Churchill.

The integral restoration of the independence and greatness of France!—These are no uncertain terms, and one had lived long enough in Scotland and in Canada to consider the documents containing them

not as mere scraps of paper! One wondered greatly!

Then happened a rush of events and a very human mistake. Far away in Western Africa, as early as June 29, the French colony at Dakar, aware of the importance of this capital as the air station midway between South America and Europe, had openly held a manifestation against allowing it to fall into German bondage. Late in September one heard of a German mission in Liberia, headed by a Dr. Koube. Thereupon came the surprise of four French men-of-war sailing unmolested through the Straits of Gibraltar, en route for Dakar. Another so-called German-Italian armistice mission, under the command of Oberst Schmidt, flew to Dakar. Then there was confusion. The British fleet appeared, evidently in support of de Gaulle, who was with them. A launch with a French flag and a white flag was detached towards the city, and was fired on. One of the unarmed officers sent by the Free French, Flight Captain Becourt-Foch, a grandson of Foch of Armistice Day, escaped injury, but Frigate Captain Thierry d'Argenlieu was wounded. An officer in the naval reserve, he had entered active service again, and had fled from Cherbourg to England. He is the General Chaplain of the Free French forces, known in religion as the Reverend Father Louis de la Trinity, Superior of the religious order of the Carmes for the Paris district. Evidently something had gone wrong somewhere. Misinformation? Likely some treachery? Later on, one learned that the Mayor of Dakar had been impeached and that French citizens dissident from the Vichy Government were imprisoned in large batches.

A SERIOUS STEP

It is a most serious consideration for a citizen of any state to make up his mind that he is going to secede from his own people. It is not a matter of political opposition. It amounts to encouraging and abetting those whom one's government treats as rebels, even when one has doubts about the legality of the government. And yet, what was one to do? On the one side, there was what the newspapers

called "co-operation with Germany." But there is no possible co-operation with the devil. On the other hand, there was a leader, recognized by the British Government, who, in the real French tradition, was carrying on. General de Larminat had given him his support. So had the wonderful Catroux, commander-in-chief in Indo-China, under whose command, as long as it lasted, there were neither hostilities with Thailand nor any "dovelike penetration" by the Japanese. One heard about a small army fighting side by side with the British in Egypt and Central Africa. Lieutenant-Colonel d'Ornano, a grandson of another glorious French soldier of the sixties, fell at the head of his men at the attack of Mourzouk. A few days ago the newspapers announced that Free French forces in Lybia had captured the oasis of Cufra, taking 1000 prisoners and "important war material." Other French people in the colonies declared themselves openly for the Free French Movement, which means resistance to the enemy and all that the enemy stands for.

GROWTH OF MOVEMENT

Then one began to read in the Canadian press, in Montreal and in Ottawa, letters and articles from Frenchmen explaining their reasons (such as I am giving to you) for pledging allegiance to de Gaulle. There were broadcasts, there were meetings. One was glad to exchange news, ideas, to feel the glow of friendship born from anxiety. Organization followed. Under the name of the National Committee of Free Frenchmen, we now have centres in Vancouver, Toronto, Ottawa, Montreal. We are recognized as a society under the Canadian War Charities Act. Just as the Dutch and the Belgians, we stand together.

And now, as if to show us that we are right, a ray of hope seems to gleam from what we hear of the Vichy Government. M. Laval has been ignominiously chased away by Marshall Petain, and no German pressure has so far succeeded in bringing him back to power. What effect an eventual capture of Tripoli by General Wavell may have on the actions of General

Weygand, or what will be the consequences of the ascendancy of Admiral Darlan in the French Government activities, I do not know. General de Gaulle, speaking at a banquet of the Canadian Expeditionary Force some time ago, repeated his belief that France again will enter the field and some day drive off the invader. Even if I hope for this, I do not know either. But, though the misery under which my country is now struggling makes my heart grieve bitterly, this I do know: it is only a passing phase, a small moment in history. France shall rise again and follow yet the tradition of democratic freedom that we were told as children at school is our duty to maintain, and which is summed up in her motto: *Liberté, Egalité, Fraternité*.

ENGINEERS RELEASED EARLY TO RECEIVE B.Sc. DEGREES

FORTY-FIVE members of the final-year class in Science were permitted to drop their studies before the end of the term in order to enter the army, navy, air force, or war industries urgently in need of technically trained men. These students, having been approved by the Science Faculty, will be granted their degrees in the spring.

Selection was made largely on past scholastic records and only those who had had consistently good marks were allowed to leave, and then only after proof had been submitted that the need was urgent and essential to the prosecution of the Canadian war effort.

A number of undergraduates who entered the armed forces before classes were finished will be granted their year's standing.

QUEEN'S TO GET \$275,000 FROM PROVINCE OF ONTARIO

ACCORDING to the printed estimates of ordinary expenditures for the Province of Ontario for the present fiscal year, Queen's is to receive a grant of \$275,000. This is \$75,000 less than it was eight years ago and \$25,000 more than it was in 1940.

SENIOR LIVING GRADUATES OF QUEEN'S

WHO is the senior living graduate of Queen's?

Since the death of Captain Robert Crawford, Arts '69, on November 5, 1940, this question has been asked frequently.

- Rev. Hugh Cameron, Arts '76, Ottawa, Ont.
- P. A. Macdonald, Arts '76, Winnipeg, Man.
- Henry Lunam, Arts '77, Campbellton, N.B.
- Dr. H. H. Chown, Med. '80, LL.D. '03, Winnipeg, Man.
- Rev. H. H. MacMillan, Arts '80, Tamsui, North Formosa.
- Dr. S. E. H. Snider, Med. '81, Detroit, Mich.
- B. N. Davis, Arts '81, Toronto, Ont.
- J. P. Hume, Arts '81, Goderich, Ont.
- Rev. William Rothwell, Arts '81, Nokomis, Sask.
- Dr. R. G. Feek, Arts '82, Brushton, N.Y.
- Dr. Edgar Forrester, Arts '82, Med. '84, Toronto, Ont.
- Dr. A. D. Cameron, Med. '82, Kearney, Neb.
- Rev. Neil Campbell, Arts '83, Barrie, Ont.
- Dr. S. W. Dyde, Arts '83, D.Sc. '87, Edmonton, Alta.
- A. M. Ferguson, Arts '83, Victoria, B.C.
- Rev. H. R. Grant, Arts '83, New Glasgow, N.S.
- Dr. Hugo Erichson, Med. '83, Birmingham, Mich.

For many years Captain Crawford headed the list; now his place is taken by Rev. Hugh Cameron, Arts '76, Ottawa.

The alumni seniority list now reads as follows:

TO ISSUE BOOKLET AS CENTENARY SOUVENIR

AN attractive souvenir booklet is being prepared in connection with the University's centenary celebration this year. Twelve thousand copies are being printed and they will be available for distribution to visitors and alumni. The booklet will contain pictures and reading material and should prove to be a treasured memento of the occasion.

The following have been appointed to the Centenary Committee to date: Principal Wallace (chairman), Prof. M. B. Baker, Mrs. D. W. Boucher, Mrs. D. M. Chown, Mr. E. A. Collins, Prof. D. S. Ellis, Mr. A. C. Hanley, Dr. F. L. Harrison, Prof. A. Jackson, Rev. Dr. H. A. Kent, Dr. Hilda Laird, Dr. W. E. McNeill, Dr. John Orr, Mr. G. J. Smith, Miss Dorothy Wardle, and Mr. R. M. Winter.

Extensive plans are being made for the celebration at the University October 16 to 18. One of the features will be a special convocation at which it is hoped that His Excellency, the Governor-General,

will deliver his rectorial address. The programme also includes a University reception and dinner, various graduate and student functions, and a centennial religious service, as well as a series of addresses by eminent scholars and scientists.

Fourth Generation of Family To Graduate from Queen's

WHEN Miss Barbara Taylor Gibson of Hamilton, Ontario, obtained her B.A. degree last year she represented the fourth generation of her family to graduate from Queen's. The late Dr. Robert Kincaid, Med. '63, was the first, the late Dr. J. F. Gibson, Med. '91, was the second, and Dr. M. J. Gibson, Med. '11, Hamilton, was the third.

Radio Series Ends

THE week-by-week radio series broadcast over the Queen's station CFRC came to a close for the current academic year during March. Among those who participated were Mrs. George Galway, Mrs. A. Kennedy, Mrs. Glenn Burton,

Miss Lenore Black, Dr. William Angus, Mr. L. T. Boyd, Mrs. G. R. Fuller, Prof. M. Tirol, Prof. W. M. Conacher, Mr. Glen Shortliffe, Prof. T. Gelley, Dr. H. A. Stewart, and members of the Medical Faculty.

ON HIS MAJESTY'S SERVICE

NUMBER sixteen in the series of the monthly lists of those who have joined some branch of the fighting service is presented below. Readers are requested to send in news of alumni who are serving with the forces, either overseas or in Canada.

Royal Canadian Engineers—Sapper W. S. Brown, Sc. '40, Lieut. H. L. Cohen, Sc. '42, Lieut. E. W. Dowd, Sc. '41, Lieut. D. E. Finlayson, Sc. '42, Lieut. H. G.

Hess, Sc. '41, Lt.-Col. N. C. Sutherland, Arts '13, Sc. '23, Lieut. W. J. Sutherland, Sc. '43, Lieut. M. A. Upham, Sc. '41.

Royal Canadian Ordnance Corps—Capt. D. J. Dewar, Sc. '37, Lieut. A. H. Lewis, Sc. '41, Lieut. R. R. Turner, Sc. '41.

Royal Canadian Air Force—Flying Officer W. E. Blair, Med. '30 (transferred from R.C.A.M.C.), D. G. Burr, Arts '36 (Navigation Branch), Flight Lieut. G. D. Caldbick, Med. '37 (transferred from R.C.A.M.C.), Flying Officer R. Canning, Sc. '23 (Link Trainer Branch), Flight Lieut. G. C. Caughey, Med. '37 (transferred from R.C.A.M.C.), Flying Officer J. E. Clark, Sc. '28 (Radio Branch), Flying Officer L. W. Code, Arts '33 (Administrative Branch), Flying Officer R. Z. Conner, Sc. '23, Squadron Leader D. D. Findlay, Sc. '22, Flying Officer C. W. Forsyth, Med. '38 (Medical Branch), Flying Officer F. B. Goedike, Sc. '10 (Works and Buildings Branch), Flight Lieut. R.

C. V. Gray, Med. '38 (transferred from R.C.A.M.C.), Flight Lieut. G. H. Graham, Med. '36 (transferred from R.C.A.M.C.), Flight Lieut. J. W. Hiltz, Med. '33 (transferred from R.C.A.M.C.) Flying Officer McLean Houze, Med. '29 (Medical Branch), Pilot Officer J. L. Kerr, Arts '27 (Link Trainer Branch), Pilot Officer A. H. Laidlaw, Arts '39, Flying Officer D. C. MacDonald, Med. '39 (transferred from R.C.A.M.C.), Flight Lieut. J. A. McIntyre, Med '38 (Medical Branch), Flight Lieut. J. J. O'Connell, Med. '32 (Medical Branch), Pilot Officer V.-A. Oille, Sc. '35, Flight Lieut. K. H. Running, Med. '36 (transferred from R.C.A.M.C.), Flight Lieut. Wallace Sutherland, Sc. '19, Flight Lieut. J. C. Whyte, Med. '30 (transferred from R.C.A.M.C.), Pilot Officer E. B. Wright, Sc. '38 (Navigation Branch); Flying Officer J. C. Whyte, Med. '30 (transferred from R.C.A.M.C.).

Royal Air Force—Flying Officer J. J. Meikle, Sc. '37.

Royal Canadian Naval Volunteer Reserve—Surgeon-Lieut. G. R. F. Elliott, Med. '35, Sub Lieut. M. S. Hatch (paymaster), Sub Lieut. R. L. Sanders, Com. '40, Sub Lieut. G. F. Webb, Sc. '38 (Engineering Branch).

The following members of Science '41 have joined the engineering branch of the R.C.N.V.R. as Sub Lieuts: B. R. Hepburn, L. F. Holland, D. P. Lambert, D. L. McCann, R. J. McEwan, J. D. Mitchell, G. Van Roche, J. A. Savory. Members of Science '41 who have joined the radio branch of the R.C.N.V.R. as Sub Lieuts. are: E. Almqvist, J. A. Breadner, S. W. Breckon, A. A. Kidd, J. M. Lynch, W. W. Martin.

Royal Navy—Surgeon Lieut. W. J. Elliott, Med. '37.

Royal Canadian Army Medical Corps—Capt. D. R. Campbell, Med. '24, Lieut. M. W. Feeney, Med. '31, Capt. E. R. Tiffin, Arts '26, Med. '28.

Royal Canadian Army Service Corps—Major C. E. Bulmer, Sc. '22.

Royal Canadian Army Pay Corps—Lieut. R. M. Callum, Com. '41.

Infantry and Rifles—Capt. J. W. Leavens, Sc. '30.

MISS ELEANOR CLARKE WINS MARTY SCHOLARSHIP

VALUED at not less than \$750, the Marty Memorial Scholarship for 1941 has been awarded to Miss Eleanor Louise Clarke, Arts '39, Copper Cliff, Ontario. Miss Clarke plans to go to the University of Minnesota where she will continue a study of the manner in which iodine is combined and transported in the blood. She will study under Dr. McClendon, professor of physiological chemistry, who has been investigating various phases of iodine metabolism for the past twenty years.

The Marty Scholarship was founded five years ago by Queen's alumnae in honour of Dr. Aletta Marty, Arts '94, LL.D. '19, and her sister, Miss Sophia Marty, Arts '97. Dr. Marty was the only woman public school inspector in Toronto. Both she and her sister were distinguished graduates of Queen's and the scholarship commemorates their high standard and unfailing response to the rigorous demands of the teaching profession.

Miss Clarke was educated in the schools of Coniston and Kingston before entering Queen's. She obtained her B.A. degree in 1939, graduating with first-class honours in biology. Since July, 1937, she has been a technical assistant in the department of pharmacology at Queen's. She will apply for her M.A. degree this spring.

Principals of All High Schools In Windsor Area Are From Queen's

WITH the recent appointment of W. N. Ball, Arts '16, as acting principal of Walkerville Collegiate Institute, all the high schools in the Windsor area have Queen's men as the chief administrative officer. They are as follows: Sandwich Collegiate, J. L. Forster, Arts '27; Hon. W. C. Kennedy Collegiate, A. F. S. Gilbert, Sc. '20, Arts '21; Windsor-Walker-

MISS CLARKE

ville Technical School, W. D. Lowe, Arts '02; Walkerville Collegiate, Mr. Ball. Leonard Wheelton, Arts '19, formerly principal of Kennedy Collegiate, is now supervisor of schools for Windsor, and Mr. A. R. Davidson, who has satisfied most of the requirements for his B.A. degree extramurally at Queen's, is inspector for the Windsor Board of Education.

MISS ANNE SEDGEWICK AWARDED \$1250 SCHOLARSHIP

THE travelling scholarship of \$1,250 given annually by the Canadian Federation of University Women has been awarded this year to Miss Anne H. Sedgewick, Arts '37, Halifax, Nova Scotia. She has done special work on the influence of public opinion on international relations, and the Federation Scholarship will enable her to continue her research in the field of British-American relations since 1900 in general and Canadian-American relations in particular.

Miss Sedgewick graduated from Queen's in 1937 with first-class honours in history, and received a summer scholarship that enabled her to attend the Zimmern School of International Studies at Geneva. She returned to Queen's to accept a Leonard Resident Research Fellowship and completed requirements for her master's degree last spring. This year she has been studying for her doctorate at Radcliffe College, Cambridge, Massachusetts.

Re-elected By Council

G. C. BATEMAN, Sc. '05, Ottawa, Ont., and Dr. T. H. Farrell, Arts '89, Med. '95, Utica, N.Y., have been re-elected by acclamation by the University Council as two of the representatives of the Council on the Board of Trustees for the ensuing three years.

MISS SEDGEWICK

600 GO TO MILITARY CAMP FOR MONTH'S TRAINING

APPROXIMATELY six hundred members of the C.O.T.C. and the Auxiliary Battalion have indicated their intention of proceeding to military camp with the Queen's Contingent as soon as examinations are over. It is expected that camp will break up the day before Spring Convocation on May 17.

Members of the Contingent wrote the Canadian Army (R.F.) promotion examinations on March 22 and 23 as follows: first paper, common to arms—artillery, 20, engineers, 86, infantry, 41, medicals, 40, and signallers, 14; second paper, special to arms—artillery, 144, engineers, 141, infantry, 68, medicals, 100, signallers, 43.

The annual dinner was held March 6 when officers, non-commissioned officers and invited guests, including high-ranking officials of the Kingston garrison, heard an address by Col. A. A. Magee, D.S.O., who had recently returned from England.

Platoon No. 33 of the Auxiliary Battalion, commanded by Lieut. W. W. Maynard, Sc. '42, won the dinner offered by the Committee of Military Education for the platoon which, in the opinion of the D.O.C., was the best on inspection. This dinner was held in the banquet hall of the Students' Union March 28, with Principal Wallace as guest speaker.

B'nai B'rith Hillel Foundation Is Established At Queen's

THE first B'nai B'rith Hillel Foundation in Canada has been opened at Queen's. The new Foundation will make available to the one hundred Jewish students at the University the same type of programme of religious, cultural, social welfare, and recreational activities already being served by Hillel to the 30,000 Jewish undergraduates at fifty-four colleges and universities in the United States.

Summer School Opens

THE thirty-second session of the Queen's Summer School will be held from July 3 to August 15. It has been announced that there will not be any changes in the curriculum.

STUDENT ACTIVITIES

COLOUR Night on March 7 was an outstanding event of the social calendar. Mr. Sylvanus Apps, captain of the Toronto Maple Leafs professional hockey team, was a guest at the dinner and gave an interesting talk on "Hockey," as well as helping in the distribution of athletic awards. Others who participated in the programme were Principal Wallace, Dean A. Vibert Douglas, Dr. L. J. Austin, and Mr. John Edwards, athletic director. J. M. Courtright, Sc. '41, president of the Alma Mater Society, acted as chairman.

The James Bews Trophy, emblematic of interyear athletic supremacy, was awarded to Science '43. The Royal Todd trophy went to Bill Pardy, Sc. '44, Mt. Brydges, Ont., and the Bill Steen trophy to Nev. Rivington, Sc. '42, Carp, Ont. Senior Q's with two stars were presented to the following final-year students: George Carson, Ottawa, and Ken Carty, Toronto; and senior Q's with one star were awarded to Jim Courtright, Ottawa, Rick Hepburn, Oakville, Jim and Bob Neilson, Stratford, and Mel Williamson, Winnipeg. Other awards included Q II's, Tricolor Society plaques, and A.M.S. executive pins and presentations.

The A. M. S. Formal dance, which followed the Colour Night dinner, was an enjoyable affair. The music was supplied by Mel Hamill and his orchestra. Harold Smuck, Sc. '41, was the convener in charge of the dinner and dance.

* * * *

The following were selected as 1941 members of the Tricolor Society as "students in the second term of their final year, who, maintaining a satisfactory academic standing during their undergraduate course, have rendered valuable service to the University in non-athletic, extra-curricular activities, namely the major offices of student government, journalistic work, debating, dramatics": Misses Lorna Breckon, Norwood, Ont., Margaret Cross, Port Arthur, Ont., and Agnes Richardson, Winnipeg, Man.; Messrs.

Ed. Barks, Ottawa, Ont., Gary Bowell, Vancouver, B.C., Jim Courtright, Ottawa, Ont., Matt Dymond, Toronto, Ont., Duncan Fraser, Renfrew, Ont., Murray Luscombe, Ottawa, Ont., Harvey Marshall,

SYLVANUS APPS

Revenna, Ont., Dick Maundrell, Ottawa, Ont., Hugh Megill, Ottawa, Ont., Pete Mumford, Kitchener, Ont., and Mac Young, Seeley's Bay, Ont.

* * * *

At the public-speaking competition on March 24, J. H. Houck, Arts '42, Brampton, Ont., won the Andrina McCullough Scholarship of \$50 with his address on "Trends and Needs in Education." Other McCullough scholarships of \$40, \$30, and \$20 were awarded to C. H. Vipond, Med. '43, Ottawa, Ont., Miss Gertrude Goodall, Arts '42, Ottawa, Ont., and Leonard Ireland, Arts '42, Smithfield, Ont., respectively.

* * * *

The Queen's War Aid Commission succeeded in its drive for \$1600 to purchase an ambulance for the Canadian government. In addition to previously announced schemes for raising money, a subscription drive was conducted among

the students and the final result was so successful that the Commission was able to make substantial grants to auxiliary war services and to a newly created student residence fund.

* * * *

A number of outstanding speakers visited the campus during the month, including Rev. Alexander Ferguson of St. Andrew's Presbyterian Church, Ottawa, Ont., who spoke on "Certainty in Religion" at the University church service March 2. . . . Hon. Thane A. Campbell, premier of Prince Edward Island, gave a public address under the auspices of the Queen's War Aid Commission March 2 on "National and International Anomalies." . . . Dr. W. E. Blatz, eminent Canadian psychologist, spoke on "Mental Health" March 7.

* * * *

Presidents of the various faculty societies have been elected for next year as follows: Levana—Miss Lorna Breckon, Arts '41, Norwood, Ont.; Theology—Milton Little, Theol. '42, Metcalfe, Ont.; Engineering—Norman Grandfield, Sc. '42, Hamilton, Ont.; Aesculapian—Hudson Campbell, Med. '42, Elgin, Ont.; Arts—Ross Preston, Arts '43, St. Catharines, Ont. J. H. Houck, Arts '42,

Brampton, Ont., was elected editor of the *Journal*.

* * * *

On March 4 and 5 a questionnaire covering the financial status of the students and other pertinent points was circulated on the campus by the Queen's Students Assembly, with the blessing of the Alma Mater Society and the support of the University authorities. The results are being tabulated by the educational branch of the Dominion bureau of statistics. . . . Miss Dora Tottenham, Arts '42, Kingston, Ont., won the girls' badminton title. . . . The iron-ring ceremony for the members of final-year Science was held in the Hydraulic Lab. March 4. It was followed by a dinner and dance at the Badminton Club. . . . The Queen's Glee Club gave its third annual concert March 10 in Grant Hall under the direction of Dr. F. L. Harrison, resident musician. . . . The Tricolour basketball team defeated Ottawa Rough Riders 37-30 in an exhibition game March 1. . . . The annual Levana spring tea dance was held in Ban Righ Hall March 8 with Miss Doris Anglin, Arts '43, Westmount, Que., as convener. . . . The executive of the Levana Society entertained this year's women graduates at a dinner March 26. A dance was held afterwards.

AT THE BRANCHES

Toronto

ESTABLISHING a new record attendance for affairs of this nature, 175 members attended the annual meeting and dinner held at the Granite Club March 21. A well-rounded programme was provided for the entertainment of the guests, and the proceeds were turned over to the Toronto alumnae to aid them in their war work. Dr. W. R. Patterson, Arts '02, Med. '06, president, was in the chair.

The guest speaker of the evening was Dr. G. A. Woodside, professor of history at Victoria University, who spoke on "The Amazing Greeks." His address,

partly anecdotal, partly personal experience, and partly historical, gave a clear insight into the temperament of the Greek people.

"A hard country produces hard men," said Dr. Woodside. "And Greece is certainly a hard country. Some of us had the idea that the Greeks would not be able to last long against the numerically superior and well-prepared Italians. Subsequent events have proved how wrong we were. Actually, the Greeks have a long and distinguished record of heroism and bravery."

Greece is a decidedly democratic country despite its long regime under a mon-

archy and later under a virtual dictatorship, said the speaker, citing many instances to prove his point. In defence of democratic ideals the people will fight to the very limits of their endurance.

The speaker was introduced by J. C. Macfarlane, Arts '11, chairman of Queen's endowment committee and formerly president of the General Alumni Association. He was thanked by J. E. Jones, Sc. '39, and the president added a few words of personal appreciation.

Dr. Patterson spoke on behalf of the endowment appeal and said that a canvass of the Toronto members would be made in the near future. The city was being divided into zones and a systematic campaign would be carried on. He urged his listeners to contribute generously to this worthy cause.

During the evening lucky ticket numbers were drawn and the winners, picked by Judge A. Gray Farrell, Arts '84, were G. E. Pilkey, Sc. '33, and K. T. Moore, Com. '29.

A popular feature of the programme was the presentation of several dance numbers by a talented group of young ladies who had donated their services. N. G. "Pat" Stewart, Sc. '15, led the meeting in a sing-song and in the rendition of faculty and University yells.

The committee in charge of this successful affair was composed of J. A. Bell, Sc. '24, convener, M. J. Aykroyd, Sc. '13, J. K. Barnard, Arts '35, A. J. Elliott, Arts '25, J. C. Ingram, Arts '28, Dr. K. A. Roberts, Med. '32, and W. D. Stone, Com. '28.

* * * *

AT the annual meeting March 24 in the University Women's Club, the alumnae reported that 230 sewn garments and 920 knitted articles had been made for the benefit of the troops and war victims. After the business session the members listened to the address of Wendell Willkie.

Officers were elected for the ensuing year as follows: president, Mrs. J. G. MacGregor (Eunice Simpson), Arts '23; vice-presidents, Miss Elizabeth Macpherson, Arts '24, Mrs. J. M. Hazlett (Flora Fair), Arts '16, Miss Helen Eakin, Arts '36; recording secretary, Mrs. J. E.

O'Farrell; corresponding secretary, Miss Katherine McCarthy, Arts '34; treasurer, Mrs. R. J. Jacobsen (Esther Wagner), Arts '25.

* * * *

TWO meetings of the luncheon group were held at the Picadilly Hotel during March. On the third, D. O. Robinson, Sc. '23, publicity engineer of the Canada Cement Company, told of some of the construction work in connection with the Commonwealth Air Training Plan. He also showed a film of Camp Borden. On the twenty-first, Dr. H. C. Horwood, Sc. '31, spoke on the geological work of the Ontario Department of Mines and its relation to the mining industry.

* * * *

Kirkland Lake

A PLEASANT evening was spent recently at the Park Lane Hotel when a group of films, including "Paths of Learning," was shown by Bert Marcuse, Arts '38. Afterwards a light lunch was served, and the guests took part in a sing-song. About forty were present.

A cheque for \$100 was sent as a contribution to the University's Centenary Fund.

* * * *

Windsor

THE annual dinner meeting was held at the Hotel Norton-Palmer on February 28, and was followed by dancing and bridge. Eighty-four were in attendance, including E. L. Pettingill, Sc. '16, and Mrs. Pettingill, from Mt. Clemens, Michigan.

The toast to the King was proposed by Major J. E. Zeron, Arts '20. The president, J. H. D. Wilson, Sc. '22, in his remarks paid honour to those absent because of service to the Empire, and to Dr. J. M. Young, Arts '02, Med. '04, and Mrs. Young, whose two sons are overseas, one in England and one in Egypt. Sympathy was extended to Dr. J. B. Arthurs, Med. '36, whose brother had been reported missing.

L. R. Cumming, Arts '16, proposed the toast to the University. He recalled the ideals and principles for which Queen's stands, and praised those men who had

brought honour to the University and who had been instrumental in having it exert a tremendous influence on the national life. Special reference was made to the late Dr. O. D. Skelton, who had filled a very important place in Canadian affairs. Mr. Cumming strongly urged the alumni to see that Queen's might continue as a living and vital force.

Officers were elected for the ensuing year as follows: honorary president, Dr. Young; past president, Mr. Wilson; president, A. F. S. Gilbert, Sc. '20, Arts '21; vice-president, Mr. Cumming; secretary-treasurer, Mrs. L. V. Kitts, Arts '31; representatives, Dr. H. H. Lees, Med. '19, Mrs. F. A. Landriau (Dorcas Kelly), Arts '16, A. M. Innes, Sc. '33, Miss Grace Stewart, Arts '16, J. F. Wallbridge, Com. '29, W. H. Culbert, Arts '34, and R. J. Molloy, Com. '36.

A resolution was moved by W. M. Wright, Arts '12, that, if possible, the General Alumni Association should send at least twice a year to each member in the service the names of the Queen's men who have enlisted, together with the names of the units to which they are at-

tached, thereby fostering the Queen's spirit.

Montreal

THE fifth regular meeting was held at the Mount Royal Hotel on March 12, with the president, C. A. Root, Arts '19, in the chair. Approximately sixty members were in attendance.

The guest speaker of the evening was Dr. C. A. Porteous, Med. '01, superintendent of the Verdun Protestant Hospital, who spoke on "Some Current Problems Related to Mental Disorders." He pleaded for a more intelligent attitude towards mental diseases than is generally held by the public today.

The usual feeling of the public was either one of revulsion, morbidity, and fear, or even worse, that of considering the matter funny and referring to the plight of mental patients as though it were a joke, said the speaker.

"The public does not joke in the same way about tuberculosis or cancer," said Dr. Porteous. "Not only is such an attitude wrong, but it obviously tends to hinder the possibilities of cure by aiding the

patient to regain a normal place in society. The percentage of cures is increasing all the time and in selected cases is as high as 40 per cent. In the treatment of mental cases, there has been a marked improvement throughout the last twenty-five years."

The speaker was introduced by F. W. Paynter, Arts '16, and was thanked on behalf of the meeting by R. O. Sweezey, Sc. '08. A long discussion period followed.

H. J. Hamilton, Arts '32, secretary-treasurer of the General Alumni Associa-

tion, told the gathering about the contribution Queen's was making to the Canadian war effort. An outline was also given of the programme planned for the Centenary celebration next fall.

* * * *

A SHERRY party to raise funds for Queen's War Aid Commission was held March 15 at the home of Mrs. H. J. Rowley (Lucille Corbett), Arts '19, Westmount, Que. The party was arranged by the Montreal alumnae.

ALUMNI NEWS

Births

Carson—At the Civic Hospital, Ottawa, Ont., on March 18, to Robert E. Carson, Sc. '39, and Mrs. Carson, a son (Robert Burton).

Dimitrieff—At the Little Long Lac Hospital, Geraldton, Ont., on February 24, to Mr. George Dimitrieff and Mrs. Dimitrieff (Winona McBroom), Arts '33, a son.

Goodfellow—At St. Joseph's Mercy Hospital, Aurora, Ill., on December 18, 1940, to Dr. J. G. Goodfellow, Med. '36, and Mrs. Goodfellow, a son (John Robert).

Hare—At the Royal Victoria Hospital, Montreal, Que., on January 10, to W. L. Hare, Arts '31, Sc. '35, and Mrs. Hare, a daughter (Peggy).

Krug—At St. Joseph's Hospital, Peterborough, Ont., on March 22, to C. M. Krug, Arts '37, and Mrs. Krug, a son (Richard Lawrence).

McLeod—At the General Hospital, Kingston, Ont., on March 14, to Dr. P. A. McLeod, Arts '21, Med. '26, and Mrs. McLeod, a daughter.

Patton—At the General Hospital, Kingston, Ont., on March 27, to Lieut. J. M. S. Patton, Sc. '39, G.C., and Mrs. Patton (Mollie Teskey), Arts '39, a son (John Macmillan Stevenson).

Watts—At St. Francis Hospital, Poughkeepsie, N.Y., on February 11, to Dr. Lloyd E. Watts, Med. '39, and Mrs. Watts, a daughter (Elizabeth Olivia).

Marriages

Bews—On March 22, in St. Clement's Anglican Church, Toronto, Ont., Margaret May Robinson to Malcolm Alexander Bews, Arts '37, son of Mr. James G. Bews, superintendent of buildings and grounds at Queen's University, and Mrs. Bews. They will live in Valleyfield, Que.

Brooks—On April 5, in St. Clement's Church, Toronto, Ont., Margaret Rea to Murray Newcombe Brooks, Com. '31.

Dinberg—On March 29, in the Morgan Memorial Chapel, Queen's University, Harriet Margaret Malloch, daughter of Norman Malloch, Sc. '12, and Mrs. Malloch (Jean Scott), Arts '05, to Dr. Maurice C. Dinberg, Med. '38. They are living in Canton, N.Y., where Dr. Dinberg is attached to the staff of St. Lawrence University.

Goodwin—At Debert Military Camp, Nova Scotia, on March 21, Lois Allison Hamblett, daughter of Mr. and Mrs. R. W. Hamblett, Victoria, B.C., to Lieut. William Roy Goodwin, Arts '40, of the Royal Canadian Artillery, son of W. M. Goodwin, Arts '09, Sc. '11, and Mrs. Goodwin.

Loken—In Chalmers United Church, Kingston, Ont., on March 15, Allene MacPhail to Roy Loken, Arts '38, of the Royal Canadian Air Force. They will live at 86 Rosecliffe Ave., Toronto.

McCue—On March 22, in Temple Baptist Church, Montreal, Que., June Elizabeth Rose to Dr. John Arthur McCue, Med. '36, Smiths Falls, Ont.

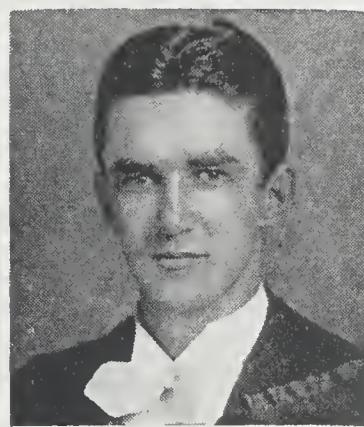

Zacks—On March 28, in Toronto, Ont., Edythe Zacks, Arts '39, to Mr. Harvey Millman.

Deaths

Cotton—Well-known throughout the Province of British Columbia as a civil engineer, Miles Penner Cotton, Sc. '00, died at View Royal, B.C., March 16. He was born at Kingston, Ontario, in 1878, and attended the schools of that city before entering Queen's in 1895. He was enrolled in Arts and then transferred to Science on an electrical engineering course, but he left after successfully completing one year's studies. He is survived by his daughter and two sons.

'Andrews—Second Queen's casualty of the war, Flying Officer M. J. (Don) Andrews, Arts '38, was instantly killed when an Avro-Anson bomber of the Royal Canadian Air Force crashed into a tree about five miles southeast of Brantford, Ontario, March 23. The plane, which was from No. 5 Service Flying Training School, was on a routine flight at the time. Mr. Andrews was born at Fournier, Ontario, in 1916, and at the age of four moved to Cornwall, where he received his preliminary education. He entered Queen's in 1935 and obtained his B.A. degree three years later. He enlisted in the R.C.A.F. in 1939, training in Calgary, Alberta, for three months. He was later transferred to Camp Borden, Trenton, and Brantford, in Ontario. He had been at the No. 5 Training School since it was opened last November. He is survived by his parents, four sisters, and five brothers.

Casselman—Liberal member of Parliament for Edmonton East, Frederick Clayton Casselman, Arts '11, died suddenly at Ottawa, Ontario, on March 20. He had been at the House of Commons earlier in the day

DON ANDREWS

and appeared to be in the best of health. Mr. Casselman was born at Helmsville, Montana, 1856, and brought to Ontario as a child. He received his preliminary education at Forest and Watford schools before entering Queen's. He obtained his B.A. degree in 1911 and was granted a specialist's certificate in mathematics the following year. He studied at the Faculty of Education of the University of Toronto the first year that division was in existence there, and taught in a number of high schools in Ontario. For a short time he was junior mathematics master at Upper Canada College in Toronto. Turning from the schoolroom to the courtroom, Mr. Casselman went to Edmonton, Alberta, and studied law. When war broke out he enlisted and went overseas with the 202nd Sportsmen's Battalion, C.E.F., and served in France with the Dorset Regiment. He won the Military Cross, and was severely wounded just before the armistice. Mr. Casselman had a long apprenticeship in public life. For nine years he served on the Edmonton Public School Board and for three years sat as an alderman of Edmonton City Council. Last year he was elected to the House of Commons. An all-round athlete and follower of sport, he played football, hockey, basketball, and tennis. He is survived by his wife, Cora Watt, Arts '12, and one daughter.

George—Stricken by a heart attack, Dr. John Joseph George, Med. '27, died suddenly at his home in Sandy Hook, Connecticut,

THOROLD, ONTARIO

J. Buss, Sc. '19 C. R. Buss, Sc. '27

on March 26, at the age of thirty-eight. He was born in Eganville, Ontario, son of the late John George and Julia Bonfield and grandson of the late James Bonfield, M.L.A. of Ontario. He attended the separate school at Eganville and later, when his family moved to Ottawa, he was a student at Lisgar Collegiate Institute. After spending a short time at McGill University he enrolled as a student in Medicine at Queen's in 1921, graduating with the degrees of M.D., C.M. in 1927. He then completed an internship at St. Mary's Hospital, Detroit, Michigan, and was a member of the School Division, Board of Education of Detroit, before starting in private practice at Sandy Hook and Newtown. About three years ago he was stricken with infantile paralysis, from which he never fully recovered. Dr. George was a popular member of his community and was recognized as a competent physician and diagnostician by men of the medical profession in his district. He was a staff member of two hospitals in Bridgeport. He was most generous in his services to those less fortunate than himself and took a special interest in the welfare of children. Survivors include his widow, formerly Norleen Corrigan of Kingston, and six children; a brother, Rev. James N. George, parish priest of Cormac, Ont., and two sisters, Mrs. Carmine Crudo, Sloatsburg, N.Y., and Miss Patricia George of the Department of Agriculture, Dominion Government, Ottawa. His mother died just four months ago. Dr. George's funeral took place at Eganville.

Watson—Third Queen's casualty of the war, Ordinary Seaman Sidney R. Watson, Arts '40, died in the 64th General Hospital in Alexandria, Egypt, about April 3, as a result of injuries received during a sea battle in the Mediterranean. He was one of the first group of twenty-five Canadian youths to go to England for training with the Royal Navy, and he would have received his commission in another three months. He was a member of the crew of the "Bonaventure," a British cruiser, where he was working in the "plotting room." Born at Port Credit, Ontario, in 1919, he received his early education there and at Albert College. He entered Queen's in 1937 and received his B.A. degree three years later. He was a member of the Arts '40 permanent executive. Although he was at one time interested in journalism, he later decided to take up law and before he went overseas he registered at Osgoode Hall. He is survived by his parents and two brothers.

Watson—Victim of a sudden heart attack, R. R. Watson, Sc. '12, died February 16 at Bourlamaque, Quebec. He had spent

S. R. WATSON

the evening among old friends and was just leaving for home when stricken. Mr. Watson was born at Cornwall, Ontario, in 1889, and obtained his preliminary education in the schools of that city. He entered Queen's in 1907 and received his B.Sc. in mining engineering in 1912. Affectionately known as "Wattie," his death came as a shock to a wide circle of friends and acquaintances throughout the northern mining districts of Ontario and Quebec. Mr. Watson had been a valued employee of Lamaque Mining Company at Bourlamaque since the initial stages of its development. Interment was made at Val d'Or, Quebec.

Notes

1880-1889

Rev. James Cattanach, Arts '89, recently completed twenty-five years as pastor of Govans Presbyterian Church, Baltimore, Md. His parishioners celebrated the occasion by holding a reception in his honour in the church parlours on Sunday afternoon, March 2, when an address was read and a purse presented to him and Mrs. Cattanach.

1900-1909

G. C. Bateman, Sc. '05, metals controller for Canada, was the principal speaker of the opening session at the annual meeting of the American Institute of Mining and Metallurgical Engineers held at the Hotel Commodore, New York City, in February. On the evening before the A.I.M.E. Smoker, **O. B. J. Fraser**, Sc. '16, of the International Nickel Company, entertained visiting Queen's delegates and guests. These included, besides Mr. Bateman, Dr. A. M. Bateman, Sc. '10, New Haven, Conn., R. A. Elliott, Sc. '10, Deloro, Ont., A. A. MacKay, Sc. '10, and A. N. Miller, Sc. '38, Montreal, N. F. Tisdale, Sc. '19, Pittsburgh, Pa., S. F. Drewry, Sc. '17, Westfield, N.J., R. H. Hay, Sc. '36, N. A. Morrison, Sc. '23, A. J. McNab, Sc. '02, and C. W. Knowles, Sc. '19, all of New York City.

F. W. Sheppard, Arts '02, is retired and living at 314 Glenmanor Drive, Toronto.

1910-1919

M. J. Aykroyd, Sc. '13, Toronto, is confined to his home as the result of injuries sustained in a fall recently.

Milford Burrows, Sc. '12, is metallurgist at the Greening Wire Company, Hamilton, Ont.

Dr. P. H. Huyck, Med. '11, Kingston, was recently elected president of the Ontario Motor League.

Dr. Kenneth Keill, Arts '19, Med. '22, formerly of Brentwood, Long Island, N.Y., was recently appointed superintendent of the Willard State Hospital, Willard, N.Y.

Rev. William Scott, Arts '11, foreign missionary at Hamheung, Korea, has been ordered by United Church officials to leave his work and return to Canada.

D. A. Sutherland, Arts '14, is principal of the high school at Kincardine, Ont.

Dr. Charlotte Whitton, Arts '17, of Ottawa, executive director of the Canadian Welfare Council, spoke on "Over-All Social Planning" in the last of the series of nine addresses on social work given in Convocation Hall, Queen's University, on March 21. The addresses were held under the auspices of the Council of Social Agencies in Kingston and district.

1920-1929

Rev. G. F. Bruce, Arts '28, and **Rev. D. K. Faris**, Arts '21, Theol. '24, foreign missionaries in Korea, have been ordered home by the Foreign Mission Board of the United Church of Canada.

Major S. C. Clegg, Arts '29, has been promoted to the rank of Lt.-Col. Commanding Officer 1st. Bn. Dufferin and Haldimand Rifles, C.A. (A).

Eric Cross, Arts '24, M.L.A. for Norfolk, and former minister of municipal affairs in the Ontario Government, addressed the Kiwanis Club of Toronto on March 19 on the subject of municipal taxes.

Stewart Denovan, Sc. '25, is on the staff of Fisher Body, General Motors Building, Detroit, Mich. He lives at 2516 Fullerton St.

G. A. Rolf Emery, Arts '21, of Toronto, and **Dr. J. R. Emery**, Arts '25, Med. '27, of Scarsdale, N.Y., were bereaved on March 30 by the death of their mother, Mrs. George Frederic Emery, Kingston.

Dr. John H. Findlay, Arts '25, Sc. '27, Montclair, N.J., and **R. A. Findlay**, Sc. '30, Nobel, Ont., were bereaved on March 31 by the death of their mother, Mrs. John Findlay, Kingston.

Harry Friedgut, Arts '22, is now managing director of the Griffith Music Foundation, Newark, N.J. He has been with this organization since 1937.

J. R. Howie, Arts '23, is placement officer of the Ottawa High School of Commerce.

Miss Minnie Lenz, Arts '24, of the Listowel High School staff, was bereaved on March 3 by the death of her father at his home in Bartonville, Ont.

D. S. MacDonald, Sc. '24, is manager of the Bird Construction Company, Regina, Sask.

Dr. W. M. McNeely, Med. '22, is on an extended leave from his duties at the Essex Sanatorium, Windsor, Ont., owing to ill health.

C. F. O'Gorman, Sc. '22, of the staff of the Ontario Department of Highways, has been transferred from Nipigon to Port Arthur.

A. S. Townshend, Sc. '24, has moved to Toronto from Niagara Falls. He is with the Donald Inspection Company at 208 King St. W.

Dr. R. M. Tovell, Arts '24, Med. '26, has been in charge of the department of anesthesia at Hartford Hospital, Hartford, Conn., since September, 1936. He is one of the members of the American Board of Anesthesiology, president of the American Society of Anesthetists for 1941, and one of five civilian members of a subcommittee on anesthesiology of the Surgical Advisory Committee in the National Research Council work on the standardization of anesthetic practices. **Dr. A. W. Friend**, Arts '27, Med.

"Do you know what I'm thinking?"

"That you'd like to come in—for a Sweet Cap?"

SWEET CAPORAL CIGARETTES

"The purest form in which tobacco can be smoked."

'29, is at present training under him, being one of ten resident physician anesthetists at the Hartford Hospital.

1930-1940

T. D. Anderson, Sc. '35, formerly mine manager at Sturgeon River Gold mines, has accepted a position with Sorel Steel Products Limited, Sorel, Que.

Joseph Booth, Sc. '37, of the Consolidated Mining and Smelting Company, has been transferred from Yellowknife, N.W.T., to the company's plant at Kimberley, B.C.

H. W. Brown, Arts '36, formerly principal of the Consolidated School at Wellington, Ont., has been appointed as inspector of public schools in the North Bay district. He will reside at Timmins.

Wilfrid Charland, Arts '33, is on the staff of Whitehall Broadcasting Company, Dominion Square Building, Montreal.

John Dobson, Sc. '40, has been employed by the Meteorological Service of Canada since last November. He is in the meteorological office at 315 Bloor St. W., Toronto.

A. H. Honsberger, Sc. '37, is now at Gold Frontier Mines Limited, Red Lake, Ont.

Dr. H. C. Horwood, Sc. '31 (Ph.D. Massachusetts Institute of Technology), of the staff of the Ontario Department of Mines, Toronto, has completed the geological map of the Red Lake area in Ontario on which he has been working for some time. It is now available for distribution at the Parliament Buildings, Toronto. The map is the largest detailed outcrop map on the scale of one inch to one-half mile ever published by the Department and probably one of the largest of its kind ever published in Canada. Field work on the map was carried out by Dr. Horwood during the summers of 1937-38-39.

F. E. James, Sc. '31, is now associated with Federal Aircraft, Montreal. His resi-

dence address is 3780 Cote St. Catherine Road.

A. W. Johnston, Sc. '34, is on the staff of Central Patricia Gold Mines, Central Patricia, Ont.

Miss Helen McRae, Arts '40, who has been employed in the Dean of Arts' office at Queen's University since last September, has now accepted a position with the Empire Life Insurance Company, Kingston.

D. E. McTaggart, Sc. '34, has been superintendent of the lead works of McArthur Irwin Limited, Montreal, for the past three years.

Miss Nora Quigley, '39, has been teaching for the past year in the high school at Deseronto, Ont.

Warren Raynor, Sc. '39, is at present engaged as a jig and tool designer in the engineering department of Canadian Car and Foundry Company, Turcot Plant, Montreal.

L. S. Snarch, Arts '34, is practising as an advocate and commissioner at 5131 St. Lawrence Blvd., Montreal.

H. G. Smith, Med. '37, of the Royal Canadian Air Force (Medical Branch), has been promoted to the rank of squadron leader.

D. F. Toppin, Arts '38, is division manager for the Crown Life Insurance Company, Kingston.

R. J. Webster, Sc. '39, is employed by the British Air Commission and is at present inspector-in-charge at the Kelsey Hayes Wheel Company, Jackson, Mich.

Miss Helen Young, Arts '38, is in charge of advertising for the Bartlett, McDonald and Gow Company, Windsor, Ont.

General

Dr. L. A. Munro, of the department of chemistry, Queen's University, spoke to the Ontario Agricultural College branch of the Canadian Institute of Chemistry in Guelph on February 24. His subject was "Colloid Chemistry."

THIS GREAT YEAR

*Principal Wallace's Address to the Graduating Class at Spring Convocation,
Grant Hall, May 17, 1941.*

YOU come to graduation this year under exceptional circumstances. The war has already affected you so greatly that practically all the men have been, or are, in camp for military training. You graduate in the hundredth year of the life of your university. I wish to take a few minutes this afternoon, as you go out from Queen's, to speak to you on these two circumstances which mark your graduation as different from the many other functions that have taken place in this hall in the years that have gone.

It is a very happy arrangement that so many of you could be released from camp training in order to be present at Convocation. Here you gather together for the last time in a formal function as undergraduates. Tomorrow you go your own respective ways. You meet here, to part again for your own work to which you have been fitted in your years of student life. In your last year the demands of the world situation have overshadowed everything else, and have made concentration on the academic life not easy. You have been in military training—all of you—and it has taken much of your time and energy. I include the women in this category, for you too have been giving your time in your own way to the prosecution of the war. This is in a very real sense a war convocation.

There are strenuous times ahead. The war will not be won without heavy sacrifice—heavier than we have yet experienced. In making that sacrifice we must weigh the alternative. If we do not make it, what is there left? The events of the past months have made the answer abundantly clear. What is left is some way of life where we would not be free to speak our minds, where children would turn informers against parents, where religion would be ridiculed, where freedom would have disappeared, where truth and honour would be held of no account. That is the alternative. There is no compromise with evil. That, at least, life has taught us, and our judgment reinforces the lessons of our own experience. So the fight is on, and must go through to the end.

And out of the experience of war there is coming to us, as it has already so magnificently come to the people of Britain, a clearer sense of the values of life. Property and wealth and social distinction mean little in Britain today. The inner worth of man and of woman is the thing that counts. It should be so clear to us at all times that human personality, that faith, courage, decency, brotherliness, honour, that whatsoever things are true and of good report, are all that matter in life. But other less worthy values have blinded our eyes. Today, in the stress of daily peril, the real values are supreme. The purging has not yet come to us, as it will come. But we have

taken the first step. We have bowed down in thankful admiration at the courage and endurance of the men and women of the British Isles.

To this world of changed appraisals and judgments you are going out. It is our confident expectation that you will play your part courageously and fearlessly in the fight against an evil interpretation of the place of mankind in the universe. The fight will go on after the war has been won. The war must be won before the fight can continue. For in the post-war days of reconstruction it will be imperative that all that has hampered in the achieving of the fullest development of human personality should be removed from the body politic. That is easy to say. It is difficult to achieve. It will need the knowledge and wisdom and judgment of all trained minds. It will need courage and initiative. You are fitted for the task. In large measure it will be in your hands.

You are graduating in the hundredth year of the life of your university. In a very special sense, at such a time you and we together are looking behind in order that we may the better look ahead. In the contemplation of the problems which Queen's has had to face, in the realization of the indomitable courage with which she has faced them, we gain wisdom and confidence for the days that lie ahead. Whatever of individuality, of independence, of distinctiveness, of intellectual and moral fibre this university may possess—and I feel that she possesses these attributes in good measure—has come from the difficult situations which Queen's has faced, and overcome. She has had to fight for money with which to carry on. That fight still goes on. More and more we must depend on our own people—graduates such as you are now to be—to give their own university such support as they can in the days to come. Outside support in any large scale is increasingly difficult to obtain. Again, there have been occasions when the liberty to act independent of ties or affiliations was a matter at issue, and when the decision was made to choose freedom of thought and of action even at the cost of cherished associations. If universities are to count in the years that are ahead, they must be free. The time may come when threats to freedom will menace this and other institutions of learning. The light has already gone out from many halls of learning in Europe. If such a time should come, we will take courage from past days and stand for that freedom under which alone a university can survive. The story of the days that have gone will fortify us against the enemies of freedom, from whatever direction they may assail us.

One thing stands out above all others. Memories of Queen's cluster around some great figures who, in their teaching, their personality, and their lives, counted greatly with the students of their time. In education nothing else counts in comparison with personal inspiration to intellectual and moral enthusiasm. The greatest thing that I could wish for you, as you go out from these halls, is that you too carry the treasured memory of some teachers who will always to you be Queen's. The very best that I can hope for the Queen's that is to be is that the vitality of the teaching staff and the strength of personality which they embody may be the greatest factor in the life of this university. The torch of divine fire is passed from hand to hand, the

inspiration from lip to lip, the spiritual afflatus from soul to soul. May we never depart from this way of education. It is the true way.

Men and women who are graduating today: You are going out at a time of national stress and peril, when fundamental values are in grave danger of dissolution. You, I know, will stand firm for truth and decency, and will not be lacking in courage and endurance in the days ahead. You go out in this memorable year in the history of your own university. You are carrying into the future the values of the past. What you have received, you will, I know, give back in spiritual and material support in ample measure. You leave us to go forward as an advance wing into the new era in our history. You will play your part nobly and well.

RECORD NUMBER LAUREATED AT CLOSE OF 100TH SESSION

A RECORD number of 459 received their degrees at Spring Convocation on May 17 in a ceremony bringing to a close the one hundredth session of Queen's University. A large audience of parents and friends filled every available seat in Grant Hall and many were unable to gain admittance.

Honorary LL.D. degrees were conferred upon three men who have distinguished themselves in widely different fields of endeavour: Hon. Albert Matthews, lieutenant-governor of the province of Ontario; Dr. Walter Thomas Connell, Med. '94, head of the department of medicine at Queen's; and Fraser Daniel Reid, Sc. '04, mining engineer. The Hon. Dr. Matthews replied on behalf of the recipients of degrees.

Principal Kent of Queen's Theological College read the scripture and led in prayer. Dr. Frank Harrison, resident musician, provided appropriate music at the console of the Bogart memorial organ. The proceedings were broadcast over Queen's radio station CFRC.

The number of degrees granted by examination were awarded as follows: M.A., 16; B.A. (honours), 48; B.A. (pass), 166; M.Com., 2; B.Com., 34; B.D., 5; M.D. and C.M., 42; M.Sc., 5; B.Sc., 141.

Official History Issued

THE *History of the University*, by Mr. D. D. Calvin, prepared for the Centenary, will be issued during June.

Graduates may obtain copies through the University for \$2.00. The price to the general public will be \$2.50.

EIGHT RECEIVE TESTAMURS AT CLOSING EXERCISES

TESTAMURS were granted to eight students at the closing exercises of Queen's Theological College in Convocation Hall on April 24. The ceremony was conducted by Principal H. A. Kent.

Those who graduated were L. W. Carlson, Arts '40, Haileybury, Ont.; J. V. Clarke, Arts '41, St. Thomas, Ont.; V. H. Fiddes, Arts '38, Kingston, Ont.; W. H. Martin, Arts '37, Queensville, Ont.; G. L. Mills, B.A., Mossley, Ont.; D. C. Osborn, Arts '39, Medicine Hat, Alta.; G. W. Payne, Arts '41, Forester's Falls, Ont.; T. H. Smith, Arts '38, Guelph, Ont.

The Hugh Waddell travelling and the Leitch Memorial No. 2 scholarships, valued at \$500 and \$100 respectively, were won by Mr. Payne. The prize list also contained the name of Miss Alice Armstrong, Arts '40, Meaford, Ont., the first woman student to enrol in theology in the one hundred years' history of the College.

The students were addressed by Principal Kent, Principal Wallace, and Rev. W. J. Fiddes. Dr. J. M. Shaw announced the names of the prize winners. The scripture lesson was read by Rev. G. A. Brown, who also led in prayer.

Originally scheduled for the Morgan Memorial Chapel, the ceremony was held in Convocation Hall in order to accommodate the large number present.

CANADA — A DEMOCRACY AT WAR

Contributed

ONE day in March, Wendell Willkie sat on a work-bench in Vickers' Montreal plant and talked to workers. He told them that the war challenged democratic labour to beat totalitarian labour at the job of war production. "And," he said, "I know you can do it."

Grimy workers cheered and shook Willkie's hand. Those who could not leave their work hammered the nearest thing that would make a noise.

Earlier the same day, speaking to Montreal's Canadian Club, Willkie declared, "If the political, business, and labour leaders do not measure up, the people will brush you aside. Because if you don't save freedom for them—as they have a right to ask—they are going to call upon a leadership with the power to give them what they want." But, he went on, if these leaders get together on war production, they can make totalitarian states "look like toy manufacturers."

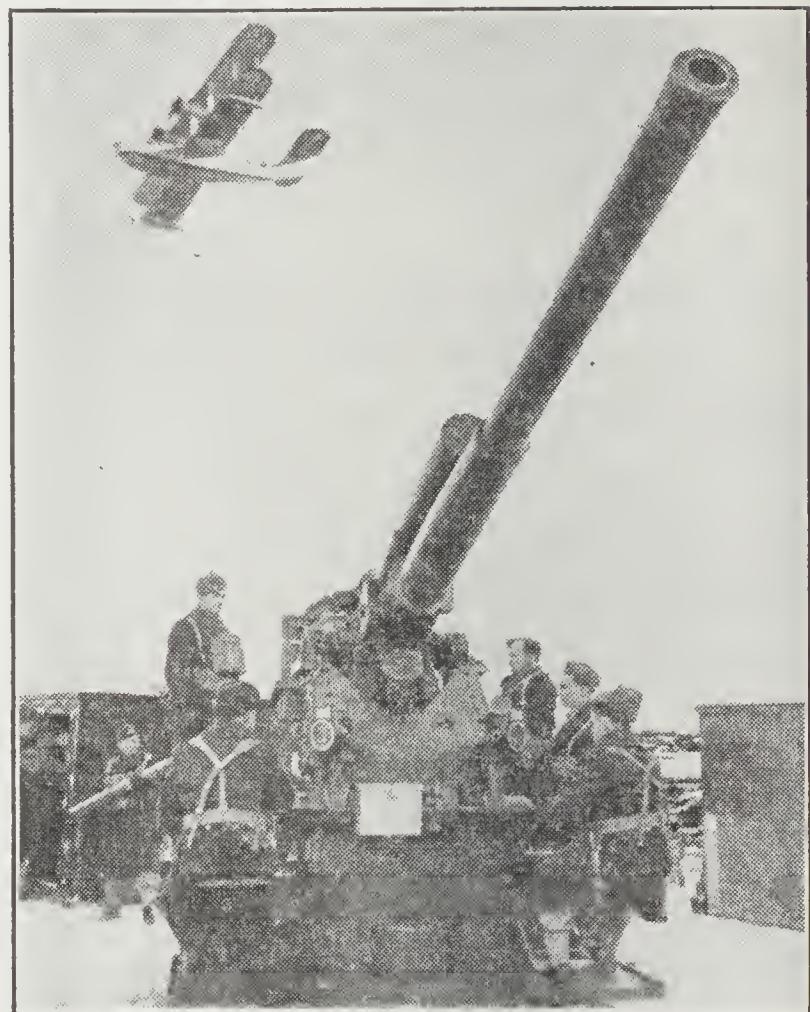

On the same day Prime Minister MacKenzie King, reviewing the Canadian war effort before the House of Commons, told members that the fullest possible credit should be given to those who are bearing the burden of the war, namely, the people of Canada. "There has been far too great a tendency," said Mr. King, "both in the House and in the press, to speak of what we are doing as the government's war effort. We all know it is something far greater than that. It is Canada's war effort!"

Canada is a democracy at war. More and more the war is reaching into the fabric of our national life, drawing larger numbers of people directly or indirectly into its service.

Factories across the country are humming as Canadian industry speeds up and expands. Construction workers in the past year have been busy building new plants and plant additions which will cost \$380,000,000. Between 330,000 and 350,000 additional workers have been absorbed into industry. Thousands more are being trained every month in technical and plant schools across Canada. With every large factory already engaged in war production, smaller factories are

steadily being drawn into war work by a system of zoning.

Every day, workers in Canada's factories turn out products that are vital to the war effort or that are needed by Canadian and British people in their daily lives. As personal equipment for the Canadian

COASTAL DEFENCE

armed forces more than 100,000 separate and distinct articles have been provided in enormous quantities. Munitions and supplies of war are being produced in steadily increasing volume—rifles, automatic weapons, guns, shells, chemicals, and explosives, motorized army vehicles, ships, airplanes, machine tools, steel and alloys, and other minor products such as instruments and parachutes.

The production of automatic weapons in Canada is reaching gratifying proportions. One Canadian factory, which began production before the war and is now producing much ahead of schedule, will soon have the largest output of any automatic gun plant in the world. Fourteen types of land and naval guns, including latest type anti-aircraft and anti-tank guns, and ten types of mountings, are

now being produced or are soon to be produced in Canada. Shells and shell components are being produced in many factories well up to schedule. About 350,000 shells a month are now being turned out. Eight of Canada's nineteen chemicals and explosives plants have begun to produce. Six more will be in production by the end of the year. One of these plants is equal in size to the largest similar plant in the British Empire. Ninety thousand military vehicles have been turned out in Canada. The majority of these have been exported to Britain and Empire countries. They were used in large numbers against the Italians in Libya. Keels of 104 steel and 380 wooden ships have been laid down in Canada since the beginning of the war. These include forty-seven corvettes, fifteen minesweepers, and a large number of smaller craft. This shipbuilding programme is to be completed in 1942, a year ahead of schedule. Twenty large cargo vessels for Great Britain are on order and plans for the construction of destroyers are going forward. The latest estimate of the cost of the whole programme is \$115,000,000. Canadian aircraft factories are now turning out about forty planes a week, the engines being imported. Production of machine tools jumped 800 per cent in 1940 and more are being produced as rapidly as possible. Steel production has increased tremendously in Canada. The 1935-38 average was 1,300,000 tons a year. Production is now estimated to be at the rate of 2,150,000 tons a year. Production of metal alloys is ten or twelve times the pre-war level. High-grade steel is now being produced in quantity in preparation for large-scale tank production.

Canada's construction industry has been largely diverted to war work. By the latter part of 1940 more than 60 per cent of the 1938 construction capacity had been moved over to war jobs. Building permits rose 89.5 per cent in 1940 over 1939. In addition to the large programme of industrial construction, the industry has completed twenty-eight navy, ninety-eight army, and 630 air-force projects.

Thus, night and day in towns and cities across Canada fires burn and men toil to

produce the sinews of war. Canada to-day throbs with industrial activity more tremendous and more urgent than ever before in her history.

FARMS PROVIDE FOOD

Though the towns are humming, the countryside in its quiet way is busy too. Farmers on the wide prairies and on the rich soil of long-settled lands are growing food for Canada and for Britain. To the storehouses of our cities and to wharves across the sea their nourishing bounty flows. From Canada, this year, Britain will get 70 per cent of the wheat she needs; from Canada she will get large quantities of the foodstuffs she most urgently requires to feed her people—cheese, condensed milk, bacon, offals and bladders for making sausages, fish, honey, dried fruit, and other products.

In the hard rock of Canada's mountains and uplands, miners toil, throwing up minerals to be forged into metals for this mechanized war. Zinc, copper, aluminum, nickel, and lead are to-day being produced in greater quantities than ever before. Canada's mineral production in 1940 was valued at \$529,000,000—an increase of 11.5 per cent over 1939 and a record output.

In the forests lumbermen hew the woods, hard and soft, which are so precious to-day when so much building is being done both here and in Britain and when Britain's Scandinavian supply of wood pulp has been cut off. Canada is to-day exporting greater quantities of timber to Britain than ever before.

On railways from coast to coast, on the highways, and on the seas, transport workers bear raw materials to factories and finished products to their destinations. Canada's transcontinental railways in 1940 report a gross revenue 24 per cent greater than in 1939. Since the start of the war the Canadian navy has convoyed about 23,000,000 tons of shipping out of Canada. Canada's external trade expanded 36 per cent in the same period. To Britain we sent 50 per cent more goods of all kinds, and this year Canada's exports to Britain will be valued at \$1,500,000,000. Our exports to the

United States jumped 15 per cent, the increase being almost entirely in pulp and pulp products and nickel. Our imports from the United States jumped about 50 per cent, vast increases in war imports more than making up for a decrease in non-essential imports.

"WHITE COLLAR" WORKERS

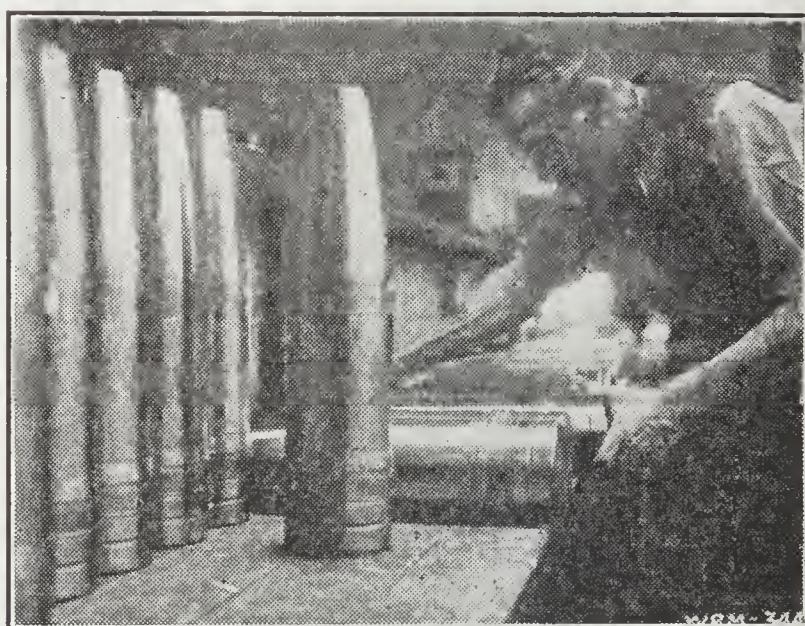

In offices in every important Canadian town "white collar" workers are devoting themselves directly or indirectly to the prosecution of the war. In Ottawa, the cabinet, parliament, the senate, and the civil and armed services carry out the tremendous job of war administration and legislation. About ten thousand additional office workers have come to the Capital since the outbreak of war. Temporary buildings have been put up to house many government offices. More than a hundred "dollar-a-year" men are serving in key positions. Thirty-six special war organizations have sprung up since the outbreak of war and have their offices in Ottawa. Hundreds of both uniformed and civilian officials and workers administer the affairs of the navy, army, and air force.

At Ottawa problems of war administration, large and small, with all their ramifications, are continually being met and dealt with. Matters of policy, of economic organization, security, naval, military and air operations, external affairs—all these and many other problems present themselves in pressing detail to the army of office men and women who toil daily in the nation's capital.

In other centres from coast to coast similar tasks are being tackled by similar people. Newspapermen, industrial, commercial, and financial men, technical experts, scientists, professors, and a host of others are unobtrusively using their brains and their experience to help prosecute the war.

There are others who have chosen to serve in more arduous ways. A quarter million Canadian men have taken up arms that they will not lay down till the war has been won. Sixty thousand soldiers are in Britain fully equipped and ready for battle. More than a hundred thous-

and more are in Canada—on guard along the Atlantic and Pacific Coast or at vital points across the country, or in training at one of fifty-nine army camps across the country or in depots. Others are on guard in Newfoundland, Iceland, and the Caribbean. A very large number of airmen and radio technicians have arrived in Britain to reinforce the "All-Canadian" and the three R.C.A.F. squadrons that have been serving there for many months

SHELL INSPECTION

and which have shot down more than two hundred enemy planes. Many thousands of airmen are now in training at over fifty schools across the country. Daily their planes hum and roar through the clear northern air. Daily, too, R.C.A.F. pilots on duty in Canada patrol our coasts from the American border to the Arctic circle. Sixteen thousand Canadians are serving in the Royal Canadian Navy and over a thousand with the Royal Navy. The 380 ships, large and small, of the R.C.N. ply the seas day and night, carrying the white ensign back and forth across the gray Atlantic, up and down the long coasts of Canada, and over the perilous waters that beat against the British Isles.

There are others to whom the war has brought no special call to service, no opportunity to engage directly in war work. Children, housewives, storekeepers, school teachers, firemen, policemen, milkmen, waitresses, and all the rest—the vast majority of our population—the people who, by carrying on in their own work and keeping things going well in the

face of whatever difficulties and hardships war may impose, are doing their part in fighting this "total war." In addition to this duty, however, the ordinary citizen has a direct war burden to bear that is of the utmost importance. He must do his part in financing the war. In many cases improved economic conditions brought about by the insatiable demands of war have made this burden so far not as difficult as might have been expected. Employment in 1940 was 9 per cent greater on an average than in 1939. The national income rose from about \$4,500 millions in 1939 to about \$4,800 millions in 1940 and continues to rise. In the coming fiscal year it is estimated that it will be \$5,950 millions. And so far the cost of living in Canada has risen only about 7 per cent.

INCREASE IN TAXES

Nevertheless, every citizen is being called on to do his economic best. Income taxes have gone up sharply, and five times as many are paying income tax as before the war. Indirect taxes have increased, and the federal government is now taxing at the rate of about \$900,000,000 a year. A billion and a half dollars in war loans has been raised in Canada since the outbreak, and the first year of the war savings campaign is expected to exceed its \$50,000,000 objective by \$20,000,000. In the coming fiscal year more than fifty per cent of the total national income will be required by all governments. This is the average citizen's burden, be he rich or poor.

Many citizens, not content to give what they have to, are freely giving money, time, and goods to various war services. The Red Cross and the six organizations joined together in the Canadian War Services Fund have collected millions from Canadians. Funds to assist refugee victims of bombing raids, to purchase war planes, motorized ambulances, and mobile kitchens, have received hundreds of thousands in free contributions. Thousands of men and women give their time in the service of such organizations and thousands more contribute clothes, materials, and the like. The Dominion govern-

ment has received millions of dollars in interest-free loans, and \$1,400,000 in free gifts of money.

Probably the war for us has yet really to begin. Canadian fatal casualties from all causes are so far well under a thousand, and the greatest battles have yet to be fought. Nevertheless Canadians have made a good beginning in this people's war and may feel that a firm foundation has been laid upon which to build confidently and with growing effectiveness in the future.

TO TRAIN 150 MEN AS RADIO TECHNICIANS

ONE hundred and fifty radio technicians will be trained at the University this summer for the Royal Canadian Air Force. Originally, one hundred men had been the allotment for Queen's, but later it was found possible to increase this quota. Altogether, 2500 are being trained in radio work for overseas service.

The course commences on June 16 and will last for thirteen weeks. It will be under the direction of H. H. Stewart, Sc. '26, assistant professor of electrical engineering and designer of the Queen's radio station CFRC.

It is expected that the men will be housed in the Gymnasium. Plans are being made to install army cots on the large gymnasium floor. Meals will be served at the Students' Union.

The staff comprises the following: mathematics—Dr. Norman Miller of the mathematics department and R. E. Rourke, Arts '27, Pickering College; physics—Prof. J. K. Robertson, Dr. H. W. Harkness, and Dr. B. W. Sargent of the physics department; radio—Mr. Stewart and Mr. H. S. Pollock of the electrical engineering department and R. H. Hay, Sc. '36. The senior demonstrators will be Mr. W. A. Wolfe and Mr. D. C. Smiley of the mechanical engineering department and Peter Demos, Sc. '41. The junior demonstrators will be N. A. Grandfield, E. M. Haacke, G. N. C. Rivington, B. C. Craig, W. J. Smith, and D. L. Smith, all members of the third-year class in electrical engineering.

THREE HONORARY DEGREES CONFERRED AT CONVOCATION

HONORARY degrees of Doctor of Laws were conferred on Hon. Albert Matthews, Dr. W. T. Connell, and Mr. F. D. Reid at Spring Convocation on May 17. In presenting each of these gentlemen to Chancellor Dunning, Principal Wallace spoke as follows:

"Queen's University honours itself in honouring Albert Matthews, the first citizen of the province of Ontario. In finance, in education, in social and religious endeavour, and in international affairs, he has played a notable part in Canadian life. In the distinguished position which he holds as Lieutenant-Governor of this province, his gracious courtesy and his support of all worthy enterprises have encouraged and strengthened those who are building for a better day. It is an honour to pay respect today to an office and to him who fills that office with dignity and high resolve."

"I present to you Walter Thomas Connell, who this year brings to a close a period of service as a teacher in this university which has extended over forty-six years, interrupted only by participation in the First Great War. Bacteriologist, pathologist, clinician in medicine, W. T. Connell has won a high reputation in teaching and in diagnosis which is remembered with gratefulness by medical men from coast to coast. They are better doctors and better men because he was their inspiration in the practice of medicine."

"Few men have won the esteem of their fellow citizens to the degree that Fraser Daniel Reid, whom I now present to you, has done. This he has achieved not only by the high calibre of his service to Canada as a mining engineer but, as well, and in a very special sense, by his integrity, his sense of honour, and his devotion to the causes which he has espoused. Queen's has no more loyal son than Fraser Reid. His university delights to honour one who has proved his worth in his profession and in his life."

After the honorary degrees had been conferred, the Hon. Albert Matthews spoke on behalf of the recipients. In his remarks he made a plea for positiveness

in character and ideals to offset the quality of negation so prevalent in the world today.

TWO RHODES SCHOLARSHIPS WON BY QUEEN'S STUDENTS

FOR the first time in history, both of the Rhodes scholarships given each year in the Province of Ontario have been won by Queen's students. Gary S. Bowell,

G. S. BOWELL

R. S. RETTIE

Arts '41, Nelson, B.C., and Richard S. Rettie, Sc. '41, Ottawa, Ont., were the undergraduates who brought this distinction to the University.

Mr. Bowell entered Queen's on a provincial scholarship from British Columbia and he has won several scholastic awards while at the University. During the past session he served as editor of the *Journal*, and he was elected to the Tricolour Society, student honour organization. At the close of the academic year he enlisted with the Royal Canadian Artillery with the rank of lieutenant.

Mr. Rettie has had a practically unbroken record of firsts at Queen's. He has been a Douglas tutor in engineering calculus and a research assistant in the physics department. He has also done special research in the field of wireless communications, particularly relating to ultra-short-wave broadcasting. After he had written his final examinations, Mr. Rettie joined the staff of the National Research Council in Ottawa.

Valued at \$2,000, the scholarship privileges the holder to spend two years at Oxford University; a third year may be granted on special recommendation. Since war began, winners have been named but have not proceeded to Oxford directly

unless they were engaged in some special field of work likely to be of immediate importance to the war effort.

PRESENT OFFICIAL REPORTS AT COUNCIL MEETING

PRESENTATION of various reports was a feature of the annual meeting of the University Council held at Queen's during Convocation week-end. Forty-two were present.

Chancellor C. A. Dunning, who was in the chair, paid tribute to the great service that Queen's had rendered throughout the past hundred years. He referred to the loyal support of the alumni that would enable the University to maintain her fine traditions during her second century.

Reports were presented by Principal Wallace, upon the general affairs of the University; Vice-Principal and Treasurer McNeill, upon the financial situation; Mr. Gordon J. Smith, director of endowment, upon the benefactions received during the year; and Lt.-Col. R. O. Earl, upon the work of the Queen's Contingent of the Canadian Officers' Training Corps and the Queen's Auxiliary Battalion.

The executive committee of the Council, consisting of Principal Wallace, Vice-Principal McNeill, Principal H. A. Kent, Mr. J. M. Farrell, Mr. Francis King, Deans Clark, Etherington, and Matheson, and Mr. Gordon J. Smith, was re-appointed for the ensuing year.

New Bulletin Issued

ENTITLED *The War-Time Wage Policy of the Dominion Government*, Bulletin number 5 in the series of publications issued by the industrial relations section of the School of Commerce and Administration has just come off the press. Copies may be obtained by writing to the University.

Sprinkler System Installed

SPRINKLER system was recently installed in Ontario Hall. The work was done as part of the property and maintenance programme.

ART GROUP AND STUDENTS MAKE PRESENTATIONS

TWO presentations added to the interest of the Spring Convocation proceedings on May 17.

On behalf of the Queen's University Art Foundation, Dean H. W. McKiel, Arts '08, Sc. '12, Mount Allison University, presented to the University a collection of pictures by Canadian artists. The gift was accepted by Chancellor C. A. Dunning.

For the Alma Mater Society, J. M. Courtright, Sc. '41, Ottawa, Ont., presented a cheque for \$1600 in payment of a field ambulance. This money will be turned over to the Dominion Government.

The pictures were by the following artists: Tom Thomson, Paul Kane, C. M. Manly, Thoreau MacDonald, John Hammond, and Elizabeth McGillivray Knowles. The donors included Mr. E. C. Kyte, the family of the late Dr. J. T. Fotheringham, Edith and Lorne Pierce, Dean and Mrs. McKiel, and the Art Foundation.

SEVEN HUNDRED STUDENTS TRAIN IN MILITARY CAMP

MORE than seven hundred students went to military camp at Barriefield, Ontario, for two weeks training at the close of the academic year. Five hundred and fifty Arts and Science students were in camp May 3-17 and one hundred and sixty Medicals May 10-24.

Twenty-two buildings were allocated to the students, including two mess halls, two lecture huts, officers' quarters, quartermaster's stores, and an orderly room. The contingent was under the charge of the camp commandant for everything but training. Lt.-Col. R. O. Earl was the officer commanding.

Maj.-Gen. T. V. Anderson, chief of the general staff, made a formal inspection of the troops on May 16. It was the first time in the history of the Q.U.C., C.O.T.C., that the contingent had been reviewed by the inspector-general of Canada. After the march the students put on a display of their specialties in engineering, signal work, artillery, infantry, and medical service.

Practical examinations for the Arts and Science cadets were held May 13, 14, and 15, and for the Medicals on May 22.

CENTENARY PROGRAMME SET FOR OCTOBER 16-19

AN invitation to all alumni to attend the Queen's centenary celebration October 16-19 has been extended by the University authorities. A well-rounded programme of interesting events has been arranged in honour of the occasion, and it is hoped that a large number will be able to return for this general reunion.

Distinguished scholars and scientists will participate in the activities. One of the features will be the installation of His Excellency, the Earl of Athlone, Governor-General of Canada, as rector.

The programme opens at 3 p.m., Thursday, October 16, the University's Charter Day, when Rev. Dr. Neil Leckie, past president of the Queen's Theological Alumni Association, will preach at a service of thanksgiving and remembrance in Grant Hall. At 4.30 p.m., in Convocation Hall, Rev. Dr. Nathaniel Micklem, principal of Mansfield College, Oxford University, will deliver an address on "A Hundred Years in Theological Thought."

In the evening, at 8 o'clock, there will be a presentation of delegates, and Hon. Charles A. Dunning, chancellor of Queen's, will give an address of welcome. There will be congratulatory addresses, followed by Principal Wallace, who will speak on "Looking Forward in Education."

On Friday, October 17, at 9.30 a.m., Sir Robert Falconer, former president of the University of Toronto, will speak in Grant Hall on "A Hundred Years in the Humanities and Social Sciences." Dr. Henry Sigerest of Johns Hopkins University, will give an address at 11 a.m. in Convocation Hall on "A Hundred Years in Medicine."

At a centenary convocation in Grant Hall at 2.30 o'clock in the afternoon, honorary degrees will be conferred, and Dr. George Herbert Clarke, head of the English department at Queen's, will deliver a Commemoration Ode. This will be fol-

lowed by an address, "The Progress of Science and Applied Science in a Hundred Years," by Sir Thomas Holland, principal of the University of Edinburgh.

In the evening at 7 o'clock, there will be a student parade through the city streets. A banquet for centenary delegates and other special guests will be provided in the Gymnasium at 8 p.m. by the City of Kingston. Sir Edward Peacock, governor of the Bank of England, will give an address on "Observations on Business and Finance."

On Saturday, October 18, in Grant Hall, at 9 a.m., after the presentation of alumni felicitations, Vice-Principal McNeill will give an address on "The Story of Queen's." At 11.15 o'clock, an honorary degree will be conferred on the Governor-General at a special convocation, after which His Excellency will deliver his rectorial address.

A luncheon for alumni and their friends will be served in the Gymnasium after the Convocation ceremony. At 2.30 p.m., His Excellency will inspect the Queen's University Contingent, Canadian Officers' Training Corps, at the Stadium. This will be followed by a football game.

A one-act play by the Queen's Dramatic Guild and the film, "Paths of Learning," will be presented in Convocation Hall at 8 o'clock on Saturday evening. At 9 o'clock a University reception will be held in Grant Hall, in conjunction with which there will be a pageant of one hundred years of fashions at Queen's. There will also be a centenary dance in the Gymnasium under the auspices of the General Alumni Association.

Arrangements are being made for special radio broadcasts of centenary ceremonies. Musical selections will be rendered during the three-day programme by the University choir, under the direction of Dr. F. L. Harrison, resident musician.

Memorial Brasses Assembled

BY order of the Board of Trustees thirteen memorial brasses which have been erected in different places are now brought together in Grant Hall. One of Principal Grant is under his portrait at the head of the Hall. The other twelve are grouped in the corridor.

PRIZE WINNERS ANNOUNCED AT SPRING CONVOCATION

HIGHEST honours in three faculties were announced at Spring Convocation on May 17, with R. Y. Moir, Arts '41, Govan, Sask., being awarded the Prince of Wales prize in Arts, R. S. Rettie, Sc. '41, Ottawa, Ont., the Governor-General's medal in Applied Science, and the G. C. Beacock, Med. '41, Chap-

R. Y. MOIR

G. C. BEACOCK

leau, Ont., the W. W. and Susan Near prizes for the highest standing throughout the entire medical course.

In addition Mr. Moir won a Reuben Wells Leonard resident fellowship, valued at \$500, and the medal in chemistry. Mr. Rettie, chosen as one of Ontario's two Rhodes scholars, won the medal in physics. Mr. Beacock's other awards included the medal in medicine and the Ontario Medical Association prize for the highest marks in preventive medicine.

Awards of scholarships not controlled by the University included the Rhodes scholarships to Mr. Rettie and to G. S. Bowell, Arts '41, Vancouver, B.C., the Canadian Federation of University Women scholarship to Miss Anne H. Sedgewick, Arts '37, Halifax, N.S., and the Marty Memorial scholarship to Miss Eleanor L. Clarke, Arts '39, Copper Cliff, Ont.

Other major awards to this year's Arts graduates were as follows: research travelling fellowship, G. S. Dorrance, Arts '40, Kingston, Ont.; Reuben Wells Leonard travelling fellowship, Barbara E. Rooke, Arts '40, Kingston, Ont.; research resident fellowships, J. M. Harrison, B.Sc. (Manitoba), Winnipeg, Man., H. B. Robinson, B.A. (British Columbia),

Vancouver, B.C.; Reuben Wells Leonard resident fellowships, Mr. Moir, Miss Ellen Thibaudeau, Fort William, Ont., J. W. Connor, Kingston, Ont., Miss Joyce Hemlow, Liscomb, N.S., J. H. Houck, Brampton, Ont., and C. N. Crowson, Ottawa, Ont.; Sir James Aikins fellowship in Canadian history, J. J. D. Londerville, Peterborough, Ont.; Western Ontario Graduates fellowship in history, H. J. Vallery, Peterborough, Ont.; A. J. McNab fellowship for graduate study, divided equally between N. A. Paterson, B.A. (University of Western Ontario), Leamington, Ont., and W. L. White, B.Sc. (Manitoba), Darlington, Man.; Wilhelmina Gordon Foundation in English, Miss Thibaudeau;

Winners of Arts departmental medals were as follows: Greek, D. J. Conacher, Kingston, Ont.; French, Mr. Conner; English, Miss Hemlow; economics, Mr. Bowell; philosophy, K. Williams, Englewood, N.J.; mathematics, D. R. MacLeod, Kingston, Ont.; chemistry, Mr. Moir.

Reuben Wells Leonard scholarships for the highest standing at the end of the penultimate year were won by Miss Kathleen E. Butcher, Paris, Ont., and K. R. Church, Ottawa, Ont.; Mary Fraser McLennan prize in Hebrew, J. B. Spencley, Mount Albert, Ont.; W. W. Near scholarship in Spanish, honor to Miss Marion Fisher, Belleville, Ont., and Miss Eleanor Stewart, Kingston, Ont.; McIlquham Foundation in English, Miss Hemlow; Arts '09 scholarship in history, F. W. Gibson, Kingston, Ont.; Norris A. Brisco prize in commerce, H. W. Allen, Timmins, Ont.; Gowan Foundation No. 1, Mr. Williams.

In the Faculty of Applied Science departmental medals were awarded as follows: mining engineering, H. A. Quinn, Kirkland Lake, Ont.; chemical engineering, R. C. Eddy, Bathurst, N.B.; metallurgical engineering, E. B. Spice, Winnipeg, Man.; civil engineering, R. J. Kennedy, Dunrobin, Ont.; mechanical engineering, J. van Damme, Arvida, Que.; electrical engineering, D. G. Miller, Iroquois, Ont.; physics, Mr. Rettie. Mr. Quinn also won a special award of \$200

from the Reuben Wells Leonard resident research fund, besides qualifying for a National Research Council bursary. Mr. Eddy was awarded the post-graduate scholarship in chemical engineering and the L. M. Arkley prize went to J. E. R. Fox, Ottawa, Ont.

In the Faculty of Medicine the following awards were made: medal in surgery, A. H. Megill, Ottawa, Ont.; David Edward Mundell prize, R. J. Fassina, Port Arthur, Ont.; Professor's prize in medicine and clinical medicine, Philip Goldstein, Prince Albert, Sask.; Professor's prize in surgery and clinical surgery, J. W. Latimer, Seeley's Bay, Ont.; Professor's prize in obstetrics and gynaecology, A. T. Mackie, Pembroke, Ont.; Professor's prize in preventive medicine, Mr. Latimer; essay prize on a gynaecological subject, W. J. Flay, Ottawa, Ont.; Professor's prize for the best series of pathological case reports, J. F. Maloney, New York, N.Y., G. T. Carson, Ottawa, Ont., and J. C. Millar, Renfrew, Ont.; Dean Fowler scholarship, Mr. Megill; W. W. and Susan Near prize for second highest standing throughout medical course, Mr. Latimer; Victor Lyall Goodwill memorial prize, H. F. MacInnis, Souris, P.E.I.; Edgar Forrester scholarship, Mr. MacInnis; Canadian National Committee for Mental Hygiene prize, Mr. Millar.

SCIENCE STUDENTS TO LIVE IN CO-OPERATIVE RESIDENCE

THROUGH the generosity of a prominent Queen's alumnus, a student co-operative residence will make its appearance next fall. A substantial brick dwelling on Earl Street has been purchased and is now the property of the University.

The house will be rented to a group of Science students who first conceived the idea. Present plans provide for accommodation for sixteen undergraduates. The students will hire a cook, but otherwise will look after the details of management themselves.

It is expected that the co-operative will enable the boys to live much more economically than they can under present circumstances. As vacancies occur they

will be filled with appointments from the freshman year.

As this is the first co-operative to make its appearance at Queen's, the experiment will be watched with much interest.

JAMES DINGWALL WINS \$1500 SCHOLARSHIP

VALUED at \$1,500, a Royal Society of Canada fellowship in economics has been awarded to James Dingwall, Arts '38, now at the University of Chicago working towards his Ph.D. Only five fellowships are awarded by the Society each year.

Mr. Dingwall has had a distinguished career as a scholar. In 1935 at Queen's he won the Adam Shortt scholarship in political science, and in 1937 he was awarded a University scholarship, the W. W. Near scholarship, and the Gowan Foundation.

JAMES DINGWALL

The following year, when he obtained his honours B.A., he won the Reuben Wells Leonard resident research fellowship and the medal in economics.

When he received his M.A. degree in 1939, Mr. Dingwall was awarded the Arts research travelling fellowship from Queen's. He went to the University of Chicago where he qualified for a Marshall Field fellowship. In 1940 he was awarded another fellowship at Chicago.

Clothing of Last Hundred Years Needed For Parade of Fashions

AS part of the Centenary celebration October 16-19, the students are staging an exhibition of fashions at Queen's during the past hundred years. This event will be held in conjunction with the University reception in Grant Hall on the evening of October 18. Alumni who can lend costumes, suits, dresses, or academic clothing of the period are requested to communicate with Miss Dorothy Wardle, 320 Hillcrest Avenue, Ottawa, Ontario. Miss Wardle, a

member of Arts '42, is the daughter of J. M. Wardle, Sc. '12, and Mrs. Wardle (Leete Roney), Arts '13.

GENERAL REUNION PLANNED FOR OCTOBER 18 WEEK-END

THE 1941 Reunion will be held on the week-end of October 18, the occasion of the University's centenary celebration, it was decided at the semi-annual meeting of the Board of Directors of the General Alumni Association in the Douglas Library on May 17. Vice-President W. G. Cornett was in the chair.

A general invitation will be extended to all Queen's alumni to visit the University for the celebration. A complete programme of events will be found elsewhere in this issue.

It was decided to mail the *Review* to as many alumni on active service as the office records would permit. This decision grew out of a recommendation made by the Windsor branch.

The report of the secretary-treasurer revealed that the Association was in a sound financial position despite the loss of revenue from the football dances in the fall. A gift of \$200 from one of the Directors was gratefully acknowledged.

D. A. Gillies, Arts '05, Arnprior, Ont., and M. J. Aykroyd, Sc. '13, Toronto, Ont., were re-elected as additional directors for a one-year term.

In his report presented on behalf of the student health committee, Dr. W. G. Cornett called attention to the fact that during the past year there had been a marked increase in the number of positive reactors to the tuberculin tests conducted among first-year students. It was strongly urged that a part-time clerk be employed to assist in the keeping of records, which would be a valuable aid to the University medical officer. The student health committee was asked to continue to function, and C. S. Gibson, Sc. '22, Timmins, Ont., and Dr. J. H. Orr, Med. '23, Kingston, Ont., were added to the personnel.

A permanent nominating committee consisting of the president, the secretary-treasurer, and the two immediate past presidents was formed for the purpose of fulfilling clauses 10 (e) and 13 of the

constitution. It was understood that nominations from any other source were not to be precluded. This action was taken on recommendation of the Toronto branch.

An expenditure of \$415 was approved to help pay the cost of printing and distributing the centenary souvenir booklet. A graduate had contributed \$1000, in the name of the two alumni organizations, and the \$415 represented the balance outstanding.

Approval was given to the General Alumni Association's taking charge of the sales of the official Queen's history and *Some Great Men of Queen's* publication for the University.

The Porcupine branch recommended that the Dix reunion plan be followed during war-time and that some greater measure of sports be provided for the students than had been available last year. It was pointed out that after the general reunion this fall consideration would be given to the resumption of the Dix plan. As far as the Intercollegiate sports programme was concerned this was a matter that would be decided by the Canadian Intercollegiate Athletic Union.

The following members of the Board or branch representatives were present: Mr. H. G. Bertram, Dundas, Ont.; Mr. J. C. Macfarlane, Dr. W. R. Patterson, and Mr. D. G. Geiger, Toronto, Ont.; Mr. D. A. Gillies, Arnprior, Ont.; Dr. G. G. McNab, Guelph, Ont.; Mr. C. A. Root and Mr. A. G. Fleming, Montreal, Que.; Dr. J. H. Orr, Mr. A. C. Hanley, and Dr. E. L. Bruce, Kingston, Ont.; Dr. T. H. Farrell, Utica, N.Y.; Mr. A. E. MacRae and Mr. G. C. Monture, Ottawa, Ont.; Mr. J. E. S. Dunlop, Winnipeg, Man.; Mr. C. S. Gibson, Timmins, Ont.; Dr. J. E. McAskill, Watertown, N.Y.; Dr. J. A. Bannister, Peterborough, Ont.; Dr. T. J. Goodfellow, Saratoga Springs, N.Y.; Dr. W. G. Cornett, Hamilton, Ont.; and the secretary-treasurer.

"Principal's Report" Available

THE annual *Principal's Report* was recently printed. Copies may be obtained on application to the Principal's Secretary, Queen's University.

RESIGNS FROM STAFF AFTER 46 YEARS' SERVICE

RETIREMENT of Dr. W. T. Connell, professor of medicine and head of the department, after forty-six years of service to Queen's University, was received and regretfully accepted at the meeting of the Board of Trustees on May 17. Resignations were also accepted with regret from Dr. A. C. Neish, professor of chemistry and head of the department, and from Miss Janet Porteous, chief cataloguer.

Dr. W. Ford Connell was made acting head of the department of medicine, in succession to his father, and Dr. J. A. McRae was promoted to the headship of the department of chemistry. Miss Marjorie Sherlock, a graduate of the University of Alberta, Oxford, and the School of Library Science at Toronto, was appointed chief cataloguer. At present she holds this position at the University of Saskatchewan.

The following promotions were made: Associate Professors J. A. Corry, political science, and Gregory Vlastos, philosophy, were made full professors, and Dr. D. O. Hebb, experimental psychology, Mr. M. W. Huggins, civil engineering, Mr. H. S. Pollock, electrical engineering, were made assistant professors. Mr. L. G. Macpherson, instructor in accounting, was appointed lecturer.

Appreciative minutes were adopted respecting the services of the late Capt. Robert Crawford and the late Dr. O. D. Skelton. Mr. M. N. Hay, works manager of the Aluminum Company plant at Kingston, Ontario, was elected to the Board of Trustees and to the executive committee in place of Captain Crawford. Dr. Skelton's place will be filled later by the graduates. The following members of the Board whose term had expired were re-elected for a further term: Dr. J. G. Dwyer, Mr. D. I. McLeod, Mr. R. M. Smith, and Mr. John Irwin.

Reports were submitted by Principal Wallace, Dr. W. E. McNeill, and Mr. J. C. Macfarlane, chairman of the endowment committee. The treasurer's report showed a small surplus after provision for the usual reserves.

Drs. G. H. Clarke and W. A. Mackintosh were re-elected to the editorial board of the *Queen's Quarterly*, with Dr. G. S. Graham substituting for Dr. Mackintosh during the latter's leave of absence.

On recommendation of the alumni, Mrs. D. M. Chown was re-elected to the Ban Righ board and Mrs. C. H. McCuaig was appointed to replace Mrs. J. E. Hawley, who has resigned. From among their own number the trustees re-appointed Rev. Dr. G. A. Brown and Mr. J. M. Campbell.

The executive committee was appointed as follows: Chancellor Dunning, Chairman J. M. Macdonnell, Principal Wallace, Rev. G. A. Brown, Messrs. J. M. Campbell, Elmer Davis, J. M. Farrell, R. D. Harkness, J. C. Macfarlane, T. A. McGinnis, A. E. MacRae, A. J. Meiklejohn, and M. N. Hay, with Dr. W. E. McNeill serving as secretary.

DR. HILDA C. LAIRD TO SERVE AS PRESIDENT

DR. HILDA C. LAIRD, Arts '18, Kingston, Ont., was elected president of the Queen's Alumnae Association at the annual meeting held in Ban Righ Hall on May 17. Miss Laird succeeds Miss Mary White, Arts '29, Toronto, Ont.

Other officers elected were as follows: vice-presidents, Mrs. E. J. Holmes (Billie Nobes), Arts '24, Ottawa, Ont., Miss Beryl Truax, Arts '27, Montreal, Que., and Miss Mary McCallum, Arts '16, Smiths Falls, Ont.; treasurer, Mrs. J. W. Dyer (May Sharpe), Arts '27, Toronto, Ont.; secretary, Miss Betty Smith, Arts '35, Kingston, Ont.; councillors—Mrs. A. W. Currie (Madeline McNeely), Arts '31, Vancouver, B.C., Miss Mary Gardiner, Arts '38, Regina, Sask.; Mrs. J. G. Stephen (Emma Horne), Arts '29, Ottawa, Ont., Mrs. H. A. Graves (Mary Baker), Arts '32, Kirkland Lake, Miss Anne Smith, Arts '22, Hamilton, Ont., Miss Janie Henderson, Arts '25, Montreal, Que., and Mrs. A. J. Douglas (Elsie Gardiner), Arts '22, Flushing, N.Y.

After the meeting a luncheon was held, with the women students who were to receive their degrees at Spring Convocation

as special guests. Dr. Krystyna Zbierska, eminent Polish scholar who attended Queen's this year, spoke on "Poland." The convener of the luncheon was Miss Gladys Simmons, Arts '32.

ALUMNI CONTRIBUTE \$25,000 TO UNIVERSITY FUNDS

DURING the year ending March 31, 1941, 435 alumni of Queen's contributed \$25,057.84 to help carry on the work of their Alma Mater.

"To these men and women the University owes a deep debt of gratitude," Mr. Gordon J. Smith, director of endowment, told the *Review*. "To them the other alumni owe a similar debt; for the welfare of Queen's must ever be the concern of all her alumni, and so far the burden of the many has been borne by the few. The help of every alumnus is needed now; it will be needed even more during the years to come."

In the hope that it might be an inspiration to others to lend their assistance in like fashion, Mr. Smith presented the following summary of what the 435 alumni have done:

1. Contributed \$8,434.84 to the general capital or operating funds of the University.

2. Contributed \$8,408.00 towards the endowment or maintenance of old or new scholarships or other student awards. Some of the new scholarships thus sponsored have replaced awards formerly maintained by the University out of her own general resources. The contributions so allocated have been equivalent to unrestricted gifts—the most valuable of all benefactions.

3. Contributed \$8,215.00 to provide for other special University commitments.

In addition to the \$25,057.84 given by individual alumni, collective contributions totalling \$5,732.04 for miscellaneous University purposes were also received from various alumni and student groups and organizations.

Alumni bequests during the year amounted to \$41,675.

"These figures indicate the extremely important part that the alumni can play in the financing of their Alma Mater," said the endowment director. "With the

unanimous help of her alumni, Queen's road will be reasonably smooth; without their help it will be dangerously rough."

NATIONAL RESEARCH AWARDS WON BY QUEEN'S SCHOLARS

ONE scholarship, three studentships, and one bursary were awarded to Queen's scholars by the National Research Council this spring.

Valued at \$1,000, the only scholarship offered went to J. A. Pearce, Arts '38, Regina, Saskatchewan. He will work on food-storage problems at the National Research Laboratories in Ottawa. This is Mr. Pearce's second Council award, as last year he won a studentship which permitted him to study at McGill University.

The winners of the studentships were Miss Eleanor Clarke, Arts '39, Copper Cliff, Ontario, who plans to work in anatomy at McGill on the Marty Memorial scholarship which she was awarded last month; E. B. Paul, Arts '40, Lyn, Ontario, who will continue his study of physics at Queen's; and W. H. Stevens, Sc. '40, Oshawa, Ontario, who will carry on his work in organic chemistry at Queen's.

The bursary was won by H. A. Quinn, Sc. '41, Kirkland Lake, Ontario, who will do work in geology at Queen's.

SOCIAL EVENTS HELD ON CONVOCATION WEEK-END

IN conjunction with Spring Convocation on May 17 a number of interesting social functions were held for the new graduates, visiting alumni, and their relatives and friends.

The recipients of honorary degrees—Hon. Albert Matthews, Dr. W. T. Connell, and Mr. F. D. Reid—were luncheon guests at the Principal's residence prior to the ceremony.

Members of the final-year class in Science and their relatives were also entertained at luncheon in the Gymnasium. Approximately 300, the largest number in the history of this happy affair, were present. Dean A. L. Clark spoke briefly in welcome. Mr. G. A. Revell was in charge of arrangements, assisted by Prof. D. S. Ellis and Prof. T. V. Lord.

After Convocation, tea was served in the Gymnasium for the graduates, friends, and members of the University staff, by Kingston alumni. Mrs. R. M. Winter was the convener.

A record attendance was a feature of the Convocation Dance sponsored by the General Alumni Association in Grant Hall on the evening of May 17 with more than 450 present. Mrs. A. L. Clark, Mrs. Frederick Etherington, and Mrs. John Matheson received the guests.

LETTER FROM ENGLAND TELLS OF AIR ATTACK

AN interesting story of war-time life in England is contained in the following letter recently received by Mr. E. C. Kyte, Queen's librarian:

"This is a postscript to my letter of the other day — you may get both together. It will interest you to know that when I went to post it, Jerry nearly got me with a bomb! I needed stamps and so went out to the post office, about three-quarters of a mile away. This was about noon; a vile morning, with very low clouds and white fog, visibility only 100 yards. Half-way up the hill, without warning, no "Alert," there came a heavy explosion not far away.

"I stopped: Bomb or gunfire? In quick succession there came others, getting nearer. In the fog I could see nothing. Near me two road-men painting white lines jumped into the ditch and lay down, shouting at me to do the same. Three small girls were coming down the road quite unconcernedly, and I felt reluctant to dive in the ditch in front of them. Besides it was wet and muddy.

"Then came two tremendous crashes on the hillside about 500 yards away, and I saw through the fog a flash and then black smoke. I remember thinking 'the next will be on top of me and that will be the end.' One more came that I thought was just the other side of the hedge, but I found later the crater was behind a house a good 300 yards away. I felt as if someone had hit me with a feather bed.

"I can recall no feeling of terror or even apprehension—just a sort of tenseness as I stood waiting for the next. Then

I heard Jerry right above me, flying low, but unseen in the fog. He dropped no more and the drone faded away.

"The road-men got out of the ditch, laughed and joked a bit, and went on with their work. Those three girls were still going down the road—I don't think the little devils were even running. Cars came by and everything seemed perfectly normal. The whole thing took not more than thirty seconds. It was like a page from H. G. Wells.

"I noticed that my pipe was still alight, and was childishly pleased thereby. Up by the shops there seemed no excitement; a few people in groups talking but shopping going on just as usual.

"When I had posted your letter I returned by another road near where the first bombs had fallen. Outside one house were police cars, A.R.P. men, and an ambulance with 'United States of America' on it. Two old ladies and a girl were being taken to hospital, cut by flying glass. I heard later that they were seriously but not dangerously hurt. About a dozen houses lost windows and roofs, but houses are few and scattered just about here. This is the first time we have been bombed in daylight in Amersham, although we have had several night bombings. It has made me feel more reconciled to being here."

Practical Instruction Given To Firemen At Training School

AFIREMEN'S training school was held at Queen's April 17-18, with an attendance of sixty-five. The school, conducted for the first time last year, was arranged by the department of university extension in co-operation with the fire marshall of Ontario and the Dominion Association of Fire Chiefs.

Those taking the course were firemen from centres in Eastern Ontario and from the active service forces stationed at Barrfield Camp, near Kingston. Lectures and practical demonstrations in the use of fire-fighting equipment were given. Among those who participated in the programme were Principal Wallace, Prof. D. S. Ellis, and Prof. L. A. Munro.

ON HIS MAJESTY'S SERVICE

REPORTED lost at sea is Major John R. Townshend, Arts '23. A science specialist, he taught in secondary schools in Ottawa, Hamilton, and Port Arthur, Ontario. Before entering the army he was principal of the vocational and high school at Fort Frances.

Word of the safety in Egypt of Flight-Lieut. H. Genin-Preston, Med. '35, was received in May. Attached to General

H. G. PRESTON

G. B. MACGILLIVRAY

Wavell's Army of the Nile, he had not been heard from since last October. After graduating from Queen's, Dr. Preston interned at Ottawa and then joined the Royal Air Force in England as medical officer. After a year's intensive training and study of tropical diseases of the East he was sent to Cairo, where he spent the past three years. In 1937 he married Miss Frances Read, Arts '36.

Lieut. George Macgillivray, Arts '37, was in the contingent of Canadians that arrived in England a short time ago. Lieutenant Macgillivray is divisional intelligence officer for the 3rd Canadian Division, attached to headquarters, and is in England for a special course. After he obtained his B.A. degree at Queen's, he went to the University of Bonn, Germany, on an exchange scholarship. After a year there he spent twelve months in Paris studying Spanish, French, and Italian. He was in Germany at the time of the Godesburg conferences between Chamberlain and Hitler, and was interpreter and assistant on that occasion for the correspondent of a London newspaper. Returning to Canada he entered

the service of the Shell Oil Company, in charge of the cable and fuel-control department.

* * * *

Number seventeen in the series of the monthly lists of those who are serving their King and country is presented below. Readers are invited to send in news of the appointments, promotions, or transfers of Queen's alumni in all military and civilian branches of the wartime service.

Royal Canadian Engineers—Lieut. T. G. Clendenning, Sc. '41, Lieut. Frank Ladner, Sc. '40, Lieut. G. H. McLeod, Sc. '40, Lieut. J. A. Macdonald, Sc. '40, Lieut. Jack Padden, Sc. '40, Lieut. J. M. Smith, Sc. '41.

Royal Canadian Naval Volunteer Reserve—Sub.-Lieut. C. Y. Spratt, Sc. '41, Sub.-Lieut. F. I. Dyke, Sc. '41.

Royal Canadian Air Force—Pilot Officer W. E. Affleck, Sc. '23, Aircraftsman C. T. Brown, Arts '41, Gordon J. Clark, Arts '42, Leading Aircraftsman Craig Cooper, Arts '30 (radio branch), J. P. Doncaster, Sc. '42, Pilot Officer J. W. Hammett, Arts '28, Pilot Officer T. M. Harris, Sc. '32 (aeronautical engineering branch), Aircraftsman A. P. McDiarmid, Com. '38, Pilot Officer C. E. McMullen, Arts '33 (link trainer branch), D. W. Owen, Arts '40, Capt. E. J. Ryan, Med. '38 (medical branch), Aircraftsman W. J. Trousdale, Med. '46, Flying Officer C. S. Wilson, Med. '29 (medical branch), D. A. Woodman, Sc. '41, Pilot Officer A. D. Wilmot, Sc. '36 (aeronautical engineering branch). The following alumni are aircraftsmen at St. Hubert's, Montreal—A. C. Dunning, Com. '41, C. T. Brown, Arts '41, F. C. N. Jemmett, Sc. '44, G. J. G. Clark, Arts '42, H. S. Grinstead, Arts '42, A. B. Newsome, Com. '41, W. J. Osborne, Arts '40.

Royal Canadian Army Medical Corps—Lieut. J. W. B. Barr, Med. '40, Lieut. W. A. Bearden, Med. '37, Capt. R. S. Daymond, Med. '31, Lieut. M. B. Hill, Med. '40, Lieut. J. A. Macdonald, Med. '38, Lieut. J. K. Moss, Med. '40, Capt.

W. R. Muirhead, Med. '33, Lieut. J. A. Percival, Med. '33, Capt. H. R. Rabb, Med. '31, Lieut. Col. F. L. Reid, Med. '16.

Royal Canadian Artillery—Lieuts. J. E. Armstrong, Sc. '42, M. A. Baker, Com. '34, J. W. Bennett, Arts '41, H. A. Blanchard, Arts '41, G. S. J. Bowell, Arts '41, P. E. H. Brady, Arts '41, K. B. Carruthers, Arts '41, Emmett Clarke, Sc. '41, T. G. Clendenning, Sc. '41, J. R. Causley, Com. '41, J. E. Ferguson, Com. '41, J. P. Francis, Arts '41, C. E. Hersom, Arts '41, J. A. C. Kee, Arts '42, D. E. McFee, Arts '39, T. K. McNair, Arts '43, H. C. McWilliams, Arts '41, G. H. Miller, Arts '42, J. R. Miller, Arts '41, J. S. Mulkerns, Arts '43, K. B. Parkinson, Arts '42, A. A. Smith, Arts '41, R. J. Sweezey, Sc. '44, E. Taylor, Arts '41, W. T. Thompson, Com. '41, R. G. Trout, Sc. '41, G. D. E. Warner, Com. '44, G. M. Welch, Arts '41.

Royal Canadian Ordnance Corps—Lieut. T. H. Andre, Arts '36, Com. '38.

Infantry—Major P. J. Bigelow, Arts '31 (Midland Regiment).

Royal Canadian Corps of Signals—Lieut. James Boles, Sc. '40, Lieut. J. K. Hall, Sc. '40, Lieut. D. H. McCorkindale, Sc. '41, Lieut. C. L. Stroud, Sc. '34.

Royal Canadian Ordnance Corps—Lieut. P. M. Samuel, Sc. '42, O.M.E.

SUMMER SCHOOL OPENS FOR THIRTY-SECOND SESSION

THE thirty-second session of the Queen's University Summer School begins on July 3 and continues until August 15. Dean John Matheson is the director.

Classes in the various departments will be conducted by the following: classics, Prof. A. A. Day; English, Prof. J. A. Roy, Dr. C. J. Vincent, and Mr. M. H. M. MacKinnon; French, Drs. Marcel Tirol, W. M. Conacher, and Glen Shortliffe; German, Drs. H. Henel and Hilda Laird.

History, Profs. A. E. Prince, W. E. C. Harrison, and J. P. Pritchett, of Queen's College, New York; psychology and philosophy, Drs. H. M. Estall and D. O. Hebb; political and economic science, Prof. C. W. Topping, of the University

of British Columbia, Prof. J. A. Corry, and Mr. L. G. Macpherson.

Biology, Prof. John Stanley, Prof. Gleb Krotkov, and Mr. H. W. Curran; chemistry, Prof. J. A. McRae, Prof. R. L. Dorrance, and Dr. E. G. Taylor; mathematics, Drs. C. F. Gummer, Norman Miller, G. E. Edgett, I. Halperin, and Vibert Douglas.

Physics, Drs. A. L. Clark, J. A. Gray, J. K. Robertson, E. Flammer, H. M. Cave, and H. W. Harkness; geology, N. D. Runnals, Arts '33, Collegiate Institute, Collingwood, Ontario.

The course in music will be conducted by Dr. F. L. Harrison, resident musician, and Mr. André Biéler, resident artist, will have charge of the work in art. Three special courses in stagecraft, school assembly programmes, and directing and acting will be offered under the direction of Dr. William Angus. Because of the war, the historical research division of the School, usually held at the Dominion Archives, Ottawa, will not be conducted this year.

It is expected that the first part of the Canadian Officers' Training Course will again be offered. The home nursing course of the St. John's Ambulance Association will be made available to the women students.

Six Important Conferences Held At University During May

THE University played host to six important conferences during May. The meetings were held as follows: Royal Society of Canada, May 19-22; Canadian Historical Society, May 22-24; Canadian Political Science Association, May 22-24; League of Nations Society, May 23; Canadian Institute of International Affairs, May 24-25; Canadian Social Science Council, May 24-26.

Principal Wallace, retiring president of the Royal Society, and Mrs. Wallace entertained the Society members and guests at a garden party on the campus, and the University gave a luncheon.

All the conferences were well attended. Members and guests were presented with copies of the Queen's Centenary booklet, as a souvenir of the occasion.

ATHLETICS

Courtright Wins Jenkins Trophy As Outstanding Athlete and Scholar

TO James M. Courtright, Sc. '41, Ottawa, Ontario, goes the Jenkins Trophy this year as "the student who has brought most honour to Queen's University by his athletic and scholastic ability."

No Tricolour athlete has ever had a better claim to the award than Courtright. He is the British Empire, Australian, Canadian, and Intercollegiate record-holder for javelin-throwing, he is an excellent scholar, and this year he served as president of the Alma Mater Society, the highest honour he could be given by his fellow-students.

Courtright received his primary education in Ottawa at St. Patrick's and Corpus Christie Schools and Glebe Collegiate. He then attended Ottawa University, where he obtained his B.A. A promising all-round athlete as a school-boy he soon gave up other sports to concentrate on the javelin, and his ability in this event took him all over the world.

Jimmy was a member of the team that represented Canada in the 1936 Olympics at Berlin. He failed to reach the finals but he took top honours in the post-Olympic Games at London, winning first place with his longest throw of 217 feet, 6 inches. Competing for the University of Edinburgh he won in his specialty against a South African team, and in a meet at Glasgow he placed second.

In the summer of 1937 he won the Pan-American games championship at Dallas, Texas, and the Canadian title at Hamilton, Ontario. He entered Queen's in the fall and, in addition to coaching the track and field team, won the javelin (Intercollegiate record) and shot put titles and placed second in the discus throw. During the winter months he went to

JAMES COURTRIGHT

Sydney, Australia, to compete in the British Empire Games, where he won the javelin championship. He also won in two international meets held afterwards at Melbourne, Australia, and Auckland, New Zealand.

In the fall of 1938 Courtright established a new Intercollegiate record in the javelin throw, and placed first and third in the shot put and discus, respectively. During the winter he played guard on the Tricolour Intercollegiate basketball team.

The following year he was out of all competition due to a broken leg sustained in a mine accident in the summer months. It was thought then that his athletic career was permanently ended, but through sheer determination he made a comeback and this year he participated in intramural sports and played with the championship Queen's E.O.A.B.A. team.

The above summary presents only the highlights of Courtright's athletic career. He also participated in a large number of smaller events which he dominated with ease, and he won many additional honours.

Jimmy gets the last of the ten replicas of the Jenkins Trophy. Valued at \$3000 the trophy is regarded as a masterpiece of the silversmith's art; the replicas are worth about \$150 each. Previous winners are as follows: Harry Batstone, 1931; Bob Seright, 1932; Harry Hosking, 1933; Jack Kostuik, 1934; Merve Peever, 1935; Johnny Wing, 1936; Johnny Edwards, 1937; Johnny Munro, 1938; Bill Fritz, 1940.

Queen's Players Prominent

On Championship Hockey Team

EIGHT of the twelve members of the Kingston Combines hockey team that won the Ontario Senior "B" title were from Queen's, thereby giving a good indication of what could have happened in Intercollegiate competition this year. The players were Len Lane, Mel Wil-

liamson, Bob Neilson, Rick Hepburn, Jim Neilson, Clare Williamson, George Hood, and Buck Burrows.

The Combines won the title in a seven-game series with Owen Sound, starting on March 25 and not concluding until April 11 when the boys were in the midst of their final examinations. The scores of the games and the winning teams were as follows: Owen Sound, 8-2; Kingston, 7-0; Owen Sound, 5-4; Kingston, 5-4; Kingston, 10-4; Owen Sound, 5-4; Kingston, 3-1.

The victors were met at the railway station on their return home after the final game and were tendered a rousing civic reception in which Principal Wallace took part. Alfie Pierce was also present in his colourful football costume.

Three of the players are graduating this year: Mel Williamson, Rick Hepburn, and Jim Neilson. Buck Burrows, who received his B.Sc. degree last spring, served on the staff of the civil engineering department as a demonstrator and draftsman.

AT THE BRANCHES

Sudbury-Copper Cliff

THE annual bridge party was held in the Community Hall at Copper Cliff on March 25, with sixty alumni and friends present. Sketches of familiar campus scenes, the work of Frederick Sackfield, Sc. '39, and A. E. Anderson, Sc. '40, brought forth many favourable comments. The committee members in charge of the highly successful affair were Miss Alix Edge, Arts '31, Mr. Sackfield, and Mr. Anderson.

After the delightful lunch, E. A. Collins, Sc. '05, president of the General Alumni Association, presented the prizes. He also spoke on behalf of the local endowment fund committee. In his remarks Mr. Collins reminded the alumni of the need of their co-operation in the local drive to help the University. It was pointed out that American universities were facing the same difficulties now confronting Queen's and that a system of annual donations from alumni had proved to be of great assistance.

Toronto

A LUNCHEON was held at Maloney's Art Gallery on May 10; and the net proceeds are to assist the women graduates in their war work. The committee in charge included Mrs. J. G. MacGregor (Eunice Simpson), Arts

'23, Mrs. W. C. Cannon (Mildred Newman), Arts '21, Mrs. J. W. Dyer (May Sharpe), Arts '27, Mrs. J. M. Fell (Margaret Reid), Arts '29, and Miss Marion Richards, Arts '30.

Kingston

INGSTON alumnae entertained the members of the graduating class in Levana at a tea in Ban Righ Hall recently. The guests were received by Dean A. Vibert Douglas and Mrs. E. T. Munro (Barbara Graham), Arts '37. The tea table was presided over by Mrs. John Matheson, Mrs. A. L. Clark, Miss Jean Royce, and Miss Ada Theal. The committee in charge was composed of Miss Aileen O'Grady, Arts '38, convener, Miss Kathleen Richardson, Arts '40, Mrs. H. B. Mattson (Margaret Brophy), Arts '23, Miss Mary Meagher, Arts '34, Miss Mary O'Connor, Arts '38, Miss Eileen Anglin, Arts '40, Miss Frances Morrison, Arts '38, Mrs. P. S. Rutherford (Phoebe Weir), Arts '36, Miss Gladys Simmons, Arts '32, Miss Evelina Thompson, Arts '38, Miss Marion Martin, Arts '36, and Miss Anna Corrigan, Arts '24. Dr. Krystyna Zbieranska, a Polish student doing postgraduate work at the University, was a special guest. During the afternoon Mrs. Norman Miller (Grace Jeffrey), Arts '14, outlined the aims and objects of the alumnae.

Porcupine

THE annual meeting of the Porcupine branch was held in the Timmins High and Vocational School on May 8. Plans were outlined for next year's activities, and the following executive was elected: Honorary president, E. L. Longmore, Sc. '12; president, A. E. Pugsley, Sc. '33; vice-president, Mrs. F. Evans (Marian Ostrosser), Arts '39; secretary-treasurer, D. W. Carriere, Arts '35; committee—G. C. Richards, Sc. '39, E. P. Thompson, Sc. '31, Lawrence Labow, Sc. '36, Mrs. R. E. Delahunt (Cecilia Beupre), Arts '21, Miss Alice Smyth, Arts '30, Miss Dorothy Wilkins, Arts '34, Mrs. R. D. Lord (Helen Dorothy Richards), Arts '37, and J. M. Hamilton, Sc. '27.

D. W. CARRIERE

Lakehead

FORTY-THREE graduates and friends of Queen's attended the annual dinner meeting of the Lakehead branch in the Royal Edward Hotel, Fort William, on April 26. The president, Dr. T. D. Macgillivray, Arts '02, Med. '05, was in the chair.

Dr. C. C. McCullough, Med. '04, in his own inimitable way spoke of Queen's in the past, in the present, and in the future. He said that although the University was passing through trying times he felt certain that it would live up to the traditions of the past. He warned the graduates that they must not become satisfied, however, for self-satisfaction was one of the greatest foes of mankind.

J. G. Cross, Sc. '13, spoke on "The Romance of Mining," reviewing the history of mining in Canada, United States, and South Africa. The interesting sidelights he gave on the opening up of mines in the districts of Cobalt, Sudbury, Porcupine, and Kirkland Lake were vivid examples of the "romance" of mining.

Of particular interest was the description of the Silver Islet venture of which Mr. Cross had first-hand information.

About twenty Arts graduates took part in a skit which recalled to the audience many incidents of the lecture room and library at Queen's. They showed remarkable histrionic ability in the ease with which they represented freshmen, sophomores, juniors, seniors, and professors.

Queen's songs and yells were interspersed throughout the programme, and added greatly to the enjoyment of the evening.

Dr. Macgillivray paid tribute to the work of two distinguished graduates who had died during the past year, namely, Dr. O. D. Skelton and Hon. Norman Rogers.

Officers were elected for the ensuing year as follows: past president, Dr. Macgillivray; president, W. H. H. Green, Arts '14; vice-president, Miss Maud Brock, Arts '27; secretary-treasurer, Miss Belle Elliot, Arts '26; committee—Port Arthur, Miss H. G. Raitt, Arts '09, and Mr. Cross; Fort William, Miss H. G. McLean, Arts '19, and H. B. Burns, Arts '31.

Montreal

THE sixth regular meeting was held in the Mount Royal Hotel April 16 with President C. A. Root, Arts '19, in the chair.

The feature of the programme was the showing of a technicolour and sound picture of a trip from Moncton, New Brunswick, to Vancouver, British Columbia, via Trans Canada Airways, entitled "Skysways Across Canada." Mr. Allword, representing the Airways, answered the many questions that were asked. He was thanked on behalf of the meeting by E. T. Sterne, Sc. '13.

Some discussion took place regarding the University Centenary Fund. Various suggestions were made for the consideration of the executive.

* * * * *

THE alumnae annual spring luncheon was held in the Silver Room at Eaton's on May 10. Afterwards an address was given by Miss Beryl Truax, Arts '27, on "Women in Public Life."

ALUMNI NEWS

Births

Baker—At the Private Patients' Pavilion, Toronto General Hospital, on March 31, to Melville H. Baker, Arts '29, and Mrs. Baker, a daughter (Martha Elizabeth).

Bateman—On April 7, at the Private Patients' Pavilion, Toronto General Hospital, to Dr. J. H. Bateman, Med. '35, and Mrs. Bateman (Helen Leslie), Arts '35, Georgetown, Ont., a daughter (Marilyn).

Brown—On May 9, to Donald W. Brown, Sc. '37, and Mrs. Brown, Fort Erie, Ont., a daughter (Judith Florence).

Caughey—At the Harkness Pavilion, The Presbyterian Hospital, New York City, on March 28, to Dr. J. L. Caughey and Mrs. Caughey (Winnifred Scott), Arts '30, a son (John Lyon III).

Davoud—At the General Hospital, Belleville, Ont., on April 28, to Squadron Leader Paul Davoud, Sc. '34, and Mrs. Davoud, a son.

Durdan—At the General Hospital, St. Catharines, Ont., on April 28, to F. S. Durdan, Sc. '33, and Mrs. Durdan (Dorothy Miller), Arts '32, Welland, Ont., a daughter.

Fisher—At the Ottawa Civic Hospital, on March 30, to E. R. Fisher, Arts '37, and Mrs. Fisher, a son (E. R. Fisher III).

White—In Union Church, Ste. Anne de Bellevue, Que., on April 19, Betty Kathleen Banning to Frank Laidlaw White, Arts '31, Sc. '33. They will live at 96 Drayton Road, Pointe Claire, Quebec.

Deaths

Asselstine—Head of the mathematics department of St. Catharines Collegiate Institute and Vocational School, William Oliver Asselstine, Arts '06, died at his home in St. Catharines, Ontario, about May 1. He had been in failing health for the past nine months, but his death came as a great shock to a wide circle of friends and acquaintances. Mr. Asselstine was born at Wilton, Ontario, and attended Napanee High School. He entered Queen's, winning the Prince of Wales Scholarship in 1903, and obtaining his M.A. degree three years later. He taught at Chatham and Owen Sound before going to St. Catharines seventeen years ago. The survivors are his wife, a son and daughter, Miss Grace M. Asselstine, Arts '39, two sisters, and four brothers, including C. V. Asselstine, Sc. '12, E. A. Asselstine, Arts '04, and Dr. Bert Asselstine, Med. '07.

Bell—Suddenly at his home, R.R. 2, Kingston, Ontario, James Wilson Bell, Arts '97, died on April 5 at the age of sixty-five. Mr. Bell was born at Kingston and received his preliminary education there. He entered the Faculty of Arts at Queen's in 1893 and attended for two sessions. He then became interested in dairy farming. At one time he was actively associated with the United Farmers of Ontario and often served in its interests as a speaker during election campaigns. The survivors are his wife, three daughters, and one son.

Cliff—After two weeks' illness, Arthur Douglas Cliff, Arts '39, died of pneumonia in Toronto, Ontario, on May 17. He had been employed as an electric welder. Mr. Cliff was born in Mortlach, Saskatchewan, the son of Dr. G. F. Cliff, Med. '06, and Mrs. Cliff (Alma Mundell), Arts '02. He received his preliminary education in the schools of Kingston, Ontario, and entered Queen's University in 1934. The survivors are his wife and parents, a son, four brothers—William, Med. '31, Jack, Arts '32, Alan, Com. '33, and Lynwood, Com. '43, and three sisters, including Dorothy, Arts '38, and Mary, Arts '36.

Cummings—After an illness of eight weeks, Miss Beatrice Victoria Cummings,

Arts '23, died in the General Hospital at Kingston, Ontario, on April 1. Miss Cummings was born at Pakenham, Ontario, and received her early education at Smiths Falls and Ottawa. She entered Queen's in 1919 and graduated with her honours B.A. four years later. She taught at Arnprior for a number of years and then went to Kingston as a member of the staff of the Commercial School. About ten years ago she joined the staff of the commercial department of the Kingston Collegiate and Vocational Institute as a teacher in English and history.

Froats—At his home in Finch, Ontario, James Froats, Arts '06, died suddenly on April 5 at the age of sixty-eight. Born at Morrisburg, Ontario, he attended the schools there and later went to Ottawa Normal School and the School of Pedagogy. After teaching public school for a few years he enrolled at Queen's in 1902. He received his B.A. in 1906 and his M.A. two years later. He taught school at Cornwall, Lunenburg, Goldfield, and Finch, all in Ontario. In 1909 he was made public school inspector for Stormont county and held this position until his death. In 1918 he received the degree of B.Paed. from Queen's. He is survived by his wife, a daughter, Aileen, Arts '37, a son, Cecil, Arts '40, and a brother.

For Prospectus write to Principal,
REV. C. R. CARSCALLEN. M.A., D.D.

Hitsman—A highly popular school teacher, Samuel Alexander Hitsman, Arts '18, died at his home in Kingston, Ontario, May 5. Mr. Hitsman was born at Russell, Ontario, in 1871, on a farm his grandfather had cleared from the bush after crossing the St. Lawrence River in 1793 with other United Empire Loyalists. He left school at an early age to work on his father's farm, but later decided that teaching was to be his life work. He went back to his studies and passed his entrance examinations at the age of seventeen. In 1892 he began his teaching career at Osgoode, Ontario. For many years he studied extramurally and stopped teaching at various times to attend Morrisburg Collegiate Institute and the School of Pedagogy. He entered Queen's for one term, 1915-16, and two summer sessions to obtain his B.A. degree. He served as principal of Russell Continuation School, Vankleek Hill Model School, and Athens Model School. He became teacher of mathematics at Athens High School, and in 1916 joined the mathematics department of the Kingston Collegiate Institute. He held the latter post until his retirement in 1939, after forty-five years of service in Ontario schools. He was a charter member and past master of the Royal Edward Masonic Lodge. For many years he was superintendent of the First Baptist Church Sunday School. The survivors are his wife, Minnie Mackay, Arts '07, two sons, Lieut. J. M. Hitsman, Arts '39, and J. S. Hitsman, Med. '44.

Kemp—Taken suddenly ill, William Kemp, Arts '98, lost control of his car on Bloor Street, Toronto, Ontario, on May 4, and crashed into a pole, suffering injuries that resulted in his death three hours later. Three other passengers, including his wife, received hospital treatment after the accident. Mr. Kemp was born at Kingston, Ontario. He entered Queen's in 1895 and obtained his B.A. degree three years later and his M.A. in 1899. In 1898 he won the medal in modern languages. He taught school at Dutton, Barrie, Colborne, Picton, Kingston, and Streetsville, in Ontario, and at Prince

Albert, Saskatchewan, before going to Toronto as a member of the staff of the Central Technical School. The survivors are his wife, two brothers, and two sisters.

Lockhart—Ill for only a few days, Dr. George Douglas Lockhart, Med. '90, died at his home in King City, Ontario, on May 17. He had been a medical practitioner in King City and district for the past forty-one years. His death occurred at a time when the North York Conservative Association was re-electing him as honorary president, a position he had held since his retirement

PICKERING COLLEGE

1842
NEWMARKET, ONTARIO

A Residential School for Boys

Your Boy's Future

The development of the total personality of the child is the aim of a modern educational programme. Therefore, besides academic instruction it is our endeavour at Pickering to inculcate a knowledge and understanding which prepares students for citizenship in a changing world. In addition to the Matriculation and Business Courses, school life at Pickering promotes the physical, social and spiritual development of its students by offering a wide range of interests and supplementary activities—lectures and discussion groups on current problems, civic and economic—specialized library service—hobby clubs—vocational guidance—musical, artistic and dramatic interests. Seasonal athletic activities throughout the year.

as president. He had served as head of the organization for twenty-five years. Dr. Lockhart was born at Sydenham, Ontario, in 1862, and was educated in the schools of that district. He entered Queen's in 1886 and obtained his M.D., C.M. degrees four years later. After a period of postgraduate study in London and Vienna, he returned to Canada, where he established a practice at King City. Surviving are his wife, a daughter, and two sons.

Townshend—Officially reported as "missing and feared lost at sea," Major John R. Townshend, Arts '23, was among the military personnel lost in the sinking of a troop ship as announced in the House of Commons May 5. He was a specialist in anti-aircraft science. Born at Clinton, Ontario, in 1903, he attended the schools of that community. In 1920 he entered Queen's for two sessions, winning the William Moffat Scholarship in his first year. He completed his course extramurally and was granted a science specialist's certificate in 1923. After graduating from the Ontario College of Education, he taught in secondary schools at Ottawa, Hamilton, and Port Arthur. He was named principal of the vocational and high school at Fort Frances in 1933. Surviving are his wife, four children, and three brothers.

Notes

1880-1889

J. M. Farrell, K.C., Arts '89, barrister at Kingston, has been re-elected president of the Children's Aid Society of Kingston and Frontenac County.

Orian E. B. Low, Arts '34, has been elected president of the Ottawa Junior Board of Trade.

Miss Kay McCarthy, Arts '34, is a member of the staff of the Canadian Institute of International Affairs, 3 Willcocks St., Toronto.

G. B. MacDonald, Com. '32, is credit manager for Toronto Elevators Limited, Toronto.

J. E. MacDonald, Sc. '40, is a junior engineer for the Imperial Oil Company at Dartmouth, N.S.

Miss Mary Mackenzie-Naughton, Arts '40, is taking a postgraduate course at the University of Toronto.

Creighton McDowell, Sc. '41, has joined the staff of Canadian Industries Ltd., at Windsor, Ont.

Miss Margaret McGregor, Arts '34, is teaching in Cartagena, Colombia.

J. L. McIntosh, Sc. '40, formerly with the Steel Company of Canada, Hamilton, has accepted a position as assistant to the works manager at the Dominion Tar and Chemical Company's plant in Sault Ste. Marie, Ont.

T. A. S. McKee, Arts '31, principal of Devonshire School, Ottawa, has been elected president of the Ottawa Teachers' Institute.

Miss Clunas McKibbon, Arts '40, is in the actuarial department of the London Life Insurance Company, London, Ont.

A. N. McLeod and G. G. McLeod, Arts '32, Ottawa, have qualified for positions as insurance inspectors, grade 4, Unemployment Insurance Commission.

I. W. McNaughton, Arts '33, Whitby, Ont., was bereaved on May 17, by the death of his mother, Mrs. John McNaughton, Kippen, Ont.

W. C. Marshall, Sc. '39, formerly at Sigma Mines, Bourlamaque, Que., is now at the Madsen Red Lake Gold Mines, Madsen, Ont.

Mrs. D. J. Matthews (Georgina Ross), Arts '38, is living in Detroit, Mich., where her address is 14450 Asbury Park.

Rev. Kenneth Moyer, Arts '38, has been appointed assistant minister of Chalmers United Church in Ottawa.

Dr. R. L. Nesbitt, Med. '37, practises at 96 Glen Ave., Ottawa.

R. M. Nicholson, Sc. '33, formerly of the Tropical Oil Company, Barranca-Bermeja, Columbia, who has been back in Canada for some months, is leaving again for South America, where he has accepted a position with the Andian National Corporation in Cartagena, Columbia.

H. R. Park, Arts '38, is practising law in Timmins, Ont.

J. H. Park, Sc. '38, is with the Welland Chemical Works, Niagara Falls, Ont.

W. V. Percival, Arts '30, Com. '32, is senior auditor for the Canadian General Electric Company at Toronto, Ont.

Warren Raynor, Sc. '39, is employed as the jig and tool designer in the Amherst, N.S., plant of Canadian Car and Foundry Company.

Rev. H. S. Rodney, Arts '38, recently graduated from the Presbyterian College, Montreal. He has been appointed to Ephraim Scott Presbyterian Church, Montreal.

A. G. Scobie, Sc. '37, is now employed in the research department of the Hudson's Bay Mining and Smelting Company, Flin Flon, Manitoba.

Dr. Louis Segal, Med. '38, is doing post-graduate work in X-Ray at the Royal Victoria Hospital, Montreal.

N. J. Southern, Sc. '39, recently accepted a position as assistant engineer of the Hoyle Gold Mines, L'Amour, Ont.

E. M. Squires, Com. '32, is manager of the Kingston Division of the Confederation Life Association, with offices in the Royal Bank Building.

W. M. Stephen, Arts '36, of the Royal Canadian Air Force, has been promoted to the rank of Squadron-Leader. He is at present stationed in Ottawa.

Dr. Willis A. Strong, Med. '31, is assistant physician on the staff of Willard State Hospital, Willard, N.Y.

C. J. Tanner, Sc. '39, formerly of the Wright-Hargreaves Mine, is now shift boss at Central Patricia Mine, Central Patricia, Ont.

M. P. Truman, Sc. '39, is stope boss at the International Nickel Company's plant at Creighton Mine, Ont.

R. J. Webster, Sc. '39, formerly at Fort William, has been transferred to Jackson, Mich., where he is acting for the British Air Commission as inspector-in-charge at Kelsey Hayes Wheel Co. His address is 217 N. Brown St., Jackson, Mich.

Duncan Whitmore, Arts '39, has been awarded a second fellowship in geology at Princeton University, valued at \$900. This makes the eleventh scholarship won by Mr.

Association of Professional Engineers

PROVINCE OF ONTARIO

Attention of Engineering Students

The Association of Professional Engineers of the Province of Ontario is constituted by the Legislature of the Province of Ontario to govern the practice of Engineering in this Province. In brief, no person is permitted to practise Engineering (with certain exemptions as defined in the Act) unless he is a registered Member or Licensee of the Association.

Registration can be obtained by graduates of the Faculty of Applied Science, Queen's University, holding the Degree of Bachelor of Science in Engineering as soon as they are able to submit evidence of satisfactory practical experience.

Provision is made in the Act that an undergraduate may be recorded with the Association while attending University, thereafter submitting annually information as to his standing and additional engineering experience. When he has acquired the necessary practical experience, he may then apply for final registration, which gives him the right to call himself a Professional Engineer and to practise Engineering. With the exception of persons exempted from the operation of the Act, no one may use the title "Engineer" unless he is a Member or Licensee of the Association.

Any further information desired may be obtained from the Registrar of the Association.

Association of Professional Engineers

TORONTO

350 BAY STREET

ONTARIO

Whitmore since he entered Queen's in 1935. He will continue work at Princeton towards his Ph.D.

I. S. Widdifield, Sc. '35, is employed by the Ontario Electrical Construction Company, Toronto.

Dr. J. R. Wilson, Med. '40, has joined the medical staff of Elmira Reformatory, Elmira, N.Y.

G. L. Williams, Sc. '31, for the past few years superintendent of the caustic finishing department of Canadian Industries, Windsor, was recently transferred to Defence Industries Limited, in the same city.

J. A. M. Woodside, Sc. '37, has been in the metallurgical department of the Aluminum Company of Canada, Toronto, for the past year.

C. E. Woolgar, Arts '32, Sc. '34, is on the staff of the Northern Electric Company, Montreal.

General

Prof. J. K. Robertson of the physics department is the author of a textbook entitled "Radiology Physics," which has been published recently. A third edition of his "Introduction to Physical Optics" has also just been brought out. Of the first book the "American Journal of Physics" commented in part as follows: "Recognizing that it is almost impossible to teach in one year the fundamental principles of physics, and at the same time to deal adequately with those applications with which a medical student should be familiar, Queen's University has instituted a two-year course in physics for premedical students, with the first year devoted to the usual elementary work in mechanics, heat, sound, and light, and the second year given to lectures and laboratory work in electricity and magnetism that lead naturally to a consideration of such subjects as x-rays, radioactivity, and nuclear physics. The present textbook, which covers, with some amplification, the work which the author has been giving in the last half of the second year, provides a systematic treatment of the basic physical principles used in the field of radiology. . . . Certainly

every undergraduate student who is interested in medicine or biophysics should have access to the book, and it can also be recommended to radiologists and technicians who desire relatively simple explanations of the physical principles underlying the use of their apparatus."

Rev. Dr. J. M. Shaw, professor of theology at Queen's Theological College, has been elected president of the Kingston branch of the League of Nations Society for the seventh consecutive year.

Dr. R. G. Trotter, **Prof. J. L. McDougall**, and **Prof. W. E. C. Harrison**, were members of the delegation of the Kingston branch of the Canadian Institute of International Affairs at a conference on Canadian-American affairs held at Utica, N.Y., early in May. They were guests of the Utica branch of the Foreign Policy Association. On the evening of May 3 Dr. Trotter spoke at a public dinner meeting. His subject was "Canada and the Americas."

Principal R. C. Wallace was guest speaker at the luncheon meeting held by the Ontario Commercial Teachers Association during the course of its forty-seventh annual convention in Toronto on April 15 and 16. Among other Queen's men who gave addresses at the convention were **P. A. Moreland**, Arts '24, Toronto, the president of the Association, and **Dr. A. B. Currie**, Com. '29, Montreal, who spoke on "Civic Training and Commercial Education."

Mrs. R. C. Wallace was re-elected president of the Faculty Women's Club at the second annual meeting held in the Old Arts Building March 25. Other officers were appointed as follows: first vice-president, Mrs. Frederick Etherington; second vice-president, Mrs. R. G. Trotter; secretary, Mrs. N. W. Buerger; treasurer, Mrs. F. A. Knox; convener of social committee, Mrs. H. P. Folger; convener of membership committee, Mrs. D. O. Hebb; convener of projects committee, Mrs. G. S. Melvin.

Prof. Hugh R. Walpole, formerly of the French department at Queen's and now at Harvard University, is the author of a book, "Semantics," which has just been published.

QUEEN'S CENTENARY

THE HISTORY OF QUEEN'S UNIVERSITY AT KINGSTON. By D. D. Calvin, Arts '02.

Published by the Trustees of the University. \$2.00, to alumni, if purchased through the University.

Reviewed by J. WILFRID EGGLESTON, ARTS '26.

THOSE of us who have known intimately the Queen's of today will read this book with persistent surprise, as well as with a glowing sense of pride and gratitude. Familiar, as we are, with the beloved cluster of grey buildings on the spacious campus, remembering as we do the stimulating and expanding years we spent there, it will come as an incredible revelation, almost, to trace this institution from its uncertain and discouraging beginnings a century ago, through several decades of penury and relative obscurity, through crises which seemed to doom its very existence, until it began at last its vigorous, sure growth toward stability and eminence. A realization that the Queen's of today was once merely a dream, inherent only in the purpose and aspiration of a few determined God-fearing pioneers, and then grew through adversity and vicissitude to its present stature, evokes a strong sense of wonder and unreality, as though we should watch a puny child grow from cradle days to robust creative maturity.

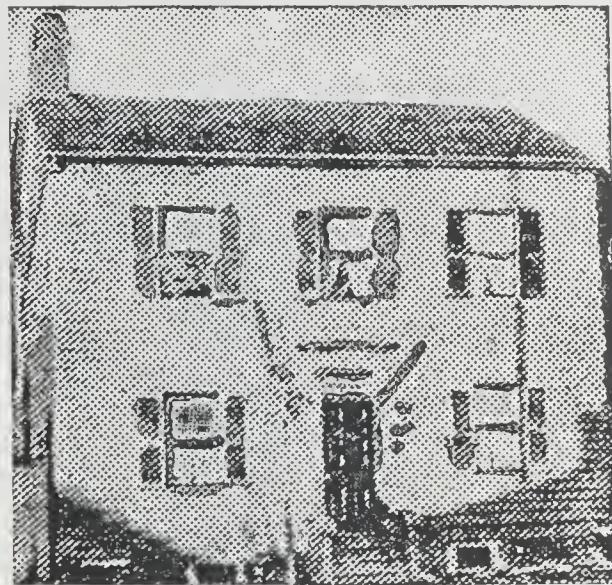

This is much more than the perfunctory recitation of names and dates which often does service for institutional histories. It was clearly a labour of love by a graduate who has steeped himself in the times and issues out of which Queen's sprang. The reader is grateful for the vivid honest sketches of pioneer life in the 1840's, the frank account of the strengths and weaknesses of the early leaders, the illuminating glimpses of the clashes between clerical and secular interests. Mr. Calvin is proud of his Alma Mater, but he has been too honest to write in a vein of uncritical adulation about the "Golden Days." Actually, Queen's was born in a rude and strenuous time, not

untouched by sterile controversy and bitter schism over which the author makes no attempt to gloss. It is all the more miracle that from this arid rocky soil such a rich and various flower should have bloomed, all the more credit to the vision and pertinacity of its founders.

More than a generation elapsed between the first formal efforts to establish a theological institution in connection with the Synod of the Presbyterian Church of Canada and the day when it could be said with any assurance that a permanent college had been created. The first appeal for aid in launching it was made to the provincial government in 1832, but classes did not begin until March 7, 1842; even then, the opening was far from auspicious. Only two professors were available, though three had been set as a minimum; there were only ten students; the embryo college had no buildings, holding classes in a small frame house on Colborne Street which the trustees had rented for two years. Several of the founders were soon discouraged, and some of them saw no possible future for the college. Even the principal, Dr. Thomas Liddell, was ready to give up the idea of a separate university. Affiliation with King's, the surrender of its degree-granting power, its reduction to a theological hall, were current proposals. There were acrimonious quarrels in the Board of Trustees.

King's College opened in 1843, and one of the chief reasons for opening Queen's, the lack of any college in Canada West, thus ceased to be valid. Nor was that all. In 1844, while the tiny institution was struggling for its life, the historic break occurred in Scotland between the Kirk and the Free Church, and "at one blow

the infant university lost about two-thirds of its students and its supporters." Ten of the trustees went over to the Free Church, and so did one of the two original professors, Rev. P. C. Campbell. In 1845 Dr. Liddell resigned, telling the board "roundly that if he had known the circumstances of Queen's, he would not have come to Canada at all, that in his

FIRST HOME OF QUEEN'S

opinion Canada is not ready for a university, that Canadian youths should go to Scotland to study theology. . . ." However, the trustees exhibited typical Scots (Canadian) resolution, they were discouraged but not defeated, and proceeded at once to appoint one of their own number, Rev. John Machar, as Principal. Rev. Robert McGill, one of the founders, published letters about this time in which he despaired of the future of Queen's, winding up with the observation: "The ship is on the rocks."

However, there were aboard, as the author observes, enough men of stout heart to save her. The struggle went on, and the trustees refused to be licked. In 1853, they bought "Summerhill," establishing Queen's for the first time on her present site. The attendance, which after the disruption of 1844 had fallen again to ten, and in 1849 was still only 30, rose to 130 by 1860, including the medical students. Solid progress began.

The fascinating tale of triumph over adversity, of survival in some fashion over all financial crises, of devotion by noble servants, goes fluently on. Those early years were sometimes bleak, but firm foundations were quietly being laid, and, as every Queen's graduate knows (or

should know) the coming of Grant as principal in 1877 ushered in a quarter of a century of most impressive performance. A Great Man had come to be the head of Queen's, and he collected about him a faculty which is still the talk of the older graduates of Queen's whenever and wherever they meet.

This book would be amply worth while even if it contained nothing more than the chapters about Grant and Grant's Men. This is a stirring narrative which adds measurably to the pride of every Queen's alumnus; it makes Grant a living figure for this generation, and of Grant's Men it is an enduring tribute to the "little group of men, who taught in a few bare crowded class-rooms under the high discipline of doing without almost all amenities for themselves and their students, (and) gave to the Queen's of their time a distinction which is one of the University's proudest possessions."

A slight sense of anticlimax is inevitable as one leaves the days of Grant, and, besides, we come to years no longer ancient history to the majority of alumni, being rather a part of their own happy recollections. Even so, it is a great pleasure to accompany Mr. Calvin as he surveys the productive regimes of Dr. Gordon and Dr. Taylor, the expansion of Queen's into many new fields, some of them temporary, the impact of the Great War, the addition one by one of such landmarks as Grant Hall, the Richardson Stadium, the Douglas Library, Miller Hall, the Gymnasium, and Ban Righ Hall.

The author gives us a fine blend of digest and sketch; we get flowing narrative interspersed with vivid thumbnail sketches of men and episodes. The typography and format are admirable, and there are eleven portraits and several other illustrations in the book. Queen's men and women, as well as envious readers not so fortunate in their stars, have a treat in store.

1941-42 Session Opens

Registration for the 1941-42 session begins on September 22. Classes commence September 25.

THE LATE DR.

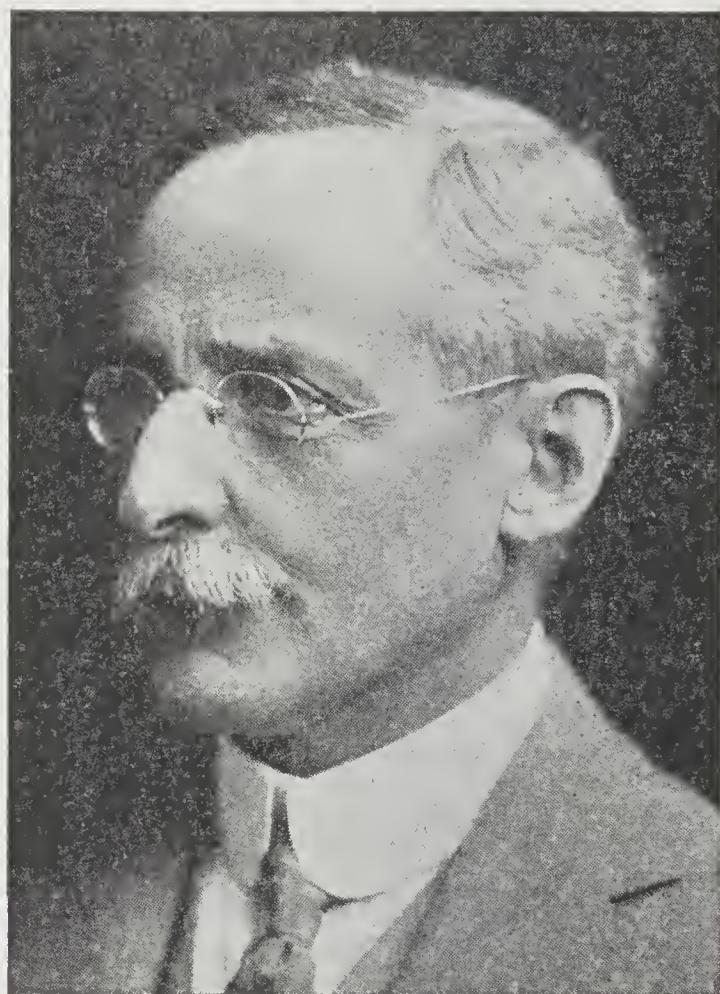

Retired professor of therapeutics and pharmacology at Queen's, and physician to four successive governors-general of Canada, Dr. Thomas Gibson died July 2 at Kingston, Ontario. The following appreciation was written by two of his colleagues.

THOMAS GIBSON was born in Strabane, County Tyrone, Ireland, in 1865. His father, James Gibson, was a Presbyterian minister, who was educated partly in the United States and later received an honorary degree from Princeton University. His mother was Hannah McLean, who came of a family from the Western Isles of Scotland which emigrated to Australia early in the nineteenth century. The Gibson family moved to Perth, Scotland, in 1873, where Thomas attended the local high school. Later on he went to Edinburgh, staying with a maternal uncle while he attended the Edinburgh Collegiate, a private school, the headmaster of which was a brother of Lord Bryce. It is interesting to note that at about the same time Earl Haig was also a pupil at this school. After leaving the Collegiate Thomas Gibson took the Arts curriculum of the University of Edinburgh, graduating M.A. in 1884. He then spent two years at the Free Church College, with the intention of following in his father's footsteps and becoming a clergyman. Realizing that the ministry was not his proper sphere, he entered the Medical Faculty of the University and graduated with first-class honours in 1894. During this period as schoolboy and student Dr. Gibson studied music and developed an unusual talent as a pianist. He was a member of an amateur musical society which gave concerts in aid of charity and he utilized his talent in church music and at religious services in the Royal Infirmary.

Dr. Gibson came to Canada in 1895, as medical A.D.C. to the late Lord Aberdeen, whom, as a member of his staff, he accompanied on many of the journeys which the Governor-General made in the Dominion. During this period a bond of real affection developed between the Aberdeens and their physician, which lasted throughout life. In 1898 Dr. Gibson started practice in Ottawa, where he was medical attendant to four successive

THOMAS GIBSON

governors-general and where he built up a large practice. Few medical men have been more beloved by their patients. Of a shy and retiring disposition but with a profound knowledge of his profession

DR. THOMAS GIBSON

and with intense understanding and sympathy, he made in many respects an ideal family physician.

In 1898 he married Eleanor Montgomery West Carey, daughter of the late Rev. Dr. George Carey. His wife's unusual social gifts did much to extend the friendships which the couple made outside the professional sphere.

In 1924 Queen's University was looking for a teacher of therapeutics and pharmacology. Realizing that the person best fitted to teach the action of drugs to the medical students was a man with wide experience in the application of these drugs in general practice, the trustees appointed Dr. Gibson to the Douglas Chair of Therapeutics and Pharmacology. With characteristic thoroughness and before taking over his professorial duties Dr. Gibson spent some months in Cambridge, England, working under Professor W. E. Dixon, at that time the outstanding pharmacologist in Great Britain. For fourteen years Dr. Gibson was re-

sponsible for the teaching of his subject to Queen's students and during this period he built up a department second to none in the University. There was no more popular professor in the Medical College. Besides imparting sound, practical knowledge in the use of drugs he emphasized the teaching of ethics and that kindly human contact which means so much in the relations between physician and patient. In addition to all this he stood strongly for the constant value of culture and good taste and set his students—quite unconsciously—a high example in this respect.

In 1934, feeling the need of additional help in the department, he secured the appointment of Dr. Eldon Boyd, an able pupil, as his assistant. It was natural, therefore, that on his retirement from the chair in 1938 he should hand over his duties to Dr. Boyd. Although he gave up the teaching of pharmacology at this time he continued to lecture upon the history of medicine until the end of the session just now completed.

Dr. Gibson was a true humanist. He was interested not only in medicine but, as we have seen, in music and was also a keen student of English literature and an appreciative collector of good prints and paintings. His own literary and historical writings include a valuable study of the work and influence of Theodore Mayerne, physician to the Royal Family in the time of James I. He wrote also a history of Kingston General Hospital and several articles dealing with the history of Queen's Medical School. He had a remarkable faculty for delving among old records and periodicals and extracting from them relevant information.

Those who were fortunate enough to hear Dr. Gibson perform upon the piano, either in public or in private, will never forget the excellence of his technique and, even more, the quality of love and reverence he possessed for the classic composers and the rare understanding he showed of their intentions as artists. He played with unusual skill and with deep sincerity.

Dr. Gibson was an ardent Scot and a lover of Scottish literature, especially of the works of Scott and Stevenson. Once a year regularly he read through *Kidnapped*, and Scott's *Journal* was his constant companion; indeed, the very last things he had read to him on his deathbed were extracts from it. For long he was an active member of St. Andrew's Society of Kingston and during two years occupied the president's chair. At the centenary dinner held last November an account was read of the early history of the Society which he had prepared.

Dr. Gibson was the honorary secretary of the central board of the Victorian Order of Nurses from 1898 to 1920 and he was its president from 1920 to 1922. In recognition of his pioneer work in the institution he was in 1911 given the order of St. John of Jerusalem. He was a foundation fellow of the Royal College of Physicians in Canada and a member of several learned societies.

The word "gentleman" is much abused. It is a word frequently on our lips, but one wonders how often it is really deserved in its true sense. It is the word above all others which rises to one's mind in relation to Thomas Gibson. Gentle-ness was the outstanding quality of the man and yet there was marked manliness underneath. These were indeed the characteristics which endeared him to his patients and to his friends alike. In an address given on the hundredth anniversary of the birth of Joseph Lister Dr. Gibson quoted verses written by W. E. Henley entitled *The Chief*—lines which may well be applied to our departed friend:

If envy scout, if ignorance den'y,
His faultless patience, his unyielding will,
Beautiful gentleness and splendid skill,
Innumerable gratitudes reply.
His wise, rare smile is sweet with certain-
ties,
And seems in all his patients to compel
Such love and faith as failure cannot
quell.

Dr. Gibson was the medical humanist in the poem of that name in George Herbert Clarke's *The Hasting Day*, which concludes:

That "pure serene" you breathe, for un-
awares
Your life in harmony enfolds your pray-
ers.

ROYALTY TO HONOUR QUEEN'S AT CONVOCATION

HIS EXCELLENCY, the Earl of Athlone, governor-general of Canada, and Her Royal Highness, the Princess Alice, will honour Queen's by accepting the degrees of Doctor of Laws, *honoris causa*, at the special convocation in Grant Hall, October 18. In his capacity of rector of the University, His Excellency will address the assembly.

This ceremony is one of the many features of the Centenary celebration, the complete programme for which may be found on pages 164-5 of this issue. All graduates are warmly invited to attend.

R.C.A.F. Radio Technicians Take Special Course At Queen's

THE Queen's campus had a decidedly military aspect this summer with 150 young men being trained as radio technicians for the Royal Canadian Air Force. The aircraftsmen slept in the Gymnasium, ate at the Students' Union, took classes in various University buildings, and studied in the Douglas Library.

All in their early twenties, these men will go overseas as soon as possible after the completion of their thirteen-weeks' course, which started June 16. H. H. Stewart, Sc. '26, assistant professor of electrical engineering, is in charge, assisted by various members of the mathematics, physics, and electrical engineering departments and by senior undergraduates.

Macdonnell House Is Reserved For French-Speaking Students

ARRANGEMENTS have been made for the 1941-42 session to set aside Macdonnell House, one of the Ban Righ Hall annexes, as a residence where only French will be spoken. Accommodation is provided for thirteen students who are specializing in French. Dr. Margaret Gibb, a graduate of the Sorbonne who has lived in Paris for seventeen years, has been appointed warden.

STAFF MEN DISCOVER CONTROL FOR GAS GANGRENE

DISCOVERY of a new treatment to control gas gangrene, one of the greatest causes of death among wounded soldiers, has been credited to Dr. G. B. Reed and Dr. J. H. Orr, Med. '23, professors of bacteriology at Queen's.

The new drugs, sulphanilamide, sulphapyridine, and sulphathiazole, were used to combat the deadly infection. Of these, the latter drug was found to be the most effective.

Working with the aid of a grant from the National Research Council, the bacteriologists developed a treatment which resulted in a startling decline in the mortality rate among experimental animals infected with gas gangrene. Oral administration of the drugs resulted in recovery of about one-quarter of the animals and a survival time of the remainder approximately twice as long as in untreated control animals. Local wound administration resulted in recovery of 61 per cent of the infected animals and a greater prolongation of the survival time. It was found that a combined wound and oral treatment produced slightly fewer recoveries, but a longer survival time.

The findings of Drs. Reed and Orr have been published in *Lancet*, the British medical journal, and a different phase of the same paper is to appear in *War Medicine*, a publication of the American Medical Association.

Principal Wallace Is Honoured By Engineering Institute

ACERTIFICATE of honorary membership in the Engineering Institute of Canada was given to Principal Wallace at a meeting held at Kingston June 14. The presentation was made by Dean C. J. MacKenzie, president of the Institute and acting president of the National Research Council.

Alumni Meetings Arranged

THE annual meeting of the General Alumni Association will be held in one of the classrooms in the New Arts Building at 9.30 p.m. on the evening of

October 18. The semi-annual meeting of the board of directors is scheduled for 5 p.m. the same day.

CANADIAN-AMERICAN AFFAIRS DISCUSSED AT CONFERENCE

THE fourth conference on Canadian-American Affairs held at Queen's June 23-26 attracted approximately 150 experts in the fields of history, economics, and government. This highly significant conference was held in co-operation with the St. Lawrence University at Canton, New York, and with the support of the Carnegie Corporation.

The programme dealt directly with the bearing of the present world crisis upon relations between the United States and Canada and with the wider significance of Canadian-American relations. Subjects discussed included military and economic aspects of Canadian-American relations in defence, North America and inter-American economic interests, insti-

tutional and economic bases of the entente between British countries and the United States, and North America's share in the maintenance of security. Each subject was presented by both an American and a Canadian speaker and ample opportunity was provided for exchange of views in discussion from the floor.

Among those participating in the formal programme were Mr. J. M. Macdonnell, chairman of the Queen's board of trustees; James T. Shotwell, LL.D. '37, director of the division of economics and history, Carnegie Endowment for International Peace; Dr. Frank Graham, president of the University of North Carolina; Principal R. C. Wallace; Hon. Hugh R. Wilson, former United States ambassador to Germany; Major T. H. Thomas, historian; Mr. Grant Dexter, parliamentary press gallery, Ottawa; Major-Gen. L. R. LaFleche, associate deputy minister of national war services, Ottawa; W. C. Clark, Arts '10, LL.D. '35,

SPECIAL CONVOCATION, JUNE 25

Front Row, Left to Right: Hon. J. Pierrepont Moffatt, Principal Wallace, Chancellor Dunning, Rt. Hon. Malcolm MacDonald, and Mr. A. A. Berle. Back Row, Left to Right: Vice-Principal McNeill, Dr. J. T. Shotwell, Dr. Frank Graham, Mr. J. W. Dafoe, Mr. Millard Jencks, and Principal Kent.

deputy minister of finance, Ottawa; Mr. Calvin B. Hoover, economic adviser, office of price administration and civilian supply, the Advisory Commission to the Council of National Defence, Washington; Mr. T. J. Watson, president of the International Business Machines Corporation, New York; A. A. Berle, LL.D. '41, assistant secretary of state, Washington; Mr. R. A. McEachern, news editor, *The Financial Post*;

Mr. Millard H. Jencks, president of The St. Lawrence University; Mr. C. H. McIlwain, Eaton professor of the science of government, Harvard University; Dr. F. C. James, principal and vice-chancellor of McGill University; Chancellor C. A. Dunning; Right Hon. Malcolm MacDonald, LL.D. '41, British high commissioner to Canada; Hon. Leon Mercier Gouin, the Senate, Ottawa; Mr. E. M. Earle, professor in the Institute for Advanced Study, Princeton; J. W. Dafoe, LL.D. '29, president and editor-in-chief of the Winnipeg *Free Press*; Mr. E. J. Noble, former under-secretary of commerce of the United States; and Mr. D. F. Fleming, professor of political science, Vanderbilt University.

A feature of the proceedings was the special convocation at which honorary degrees of LL.D. were bestowed on the Rt. Hon. Malcolm MacDonald; Mr. A. A. Berle, and Mr. J. Pierrepont Moffat, United States minister to Canada. Mr. MacDonald replied on behalf of the recipients.

DR. NATHANIEL MICKLEM TO DELIVER LECTURE SERIES

REV. NATHANIEL MICKLEM, D.D. '31, principal of Mansfield College, Oxford, will deliver the Chancellor's Lectures at the forty-ninth annual conference of Queen's Theological Alumni Association October 20-23. His subject will be "What We Are Thinking in Britain; A Semi-Theological Survey."

Among those participating in the programme will be Principal Kent, Prof. F. A. Knox, and Mr. André Biéler, of the Queen's staff, and Rev. G. M. Chidley, Napanee, Ont., Rev. P. L. Jull, Arts '11, Theol. '14, Brooklin, Ont., Rev. A. P. Menzies, Arts '09, Theol. '12, Westboro,

Ont., Rev. N. M. Leckie, Arts '97, Theol. '02, D.D. '30, Grimsby, Ont., Rev. Donald Munro, Theol. '89, Carleton Place, Ont., and Rev. W. R. Alp, Arts '16, Perth, Ont.

CANADIAN ARTISTS HOLD FIRST CONFERENCE

UNDER the direction of Mr. André Biéler, resident artist at Queen's, the first conference of Canadian artists ever held took place at the University June 26-28, concluding on June 29 with a session at the National Art Gallery, Ottawa. The conference was held under the auspices of Queen's and the Art Gallery, with the collaboration of the Carnegie Corporation.

The programme dealt with two main subjects: The Relation of Artist and Society, and The Technique of the Painter. The speakers included Mr. Edward Rowan, section of fine arts, Public Administration Building, Washington; Mr. Walter Abell, Acadia University; Prof. John Alford, University of Toronto; Mr. Thomas Hart Benton, well-known American painter; Mr. F. W. Stern, director of the Painters' Workshop; Mr. R. J. Gettens, Harvard University; Mr. George Holt, Harvard.

Various aspects of art in Canada at the present time were presented and time was given for discussion. The Federal Works Agency, Washington, sent a complete set of working material, sketches, cartoons, working drawings, and photographs of large murals, enabling the artists to study the methods of presentation of such works. Demonstrations of techniques and methods were given.

The National Gallery presented an exhibition of contemporary Canadian paintings in Grant Hall, which was on view throughout the conference.

Purchased Victory Bonds

IN the War Loan campaign, Queen's purchased \$250,000 in Victory Loan Bonds. The Queen's University Contingent, Canadian Officers' Training Corps, invested \$15,000, and Queen's Theological College bought \$35,000 in bonds.

ON HIS MAJESTY'S SERVICE

SINCE the last issue of the *Review*, two alumni were killed in air operations over England and another lost his life when a small troop ship was sunk. Flying Officer Peter W. Lochnan, Arts '38, who had six German planes to his credit, was killed May 21, and Pilot Officer Dallas William Owen, Arts '40, died the same day. Lieut. Jean-Maurice Boullanger, Sc. '39, attached to the Canadian Army Pay Corps, was lost at sea about May 10.

* * * *

Flying Officer J. J. Meikle, Sc. '37, participated in what the British Ministry of Information calls "one of the greatest epics of flying," when he and a companion pilot flew a 15-ton Catalina flying boat across the Atlantic minus ailerons. The latter were lost shortly after the take-off from Bermuda. Flying Officer Meikle learned to fly at the Kingston Flying Club while attending Queen's.

* * * *

Squadron Leader P. Y. Davoud, Sc. '34, is one of three Canadians who share the distinction of being the first fliers posted to the trans-Atlantic ferry service so that they might get to England in a hurry to complete their courses as night fighter pilots. On his passage over, he just missed seeing the battle in which the *Bismarck* was sunk.

* * * *

Royal Canadian Engineers—Lieut. H. E. Armstrong, Sc. '40, Lieut. A. P. Beavan, Sc. '32, Lieut. W. E. Blake, Sc. '42, Lieut. R. C. E. Bray, Sc. '37, Lieut. J. W. Burnet, Sc. '40, Lieut. A. E. Chalmers, Sc. '23, Lieut. A. L. Clemence, Sc. '26, Lieut. V. E. Ellis, Sc. '40, Lieut. H. M. Fair, Sc. '22, Major J. W. D. Farrell, Arts '12, Sc. '15, Lieut. J. I. McAskill, Sc. '36, Lieut. D. J. McIntyre, Sc. '40, Lieut. J. F. Morazain, Sc. '38, Lieut. Stewart Slater, Sc. '38, Sgt. W. B. Sterling, Sc. '42, Lieut. T. Stewart, Sc. '43.

Royal Canadian Naval Volunteer Reserve—Sub-Lt. W. J. Burgon, Com. '41, Sub-Lt. G. C. Clark, Med. '45, Lieut. D. H. Craighead, Sc. '29, Surgeon-Lt. C. W. E. Danby, Med. '40, Sub-Lt. H. M. Harrison, Arts '43, Surgeon-Lt. G. E. Large, Med. '39, Sub-Lt. J. K. Macbeth, Arts '43, Sub-Lt. A. G. Marshall, Sc. '44, Surgeon-Lt. H. R. Ruttan, Med. '35.

Royal Canadian Air Force—PO. W. R. Binks, Sc. '40, Sgt. Observer D. J. Carmichael, Sc. '42, Flt. Lt. Paul Cunningham, Com. '30, John Dobson, Sc. '40, Flt. Lt. J. E. Forbes, Sc. '16, AC2 W. J. Howe, Sc. '44, Flt. Lt. J. N. Langman, Sc. '32, PO. R. S. Lockeberg, Sc. '40 (aeronautical engineering branch), PO. H. B. Love, Arts '22 (accountant branch), PO. W. N. McGillivray, Sc. '40, A. F. Malone, Arts '37, FO. J. J. Meikle, Sc. '37, AC2. H. E. Petch, Arts '40, PO. R. J. W. Pollock, Sc. '37 (navigation branch), PO. R. Proudfoot, Arts '37 (navigation branch), PO. A. C. E. Ritter, Arts '32 (education branch), PO. D. N. S. Robertson, Arts '34 (navigation branch), PO. R. W. Shannon, Arts '36 (navigation branch), PO. N. S. Spence, Sc. '36 (aeronautical engineering branch), LAC. F. G. Statham, Sc. '39, LAC. W. J. G. Stewart, Sc. '24 (link trainer branch), PO. E. W. Wiskin, Sc. '41.

Royal Canadian Army Medical Corps—Lieut. J. H. Bateman, Med. '35, Lieut. F. R. Donnelly, Med. '36, Capt. D. E. Rathbone, Med. '39, Lieut. J. E. Roddick, Med. '38, Lieut. Samuel Shenkman, Med. '33, Lieut. T. C. Smith, Med. '19, Col. E. L. Stone, Med. '13 (embarkation officer), Lieut. J. B. Tucker, Med. '19, Lieut. J. G. Wright, Med. '15.

Royal Canadian Artillery—Lieut. C. R. Maundrell, Arts '41, Lieut. C. C. Storr, Arts '35, Lieut. J. S. Maxwell, Com. '41, Lieut. D. I. Shaver, Arts '41.

Royal Canadian Ordnance Corps—Lieut. H. E. Marion, Sc. '37, Lieut. B. M. Webb, Arts '32.

Infantry—Col. H. C. Hatch, Sc. '15 (Argyll and Sutherland Highlanders of Canada), Lieut. J. A. Mason, Arts '33 (Algonquin Regt.), Pte. H. F. B. Miller, Med. '33.

Royal Canadian Corps of Signals—Capt. J. B. Clement, Sc. '36.

Canadian Forestry Corps — Capt. Claude Maxwell, Sc. '23.

ALUMNI WILL RECEIVE EMPLOYMENT RECORD FORMS

ALUMNI-EMPLOYMENT record forms will be sent out to all graduates and former students at Queen's within the next few weeks.

These forms should be completed in as much detail as possible and returned promptly. The Employment Service should be notified immediately of any change in positions or of the outcome of negotiations made on behalf of the graduates. This co-operation will enable the bureau to carry on efficiently and to the best advantage of all concerned.

The demand for technically trained men and women during the past few months has far exceeded the supply. In many cases excellent opportunities for employment had to be passed up simply because there was no one registered with the necessary experience. For this reason it is vitally important that the records be kept up to date at all times.

The facilities of the Service are free to graduates, students, and employers.

Mrs. F. C. Casselman Elected To Canadian House of Commons

AN easy winner over two opponents in the Edmonton East by-election June 2, Mrs. F. C. Casselman (Cora Watt), Arts '12, became the first Liberal woman member of the House of Commons. Mrs. Casselman was nominated as a candidate after the death of her husband, F. C. Casselman, Arts '11, who was elected in 1940.

After graduating from Queen's in 1912, Mrs. Casselman taught in the Collegiate Institute at Kingston, Ontario, before going to Edmonton, Alberta, in 1919.

NUMEROUS STAFF CHANGES TO BE MADE THIS FALL

NUMEROUS staff changes have been announced for the coming academic year.

There is a good possibility that Dr. J. H. Brovedani, professor of Spanish and Italian languages and literature, will be able to resume his duties. Dr. Brovedani has been in Italy since the outbreak of war, unable to get visas and a sailing, but he now has all his reservations and lacks only a Portuguese visa, which he has been assured will be granted. Mr. A. B. Minor, lecturer in Spanish, has been given leave of absence in the second term for study at Princeton.

In the civil engineering department, R. A. Low, Sc. '28, who has been employed on war work for the past year, will be returning as assistant professor of civil engineering. J. D. Lee, Sc. '40, will be joining the staff as a lecturer; Mr. M. W. Huggins, A. D. McGinnis, Sc. '28, and J. W. Brooks, Sc. '39, have resigned.

Dr. A. M. Doyle, assistant professor in charge of neurological medicine, will conduct a neuro-psychiatric service in Military District No. 6, at Halifax. Dr. G. E. Large, Med. '39, who was appointed to the anatomy department in the absence of Dr. C. R. Salsbury, has joined the Canadian navy. Dr. D. E. Rooke, Med. '37, who has been at Mayo Clinic, Rochester, Minnesota, is coming to Queen's as a fellow in medicine. In the department of chemistry, J. A. Martin, Arts '36, has resigned, and Dr. Cosmo Mar-
chant has been appointed lecturer. Mr. W. H. Poole, who was made lecturer when Dr. W. A. Mackintosh was granted a leave of absence, is going to the University of Manitoba as assistant professor.

Fifty Summer Students Train With Queen's C.O.T.C. Contingent

APPROXIMATELY fifty Summer School students took part of the work required for a commission in the army offered by the Queen's University Contingent, Canadian Officers' Training Corps. Major G. S. Melvin, second in command, was in charge in the absence of Lt.-Col. R. O. Earl. The work cov-

ered by the course included that necessary for writing the first paper, common to all arms, and the second paper, special to infantry.

ENGINEERING "PROCEEDINGS" TO APPEAR NEXT MONTH

A SPECIAL centennial issue of the *Proceedings of the Engineering Society of Queen's University*, Volume 30, will make its appearance next month. Special features will include articles relating to the history of the University.

The expenses of publication are borne by contributions from Science alumni, receipts from advertising, and an annual fee of fifty cents collected from each undergraduate in engineering. Alumni are urged to fill in and return the information forms regardless of whether they wish to contribute financially. Additional forms may be secured on request.

Information about Science alumni on active service will be greatly appreciated. All communications should be addressed to the Editor, *Engineering Proceedings*, Queen's University.

Gifts to Douglas Library Include Autographed Portraits

RECENT gifts to the Douglas Library include signed portraits of Lord and Lady Aberdeen, presented by them to the late Charles Livingston, when that gentleman was mayor of Kingston, in 1898. These will be added to the Shortt-Haydon collection hung in the Library. Other pictures have been given by Miss E. E. Beard, Kingston; these are prize work done in Italy towards the end of the nineteenth century.

Tea Car Dedicated To Memory Of The Late James W. Davis

THE James W. Davis Memorial Tea Car, which will serve with the Canadian Army Overseas, was dedicated in a ceremony held at the George Richardson Stadium July 9. This presentation was made possible by a bequest in the will of the late James W. Davis, Com. '33. Vice-Principal McNeill participated in the ceremony.

PAYS WARM TRIBUTE TO DR. MARGARET O'HARA

A HEARTFELT tribute to the memory of the late Dr. Margaret O'Hara, Med. '91, LL.D. '32, who had a long record of service as a medical missionary in India, is contained in the March issue of the *United Church Review*, published in Northern India. It was written by her friend of fifty-three years, Dr. Margaret McKellar, Med. '90, LL.D. '29, also a distinguished medical missionary, now retired.

In part, the appreciation reads as follows: "Dr. O'Hara had no trained workers but, nothing daunted, she started work with two Indian Christian catechists. Her supreme opportunity came in the famine years of 1899 and 1900, when she was instrumental in saving famine orphans. Once she wrote that she had more than one hundred little children whom she hoped to win for Christ. She became their Ma-Bap (mother and father). A regulation of the state forbade the sending of any famine orphans to any other place, so Dr. O'Hara cared for them as if they were her own—housed them, fed them, taught them, and when they were old enough arranged for their marriages, which gave her great joy and satisfaction. No grandmother could be more delighted with the arrival of grandchildren than Dr. O'Hara was with the arrival of bonny brown babies, for whom she had a real mother love. . . .

"All her fellow-missionaries—men as well as women—loved Dr. O'Hara; to them all she was 'Aunt Maggie.' She received many tokens of friendship and appreciation of her work from the Prince and other Indians who had benefitted by her services; and when she was leaving India in 1927 the missionaries with whom she had worked expressed, in words and gifts, the high esteem in which they held her."

To Direct Transportation

Sir Frederick Carson, Arts '08, was appointed director of transportation at Iraq recently. He has already assumed his new duties.

CENTENARY

Visitors are asked to register at the Students' M.
Student gu...

THURSDAY, OCTOBER 16 UNIVERSITY (CHARTER) DAY

3.00 p.m., Grant Hall—

Service of Thanksgiving and Remembrance. Preacher, Rev. Dr. Neil Leckie, Past President of Queen's Theological Alumni Association.

4.30 p.m., Convocation Hall—

Address, *A Hundred Years in Theological Thought*, by Rev. Dr. Nathaniel Micklem, Principal of Mansfield College, Oxford University.

8.00 p.m., Grant Hall—

Presentation of Delegates.

Address of Welcome by Hon. Charles A. Dunning, LL.D., Chancellor of Queen's University.

Congratulatory Addresses.

Address, *Looking Forward in Education*, by Dr. R. C. Wallace, Principal of Queen's University.

FRIDAY, OCTOBER 17

9.30 a.m., Grant Hall—

Address, *A Hundred Years in the Humanities and Social Sciences*, by Sir Robert Falconer, Former President of the University of Toronto.

11.00 a.m., Convocation Hall—

Address, *A Hundred Years in Medicine*, by Dr. Henry Sigerson, Johns Hopkins University.

2.30 p.m., Grant Hall—

Centenary Convocation.

Conferring of Honorary Degrees.

Commemoration Ode, Dr. George Herbert Clarke, Queen's University.

Address, *The Progress of Science and Applied Science in a Hundred Years*, by Sir Thomas Holland, Principal of the University of Edinburgh.

7.00 p.m., City of Kingston—

Student Parade.

PROGRAMME

any time after 9 a.m., Thursday, October 16.

Attendance.

00 p.m., Gymnasium—

City of Kingston Banquet for Centenary Delegates and other Special Guests.

Address, *Observations on Business and Finance*, Sir Edward Peacock, Governor of the Bank of England.

SATURDAY, OCTOBER 18

00 a.m., Grant Hall—

Presentation of Alumni Felicitations.

Address, *The Story of Queen's*, by Dr. W. E. McNeill, Vice-Principal of Queen's University.

Special Convocation (11.15 a.m.) for Conferring of Honorary Degrees upon Their Excellencies, the Earl of Athlone, Governor-General of Canada, and the Princess Alice.

Rectorial Address (11.30 a.m.) by His Excellency the Governor-General.

115 p.m., Gymnasium—

Buffet Luncheon available.

30 p.m., George Richardson Memorial Stadium—

Inspection of Queen's University Contingent, Canadian Officers' Training Corps, by His Excellency the Governor-General.

Football Game.

.00 p.m., Convocation Hall—

One-act Play by Queen's Dramatic Guild.

Queen's Motion Picture Film, *Paths of Learning*.

.00 p.m., Grant Hall—

University Reception, with Showing of One Hundred Years of Fashions at Queen's.

.00 p.m., Gymnasium—

Centenary Dance, under Auspices of the General Alumni Association.

Arrangements are being made for special radio broadcasts of the Centenary ceremonies.

Musical selections will be rendered during the programme by the University choir, under the direction of Dr. F. L. Harrison, Resident Musician.

370 STUDENTS ATTEND SUMMER SCHOOL

THREE hundred and seventy students enrolled for the 1941 session of the Queen's Summer School, a decrease from last year's total, according to figures given by the department of university extension. All are taking the regular Arts course, as the courses in education and upper-school work were not offered by the provincial Department of Education this year.

Special features in the curriculum included three courses in stagecraft, school assembly programmes, and directing and acting. Art and music were offered as credit courses. Special instruction, direction, and practice in choral-verse speaking

were given by Miss Fay Myles, Toronto, Ontario.

The weekly sing-song continued to be one of the most important events in student life. Speakers included Dr. W. E. McNeill, Dr. A. Vibert Douglas, Dr. G. F. Rogers, deputy and acting minister of education for Ontario, Rev. Dr. H. A. Kent, and Principal Wallace.

A wide variety of social activities was arranged and included dances, boat trips, athletic tournaments, and picnics. The drama group presented a number of plays and the Glee Club staged Gilbert and Sullivan's *Trial by Jury*.

The radio technicians who are being trained at the University for the Royal Canadian Air Force were invited to join in the social programme of the Summer School.

AT THE BRANCHES

Montreal

THE seventh and last regular meeting of the current season was held in the Convention Room, Mount Royal Hotel, May 21, with President Claude Root, Arts '19, in the chair.

Mr. Christopher Ellis, well-known radio newscaster, book reviewer, and public speaker, delivered an interesting address on "The Amazing Mr. Churchill." He was thanked on behalf of the meeting by E. M. Patton, Com. '26.

Announcement was made that a letter appeal on behalf of the Centenary Fund was going forward to all members of the branch, asking for their support. This would be followed up by a personal canvass. The co-operation of all members in this important drive was requested.

The meeting was told that the executive had instructed the treasurer to invest in Victory Loan bonds part of the funds held by the branch.

Best wishes were extended to Lieut. J. A. Edmison, Arts '26, past president of the branch, who was leaving Montreal in the near future.

AN informal and delightful gathering of recent alumni was held at the Delta Sigma Phi fraternity on June 12. Dancing to recorded music and the showing of movies by C. D. Marshall, Sc. '41, were enjoyed by the graduates and their friends.

Among those present were the following: Miss Evelyn Caron, Arts '41, J. M. Courtright, Sc. '41, W. H. Conway, Com. '41, Miss Lorna Breckon, Arts '41, Miss Doris Anglin, Arts '43, L. J. Campbell, Com. '41, R. S. Cuthbertson, Sc. '41, Miss Mary O'Neill, Com. '41, A. C. Kuhns, Sc. '41, Miss Peggy McHaffie, Arts '44, G. C. Collison, Sc. '41, G. O. Saunders, Sc. '40, W. D. Alford, Sc. '41, C. W. McDougall, Com. '38, Mrs. C. W. McDougall (Eileen O'Connor), Arts '34, Miss Mabel Turnbull, Arts '39, H. H. Lockwood, Sc. '39, Miss Mildred Dougherty, Arts '40, C. D. Marshall, Sc. '41, B. M. Cooper, Arts '39, Miss Isobel Matheson, Arts '40, D. L. Rigsby, Sc. '40, Miss Freda MacEwan, Arts '41, R. G. Rowan, Sc. '40, E. G. Sellers, Sc. '41, and D. D. Fraser, Sc. '41.

Quebec

A DINNER and informal party was held at the Habitant Inn on May 16. At the annual meeting which followed, Francois Turgeon, Com. '36, was elected president.

Grace was said by Rev. Dr. A. M. Gordon, D.D. '19, and an interval of silence

FRANCOIS TURGEON

C. G. O'NEILL

was observed in respect to the memory of the late honorary president, Hon. Frank Carrel, LL.D. '19, and Lieut. Maurice Boulanger, Sc. '39.

The president, Rev. Dr. A. D. Matheson, Arts '12, Theol. '16, welcomed the guests and introduced new members, including Capt. A. L. Wright, Arts '32, Sc. '33, and Mrs. Wright, Capt. C. B. Bate, Sc. '15, and Mrs. Bate, H. W. Stewart, Sc. '26, and Mrs. Stewart. The secretary, W. D. Muir, Com. '33, read several letters of interest, and G. W. Warner, Sc. '23, presented a birthday cake in honour of G. E. Shipman, Sc. '24.

Included in the business of the annual meeting was the reading of the secretary's report by Mr. Muir, the presentation of the financial report by C. G. O'Neill, Com. '33, and the election of officers. In addition to Mr. Turgeon, the following were appointed: honorary president, Hon. L. A. Taschereau, LL.D. '30; vice-president, J. G. Macdonald, Arts '26; secretary, L. P. Letarte, Com. '33; treasurer, Mr. O'Neill; executive committee—Mr. Muir, Captain Wright, Mrs. A. D. Matheson (Gertrude McCuaig), Arts '15, and Mr. Stewart.

In the business discussion it was decided not to conduct a personal canvass for subscriptions to the Queen's Endowment

Fund, but that the new executive should consider sending out a circular letter as a follow-up to the literature already mailed from the University. Members were urged to entertain Queen's men in the armed forces who were stationed in Quebec.

Several games were played, including a quiz contest, table tennis, and bow and arrow. Prizes were awarded to Mrs. Grant Macdonald, Mrs. R. Farnsworth, Dr. Matheson, Mr. Macdonald, Mr. Warner, and Mrs. Wright. A special prize was given to C. G. Thomson, Sc. '25, as the best-looking man.

British Columbia

THE annual get-together of Queen's graduates attending the British Columbia Conference of the United Church was held recently in Canadian Memorial Church in Vancouver. A goodly company of about thirty foregathered as of yore, and "the merry songs we used to sing" were rendered with all the lusty vim of yesteryear.

The number of theologists available for this annual event diminishes with the passage of time, as there is a growing tendency to give calls to graduates from local colleges. The old guard holds on, however, and is still full of fire. Rev. C. H. Daly, Arts '90, Theol. '93, is ever the irrepressible dean of the party. Other stalwarts are T. A. Brough, Arts '93, Rev. Robert Herbison, Arts '96, Theol. '98, Rev. T. J. S. Ferguson, Arts '98, Theol. '02, Rev. Harry Feir, Arts '95, Theol. '99, Rev. Dr. A. D. McKinnon, Arts '94, Theol. '97, Rev. Archibald McMillan, Arts '99, Theol. '02, Rev. J. A. Petrie, Arts '01, Theol. '06, Rev. Andrew Walker, Arts '01, Theol. '02, Rev. J. A. Donnell, Arts '02, Theol. '06, Rev. William Stott, Arts '07, Theol. '10, Rev. J. L. Clerihue, Arts '21, Rev. C. H. Ballard, Arts '16, Theol. '17, Mrs. R. N. Matheson (Mary Naismith), Arts '11, Rev. H. A. McLeod, Arts '18.

Not all the above were in attendance at this year's meeting, but most of them were. In addition there were a number of "friends of Queen's" as guests. Any member of Conference who can claim any

connection with Queen's is usually present.

Rev. J. B. Skene, Arts '16, was one of the speakers, relating student escapades of his day. Mr. McLeod gave a charming description of his trip down North on the Mackenzie River last vacation, and not the least interesting of his experiences was the fact that he usually managed to discover a Queen's man even in the remotest outposts.

The group unanimously re-elected Mr. Stott as president, vice-president, and secretary-treasurer, but it transpired that this year all the arrangements had been made by Mr. Herbison.—W. S.

Ottawa

CECIL D. WIGHT, Sc. '28, was elected president of the Ottawa branch for the ensuing year at the annual meeting held in the Chateau Laurier June 11. In the absence of D. K. MacTavish, Arts '20, retiring president, A. K. Light, Sc. '17, acted as chairman.

Other officers elected were as follows: honorary president, C. Jackson Booth, Arts '86; honorary vice-presidents, Mrs. Adam Shortt (E. Smith), Med. '84, Mrs. T. K. Waddell (Jean Govan), Arts '20, Rev. Hugh Cameron, Arts '76, Dr. T. J. Thompson, Arts '95, D.D. '29, and A. H. Brown, Arts '96; vice-presidents, J. J. Dunlop, Arts '15, Mrs. J. E. Plunkett (Marion Moffatt), Arts '26, and Dr. W. P. E. Patterson, Arts '26; secretary, D. W. McGill, Com. '32, Arts '33; treasurer, Dr. O. E. Ault, Arts '24; committee—W. H. Losee, Sc. '12, E. I. Holmes, Sc. '24, H. C. Redfern, Arts '38, Ralph Bartlett, Sc. '12, M. C. Tillotson, Com. '26, C. R. Booth, Sc. '38, J. L. Shearer, Sc. '28, Mrs. N. A. MacRae (Florence Barrington), Arts '28, Miss Kathleen Derry, Arts '30, Miss Kathleen Wingard, Arts '12, Miss Marjorie Gordon, Arts '38; athletic committee—A. H.

C. D. WIGHT

Brown, Arts '96, and D. G. Mallory, Sc. '20; auditors—A. T. Batstone, Arts '17, and N. A. Irwin, Arts '14; nominating committee—Mr. MacTavish, Mr. Light, J. M. Wardle, Sc. '12, J. H. Ramsay, Sc. '11, and Miss Helen Wilson, Arts '24.

An interesting address on "Shanghai Today" was given by Miss Margaret Brown, Arts '12, who recently returned from China, where she had spent a number of years. Miss Brown dealt with present-day conditions in China as affected by the Sino-Japanese conflict.

A distinguished visitor at the meeting was Mrs. F. C. Casselman (Cora Watt), Arts '12, newly-elected member of parliament for Edmonton East. Mrs. Casselman expressed her pleasure at being able to be present at a gathering of Queen's people.

Entitled "The Cabot Trail, Cape Breton Highlands National Park," a natural-colour film was shown. At the conclusion of the meeting refreshments were served.

Hamilton

THE annual dinner and dance was held in the Starlight Room of the Royal Connaught Hotel last spring with more than one hundred guests in attendance. C. H. Drew, Com. '25, was the convener, and the president, Dr. L. T. Williamson, Med. '27, was the chairman.

Prof. Watson Kirkconnell, Arts '16, gave a most interesting address entitled "Tales of Western Canada." Several vocal solos were given by Mrs. C. H. Drew, accompanied at the piano by Miss Dorothy Dowsley, Arts '26. The singing of college songs and a birthday presentation to Dr. H. W. Whytock, Arts '13, Med. '20, of one war saving stamp, well wrapped, were also highlights of the programme.

The following executive was announced: past president, Dr. Williamson; president, J. C. Cooper, Arts '30; first vice-president, Mr. Drew; second vice-president, Miss Helen Tillotson, Arts '30; treasurer, Dr. R. M. Stringer, Med. '29; secretary, W. M. Warnick, Sc. '35; committee—Mrs. W. G. Cornett (Jessie Ewart), Arts '21, Miss Margaret New-

ton, Arts '36, Miss Elizabeth Sheldon, Arts '21, G. S. Otto, Arts '10, K. F. Ettinger, Arts '16, Dr. H. L. Thoman, Med. '39, Dr. J. S. Goodbrand, Med. '37, G. T. Wright, Sc. '39, F. H. Sherman, Sc. '39, W. G. Lawson, Sc. '14, F. H. Gillan, Arts '21, James Cameron, Arts '28.

New York

THE first Queen's outing was held June 21 at Indian Point, New York. Included in the gathering were alumni of Dalhousie, Acadia, and Mt. Allison, who were invited by President N. A. Brisco, Arts '98.

Everyone enjoyed everyone else's picnic lunch. The scheduled races and games were suspended by unanimous

vote, influenced no doubt by the 90-degree temperature. Half the guests went for a swim in the pool while the others watched and visited. The nearby Hollow Brook Country Club attracted the golf enthusiasts, most of whom came back to the park at supper-time.

* * * *

A benefit cocktail party was sponsored at the home of Dr. F. J. Matthews, Med. '11, and Mrs. Matthews, last spring, and the net proceeds of \$100 were presented to the Maple Leaf Fund. A very pleasant evening was spent. Many alumni of Toronto, McGill, Dalhousie, and Western were present, and were loud in their praise of the hospitality of the Queen's group.

ALUMNI NEWS

Births

Argue—At the Porcupine General Hospital, on July 29, to D. A. Argue, Arts '36, and Mrs. Argue, a son (Frederick William).

Bews—At the General Hospital, Kingston, on June 17, to Dr. D. C. Bews, Med. '35, and Mrs. Bews (Mary Woodsworth), Arts '36, a daughter (Mary Alison).

Bootes—At the Ottawa Civic Hospital, on June 19, to Mr. C. J. Bootes, and Mrs. Bootes (Ruth Graham), Arts '29, a son.

Carson—At the Ottawa Civic Hospital, on May 22, to Capt. R. J. Carson, Sc. '37, and Mrs. Carson, a son.

Darling—At the Hotel Dieu Hospital, Kingston, on July 9, to Mr. C. M. Darling, and Mrs. Darling (Mary Brophy), Arts '34, a son.

Dufour—On May 30, to Dr. T. T. Dufour, Med. '28, and Mrs. Dufour, Ottawa, a son.

Dulmage—At the Great War Memorial Hospital, Perth, Ont., on June 28, to G. R. Dulmage, Arts '32, and Mrs. Dulmage, a daughter.

Ellis—At the Ottawa Civic Hospital, on June 4, to Mr. C. W. Ellis, and Mrs. Ellis (Hester Shore), Arts '27, a son (David Charles).

Emslie—At the Ottawa Civic Hospital, on July 26, to Mr. A. R. G. Emslie, and Mrs. Emslie (Ruth Georgette Faull), Arts '37, a daughter (Sandra Jean).

Graham—On June 26, at Bourlamaque, Que., to T. V. Graham, Sc. '34, and Mrs. Graham, a daughter (Margaret Anita).

Graves—At the Kirkland Lake District Hospital, Kirkland Lake, Ont., on July 16,

to H. A. Graves, Sc. '28, and Mrs. Graves (Maidie Baker), Arts '32, a daughter.

Greer—At the Ottawa Civic Hospital, on July 28, to Reginald T. Greer, and Mrs. Greer (Marjorie Devine), Arts '29, a daughter.

Hanna—At the Civic Hospital, Ottawa, on July 16, to Dr. H. E. Hanna, Med. '28, and Mrs. Hanna, a son.

Kennedy—At the Ottawa General Hospital, on July 23, to P. J. Kennedy, Arts '34, and Mrs. Kennedy (Doris McGuire), Arts '37, a daughter (Rose Ann Catherine).

Kennedy—On May 18, in the Women's General Hospital, Montreal, to H. E. Kennedy, Sc. '37, and Mrs. Kennedy, Verdun, Que., a daughter (Judith Lynne).

Lewis—At Wellesley Hospital, Toronto, on June 20, to T. H. Lewis, Sc. '39, and Mrs. Lewis (Lois Craig), Arts '39, a daughter (Helen Anne).

Locke—On August 1, at Grand Falls, Nfld., to Harry C. Locke, Arts '41, and Mrs. Locke, a son (Harry Herbert).

McAskill—On June 27, to J. I. McAskill, Sc. '36, and Mrs. McAskill (Betty d'Estre), Arts '38, Bourlamaque, Que., a daughter (Elisabeth Ann).

MacGregor—At the Ottawa Civic Hospital, on May 19, to Kenneth R. MacGregor, Sc. '29, and Mrs. MacGregor, a son.

McKibbon—At the Kingston General Hospital, on June 25, to Major K. H. McKibbon, Sc. '38, and Mrs. McKibbon, a daughter (Mary Katherine).

Martin—At the Kingston General Hospital, on May 31, to F. B. W. Martin, and Mrs. Martin (Doris Pound), Arts '34, a daughter.

Muir—On June 24, at Jeffery Hale's Hospital, Quebec City, to W. D. Muir, Com. '33, and Mrs. Muir, a son (Warren Douglas).

Murphy—At the Hotel Dieu Hospital, Kingston, on May 24, to Mr. T. E. Murphy, and Mrs. Murphy (Eileen Workman), Arts '38, a son (Thomas Brian Edward).

Mutrie—At the General Hospital, Guelph, Ont., on May 15, to Capt. E. T. Mutrie, Med. '37, and Mrs. Mutrie, a daughter (Nancy Grace).

North—At St. Joseph's Hospital, Sudbury, Ont., on May 21, to H. H. North, Sc. '24, and Mrs. North, a daughter (Elizabeth Grace).

Paquet—At the Hotel Dieu Hospital, Kingston, on June 27, to L. A. Paquet, Arts '37, and Mrs. Paquet, a daughter (Mary Frances).

Paterson—On July 18, at the Peel Memorial Hospital, Brampton, Ont., to R. E. Paterson, Arts '27, and Mrs. Paterson, a daughter.

Poupore—On May 31, at St. Michael's Hospital, Toronto, to J. S. Poupore, Sc. '39, and Mrs. Poupore, a son.

Ralph—At Victoria Hospital London, Ont., on July 21, to Prof. J. D. Ralph, Arts '24, and Mrs. Ralph, a son (John Sherwood).

Reid—On July 6, at the General Hospital, Pembroke, Ont., to Dr. L. G. Reid, Med. '39, and Mrs. Reid, a daughter (Judith Ann).

Revell—At the Kingston General Hospital, on May 30, to G. A. Revell, Sc. '30, assistant professor of chemical engineering at Queen's, and Mrs. Revell, a daughter (Catherine Elizabeth).

Rose—On June 22, at the Women's College Hospital, Toronto, to H. G. Rose, Arts '19, and Mrs. Rose, a daughter.

Rowse—At Hopewell Private Hospital, Leamington, Ont., on June 2, to C. N. Rowse, Arts '38, and Mrs. Rowse, a daughter.

Walker—Recently in Toronto, to Mr. E. S. Walker, and Mrs. Walker (Katherine Krug), Arts '26, a daughter.

Waugh—On May 10, at the General Hospital, Oshawa, Ont., to J. D. Waugh, Arts '35, and Mrs. Waugh (Eleanor Kidd), Arts '35, a daughter (Jo-Ann Elizabeth).

Marriages

Amodeo—At St. Columbanus Church Elgin, Ont., on June 5, Margaret O'Meara to Dr. William Amodeo, Med. '40. Dr. Amodeo is practising in Mallorytown, Ont.

Bauman—On June 14, in Bloor Street Street United Church, Toronto, Margaret Emma Lord to Gilbert John Bauman, Arts '34. They will live on Lonsdale Road, Toronto.

Billings-Graham—In Chalmers United Church, Kingston, on June 7, Mary Beatrice Graham, Arts '39, daughter of Prof. Stanley Graham, Sc. '09, and Mrs. Graham (Beatrice Birch), Arts '04, Kingston, to Capt. George Michael Billings, Sc. '36, R.C.C.S., Victoria, B.C. Mrs. E. T. Munro

(Barbara Graham), Arts '37, sister of the bride, was matron of honour.

van Damme-Swayne—In the Morgan Memorial Chapel, Queen's University, on June 18, by the father of the bride, Rev. Edwin S. Swayne, Marjorie Helena Swayne, Arts '41, to Joseph van Damme, Sc. '41.

Woolsey—At Christ Church Cathedral, Ottawa, on May 17, Catharine Maud Woolsey, Arts '34, to Captain Stuart King, Sussex, N.B.

Deaths

Allan—A bride of eight days, Mrs. Harold F. Allan (Kathleen Campbell), Arts '31, died in Africa on July 16, a victim of malaria. Mrs. Allan sailed from New York on May 16 for Africa. Submarine alarms held

up the ship many times and it was not until July 8 that she reached Cape Town. She was married to H. F. Allan, Sc. '31, the same day. The happy couple immediately left for West Rand, Transvaal, 1,000 miles inland, where Mr. Allan has been employed as a mining engineer for the last six years. En route Mrs. Allan became ill, contracting malaria. She is survived by her husband and her parents.

Beaty—Drowned in Lake Huron a few days after having returned from the combat zone overseas, Leading Aircraftsman Harry G. Beaty, Sc. '42, lost his life on July 30. He had been brought back to Canada to receive radio training. Mr. Beaty was born at Guelph, Ontario, in 1913. He entered Queen's in 1930 and played on the junior Intercollegiate football team. At the end of the second term he withdrew from college and did not return until 1938. In the interval he was employed on various mining and construction jobs. After he had written his examinations this spring he spent some months with the Royal Air Force in Britain and then he was posted to the radio technical school now under construction at Trenton, Ontario.

Boulanger—Enroute to England, Lieut. Jean-Maurice Boulanger, Sc. '39, lost his life when a small troop ship was sunk about May 10. He was a lieutenant in the Canadian Army Pay Corps. Mr. Boulanger was born at Quebec City, 1914, and attended Quebec Seminary, College de Sainte-Anne de la Pocatiere, and Laval University, where he obtained his B.A. degree. He enrolled in Science at Queen's 1935-36, and two years later joined the civil service at Quebec. At the outbreak of war he joined the army. Surviving are his parents.

Campbell—Former moderator of the Presbyterian Synod of Toronto and Kingston, Rev. Neil Campbell, Arts '83, died at Barrie, Ontario, on April 18, after an illness of a week. Mr. Campbell was born on the Island of Islay, Scotland, in 1856, and was brought to Canada the same year. Before entering Queen's in 1879 he attended the Collingwood Collegiate Institute. He obtained his B.A. degree in 1883 and took the theological course for two years. After ordination into the ministry he held the Elmsley charge in Ontario, which he organized as a congregation. In 1894 he assumed the Oro charge near Barrie, where he spent twenty-nine years, retiring in 1923. The survivors are his wife and four children.

Croft—A graduate of Queen's and McGill, Dr. Lawrence V. Croft, Arts '99, died at London, Ontario, May 19, at the age of sixty-four. He was born at Middleville, Ontario, and received his early education there and at Almonte. In 1894 he entered Queen's, where he received his B.A. degree in 1899. He enrolled in medicine at McGill and graduated as a doctor in 1902. He practised at Queensboro, Atwood, and Middleville, and in 1939 he moved to London. The survivors are his wife, three sisters, and two brothers.

Cunningham—Pioneer family physician in Carman, Manitoba, Dr. Harvey Clarkson Cunningham Med. '85, died at his home July 2 after an illness of a few hours. With the exception of a brief term of postgraduate study at Edinburgh, Scotland, Dr. Cunningham had practised in Carman ever since graduating from Queen's fifty-six years ago. He was held in high esteem by his profession and was one of the examiners of graduates in medicine and surgery. His valuable service to the community was publicly recognized at a town meeting five years ago when six hundred residents gathered to honour him and his wife. He was a member of the Carman General Hospital board since it was founded and in 1940 was made an honorary life member. He also held high offices in the Masonic and Odd Fellows fraternal organizations. He and his son, a graduate of McGill, had one of the most extensive practices in the province of Manitoba. Dr. Cunningham was born at Kingston, Ontario, in 1864, and entered Queen's in 1881. He received his M.D., C.M. degrees four years later. The funeral service, held at Carman, was conducted by Rev. A. M. Gray, Theol. '30.

Doolittle—President and general manager of Canada Crushed Stone Corporation, pioneer in the quarrying industry and one of the largest operators in Canada, Charles M. Doolittle, Arts '05, died suddenly July 5 at his home in Hamilton, Ontario. Mr. Doolittle was born in Plainsville, Ohio, but had lived in Hamilton since he was three years old. He received his preliminary education in Hamilton and at Deveux College, Niagara Falls, New York. He enrolled at Queen's for the 1901-02 session. Purchase of a small quarry at Rymal, Ontario, gave him his start in an enterprise which he developed with marked success, and the firm of which he was head expanded under his capable guidance until it became one of the largest of its kind in the Dominion. He was a prominent executive and held offices in a large number of business, sport, and social organizations. Surviving are his wife, two sons, three daughters, and one sister.

Flemming—One of the pioneer ministers of western Canada, Rev. David Flemming, Arts '87, Theol. '89, died at his home in Winnipeg, Manitoba, June 21, after an illness of several months. He had gone west in 1900 in response to an appeal for young ministers. In 1939 he celebrated fifty years in the ministry. Mr. Flemming was born at Glenholme, Nova Scotia, in 1866, and received his preliminary education at Halifax and Dalhousie. He entered Queen's in 1885 and obtained his B.A. degree two years later. He took the theological course at Queen's and Chicago and then started his career as a minister. After holding several pastorates in Ontario, including one in Toledo, he went to the Canadian west. His first charge was at Edmonton, Alberta, where he stayed for nine years. From Edmonton he went to Dauphin, Manitoba, for eight years, following which he assumed

charge of Riverview Church in Winnipeg. He resigned from Riverview in 1927 and went to Morden, Manitoba, for four years. In 1933 he retired, but continued to assist in church work. He was honoured with the degree of doctor of divinity by Pine Hill Divinity College in 1937. Surviving are his wife, two sons, a daughter, a brother, and a sister.

Irwin—Head of the science department of Glebe Collegiate Institute, Norman Alan Irwin, Arts '14, died suddenly at his home in Ottawa, Ontario, June 13. An excellent teacher, he was extremely popular with his students and fellow staff-members. Mr. Irwin was born in Ottawa in 1890 and received his early education in the schools of that city. He enrolled at Queen's in 1909 and obtained his B.A. degree five years later, taking part of his course extramurally. He continued his extramural studies for a number of years. After graduation he taught in the Belleville High School until 1919, when he went to Ottawa to join the staff of Lisgar Collegiate Institute. In 1922, when the Glebe was opened, he transferred to that institution. The survivors are his wife, a daughter and a son, five sisters, and two brothers—Dr. D. C. Irwin, Med. '12, and A. H. Irwin, Arts '17.

For Prospectus write to Principal,
REV. C. R. CARSCALLEN. M.A., D.D.

Johnston — Medical health officer for North Norwich township, Ontario, Dr. John Johnston, Arts '97, Med. '06, died at Burgessville on June 29 after an illness of two months. He was born at Forester's Falls, Ontario, in 1869 and received his preliminary education at Renfrew. He entered Queen's in 1890 and obtained his B.A. degree in 1897. His original intention was to enter law but he changed his mind and returned to Queen's in 1903, enrolling in medicine. He obtained his M.D., C.M. degrees three years later. After graduation he practised at Combermere, Bessemer, and Elk Lake, before going to Burgessville, where he carried on for many years.

Lochnan — A veteran of the Battle of Britain, Flying Officer Peter William Lochnan, Arts '38, died in England on May 21 as a result of injuries sustained in an air accident. He joined the R.C.A.F. in 1939 and was a member of Wing Commander McNab's No. 1 Fighting Squadron, which had an active part in the September air battles over England. He had half a dozen planes to his credit, and had had to bail out on two occasions when his own plane was shot down. In one instance, after he had brought down a German plane, Lochnan himself landed and gave first aid to the injured pilot, removing a bullet from the airman's back. F. O. Lochnan was born in

Ottawa in 1913 and was educated in the schools of that city. He went to Queen's in 1934 and remained for three sessions. He was a good athlete, excelling in skiing and football. He is survived by his wife and parents and three sisters.

Mason — After an illness of several months, Mrs. W. R. Mason (Caroline Clerihew), Arts '06, died at her home in Parry Sound, Ontario, May 21. She was the last of her family, one brother having been killed at Vimy Ridge and another dying as a result of war injuries, and a sister having predeceased her some time ago. Mrs. Mason was born at Kingston, Ontario, in 1885, and she entered the Collegiate there with the highest standing in the city. After matriculating, she enrolled at Queen's 1902-03, but gave up her college career in favour of music. In 1906 she married Dr. W. R. Mason, Med. '02, and spent most of her married life in Parry Sound. She is survived by her husband, Dr. W. R. Mason, Med. '02, and nine children, including Miss Margaret Mason, Arts '26, and Lieut. J. A. Mason, Arts '33.

Moore — After an illness of a month's duration, Dr. Hilton Mark Moore, Med. '03, passed away in the General Hospital at Brockville, Ontario, on May 26. Dr. Moore was born near Lyn, Ontario, in 1873, and received his early education at Athens. He

entered Queen's in 1899 and obtained his M.D., C.M. degrees four years later. He had practised medicine at Athens ever since, and he was medical officer of health for the village of Athens and also for the Township of Rear of Yonge and Escott. He served as physician to the county House of Industry at Athens and was a trustee of the high school. He is survived by his wife and one daughter.

Owen—Taking part in air operations over England, Pilot Officer Dallas William Owen, Arts '40, was killed in action May 21. Although he had signed up with the air force at the outbreak of war he had not been called for service until January, 1940. He received his preliminary training at Winnipeg and won his "wings" at Camp Borden. While at Borden he made a crash landing and spent some time in Christie Street Hospital, Toronto, Ontario, recovering from the injuries. He went overseas in February and had been attached to a fighter squadron whose personnel was made up of Australian, South African, Polish, and British airmen. P. O. Owen was born at St. Thomas, Ontario, 1918, and received his preliminary education in the schools of that city. He entered Queen's in 1936 and attended for three sessions. As an undergraduate he was active in athletics. He is survived by his parents.

Reid—One of a group who approached Sir William Dawson in 1884 and succeeded in having women admitted to McGill University, Miss Helen Richmond Reid, LL.D. '21, died in Montreal, Quebec, June 8, at the age of seventy. A writer, lecturer, and leader in social work in Canada, Miss Reid earned wide recognition for her achievements as director of the Patriotic Fund in Montreal during the World War. Among other honours she received honorary degrees of LL.D. from McGill and Queen's. Born in Montreal, Miss Reid obtained her education there, and she was a gold medalist of the first women's class to graduate from McGill. She then studied at Geneva and in Germany. Miss Reid was made a commander of the British Empire in 1935 for her educational and philanthropic work and also received the Jubilee Medal the same year and the Coronation Medal in 1937.

Susman—Suddenly, at Buffalo, New York, Mendel Susman, Sc. '23, died on June 12. For the past twenty-one years he had been a resident of Buffalo, where he practised accountancy. Burial took place at the Temple Emmanuel Cemetery in Buffalo, according to the orthodox Jewish rites. Mr. Susman was born in Montreal, Quebec, in 1898, and moved with his family to Kingston, Ontario, at the age of six months. Matriculating from the Kingston Collegiate Institute in 1915 he joined the 14th Battalion and served in France as a signaller in his unit for the duration of the war. On his return to Kingston, he attended Queen's for two years. He is survived by his wife and daughter, his mother, three brothers—Dr. William Susman, Arts '19, Med. '23, Man-

chester, England, Dr. A. B. Susman, Arts '26, Med. '28, New York City, and Dr. B. R. Susman, Arts '30, Med. '33, Warren, Ontario—and four sisters.

Truesdell—Eighty-three years of age, Dr. A. W. Truesdell, Med. '89, died at his home, Lake Orion, Michigan, early in July. He was born at Castleton, Ontario. He practised dentistry at Gananoque and Brockville before enrolling in medicine at Queen's. He completed his medical course at Saginaw Valley Medical School and practised at various points in Michigan for more than forty years. Among the survivors is a nephew, Dr. W. A. M. Truesdell, Med. '22, Fort Simpson, North West Territories.

Notes

1890-1899

Dr. N. A. Briscoe, Arts '98 (Ph.D. Columbia), dean of the New York University School of Retailing, was presented with a bronze plaque in honour of his twenty-one years of service, when the school held its annual dinner in New York recently. The presentation was made on behalf of the faculty by one of the first graduates.

Major A. W. Dunkley, Arts '99, a member of the staff of Oakwood Collegiate Institute for thirty years and latterly vice-principal and head of the classics department, has retired. In honour of the occasion the pupils of the school presented him with a radio early in June, and later in the month a dinner was given in his honour by members of the staff, at which a presentation was also made.

Rev. Dr. W. P. Fletcher, Arts '96, Marmora, Ont., was elected president of the Bay of Quinte Conference of the United Church, at a meeting held in Belleville early in June.

Dr. P. J. Kingsley, Med. '94, has moved his offices from Dorchester, Mass., to 244 Blue Hills Parkway, Milton, Mass.

Lt.-Col. W. M. O. Lochead, Arts '96, Kitchener, Ont., was elected an officer of Rotary International at the international convention held in Denver, Colorado, in June. Colonel Lochead is life insurance counsellor of the Mutual Life Assurance Company of Canada and president of the Four Wheel Drive Auto Company.

Rev. Dr. A. D. McKinnon, Arts '94, Theol. '97, is United Church minister at Peachland, B.C. He formerly had the charge at Caribou, B.C.

M. J. O'Connor, LL.B. '92, is retiring as deputy magistrate of Ottawa, which position he has held for the past ten years. Before graduating in law at Queen's, Mr. O'Connor taught for several years. Later he practised in Kingston, Windsor, and for many years in Toronto, where he was a partner in the firm of Lennox and O'Connor. He was made a King's Counsel in 1908. Magistrate O'Connor went to Ottawa in 1930.

1900-1909

Dr. M. A. Carmichael, Med. '08, Regina, Sask., was bereaved on June 6 by the death of his wife.

Rev. J. A. Donnell, Arts '02, Theol. '06, has moved from Nelson to Prince Rupert, B.C.

Dr. James Dwyer, Arts '02, Med. '05, LL.D. '27, of New York City, and **Dr. F. X. O'Connor**, Med. '14, Kingston, recently returned from Los Angeles, Calif., where they attended the annual meeting of eye, ear, nose, and throat specialists. Dr. Dwyer was honoured with the presidency of the Triological Society. **W. O. Dwyer**, Arts '07, Sc. '09, Kingston, accompanied them on the trip.

Prof. D. S. Ellis, Arts '07, Sc. '10, head of the department of civil engineering at Queen's, was recently elected a councillor of the Engineering Institute of Canada, representing the Kingston branch.

J. W. Gibson, Arts '08, formerly with the Department of Education, Victoria, B.C., is now in Ottawa with the Canadian Legion War Services as director of correspondence instruction.

Rev. Dr. R. C. Jackson, Arts '06, Theol. '09 (D.D. Southwestern College, Kansas), is minister of First Presbyterian Church, Winfield, Kansas.

Mrs. Malcolm Lindsay (Mabel Aylesworth), Arts '04, has taken charge of the United Church girls' home in Burnaby, B.C. She has been engaged in similar work in Saskatchewan for many years.

Dr. J. J. McCann, Med. '09, Liberal member of the House of Commons for Renfrew, was elected president of the Canadian Pub-

lic Health Association, at the thirtieth annual meeting of that body held recently in Quebec City.

Rev. Hector Macpherson, Arts '03, for fifteen years head of the department of economics and sociology at Oregon State College, is now retired and living at Albany, Oregon. He has served as a member of the State legislature for Oregon for four terms.

Prof. J. A. McRae, Arts '09, head of the chemistry department at Queen's, was elected and installed as Grand Master of the Grand Lodge of Canada, A.F. & A.M., in Ontario, at the closing session of the eighty-sixth annual communication held in Toronto recently.

Dr. W. E. Spankie, Med. '06, practises in Calgary, Alta., with offices in the Southam building. His residence address is 234-26th Ave. W.

1910-1919

W. F. Loucks, Arts '10, has resigned from the staff of Greenway School, Winnipeg, where he has been for more than thirty years, for the past fourteen years as principal. He was honoured by teachers and former teachers at a meeting held early in June, when high tribute was paid to his services and a presentation was made.

Dr. J. W. Mackie, Med. '14, Lansdowne, Ont., was elected a vice-president of the Ontario Health Officers' Association at the annual meeting held recently in Toronto.

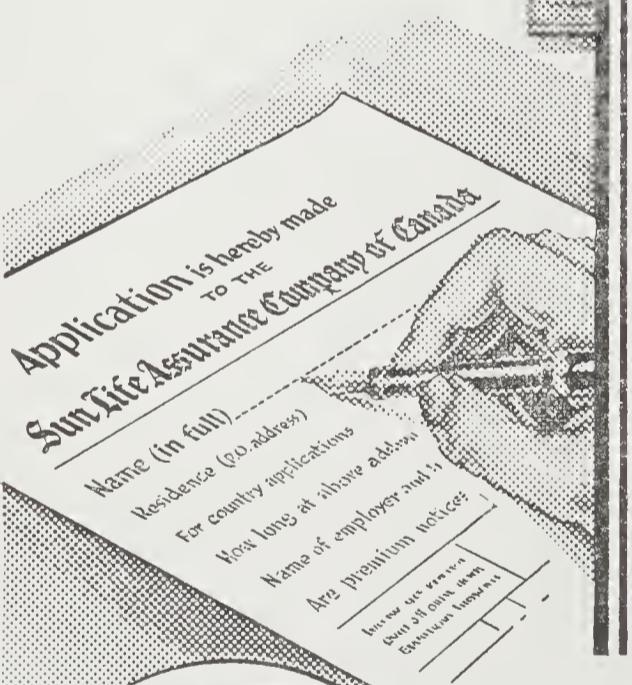

"Now the chief point of interest here . . ."

Mrs. R. N. Matheson (Mary Naismith), Arts '11, New Westmister, B.C., has published a book of sonnets "Out of the Dusk," the sales of which will be donated to the Queen's Canadian War Fund.

Miss Ruby C. Nash, Arts '12, formerly of Edmonton, has taken up residence at 2715 West 32nd Ave., Vancouver, B.C. She spent the past winter in California.

W. A. Newman, Sc. '11, chief mechanical engineer of the Canadian Pacific Railway, was recently appointed general manager of Federal Aircraft Limited, a Crown company handling much of Canada's war-time aircraft production.

Mrs. T. J. Norman (Mary Nash), Arts '13, is living at 3677 West 12th Ave., Vancouver, B.C.

W. G. Oliver, Arts '19, teaches in Winnipeg, Man. His address is 239 Niagara St.

C. P. Seeley, Arts '12, principal of the Saskatoon Normal School, Saskatoon, Sask., was recently elected and installed as a Grand Master of the Grand Masonic Lodge of Saskatchewan.

Rev. J. B. Skene, Arts '16, pastor of Central Church, Vancouver, B.C., was elected moderator of the Presbyterian Church in Canada at the sixty-seventh general assembly of the Church held early in June in Toronto. Mr. Skene's first charge was at St. Andrew's Church, Huntsville, Ont., where he served from 1920 to 1926. He then went to Emmanuel Church in Toronto for eleven years before assuming his present charge in 1937.

Dr. C. W. Topping, Arts '12 (Ph.D. Columbia), of the staff of the University of British Columbia, spent some time in the East this summer, lecturing in history at the Queen's Summer School. **Mrs. Topping** (Marjorie Ellis), Arts '20, accompanied him.

Dr. Leo Zealand, Arts '12, Med. '14, Bristol, England, lost his car and garage when Bristol was bombed some months ago.

1920-1929

R. J. Askin, Sc. '23, is manager of the Thunder Bay Paper Company, Port Arthur, Ont.

E. S. Biggs, Com. '27, is a chartered accountant in Regina, Sask.

B. H. Budgeon, Sc. '23, is at the Belleterre Quebec Mines, Belleterre, Que.

Dr. A. B. Currie, Arts '29 (M.A. Alberta, Ph.D. London, England), is a member of the staff of the Faculty of Education at McGill University, Montreal.

B. I. England, Arts '20, Com. '23, has been elected president of the Kingston Rotary Club.

W. M. Harvey, Sc. '24, is with the Rhokana Copper Corporation, N'Kana, Northern Rhodesia.

J. E. Mason, Arts '26, is division manager for Canada Dry Ginger Ale Limited, Toronto.

W. E. Patterson, Sc. '24, recently returned from England and is now associated with the Allied War Supplies Corporation, Montreal.

Dr. C. H. Playfair, Med. '24, formerly physician at Hamilton, Ont., who has been overseas with the R.C.A.M.C. for some time, was recently promoted from the rank of major to lieutenant-colonel.

Rev. A. N. Reid, Arts '22, Theol. '24, minister of Richmond and Stittsville Presbyterian churches for the past five years, was elected moderator of the Ottawa Presbytery at a meeting held in Stittsville, Ont., recently.

H. R. Sills, Sc. '21, of the Canadian General Electric Company staff at Peterborough, Ont., was recently elected a councillor of the Engineering Institute of Canada.

Lt.-Col. H. J. Styles is Officer Commanding No. 3 Army Field Workshop, Camp Debert, N.S.

B. J. Walsh, Sc. '22, for many years on the staff of the Consolidated Mining and Smelting Company at Trail, B.C., has been appointed professor of metallurgy at Laval University, Quebec City.

1930-1941

C. E. Almqvist, Sc. '36, **J. T. Corlett**, Arts '36, Sc. '38, **D. D. Fraser**, Sc. '41, and **Warren Keating**, Sc. '40, are at present studying methods of making nylon at the Dupont plant in Seaford, Delaware. They will be attached to the staff of the new nylon plant of Canadian Industries Limited, Kingston, when it starts operations in November.

Dr. M. O. L. Barrie, Med. '32, is on the staff of the Ontario Hospital at Fenetanguishene, Ont.

A. S. Bayne, Sc. '35, is underground superintendent at the Canadian Malartic Gold Mines, Malartic, Que.

H. C. Beachell, Arts '37, has joined the staff of Dupont de Nemours Company, Grasselli Division, Cleveland, Ohio.

Miss Lola Billings, Arts '35, has been appointed assistant principal and director of music at the high school in Beeton, Ont.

Mrs. E. M. Boyd (Eleanor Rowland), Arts '33, Kingston, was bereaved on March 1 by the death of her father, Mr. T. W. Rowland.

S. L. Brennan, Arts '31, who went to Nassau, Bahamas, some years ago as a member of the government-controlled high school there, was recently appointed principal of the school.

Miss Roberta Brodie, Arts '40, received her M.A. from Bryn Mawr University this spring.

Miss Evelyn Brown, Com. '40, is with the Canada Life Assurance Company, Toronto.

D. C. Brunton, Sc. '40, who did postgraduate work last year at the California Institute of Technology, Pasadena, Calif., has joined the staff of the National Research Council, Ottawa.

Miss Frances Clarke, Arts '40, is now on the office staff of the Aluminum Company of Canada, Kingston.

Rev. Joseph Clarke, Arts '41, Theol. '41, was ordained to the ministry at the seventeenth annual session of the London Conference of the United Church held recently in

Windsor, Ont. His charge is at Iron Bridge, Ont.

R. E. Clarke, Sc. '35, is employed as a resident engineer by the Department of Transport, Civil Aviation Branch, on aerodrome construction work. He is at present in Kingston, where his address is Annandale Court, Sydenham St.

Dr. J. J. Cunningham, Med. '40, formerly at the General Hospital in Regina, recently joined the staff of Jackson Memorial Hospital, Miami, Florida, as assistant resident physician.

A. G. Darling, Sc. '35, and **R. V. Darling**, Sc. '35, are both on the staff of the Preston East Dome Mine, South Porcupine, Ont.

A. S. E. Duncan, Sc. '40, formerly with Canadian Industries Limited, Valleyfield, Que., is now plant foreman for the Oxygen Company of Canada, Montreal.

Miss Barbara Gibson, Arts '40, recently completed a two-year course in occupational therapy and physiotherapy at the University of Toronto.

W. D. Gilbert, Sc. '32, with No. 3 Army Field Workshop, R.C.O.C., Debert, N.S., has been promoted to the rank of captain.

Miss Evangeline Girvin, Arts '37, is in the nylon division of Canadian Industries Limited, Montreal.

Rev. A. J. M. Gray, Theol. '30, is minister of St. James's United Church, Winnipeg, Man.

E. J. A. Hamilton, Arts '39, **L. J. Sobisky**, Arts '39, **R. B. Munro**, Arts '35, and **J. G. Potter**, Arts '41, are taking a course with the Dominion Meteorological Service at Toronto in connection with the Government's air-training plan.

Miss Frances Hayward, Arts '41, is taking a course of training at Peterborough, Ont., for the inspection of munitions.

M. G. Hughson, Arts '38, has been appointed acting principal of Ryerson Public School, London, Ont.

PO. A. H. Laidlaw, Arts '39, formerly at Regina, Sask., is now stationed with the R.C.A.F. at No. 7 S.F.T.S., Macleod, Alta.

Dr. E. A. Larkin, Med. '33, formerly at Amenia, N.Y., has joined the United States Army Medical Corps and is stationed at Fort Dupont, Delaware.

Dr. H. D. Latham, Med. '38, is practising at Beamsville, Ont.

H. H. Lockwood, Sc. '39, is with the Wilkinson Linatex Company, Montreal. His residence address is 467 Lansdowne Ave., Westmount, Que.

Murray Luscombe, Sc. '41, is employed by the Canadian General Electric Company, Peterborough, Ont.

D. W. Marshall, Arts '34, who is with the United Kingdom Technical Mission and is stationed at Joplin, Missouri, and **Mrs. Marshall** (Helen Kennedy), Arts '34, have moved to Reding's Mill, Missouri. The post office address is Box 2021, Joplin. Mr. Marshall was recently elected to associate membership in the Canadian Institute of Chemistry.

Miss Aileen Mason, Arts '36, has joined the staff of the inspection board of the United Kingdom and Canada at Niagara Falls, Ont.

H. H. Merritt, Sc. '31, is acting mine superintendent at the Geita Mine of Geita Gold Mining Company, Tanganyika, British East Africa.

Dr. F. J. Myers, Sc. '33, is with Rohm and Haas Company, Philadelphia, Penn.

J. D. Paterson, Sc. '40, is instrument man at the Paymaster Mine, South Porcupine, Ont.

Dr. K. W. Saunders, Sc. '36 (Ph.D. New York University), is on the staff of the research laboratories of the American Cyanamid Company, Stamford, Conn.

Dr. C. H. Shaver, Med. '36, is practising in Sault Ste. Marie, Ont., where his address is 646 Queen St. E.

Lieut. E. T. Sherwood, Arts '36, is second in command of the Canadian corvette "Prescott."

Capt. W. P. Shirreff, Sc. '35, has returned from overseas to act as a signal instructor at a Canadian training centre.

W. J. E. Smyth, Com. '33, has been appointed Unemployment Insurance Inspector for the Kingston district. He was formerly in the annuities branch of the Department of Labour, Ottawa.

Carter Storr, Arts '37, Ottawa, recently received his M.A. from the Graduate School of Western Reserve University, Cleveland, Ohio.

N. A. Sweetman, Arts '31, is principal of Blythwood School, Toronto.

J. L. Taylor, Sc. '36, is on the staff of the Metropolitan Electric Corporation, London, England. His address is 111 Brondesbury Road.

Miss Sheila Wallace, Arts '40, daughter of Principal and Mrs. Wallace, who graduated from the Library School, University of Toronto, this spring, was recently appointed to the staff of the Toronto Public Library.

Rev. C. R. Wragg, Arts '33, Theol. '35, has moved from Peace River, Alta., to Viking, Alta.

General

Dr. W. H. Coverdale, LL.D. '22, head of the Canada Steamship Lines, New York, has been elected president of the Maple Leaf Fund, organized more than a year ago to aid the Canadian and British war effort. All the directors and sponsors of this relief organization, which has collected more than \$500,000, are Americans with Canadian business affiliations.

Miss Winnifred Kydd, formerly dean of women at Queen's, has been appointed deputy chief commissioner of the Canadian Girl Guide Association, to succeed Lady Falconer, Toronto.

Prof. L. T. Rutledge, of the mechanical engineering department at Queen's, was bereaved early in June by the death of his wife. **Winifred Rutledge**, Arts '36, is a daughter, and **Kenneth Rutledge**, Arts '41, a son.

THE STORY OF QUEEN'S

*Address delivered by Dr. W. E. McNeill on Student and Alumni Day,
Queen's University Centenary Celebration, October 16-18*

THOUGH guests are present, this meeting is really a family party of students and graduates. To them I speak. I am not writing history. Mr. D. D. Calvin has done that incomparably. I hope you will all buy his book. I am merely telling a story in pride and affection. Though I am not a Queen's man born, nor a Queen's man bred, yet when I die there's a Queen's man dead. So works the magic of this place.

Queen's is a hundred years old. A university, unlike a woman, takes pride in its age. It generally observes its hundredth birthday as soon and as often as it can. Dalhousie has already had two centenaries, one in 1919 and one in 1938. It will probably have a third in 1963 to mark the real beginning of its work.

Centenaries are not what they seem.

Victoria had a centenary five years ago, Toronto fourteen years ago, McGill twenty years ago. Yet Queen's began teaching before any of these. It opened its doors March 7, 1842; Victoria, June 21, 1842; King's, out of which Toronto emerged, in 1843; McGill's real as opposed to a technical opening was also in 1843, when its Arts work began. Laval was only a Theological Seminary till 1852, when it obtained its charter and the power to confer degrees.

Thus Queen's was the first active university in all the 3000 miles between Fredericton, New Brunswick, and the Pacific Ocean.

What brought it into existence?

Three main causes. First, and least, sectarianism.

In our day of pallid creeds it is hard to realize how sharply theological doctrines divided men one hundred years ago. In the home and the fields and the market place they debated predestination and original sin and questioned whether those of other denominations could be saved. It was axiomatic that education should be based on Christian principles. And that meant, for example, that a student in Natural Philosophy was assigned, not laboratory exercises, but essays "On the Evidence of the Being and Perfections of God derived from Physical Science." It was considered highly dangerous for a boy to be taught any subject save by a member of his own Church. Even Arithmetic might have serious implications for the doctrine of the Trinity.

Out of such background came all the Ontario universities. They all began as denominational colleges.

The second cause of Queen's was John Strachan.

Son of an Aberdeen quarryman, he broke his birth's invidious bar and made by force his merit known. He came to Canada in 1799 with twenty shillings in his pocket and indomitable courage in his heart. He sought to be minister of a Montreal Presbyterian Church and failing turned to the Church of England. He became successively rector, husband of a rich woman, archdeacon, a militant bishop, a political power. The Governor sent him to England to get a charter for a provincial university. He came back with a charter for a thorough-going Church of England college, called King's, with himself as president and the requirement that the governing body and staff should subscribe to the thirty-nine articles. He actually thought of it as a missionary college that would ultimately convert all Upper Canada, Indians included, to the Church of England. There was consternation among other denominations. This obviously would be no fit place for good Methodists and Presbyterians and Roman Catholics. No wonder they founded their own colleges.

The third and chief reason for Queen's was the need of ministers.

Over one of the great gates of three-hundred-years-old Harvard is written: "After God had carried us safe to New England . . . and we had rear'd convenient places for . . . worship; one of the next things . . . we looked after was to advance *Learning* . . . dreading to leave an illiterate ministry; when our present ministers shall lie in the dust."

Such words might well be over Queen's gates too. They tell exactly the motives of the high-minded Scotsmen, lovers of learning, servants of God, who founded this university. The population of Upper and Lower Canada was then a million and a quarter, but in all that territory there was no university and the only supply of ministers was from the Old Country. Year by year the Synod appealed to the mother church in Scotland, "Send us ministers." But few came. In 1839 the Moderator said that eighty were needed and none could be got. There was only one solution—to train them in Canada.

Originally the Presbyterians intended to found only a theological seminary. They looked to a liberalized King's College to do the Arts teaching. But King's in the controversies of the time did not open—not for sixteen years. So after long waiting when hope deferred made the heart sick the Presbyterians felt forced to establish their own college. They had to maintain a supply of ministers.

On December 17, 1839, the necessary bill was introduced into the legislature. Why was the College called Queen's? That was a last-minute worldly thought. Someone said: Let us be more up-to-date than King's, which still is only a name. Two kings have died since that college was thought of and now there's a queen. Let this be Queen's College. And for our greater glory, let us get a Royal Charter. Queen Victoria assented and issued her Charter October 16, 1841. That is the day we celebrate.

But our semi-centennial observed a different date—December 18, 1839. That was the day after the Queen's Bill was introduced. A meeting was held

in St. Andrew's Church, Kingston, to start a campaign for funds. Three young men were there whose lives were to unfold as amazingly as the institution beside whose cradle they stood. All three achieved knighthood—one as Sir Alexander Campbell, one as Sir Oliver Mowat. The third, a lawyer, twenty-four years of age, moved or seconded four of the eight resolutions but was too shy to deliver the speech he had prepared. Yet it was written that twenty-eight years later he was to be the first prime minister of the Dominion of Canada. His name was John A. Macdonald. To him in its twenty-first year of existence Queen's gave its first honorary degree of LL.D.

The little college opened under a total eclipse. Kingston was then at the height of its glory and snobbery. It was the oldest city in the province and until recently the biggest. It was a military centre, a naval centre, the chief shipping centre. Twenty-five steamers and many sailing vessels connected it with other lake and river ports. Visitors described the harbour as a forest of masts. It was the acknowledged key to the west. And it had just been proclaimed the capital of United Canada. The delighted mayor and other leading citizens gave up their homes to officers of government because there was a housing shortage. But no one gave up anything to Queen's College. It had to have its first session in a little frame house in a mean street. One of the students had difficulty in finding it. No one at his hotel had heard of it; no one at the market place. Charles Dickens, who at this time visited Kingston on his American tour, was shown the Government House, which he disliked, and the gaol, which he admired. But no one showed him Queen's College. What were two black-coated professors and ten shabby students to Lord Sydenham and his red-coats and eighty-four high-hatted members of Parliament?

Time has its revenges. The captains and the kings depart; the scholar remains. Parliament has gone but Queen's is still here. The city that disregarded it a hundred years ago now calls it "our greatest industry." But that was before the Aluminum plant was built.

Evil days came swiftly.

In the very next year, King's, which for sixteen years had existed only on paper, decided to open. Why then should Queen's be more than a Theological College as originally planned? So asked the Synod Moderator whose name stands first in the Royal Charter and on the memorial brass in the corridor of Grant Hall. So asked many others. The Trustees voted to turn back if satisfactory arrangements could be made with King's. Principal Liddell wished to turn back. He said that Queen's had not money enough to give good courses in both Arts and Theology and he was unwilling to have anything second rate. It is an irony of our history that the main task of the very able and sincere first Principal was to try to convert Queen's College at Kingston into Queen's Theological College in Toronto affiliated with King's. He strove with energy and tact and wisdom for four years and, when he failed, he resigned and returned to Scotland.

How was Queen's saved? By John Strachan. He fought federation wrathfully. He refused to submit Principal Liddell's proposals to the King's College Council. He blocked two bills in the legislature. He did not object to Queen's and Victoria so long as they stayed in Kingston and Cobourg. Let the Government even give them grants if it so wished, but he would not have any corrupting influence on his campus. Truth and error were not to sit together under his eyes.

Thus Queen's was saved from its faint-heartedness, braced itself and went forward, but on a very rough road.

There was a disappointing lack of students. Today young men rush to the universities believing that a degree is the magic key that opens all doors. But not in pioneer times. Then, apparently, only ministers needed education. Attendance at all the colleges was small. McGill opened with twenty students in Arts, had only nine next year, and only thirteen at the end of six years. Queen's started with ten and in six years had twenty-five.

A terrible blow a year after the opening came from the Disruption of the Church of Scotland in 1843. Queen's stuck to the old Kirk, but ten of the twenty-seven Trustees resigned. The Free Church party in bitterness founded Knox College in Toronto and presently exulted in having seventeen Theological students while Queen's had only one or two. This split of the Presbyterian Church kept Queen's small and poor for a long time.

But sweet are the uses of adversity. The bitter woes of life are for them that are at ease in Zion. When in 1849 King's College became the non-sectarian University of Toronto and federation was at last possible, Queen's refused to go in. The little college had struck roots; loyalties had clustered about it. Moreover, while it had been willing to make terms with a Church of England King's it would have nothing to do with the godless University of Toronto.

Thus ended the bad forties; we come to the better fifties.

Because of poverty and the uncertainties of existence Queen's lived for twelve years in rented properties. But in 1853 in rising hope it bought Summerhill, and in 1859 put up its first building. Summerhill is now used as residences for the Principal and two professors, but from 1854 to 1870 it accommodated all the work in Theology and Arts and for four years the work in Medicine as well. The dissecting room was in the basement, and it is said that at midnight you may still hear ghosts gibbering under the Principal's drawing room.

Medicine, did I say? Where did that come from? From John Strachan. When the Government turned King's into the University of Toronto, he promptly founded Trinity with himself as president. He included a medical school. At the time no other medical school in the province had degree-conferring powers. If you wanted to be called "doctor" you had to go to Trinity. In 1853 a group of eight Trinity students, unwilling to sign the thirty-nine articles at graduation, asked Queen's to form a medical school and

to admit them. The Trustees appointed a committee to consider the matter. Hon. John A. Macdonald summoned the doctors of Kingston to a meeting in his "little parlour." Out of the discussions came Queen's Medical Faculty.

Some persons like to play the game of "If"; to speculate on how history would have been changed "if"—If Columbus had not seen and followed a flock of birds flying south-west, but had kept straight ahead to the mainland of North America, the United States might have been a Spanish nation. I pose you this "if." If in 1802 John Strachan had got the post of minister in the Scottish Presbyterian Church in Montreal, what would have been the history of higher education in Ontario? Living in Toronto, he founded King's and Trinity and indirectly Queen's and Victoria. In the forties he saved Queen's from suicide; in the fifties he gave it a Medical Faculty. He should be regarded as our patron saint.

The bad forties; the better fifties; now the terrible sixties. Personal quarrels rent the staff and divided the students and trustees. Two professors in Theology and one in Medicine were the chief trouble-makers. One went to jail for libel. The Medical Faculty broke off and for twenty-six years was a separate institution called the Royal College of Physicians and Surgeons. The Commercial Bank, in which Queen's kept its funds and owned stock, failed and revenue dropped by \$1000. But worst of all. After Confederation in 1867, the first premier of Ontario, a very economical man, finding that seven denominational colleges were getting Government grants, cut them all off. Sir John Macdonald was asked to use his influence for Queen's. He wrote to a member of the Ontario Government saying: "You are committing political suicide. No one objects to these grants except a few grits who belong to sects too poor to have a college of their own." But he was not heeded. Queen's lost \$5000 a year. A small sum, you say. Yes, but in those small days more than half the revenue. The losses were crippling.

It now looked as if Queen's must close. Parents took their sons away believing the college would not last long enough for them to finish. In each of 1868 and 1869 there were only three graduates. The faint-hearted, who like the poor are always with us, counselled going to Toronto as a Theological College.

A second great meeting was held in St. Andrew's Church. Should Queen's live or die? The whole Synod was invited, the whole staff, all the members of the Presbyterian Church who could attend. They prayed and debated for two days; then resolved to go on. Stout-hearted Principal Snodgrass and the eloquent Professor Mackerras went up and down the country, proclaiming the gospel of Queen's, visiting the churches one after another, and even making a personal canvass of congregations. They raised \$125,000, the interest on which made up all losses. Queen's was saved.

It is 1870. We are on the eve of greater things. But first let us pause to take stock.

Truth to tell there wasn't much to save except a few heroic men whom we have never lacked. We had besides Snodgass and Mackerras, the beloved Williamson, and a young mathematical and mechanical genius, Nathan Dupuis, who twenty-five years later was to found the Faculty of Practical Science. But on the material side there was very little. The College was thirty years old; but it had only forty students; its total annual revenue was only \$10,000; it had only one teaching building, now known as the Old Medical, then in a state of squatly adolescence. Fortunately it grew up to better looks.

To that one building John Watson came in 1872, looking on its ugliness with sinking heart as he remembered Glasgow. It concentrated severely, he said, on Aristotle's definition of a building as a structure to afford shelter from the weather.

To that one building Grant came as Principal in 1877, warned by his friends that Queen's could not survive.

Up to that time Queen's was thought of mainly as a training school for ministers. As late as the sixties the Trustees in their annual reports to the Synod were saying, "the special object of the institution is to prepare ministers for the Church . . . and facilities are afforded other students only in so far as is compatible with that object." The main problems of Senate were to insure regular attendance at morning prayers and at church on Sunday. The Queen's *Journal* filled its columns with reports of missionary meetings and Y.M.C.A. meetings and gave Sunday sermons verbatim. The editor of *Varsity* wittily remarked that whenever the *Journal* editors found themselves short of copy they called a prayer meeting and reported it. Queen's was then a sheltered, much-regulated institution for making ministers and for keeping them unspotted from the world.

With the coming of Grant in 1877 ended the regime of Geneva bands. Grant believed in God; he believed also in the C.P.R. and the future of Canada and separate schools for Manitoba and a federated Empire and a fast steamship service to Britain and imperial penny postage. No man in Canada knew more of national and international affairs. He came as the strong wind of life blowing away a clerical atmosphere.

Grant found Queen's strangled by the Westminster Confession of Faith. Because it had been planned at the beginning merely as a training school for Presbyterian ministers, its Charter naturally provided that the Principal had to be a Presbyterian minister and trustees and staff had to subscribe to a belief in the Westminster Confession. Grant soon had religious tests for trustees and staff abolished and before his death in 1902 he had persuaded the Church to release its hold. In 1912 by Act of the Dominion Parliament the last vestige of denominationalism was removed. But the sports reporters have not yet heard the news. They still refer to Queen's as the Presbyterians.

Queen's needed buildings. Grant found only one. Within two years he got citizens of Kingston to give the handsome structure now generally called Old Arts. It has two corner stones. The Marquis of Lorne laid one and

Princess Louise the other. We were beginning to get on in the world. But we didn't forget our religious principles. On its opening day there were three sermons in Convocation Hall—morning, afternoon and evening.

Queen's needed money. Grant got it in several wearing campaigns. He sat up all night to save Pullman expense. When someone asked him why he travelled second class, he replied "Because there is no third." His last campaign, called the Jubilee, brought in \$250,000, then an amazing sum. The Trustees in thankfulness resolved to establish a Domesday Book in which would be recorded the names of all Queen's benefactors past and future. Tablets in the corridor of Grant Hall commemorate the generosity of 20,000 donors and refer to the University Domesday Book for details. It is still written up year by year. All who give may have their names in this Queen's book of life. There is still plenty of room.

Queen's needed stability. At intervals for half a century there had been urgings to go to Toronto. The uncertainty of the future was paralyzing. Grant ended that. He said: "There is need for more than one university in Ontario, if only to prevent that one from suffering blight. History has put us here and here we stay." He found Queen's standing on sand; he left it on a rock.

Grant strove for the development of Canada's resources. There was then no mining school in the whole Dominion. He persuaded the Ontario Government to help in founding one at Kingston, where nature herself had set up an incomparable laboratory. Within a hundred miles more economic minerals are mined than in any similar area in Canada. Within half an hour's walk of the College outcropping igneous, sedimentary, and metamorphic rocks teach geology better than it can be learned anywhere else in the world.

Grant believed in scholarship and the free expression of opinion. For that purpose he founded the *Queen's Quarterly*. He believed in good teaching and in the power of personality. When he died in 1902 he had about him such a group of men as no other University in Canada could show—Dupuis, Watson, Cappon, Shortt, Jordan, Macnaughton, Glover, Dyde, Goodwin, Nicol, Miller, Knight, W. T. Connell, J. C. Connell — and G. Y. Chown, as great in planning and execution as these in teaching. His own name was a household word in Canada. Indeed he had become an international figure. The King made him a Companion of the Order of St. Michael and St. George.

But the story of Queen's does not end with Grant. The succession of great principals continued. Under Gordon separation from the Church was completed without pain, the School of Mining, originally independent, became a Faculty, and the University acquired its present unified and compact organization. Taylor, Fyfe, Wallace, each brought unique gifts. They were supported by Deans whose names will long live in Queen's memories: Cappon, Skelton and Matheson in Arts; Dupuis, Goodwin and Clark in Applied Science; Connell and Etherington in Medicine; and by a staff of teachers and scholars who have made Queen's reputation larger year by year.

Grant's portrait hangs over the platform of Grant Hall and below it is the students' memorial brass. The last line is in Latin: *Si monumentum*

requiris circumspice—"If you seek his monument look around." That was a magnificently fitting epitaph for Sir Christopher Wren, but not for Grant. There was not much to see in 1902. It was not in stones and mortar that he had chiefly built, but in the lives and minds of men. His real work was invisible and therefore immeasurable.

However, let us look around.

Grant knew only six buildings. They were a little group on the east side of the campus: the Principal's residence and the Old Medical, both there when he came; and four others in a row running north: Old Arts, Carruthers, and the two frame buildings. These were all he ever saw, though Kingston Hall was in process of erection as he lay dying, and others were planned.

Grant's six buildings have become thirty-four.

The income of the University in Grant's day was \$100,000; it is now \$875,000.

The total assets in Grant's day were \$600,000, now \$9,000,000.

Where have we got it all?

We render thanks to the Ontario Government, which in happier days, long, long ago, gave us for buildings altogether \$700,000. But the rest of our \$9,000,000 we got from everywhere.

We render thanks to Kingston. The citizens as individuals gave us one building, the Corporation another, and later a grant to rebuild both.

We render thanks to the Carnegie Corporation and to a few wealthy benefactors for generous gifts—particularly to two former Chancellors, Dr. James Douglas and Dr. James Richardson.

But above all we render thanks to that great number who gave not out of their abundance but out of their penury. Small givers, often in heroic self-denial, have provided three-quarters of our \$9,000,000. For fifty hard years the main donors were ill-paid Presbyterian ministers and their struggling congregations. We owe Grant Hall and other buildings to students assisted by staff and graduates; we owe Ban Righ Hall and much else to the women graduates. So runs the tale. We are founded mainly on loyalty and sacrifice. Remembering that, we spend our money carefully.

The result of all this giving you see as you look around. But here are just a few things you can't see.

Queen's is the least local of Canadian universities. An institution in a large city like Montreal, Toronto, Winnipeg, Vancouver, draws from fifty to eighty-five percent of its students from the immediate environment. Our students come from every county in the Province and every Province in Canada. Of 459 graduates laureated in this hall last May only eight percent were from Kingston; ninety-nine, or twenty-two per cent, were from outside of Ontario.

Nearly half the school principals in Ontario are our graduates. They are our spiritual success and our economic disaster.

Nearly half the men in the mining camps of Northern Ontario are our graduates. May they all grow rich. It is said that Toronto's mining stu-

dents, exposed to the temptations of a great city, get engaged to Toronto girls, who won't let them go into the wilds.

And what would the Government of Canada do without us? From one University-owned house a few doors up the street, four men have gone into public service. Their names are known to you all: Adam Shortt, O. D. Skelton, W. C. Clark, Norman Rogers. That house is so obviously on the highway to Ottawa I have no trouble in renting it.

Our students and staff compete on equal terms with the best in Canada. In this year we have one of the six Guggenheim Fellowships for all of Canada, one of the five Royal Society Fellowships, the Senior Fellowship of the Canadian Federation of University Women, and both Rhodes Scholarships for Ontario.

We have fourteen thousand alumni, many of whom could not have gone elsewhere; we have given leadership in many educational problems; we have produced our share of scholars; best of all, out of our favouring traditions has come a type of man, appearing at its highest in the late O. D. Skelton, in the late Chancellor Richardson, in the present Chairman of the Board, in the present Principal, who though not born of us was yet born for us, and by a miracle of Nature is flesh of our flesh and blood of our blood. In such men we trust. On such men we rest our case.

I have told you the story of Queen's from its dim beginning in the thought of godly men to its present state of substantial being. For forty years adversity dogged it, uncertainty racked it. But courage and sacrifice and vision always saved it. The wisdom of Euripides has been made manifest:

There be many shapes of mystery;
And many things God makes to be
Past hope or fear.
And the end men looked for cometh not;
And a path is there where no man sought.
So hath it fallen here.

FIVE DIRECTORS ELECTED FOR ENSUING FIVE YEARS

THE annual elections of the General Alumni Association, which closed on October 1, returned the following members as directors for the ensuing three years: Mrs. W. C. Clark (Margaret H. Smith), Arts '14, wife of W. C. Clark, Arts '10, LL.D. '35, deputy minister of finance, Ottawa; W. P. Ferguson, Arts '08, principal of Danforth Technical School, Toronto; A. C. Hanley, Sc. '18, Kingston, local manager of Canadian National Telegraphs and district inspec-

tor for the Ontario Hydro-Electric Power Commission; Miss Mary L. Macdonnell, Arts '10, assistant professor of classics, Queen's University; N. B. MacRostie, Sc. '11, Arts '14, consulting engineer and surveyor, Ottawa. All, with the exception of Mr. Ferguson, were members of the Board whose terms had expired this year.

Starts Second Century

Queen's entered upon her second century of teaching when classes in all faculties commenced on September 25.

REMINISCENCES

By MISS LOIS SAUNDERS

As told to the *Review*.

Ed. note.—In D. D. Calvin's *History of Queen's University at Kingston* reference is made to Miss Saunders as follows: "To Miss Lois Saunders, who had been appointed librarian in 1899, and held the post for nearly twenty-five years, great praise is due for making the books as available as was possible in the existing conditions. Year by year it became more difficult to cope with the pressure of books and borrowers. Miss Saunders' greatest contribution, however, was not so much in the day-to-day working of the library, as in the wisdom and discretion with which she bought books in those years—years when there was little money to spend on them and little help was given her by the curators."

* * * *

I WAS formally appointed librarian in 1899, but actually I had served in this capacity since the latter part of the 1896-97 session. Principal Grant, whom I knew intimately, persuaded me that I could be of great value to the University. I had studied abroad and my ability to speak several languages was an excellent advantage. I was an amateur as far as library work was concerned, but the curators soon gave me a free hand when I proved that I had the best interests of the University at heart.

* * * *

Previous to my appointment the library had been conducted on a voluntary basis by members of staff. Dr. Adam Shortt preceded me as librarian, having held this post for twelve years. Because of the pressure of other duties he was unable to keep the library open for more than one or two hours a day. My appointment—at an infinitesimal salary, for, of course, little of the University's meagre funds could be spared for this purpose—made it possible to keep the library open all day.

* * * *

When I took the position, the library was housed in the rounded west end of the Old Arts Building, above the museum. This space was pitifully inadequate. Dr. Shortt had been the first to realize the value of newspapers as Canadian history and he had accumulated vari-

ous files. These were scattered around on the floor of the library, for want of a better place, waiting for the time when money could be spared to bind them. One of my ever-present problems was to find more room for books and periodicals.

* * * *

I can well remember when I told Principal Grant that extensive changes were necessary, that the library could not possibly carry on any longer without additional room. He grasped me by the elbow as we walked along, pushing me slightly ahead of him as he had a habit of doing, and listening patiently to my tale of woe. The next day he called at the library and asked to be shown exactly what was required. I was ready for him and had all my arguments marshalled. He immediately grasped the urgency of the situation and I was able to have considerable improvements made.

* * * *

Students were allowed to keep out books for one week and these could be renewed for a further period at the end of that time. If a particular book were in demand, by a study group, let us say, then only three days were allowed. Fines were not levied for tardiness; borrowers were expected to return books promptly. On one occasion it was found that a particular book, needed by one professor's class, could not be found. On investigation it was learned that a student had the volume and apparently had every intention of monopolizing it to his own advantage. The matter was reported to the curators, who summoned the student, requisitioned the book, and levied a fine. This was an isolated instance, however.

* * * *

For a long time books had a mysterious habit of disappearing, and try as we might we could not find where or how they were going. Ultimately the mystery was solved after a student assistant was appointed and it was possible to keep the library open in the evenings. The student took his duties conscientiously, and it was through him that we learned that undergraduates had been helping themselves after hours, coming and going by means of an unlatched window on the

ground floor. This leakage was promptly stopped when the library facilities were made available in the evening. The students meant no harm, of course; they were merely borrowing the books at a time convenient to themselves, and intended to return them eventually.

* * * *

We carried a wide range of books. Yes, we had novels. Such writers as Thackeray, Dickens, and Bronte were represented on the fiction shelves. No attempt was made, however, to follow the policy of the circulating libraries so popular today. Books did not appear on our shelves soon after they were written, but only after they had passed the test of time. This was a necessity on our part as funds were limited and money could not be squandered on anything possessing the elements of a gamble. Many of our books were bought second-hand through agents in London, Paris, and Berlin. In this way it was possible to build up a respectable and representative library on slender means.

* * * *

I have often heard Grant described as autocratic. Autocratic he was, but I think it was because he could do things so much better than anyone else. He had a great capacity for work and he had little patience with inefficiency. He was something of a dictator, but sometimes this is necessary in a college principal. The secret of getting along with Grant was to be fully informed and to know all

the answers before approaching him for any matter. * * * *

Principal Grant once quelled an incipient riot with the greatest of ease. The students were milling around in one of the classrooms, out of control of the professor in charge. Grant entered. In a few well-chosen words he put down the rebellion, and the students dispersed without a murmur. He always had a remarkable hold on the student body.

* * * *

Many stories are told about the absent-mindedness of Dr. Williamson, a member of the staff for more than fifty years. Most of these are apocryphal. One such tale is about the good doctor bumping into a cow and, mistaking it for a lady, he said, "I beg your pardon." A few moments later he is reported to have met a lady and said, "Get out of my way, you brute!" One story I can vouch for as truthful because I saw it happen myself. It was at a social gathering at St. Andrew's Church. Dr. Williamson was smiling benignly in all directions when someone passed him a large bowl of jelly. Still smiling distantly, he turned it upside down on his plate and then passed on the empty bowl. Such incidents were not uncommon and endeared him to the students.

* * * *

I was the second person to write the narrative of the *Domesday Book of Queen's University*. This was started at the authorization of the trustees in 1888 for the purpose of recording the names

OLD ARTS BUILDING

of the benefactors of Queen's and the main events in her history. Dr. Williamson wrote the early part, and I completed the work to 1900. Among the important signatures obtained were those of King George V and Queen Mary when they visited the University as Duke and Duchess of Cornwall and York in 1901. Eighteen years later the Prince of Wales, now the Duke of Windsor, wrote his name below those of his parents and then thoughtfully added the date so that it would not appear as if he had been with them.

MRS. F. C. CASSELMAN IS LAUDED IN ARTICLE

ENTITLED "The New Lady Member," a splendid tribute to Mrs. F. C. Casselman (Cora Watt), Arts '12, appeared in the *Toronto Saturday Night*, written by Mr. Walter Dawson. Mrs. Casselman was recently elected to the House of Commons as a member for Edmonton East, in succession to her late husband, F. C. Casselman, Arts '11.

In describing Mrs. Casselman's initial entry into the House, Mr. Dawson wrote as follows: "As she approached Mr. Speaker, escorted by the Prime Minister and his colleague, the minister of trade and commerce, Mrs. Casselman must have been conscious of Destiny's pen tracing new entries on the pages of Canadian parliamentary history. When Mr. Speaker greeted her with a handshake amid loud applause, the Commons officially welcomed the first Liberal woman M.P.; the first woman to be elected to Parliament in a by-election; the first widow to fill a seat at Ottawa vacated by her husband's death; the first woman graduate of a Canadian university to enter the House; and incidentally, the first of the gentler sex to participate in the ever-interesting initiation ceremony reserved only for those members returned between general elections."

Elsewhere in his article the author said, "The lady member from Edmonton East is striking a new note in the chorus of parliamentary voices. The Canadian people will soon realize that this unassuming, clear-eyed woman has something distinctive and worth while to contribute to the solution of pressing national problems."

VETERAN OF THE ARCTIC NOW SERVING OVERSEAS

WITH a record of years of service north of the Arctic Circle as a constable in the Royal Canadian Mounted Police, Major Kenneth C. Butler, Med. '32, is second-in-command of the 23rd Field Ambulance, now overseas. Lt.-Col. M. D. Graham, Arts '13, Med. '14, is the officer in charge.

Major Butler joined the R.C.M.P. in 1919. For a time he was stationed at

MAJOR K. C. BUTLER

Regina, but subsequently he was sent to the Arctic. He was present when the

Union Jack was hoisted at Port Burwell, the first R.C.M.P. post in the Eastern Arctic, in 1919. A stirring

incident in his career is described in *Policing the Arctic* as follows:

"Constable Butler and two civilians, Ford and Lyall, making one of Sgt. J. E. F. Wight's first patrols, puttered off in a motor boat to visit natives at Cape Chidley. As they returned with two Eskimo passengers, a wind sprang up, drenched the engine, disabled it. They secured the boat in a small bay. Lyall decided to walk to a point of land five miles distant, and three-quarters of a mile across the bay, there to fire shots to attract the attention of the settlement and draw out a boat party to pick him up and afterwards bring food to the others.

"Butler said, 'I'll go with you.'

"A storm came on, the flying snow drifted waist deep; pitch darkness fell. They reached the point of land opposite the post. Thirty times the rifles flamed and crashed. No one came. All they could do was walk on.

"The blizzard worked itself up to a fury; the travelling got very bad. Butler became exhausted and crawled into a snowbank, the only safe thing to do. Lyall insisted on pushing on. At Port Burwell they thought the party would spend the night at Fort Chidley. It was quite impossible to take a boat to make sure. Next morning the storm dropped a little and

Wight sent out a search party with food. They rescued Butler, his feet badly frozen to the ankles.

"For a whole week in one almost continual blizzard all Port Burwell searched for Lyall. On the 20th, a fine day, they found him frozen stiff in a sitting position on a rock where he had stopped to rest. He evidently went to sleep and perished without waking from it. Sergeant Wight in months of careful nursing saved Butler's feet."

In the months of almost complete inactivity when Butler was convalescing from his harrowing experience he began to study medicine and surgery from such books as were available. It was then he decided to take up medicine.

In 1925 he received his honourable discharge from the R.C.M.P. He entered Queen's and received his M.D., C.M. degrees in 1932. After serving as an interne he opened a private practice in Ottawa.

INDUSTRIAL RELATIONS DISCUSSED AT CONFERENCE

THE sixth industrial relations conference of the Industrial Relations Section, School of Commerce and Administration, was held at the University, September 18-20. A well-balanced programme of speeches and discussion periods was enjoyed by a large number of personnel executives from various Canadian organizations.

Among those participating in the programme were the following: Principal Wallace, Prof. F. A. Knox, Prof. J. A. Corry, and Prof. J. C. Cameron, of the Queen's staff; Mr. T. H. A. Tiedemann, Industrial Relations Counselors, Inc., New York City; Mr. Pierre Waelbroeck, chief of section on labour conditions, Employment and Migration, International Labour Organization; Mr. W. H. C. Seeley, director of personnel, Toronto Transportation Commission; Dr. W. J. Couper, executive assistant, Department of Labour, Ottawa; Mr. H. M. Turner, vice-president, Canadian General Electric Company, Limited, Toronto; Mr. A. MacNamara, associate deputy minister of labour and acting chief commissioner of the Unemployment Insurance Commis-

sion, Ottawa; Dr. B. M. Stewart, deputy minister of labour, Ottawa.

ALUMNI AND BENEFACTORS MAY MAKE NOMINATIONS

AS provided in the by-laws of the University Council that govern the elections of the administrative bodies of Queen's, graduates and graduate-benefactors are hereby notified that nominations of candidates for election to these bodies may be made as stated below. Printed forms for these nominations are not sent out, except to the elective members of the University Council and to the non-graduate benefactors in the case of the Trustee elections.

Nominations of Trustees by the Graduates

Graduates of the University (except those who are elective members of the University Council, from whom nominations are solicited as stated above), may nominate three candidates for election to the Board of Trustees, as follows:

(a) Two candidates to succeed E. A. Collins, B.Sc., Copper Cliff, Ont., and Bryce M. Stewart, Ph.D., Ottawa, Ont., whose terms expire on March 31, 1942. The nominees elected will serve until 1945.

(b) One candidate to succeed the late Dr. O. D. Skelton, to serve until 1944.

Mr. Collins and Dr. Stewart are eligible for re-election. No other present member of the Board should be nominated and no member of the University staff is eligible. Candidates must be nominated by five or more electors in order to qualify. Nominations must be made in writing, signed, and received by the Registrar of the University on or before December 31, 1941.

Nominations of Trustees by the Benefactors

Benefactors who have contributed \$100 or more to the University (except those who are non-graduates, from whom nominations are solicited directly) may nominate two members of the Board of Trustees, as follows:

(a) Under the Act of 1912 (General) —One Trustee to serve until March 31, 1946, in succession to J. M. Macdonnell, M.A., Toronto, Ont. Mr. Macdonnell, who is chairman of the Board at present, is eligible for re-election.

(b) Under the Act of 1916, providing for representation of the "School of Mining" (Special Science)—One Trustee to serve until March 31, 1945, in succession to R. D. Harkness, B.Sc., Montreal, Que. Mr. Harkness is eligible for re-election.

No present member of the Board, other than Messrs. Macdonnell and Harkness, should be nominated, and no member of the University staff is eligible. Candidates must be nominated by five or more electors in order to qualify. Nominations must specify the category, whether "General" or "Special Science," and must be in writing, signed, and received by the Registrar of the University on or before December 15, 1941.

Nominations to the Council by the Graduates

Graduates of the University may nominate nine candidates to succeed the following members whose terms expire in 1942: James Bartlett, B.Sc., Kirkland Lake; C. H. Bland, B.A., Ottawa; His Honour Judge C. A. Cameron, B.A., Belleville; Mrs. D. M. Chown, B.A., Kingston; Rev. A. D. Cornett, M.A., B.D., Oshawa; D. G. Geiger, B.Sc., Toronto; Dr. R. K. Paterson, Ottawa; G. J. Smith, B.A., B.Sc., Kingston; His Honour Judge M. B. Tudhope, B.A., Brockville. Retiring members are eligible for re-election. No other present members of the Council should be nominated. Candidates must be graduates of Queen's and must receive five or more separate nominations in order to qualify. Nominations must be in writing, signed, and received by the secretary of the University Council on or before December 15, 1941. The members elected will serve until March 31, 1948.

New Co-operative Residence Is Named Collins House

SIXTEEN students are now living in the new co-operative residence, Collins House, situated on Earl Street, opposite the Kingston Collegiate and Vocational Institute. The residence was named in honor of E. A. Collins, Sc. '05, president of the General Alumni Association, whose generosity made the project possible.

REGULATIONS CHANGED FOR MILITARY TRAINING

REGULATIONS governing military training have been changed from last year, according to a statement issued by Lt.-Col. R. O. Earl, officer commanding the Queen's Contingent, Canadian Officers' Training Corps.

Compulsory training for physically fit males of British nationality will be con-

LT.-COL. R. O. EARL

tinued, and will apply to the age group 18-25. Volunteers will be accepted from outside this group, although medical students of the fourth, fifth, and sixth classes will not be required to take drill.

The division between officers' training and basic training (Auxiliary Battalion) will be made as previously. The former will be restricted to present members of the C.O.T.C proper who are efficient, together with candidates who are fit for active service and who have had previous military experience.

The officers' training course will be confined this year to Syllabus "A" (Common to Arms). The content of this course has been increased and will require study throughout the session.

Candidates who are successful and who elect to go on active service in the spring

will, on admission to the Officers' Training Centre at Brockville, Ontario, be granted exemption from the first four weeks of the course there. If they return to the university instead, they may then take training special to arms in order to qualify for reserve commissions. In addition, certain war science courses may be given in future years and medical students will do work of that nature this session.

In the Auxiliary Battalion, recruits and those students who did not attend camp last spring will take the initial course as given last year. Those who completed that training and remain in the Battalion will receive an advanced course. In all cases the number of hours of intramural training will be 110. Two weeks' camp training will be provided for all.

A new feature will be Royal Canadian Air Force training offered to applicants who have had at least one year's military training and who can pass the air force medical examination. They must also sign a declaration of honourable intention to join the R.C.A.F., not later than the time of completion of their academic course. This work will be conducted by the air force, together with the university staff, the latter to provide instruction in navigation and kindred subjects.

Those who complete this course successfully will be admitted directly to an elementary flying training school and will not have to go through a manning depot and initial training school. Two weeks training at an air station will be provided in lieu of army camp.

Uniforms will be provided for all trainees (army and air force) and it is expected that equipment will be much more ample than in the past.

A full-time chief instructional officer has been appointed: Major F. H. Brown, M.C., E.D., G.G.F.G.

Addressed Student Body

PRINCIPAL WALLACE and Lt.-Col. R. O. Earl of the Queen's Contingent, Canadian Officers' Training Corps, addressed a general meeting of the student body on the first day of classes, September 25. The speakers outlined plans for the current year.

THREE QUEEN'S BOOKS SELL AT SPECIAL PRICES

THE Centennial Year of the University has been the occasion for the publication of three Queen's books. One book tells for the first time the full story of the University; the second portrays the lives and accomplishments of some of her great men; the third is the biography of Principal Gordon.

All these volumes will hold much interest for friends of Queen's. Alumni, students, and members of staff may purchase them from the University Post Office, Kingston, Ontario, at special prices. The books are as follows:

Queen's University at Kingston—The first Century of a Scottish-Canadian Foundation, 1841-1941. By D. D. Calvin, Arts '02. Official history of the University. Published by Queen's University, through the Macmillan Company of Canada, Limited, Toronto. Demy octavo. Cloth Bound. 336 pages. 10 illustrations. \$2.00 post paid.

Some Great Men of Queen's—Grant, Cappon, Watson, Jordan, Dupuis, Shortt. A series of addresses delivered at Queen's University during January and February, 1941. Published by the Ryerson Press, Toronto. Demy octavo. Board covers. 144 pages. \$1.25 post paid.

The Life of Daniel M. Gordon—By Miss Wilhelmina Gordon, Arts '05. Dr. Gordon was principal of Queen's from 1902 to 1917. Published by the Ryerson Press, Toronto. Cloth Bound. 312 pages. 11 illustrations. \$3.00 post paid.

NELLES W. TIMMERMAN WINS NEW HONOURS

HONOURS have come rapidly to Nelles W. Timmerman, Sc. '36, who was awarded the Distinguished Flying Cross a few months ago. Since then he has been promoted from Squadron Leader to Wing Commander and he has been given the Distinguished Service Order. He is now in command of the No. 2 R. C. A. F. Bomber Squadron in England.

Timmerman's citation said he had "displayed great eagerness in the attack on the enemy. On April 4, 1941, he was de-

tailed to attack Kiel with a 2,000-pound bomb and to report the bomb burst. He spent forty minutes locating the precise target, and, after releasing the bomb, he remained at 12,000 feet for a considerable time in order to obtain an accurate account of the burst."

The citation added that on May 11 the airman was over Hamburg for forty minutes and brought back an "excellent reconnaissance report." It said that "his exceptional courage, devotion to duty, inspiring leadership, combined with his cool determination in the face of the heaviest opposition, had been a wonderful example to all under his command."

Wing Commander Timmerman left Queen's in 1936 to join up with the Royal Air Force. All his war service has been spent with a bomber squadron.

DR. JOHN E. HAMMETT GIVEN IMPORTANT POSITION

DR. JOHN E. HAMMETT, Med. '19, has been appointed professor of surgery and attending surgeon to New York Polyclinic Medical School and Hospital. Dr. Hammett has been associated with the School since 1927, when he began as clinical assistant in the department of surgery.

Organized in 1881, the Polyclinic is the pioneer postgraduate medical school in America. Courses in the various specialties of medicine are given to doctors from all parts of North and South America.

Dr. Hammett entered Queen's in 1913 and two years later he enlisted with the Queen's Hospital Unit. He served overseas until 1917, when all medical students were returned by the government to complete their studies. After graduating in 1919, he served a two-year internship in surgery at Broad Street Hospital in New York City. In 1927 he was admitted to fellowship in the American College of Surgeons. Two years later he was appointed attending surgeon to Coney Island

DR. J. E. HAMMETT

Hospital, Department of Hospitals, New York City, and instructor in surgery at Long Island College.

ALUMNI ON ACTIVE SERVICE GET MESSAGE FROM QUEEN'S

A STIRRING message from Principal Wallace to Queen's men and women on active service was contained in the *Canadian Veteran* for August. Copies have been mailed to these alumni. The message reads as follows:

"The Editor of the *Canadian Veteran* has invited me to express to the men of Queen's who are on active service at home and abroad the warmth of feeling from their old University that goes out to them at the present time. This year of celebration of a hundred years of service in the cause of education is a fitting time to count our blessings. The greatest of these blessings is the tradition of devotion to our country and of loyalty to British ideals. A quarter of a century ago Queen's men and women played a magnificent part in the fight for freedom. Today some 750 Queen's men are known to be on active service, and there are doubtless many others about whom we have no knowledge. This takes no account of the large number of men and women graduates and undergraduates who are serving in war-time industries, and in scientific research in war problems. Queen's has again heard the call at the time of the country's need.

"It is a sad commentary on the civilization that we have built up that the forces of evil can work such ruin and desolation and moral bankruptcy before they are got under control. The hope that shines through the darkness is in the determination of men of goodwill that the evil thing will be put under foot, never to raise its head again. Men are inherently decent, honourable, trustworthy, faithful. Were it otherwise, life would be worthless. The better qualities must and will prevail. The fight will go on until justice and truth and liberty come back to their own again.

"If I can say a word from old Queen's to her sons and daughters in the battle-

front at home and abroad, it is simply that we are grateful from our very hearts for what you are, and what you are standing for. Sometimes your thoughts will go back to the old halls and the old memories which cluster around them. We want

you to know that we, too, are thinking of you. We know that wherever you may be, you will carry on proudly for the honour of old Queen's. God bless you all.

"ROBERT C. WALLACE,
"Principal of Queen's University."

ON HIS MAJESTY'S SERVICE

NUMBER nineteen in the series of the monthly lists of those who are serving their King and country is presented below. Readers are invited to send in news of the appointments, promotions, or transfers of Queen's alumni in all military and civilian branches of the war-time service.

Royal Canadian Air Force—Sgt. J. B. Anderson, Arts '42, Sgt. Observer W. A. Armstrong, Arts '37, PO. A. T. Ashley, Arts '31, PO. G. R. Best, Arts '41, AC. J. S. Cummins, Sc. '43, Flt. Lt. P. H. Cunningham, Com. '30, FO. T. E. Currier, Med. '40 (Medical Branch), PO. E. F. Dobbie, Arts '35, PO. F. S. Fletcher, Arts '31, P. A. Q. Gillan, Arts '41, AC. R. Y. Grey, Arts '44, Wing Cmdr. J. M. Growse, Med. '32 (Medical Branch), PO. H. W. Hall, Arts '26, PO. N. F. Hoch, Sc. '36, PO. D. M. Hoople, Arts '32, AC. S. H. Johnston, Arts '40, PO. T. A. Lazier, Sc. '35, FO. R. J. Livesey, Med. '40 (Medical Branch), PO. W. J. McGill, Sc. '37, PO. E. B. McKay, Arts '32 (Link Trainer Branch), PO. J. R. Mallory, Arts '34, PO. C. D. Marshall, Sc. '41, PO. I. L. M. Merriam, Arts '39 (Link Trainer Branch), PO. D. G. Miller, Sc. '41 (Radio Branch), Sgt. Pilot J. A. Shanks, Arts '40, FO. R. B. Shaw, Arts '38 (Navigation Branch), H. M. Sinclair, Com. '24, Flt. Lieut. J. E. Wright, Com. '28.

Royal Canadian Naval Volunteer Reserve — Sub-Lt. W. A. Argue, Arts 40, Surgeon-Lt. C. G. Campbell, Med. '38, Pay Sub-Lt. J. J. Elliott, Com. '40, Surgeon-Lt. R. A. Forty, Med. '40, Sub-Lt. J. F. Lloyd, Sc. '40, Sub-Lt. W. A. McDonald, Arts '38, Surgeon-Lt. J. W. Rogers, Med. '41, Sub-Lt. J. C. Walker, Arts '43.

Royal Canadian Army Medical Corps —Lieut. Barney Bernstein, Med. '40, Lieut. M. C. Dinberg, Med. '38, Lieut. K. J. Haig, Med. '30, Lieut. J. S. Hazen, Med. '34, Lieut. R. H. Holbrook, Med. '40, Major H. B. Kenner, Arts '19, Med. '20, Lieut. F. G. Knoll, Med. '41, Lieut. J. P. McCabe, Med. '39, Lieut. D. S. Malen, Arts '35, Med. '38, Lieut. A. H. Megill, Med. '41, Lieut. R. F. Ohlke, Med. '39, Lieut. E. F. Raynor, Med. '35, Lieut. C. R. Richmond, Med. '37, Lieut. E. J. K. Rudd, Med. '19, Lieut. N. Shklov, Med. '40, Lieut. S. Smolkin, Med. '40, Lieut. B. H. Young, Med. '40.

Infantry—Lieut. F. C. Brennan, Arts '36, Lieut. R. H. Echlin, Arts '36, Lieut. D. F. Lind, Sc. '42, Lieut. D. J. McLean, Arts '36, Lieut. B. M. Thomson, Arts '41.

Royal Canadian Engineers—Lieut. C. F. Blair, Sc. '40, Lieut. W. M. Gilchrist, Sc. '36, Lieut. D. W. Hunt, Sc. '40, Lieut. R. J. Kennedy, Sc. '41, Lieut. L. Labow, Sc. '36, Lieut. G. B. McCourt, Sc. '43, Lieut. H. L. Schermerhorn, Sc. '23, Spr. A. A. Wright, Arts '41, Lieut. H. B. Zavitz, Sc. '28.

Royal Canadian Artillery—Lieut. Clifford Baker, Sc. '43, Lieut. R. D. Barker, Arts '38, Lieut. E. E. Bimm, Sc. '36, Lieut. A. L. S. Ireton, Com. '31, Lieut. W. C. Paynter, Arts '42, Lieut. D. I. Shaver, Arts '41.

Royal Canadian Ordnance Corps—Lieut. J. R. Allen, Com. '38, Lieut. W. E. Bales, Arts '41, Lieut. H. P. Cadario, Sc. '38, Capt. R. A. Campbell, Sc. '33, Capt. S. D. Clarke, Sc. '39, Lieut. M. S. Cranston, Sc. '40, Lieut. C. B. Huyck, Sc. '12, Lieut. D. W. McGill, Com. '31, Arts '33.

Royal Canadian Army Service Corps—Lieut. J. H. Brais, Arts '42, Lieut. G. P. Eligh, Com. '39, Capt. W. A. McArthur, Sc. '34.

Canadian Chaplain Service—Capt. W. A. Beecroft, Arts '08, Theol. '13, Flt. Lt. J. G. Brown, Arts '33, Theol. '36, Flt. Lt. W. A. Osborne, Arts '16.

FROM THE "PRINCIPAL'S REPORT"

IN retrospect, a hundred years is a sufficiently long period of time to place in high relief the influences that have counted, and to depress into obscurity the things that were ephemeral. Organization, machinery, buildings and apparatus, curriculum have been necessary for the carrying on of Queen's, and they were fashioned, step by step, with much labour and with hard thought. But the real values have been in men, who have shown courage, independence of thought, a love for truth, a craving for high scholarship, an unwavering faith. This is what men remember today, when they look back to Queen's as it was a generation ago. This is what we must not forget, when we look forward to the years which are to come. From the observance of the anniversary year two benefits may accrue. The one is a spirit of grateful appreciation of the things that have counted in the building-up of this University. The other is an outlook into the future informed and sustained by a knowledge of the past and flexible to the needs of our new day. The path into the future will not be clear. It is through the difficulties which Queen's has faced that much of the rich heritage which is ours has come.

* * * *

There are problems which are specific to a university, and problems which are common to all universities. As we look forward into the future, we see both kinds of problems facing Queen's University. Among those which call for our own peculiar solution are a financial basis of support resting too heavily on the fees of our students, and consequently insecure; an offering in professional training much more limited, especially for women, than in some universities of our stature; and a tendency to lean somewhat heavily on the past. With other universities we share the responsibility of demonstrating to the world that universities are an es-

sential factor in upholding, maintaining, and strengthening our democratic way of life. They must prove themselves by their works. They must prove themselves even more conclusively than they have done in the past. When the Canadian people have become convinced that, without strong universities, values would disappear on which we base our whole lives, then will our universities be strong in very truth.

* * * *

The call on members of the staff has been very heavy and insistent. Sixteen faculty members have obtained leave to give their time to military service or war work. Several others have been partially relieved from their duties, to give part time to war work, while very many are giving all their spare time to one form or other of national service.

There is little doubt that the University will face next year grave difficulties, which will make our present problems seem insignificant. They will be part of the sacrifice we should pay, and pay gladly, in the cause for which the people of Britain are displaying a heroism and an endurance to which no tribute of words can do adequate justice.

* * * *

Much discussion has taken place in recent years on the question of the theological colleges of the United Church of Canada. If they are regarded from the standpoint of the number of colleges in relation to the number of students who are in training for the ministry of the Church, they would seem to be more than adequate for their purpose. In all but a few of the colleges, fewer than ten students are graduated each year. It has been argued—and, from this point of view alone, with reason—that three colleges, strategically placed, could fulfil the needs of the Church. There is, however, a wider consideration. Few universities in Canada have now any direct relationship

with the Christian Church. The old bonds have been severed, or have become ineffective. The universities are secular institutions of learning. They are free from any ties which might hamper them in the search for the truth, or might limit their constituency to the adherents of any particular denomination. That is all to the good. But in this gain there has been a corresponding loss. In the university, as in the school, the influence of religion has weakened, and the tone of public life has deteriorated. At a time of national stress, such as that through which Canada and the British Commonwealth are now passing, a new realization has come to us of the need of the fundamental support which the verities of religious experience provide. The eternal truths of religion must again become an integral part of our education. To that statement there would now, I feel, be fairly general assent.

A theological college on a university campus is a safeguard against the complete secularization of higher education. . . . It is proposed that the staff of the College give additional courses — in the study of religions and in the history of Christianity—which will serve still further to widen the scope of university education, and to integrate education and religion into a unified whole, representative of the aspirations of mankind at their highest and their best.

* * * *

The large number of men in the three services now stationed in Kingston led the curators to consider the possibility of making the resources of the library more widely available. The commanding officers for the units in the district were approached and it was found that they were generally favourable to the idea. Any man in the army, navy, or air force may now ask his commanding officer for a form letter requesting the librarian to issue books to him. Adequate precautions have been taken to ensure the due return of the volumes.

* * * *

The Employment Service, which is administered by the secretary-treasurer of the Alumni Association under the direction of the Engineering Society, experi-

enced the busiest twelve months of its history. In addition to serving the steadily increasing needs of industry, the bureau acted as a recruiting office, as it were, for technically trained men whose services were in demand by the Canadian and British governments and by industries closely associated with the country's war effort. In many cases the Service was able to assist the Department of National Defence in its search for qualified engineering graduates.

* * * *

Specific-purpose funds appear to hold much greater interest for many alumni than do general endowment or operating funds. Although contributions to the latter are more valuable to the University, since they are free to be placed where the need is greatest, donations to the former are more readily obtainable. A scholarship or other particular project named in memory or honour of a former member of the university staff, or of a friend or relative, frequently enlists interest and support that otherwise would not be forthcoming.

New scholarships are, of course, needed and are deeply appreciated. But the need of revenue for general purposes is even more urgent. This problem is being met to some extent by suggesting, whenever possible, the endowment or maintenance, with the appropriate naming, of existing scholarships or other special commitments that are at present carried by the University out of her ordinary income. Revenue for general purposes is thus set free.

Ottawa Alumni Branch Holds Successful Golf Tournament

TWENTY-ONE players took part in the annual Ottawa alumni branch golf tournament and dinner at the Gatineau Golf Club on September 9.

Col. G. E. Cole, director of mines for Manitoba, was the chief speaker at the dinner. He recalled his student days at McGill University and told of the keen rivalry that existed between McGill and Queen's in Intercollegiate football. C. D. Wight, Sc. '28, acted as chairman.

V. A. Minnes, Sc. '23, took low net honours in the golf tournament, with

A. E. MacRae, Sc. '14, placing second. Mr. L. A. Kane won the low net for the first nine, and J. N. Stinson, Sc. '14, the second nine. J. L. Williams, Arts '08, Sc. '09, turned in the best gross

score for three selected holes on the first nine, while A. E. Barnabe, Com. '39, won the prize for the second. The high gross score for any hole was taken by F. L. Casey, Sc. '36.

THE BOOKSHELF

RELIGION AND ADVENTURE

GRANARY OF HEAVEN. By George E. Hartwell, Arts '88, Theol. '91. Published by the missionary organizations of the United Church of Canada.

A MEMBER of the first party of Canadian missionaries to sail for West China in 1891, Rev. Dr. George E. Hartwell, Arts '88, Theol. '91, has set down a most interesting journal of his labours and those of his fellow-workers. *Granary of Heaven* is a vivid account of the trials and tribulations of these early missionaries.

Bravery and courage are evident on every page. Imagine the fortitude necessary to teach the gospel in a strange, hostile land where every foreigner was looked on as an enemy! It is a tribute to the perseverance of these men and women that the author is able to describe their stewardship as highly successful.

This book is not a mere recital of facts and figures of solely academic interest. Instead it includes an excellent description of Chinese customs in home-life, tea shops, eating houses, inns, temples, theatres. There are many exciting adventures among people still in the thrall of superstition.

There are also amusing incidents, such as the time the author mistook his wife for a bandit during the still of the night and threw a party of fellow-travellers into confusion. On another occasion, Dr. Hartwell not only succeeded in talking a pirate out of taking a valuable possession but he managed to retrieve some property already stolen.

If there are any misguided souls in this enlightened day and age who imagine that missionaries have an easy existence they would be well advised to read *Granary of Heaven*.

ALUMNI NEWS

Births

Barnes—At the Civic Hospital, Ottawa, on October 2, to Dr. Randolph Barnes, Arts '28, Med. '30, and Mrs. Barnes, a son.

Booth—At the McDougall Hospital, Kimberley, B.C., on August 8, to Joseph Booth, Sc. '37, and Mrs. Booth, a daughter (Rosemary Jean).

Brooks—On September 12, at Victoria Hospital, London, Ont., to J. W. Brooks, Sc. '39, and Mrs. Brooks (Shirley Ayres), Arts '41, a son (Lyn Albert).

Chaput—At the Kingston General Hospital, on September 13, to Omar Chaput, Sc. '36, and Mrs. Chaput, a son.

Clark—At the General Hospital, Brandon, Manitoba, on September 6, to Dr. K. J. Clark, Med. '39, and Mrs. Clark (B.S. '37 Cornell), a daughter (Roberta Esther).

Cole—At Talara Hospital, Talara, Peru, on July 24, to C. O. Cole, Sc. '38, and Mrs. Cole (Ruth Howard), Arts '38, a son (Charles Allan).

Doherty—At the Hotel Dieu Hospital, Kingston, on September 25, to R. A. Doherty, Sc. '33, and Mrs. Doherty (Margaret O'Connor), Arts '31, a daughter.

Empey—At the Lady Minto Hospital, Cochrane, Ont., on September 3, to Dr. R. L. Empey, Med. '32, and Mrs. Empey, a daughter (Carole Elizabeth).

Ferris—At the Mayo Clinic, Rochester, Minn., on July 2, to Dr. D. O. Ferris, Med. '31, and Mrs. Ferris, a daughter (Nancy Jane).

Finley—At Meaford, Ont., on August 8, to Dr. J. C. Finley, Med. '35, and Mrs. Finley (Alison Mitchell), Arts '38, a daughter.

Girvin—At the Ottawa Civic Hospital, on August 12, to Dr. J. S. Girvin and Mrs. Girvin (Jessie Mair), Arts '26, a son.

Halliwell—At the General Hospital, Cornwall, Ont., on September 20, to P. N. Halliwell, Sc. '37, and Mrs. Halliwell, a daughter (Jane Esther).

Hawkins—On August 15, at the Private Patients' Pavilion, Toronto General Hospital, to R. C. Hawkins, Arts '37, and Mrs. Hawkins (Jessie Isobel de Renzy), Arts '30, a son.

Hawkins—At North Bay, Ont., on September 20, to Mr. T. J. Hawkins and Mrs. Hawkins (Anne Henderson), Arts '28, a daughter.

Howard—At the Ottawa Civic Hospital, on September 2, to P. A. Howard, Arts '37, and Mrs. Howard, a son.

James—At St. Mary's Hospital, Montreal, on August 5, to Frank E. James, Sc. '31, and Mrs. James, twin daughters.

Jenkins—At the Ottawa Civic Hospital, on September 12, to W. S. Jenkins, Sc. '29, and Mrs. Jenkins (Betty de Mille), Arts '28, a son.

Johnson—On July 10, to Dr. E. A. Johnson, Med. '38, and Mrs. Johnson, of Elfros, Sask., a son (Ernest David Faul).

Kingston—At the Private Patients' Pavilion, Toronto General Hospital, on September 12, to E. F. Kingston, Arts '23, and Mrs. Kingston, a son.

McIntosh—At the Plummer Memorial Hospital, Sault Ste. Marie, Ont., on October 7, to J. L. McIntosh, Sc. '40, and Mrs. McIntosh, a daughter (Joanne Elizabeth).

Macnab—At St. Joseph's General Hospital, Port Arthur, Ont., on June 22, to Lieut. R. S. Macnab, Com. '38, and Mrs. Macnab, a daughter (Heather Clare).

McPherson—At Victoria Hospital, London, Ont., on August 11, to F. D. McPherson, Com. '29, and Mrs. McPherson, a son (Robert Webster).

Rivington—At the Ottawa Civic Hospital, on September 6, to J. A. Rivington, Arts '31, and Mrs. Rivington, a daughter.

Rutledge—At Toronto Western Hospital, Private Patients' Pavilion, on September 6, to C. M. Rutledge, Arts '33, and Mrs. Rutledge, a daughter (Laurie Beth Susanne).

Sparks—At the Porcupine General Hospital, on August 5, to W. B. Sparks, Arts '40, and Mrs. Sparks, of Schumacher, Ont., a son.

Thomson—At the Kingston General Hospital, on August 10, to Graham Thomson, Arts '34, and Mrs. Thomson (Mildred Mahood), Arts '34, a son (George Mahood).

Walker—At the General Hospital, Guelph, Ont., on September 13, to Lieut. J. B. Walker, Com. '32, and Mrs. Walker, a daughter.

Webster—At the General Hospital, Sudbury, Ont., on August 28, to Dr. S. C. Webster, and Mrs. Webster (Margaret MacRae), Arts '36, a son.

Winnett—At the Private Patients' Pavilion, Toronto General Hospital, on September 10, to A. R. Winnett, Arts '34, and Mrs. Winnett, a daughter.

Marriages

Airth — At St. Andrew's Presbyterian Church, Fort William, Ont., on August 27, Jessie Georgian Easton to Murray Wright Airth, Sc. '39. They will live at Little Long Lac Mine.

Alexander — At St. Peter's Anglican Church, Toronto, Ont., on September 1, Kathryn Shirley Geddes to Donald Kenneth Alexander, Arts '41. They will live in Kingston.

Barry — In St. Mary's Cathedral, Kingston, on August 2, Kathleen Mary McGrath to Martin John Barry, Sc. '36, Niagara Falls, Ont.

Bonham-Brown — At Brockville, Ont., on September 20, Marion Howard Brown, Arts '19, to John Carleton Bonham, Sc. '15. They will live in Walkerville, Ont.

Bray — On September 20, in St. Andrew's Church, Ottawa, Jean Murray Broadfoot to Lieut. Richard Charles Bray, Sc. '37.

Brennan — In St. Clare's Church, Deseronto, on August 2, Bette Marie Craven to Lieut. Francis Charles Brennan, Arts '35, Brantford, Ont.

Burnett — On October 11, in Deer Park United Church Chapel, Toronto, Margaret Jean Hadley to William Russell Burnett, Com. '34.

Cameron — In the chapel of St. George's Anglican Church, Oshawa, Ont., on August 23, Eleanor Velma Shepherd to William David Cameron, Sc. '36, of Copper Cliff, Ont.

Campbell — On September 20, in Southminster United Church, Ottawa, Jeanie Stewart Veitch to Verne Campbell, Com. 34, Arts '35.

Clark — Early in October, Doris Coulson, Hamilton, Ont., to Norman John Clark, Sc. '41, of Toronto.

Cliff — On August 30, in Kingsway United Church, Toronto, Agnes Bernice Switzer to Alan Fraser Cliff, Com. '33, son of Dr. G. F. Cliff, Med. '06, and Mrs. Cliff (Alma Mundell), Arts '02, Kingston.

Cliff — In Brooklyn, N.Y., on September 3, Marjorie Emilie Beckman to Lieut. William Mundell Cliff, Med. '31, of the United States Army Medical Corps. Dr. Cliff is the son of Dr. G. F. Cliff, Med. '06, and Mrs. Cliff (Alma Mundell), Arts '02, Kingston.

Cole-Armstrong — At the home of the bride's parents, Toronto, on September 20, Evelyn Beulah Armstrong, Arts '33, to Eric John Cole, Sc. '25. They will live in Owen Sound, Ont.

Cooper — In September, in the United Church, Warkworth, Ont., Mary Maude Cooper, Arts '34, to Mr. William Ross Moore.

Cox-Blake — On September 3, at the home of the bride's parents, Deseronto, Ont., Marion Winnifred Blake, Arts '35, to Ernest Cox, Sc. '33, of Copper Cliff, Ont.

Feller — In Ottawa, in June, Clara Feller, Arts '37, to Dr. Rubin Strauss. They are living at 4303 Esplanade Avenue, Montreal.

Fortier — On April 19, in St. Patrick's Church, Quebec City, Mary Lillian Atkinson to Bernard Fortier, Com. '38.

Gould — On September 30, at the manse of St. Stephen's Presbyterian Church, New Westminster, B.C., Blossom Lyons to Flt.-Lt. E. C. S. Gould, Sc. '37.

Green — In Central United Church parsonage, Owen Sound, Ont., on August 23, Evelyn Thornton to Dr. Eldon Thomas Green, Med. '36, of Orillia, Ont.

Hutchinson-Tiefenbacher — In June, at Capetown, South Africa, Louise Tiefenbacher, Arts '37, to David Hutchinson, Sc. '35.

Ireton — At St. Matthew's Church, Toronto, on September 11, Norah Tudhope to Lieut. Adam Lyle Stewart Ireton, Com. '31.

Jull-Stewart — At Renfrew, Ont., on August 21, Annie Jamieson Stewart, Arts '09, to Rev. P. L. Jull, Arts '11, Brooklin, Ont.

Kelly — In St. Andrew's United Church, Oshawa, Ont., on August 30, Margaret Audrey Marie McTavish to Kenneth Malcolm Kelly, Com. '38, Ottawa. The ceremony was performed by Rev. George Telford, Arts '13, Theol. '14.

McCann — On August 22, at Capreol, Ont., Dorothy Margaret Henderson to Sub-Lt. Donald Lauchlin McCann, Sc. '41.

McColl — At the home of the bride's parents, Clarksburg, Ont., Mary Alice Conn to Hugh McMillan McColl, Arts '33. They will live in Newcastle, Ont.

McDonald — In St. John's Anglican Church, North Bay, Ont., on August 22, Beatrice Marion Rowe to Sub-Lt. Wallace Arthur McDonald, Arts '38, Esquimalt, B.C., son of Judge J. H. McDonald, Arts '09, and Mrs. McDonald, Sault Ste. Marie, Ont.

McLeod-Biggerstaff — At Crescent Avenue Presbyterian Church, Plainfield, N.J., on September 8, Rosalind Biggerstaff, Arts '41, to Alexander Norman McLeod, Arts '32. They will live in Ottawa.

McRoberts — On September 27, in Deer Park United Church, Toronto, Elizabeth Jean Rose to Charles Edward McRoberts, Sc. '33. They will live on Lonsdale Road, Toronto.

Main — In St. John's Anglican Church, Ottawa, on September 6, Mary Hornsby Wright to Capt. Hardy L. Main, Sc. '40, Ottawa.

Miller — At Knox College Chapel, Toronto, on July 19, Irene Isobel Lyon to Lieut. George Harold Miller, Arts '42.

Miller — In Rosedale Presbyterian Church, Toronto, on August 9, Ruth Louise Miller, Arts '31, to Frederick Solon Hummel.

Newlands — On July 12, at St. Francis Xavier Church, Hereford, England, Joyce Aikens to Lieut. John Creighton Newlands, Arts '38. Lieut. Newlands went to England last February with the F.P.C.L.I.

Noel-Morton — On June 7, in St. Dominique Church, Quebec City, Margery Morton, Arts '38, to Lieut. Eugene Noel, Arts '38.

Paynter-McCredie — At Campbellford, Ont., on August 2, by the Rev. G. A. Brown, Chalmers United Church, Kingston, Helen Margaret McCredie, Arts '37, to Lieut. William Charles Paynter, Arts '42, Kingston.

Paynter — On September 20, at St. Matthew's Anglican Church, Ottawa, Hazel Pearl Paynter, Com. '39, to Mr. Harold

Crawford. Rev. G. A. Brunet, Arts '09, performed the ceremony.

Pickering—On September 8, in St. Patrick's Rectory, Vancouver, B.C., Jean Mary Macdonald to Dr. John Watson Pickering, Med. '41.

Richardson—On September 27, in the Church of St. Barnabas, Ottawa, Elsa Muriel Wight to Lieut. H. W. Richardson, Com. '34. They will live at Lochmor Court, Third Avenue, Ottawa.

Scott—On August 2, in Cooke's United Church, Kingston, Janet Madeline McNevin to Dr. George D. Scott, Med. '39. They will live in Toronto, where Dr. Scott is on the staff of the Psychiatric Hospital.

Shurtleff-Jackson—On August 2, in Morgan Memorial Chapel, Queen's University, Nell Gertrude Jackson, Arts '30, to Dr. Harold Sissons Shurtleff, Arts '26 (Ph.D. Yale), son of W. M. Shurtleff, Arts '15, and Mrs. Shurtleff, Glenburnie, Ont.

Soper—At Christ Church Cathedral, Toronto, on August 9, Elizabeth Maxwell Soper, Arts '33, to Andrew McKenzie Thompson.

Stuart—At the home of the bride's parents, Orillia, Ont., Mary MacLean to Edward Rae Stuart, Arts '38. They will live at 342 Albert St., Kingston.

Taylor—On September 1, in St. Paul-St. Stephen United Church, Kentville, N.S., Jean Margaret Taylor, Arts '34, to Lieut. Allister D. MacDonald, of Prince Edward Island.

Travers—On August 23, in St. Giles' United Church, Hamilton, Joanne Irene Moxley, daughter of Dr. J. H. Moxley, Med. '16, and Mrs. Moxley (Irene Dunlop), Arts '15, to F.O. Richard Deming Travers, Sc. '34. They will live in Ottawa.

Way—In Grace United Church, Niagara-on-the-Lake, Ont., on August 30, Beryl Wynn Lewis to Ronald Lawrence Way, Arts '35.

York—At the home of the bride's parents, Ottawa, on September 20, Eva May York, Arts '29; to Mr. Samuel Quigg, Ottawa.

Deaths

Bidwell—In ill health for the past three years, Right Rev. Edward J. Bidwell, D.D. '12, died at Thetford, England, August 11, at the age of seventy-five. Bishop Bidwell was born in England, and was a graduate of Oxford. He was ordained deacon in 1891 and a priest the following year. He was headmaster of Leamington College until 1897, when he left to become headmaster of King's School, Peterborough, for six years, before coming to Canada. For six years he was headmaster of Bishop's College, Lennoxville, Quebec. He was inducted dean and rector in St. George's Cathedral, Kingston, Ontario, in 1909. Four years later he was elected Coadjutor Bishop of Ontario, on the first ballot, a circumstance without parallel in Canada, and in 1917 he was elected Bishop of Ontario. In 1925 he resigned and returned to England. He became rector of Sellindge, Kent, and in 1935 he was appointed assistant Bishop of Canterbury.

Since 1936 he had been Honorary Canon of Canterbury Cathedral. Queen's, Trinity College, and Oxford made Bishop Bidwell the recipient of an honorary LL.D. degree and Bishop's College conferred on him an honorary D.C.L.

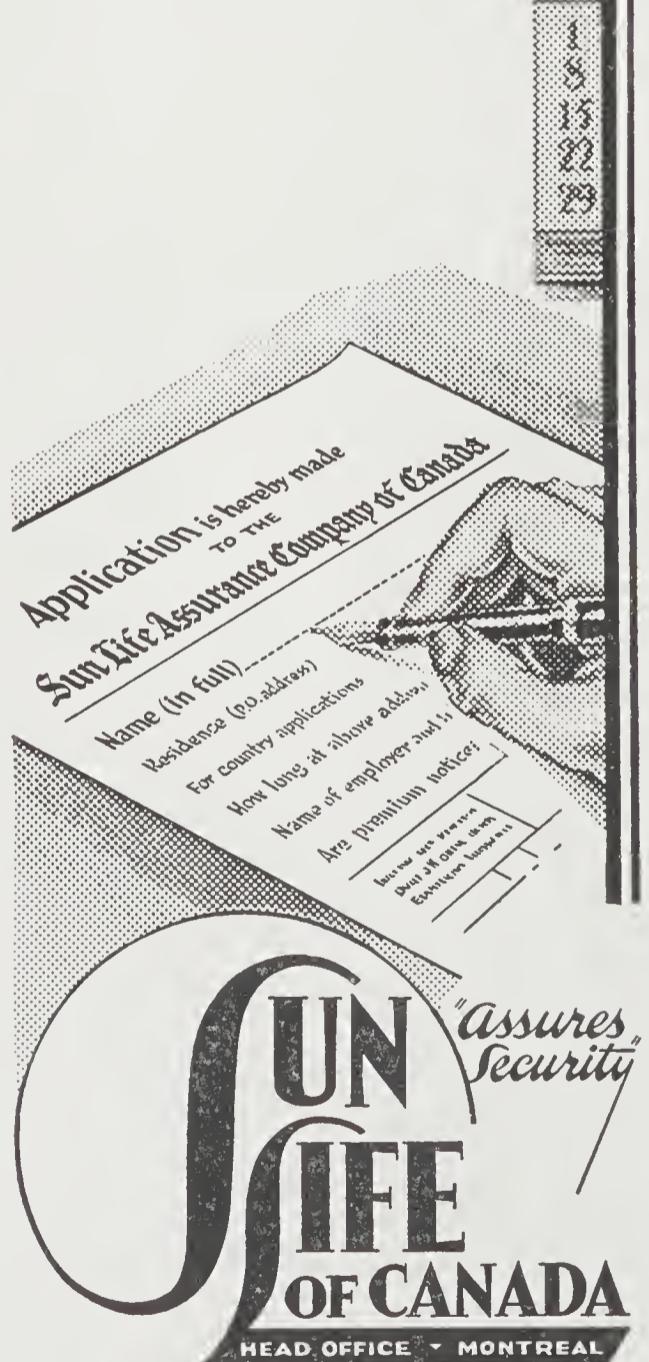

Coon—In his eightieth year, Dr. Darius Augustus Coon, Med. '90, died in Toronto, Ontario, on September 29. He had been in ill health during the past summer, but had shown improvement shortly before his death. Dr. Coon was born at Elgin, Ontario, and received his early education in the schools of the district and in Athens High School. He also attended Victoria University before entering Queen's in 1886. He obtained his M.D., C.M. degrees four years later and started a practice in Elgin. He carried on in this community for all his professional life, with the exception of a brief period during the Great War, when he was attached to the Kingston Military Hospital as medical officer. He is survived by a son, H. A. Coon, Arts '18, and two daughters, one of whom is Eva Coon, Arts '17.

Davis—For fifty years a barrister in Ontario, Bidwell Nicholas Davis, Arts '81, died on September 6 in the General Hospital at Toronto, Ontario. In his eighty-ninth year, Mr. Davis was sixth on the seniority list of Queen's alumni. He was born at Wolfe Island, Ontario, in 1853, and obtained his early education in Kingston schools and Albert College, Belleville. He entered Queen's in 1877 and received his B.A. degree in 1881. He then went to Osgoode Hall and after graduation he was called to the Ontario Bar in 1889. Before taking up law, Mr. Davis was a teacher of mathematics at Chatham, Ontario, and later headmaster at Trenton High School. He then turned to the legal profession and practised for half a century. A partner in the firm of Davis, Grass, and Timmins, Toronto, he retired two years ago. The survivors are his wife, a son, and a daughter. He was a member of various clubs and fraternal organizations and was a trustee of Albert College. The survivors are his wife, a son, and a daughter.

Godwin—After an illness of fourteen months, William Henry Godwin, Arts '40, died at his home in Kingston, Ontario, on September 27. He was born at Sault Ste. Marie in 1904, and lived most of his life in Kingston. He first enrolled at Queen's in 1926 and as an undergraduate he played on the intermediate football team. He completed his university course in the spring of 1940. At the time of his death he was assistant hospital overseer at the Kingston Penitentiary. The survivors include his wife, two daughters, one son, and two sisters.

Hitsman—At the General Hospital, Kingston, Ontario, Mrs. S. A. Hitsman (Minnie Mackay), Arts '07, died on August 26. Mrs. Hitsman was born at Delta, Ontario, in 1886. She attended Smiths Falls Collegiate and entered Queen's in 1903, obtaining her B.A. degree four years later. Mrs. Hitsman always took an active interest in

**TAKE CARE
TO-DAY . . .
THAT
TOMORROW
TAKES CARE
OF ITSELF**

the affairs of the University and had served as president of the Kingston alumnae and as vice-president of the national organization. She also held executive positions in the local Council of Women and in various other organizations in the City of Kingston. The survivors are Lieut. J. M. Hitsman, Arts '39, and J. S. Hitsman, Med. '44. Her husband, S. A. Hitsman, Arts '18, pre-deceased her in May of this year.

James — Well-known farmer-politician and assessor for Nepean township, Herman R. James, Arts '18, Theol. '21, died at his residence, Britannia Bay, Ontario, on August 26. A practical farmer, he was a member of one of Carleton County's oldest pioneer families. He was prominent in the county political life for many years, and in the 1935 general election he was a Reconstruction candidate, but was unsuccessful. He was a keen student of economics and his interest in politics arose from his desire to advocate reforms in administration. A lover of good music, he was a vocalist of talent and he was far advanced in musical study. His ability as a preacher was known widely. Mr. James was born in Carleton County in 1895, and attended schools in Carleton Place and Ottawa. He enrolled as an extramural student at Queen's in 1914, later finishing his course intramurally. He obtained his B.A. in 1918, and his M.A. in 1920, and also took the Theological course. In 1920 he won the medal in moral philosophy. As a student he was an excellent athlete and played for the Queen's senior football team. After graduation he studied at Harvard University for two years, and then became engaged in church work in Eastern and Western Canada. He entered the ministry, serving in Eastern and Western Canada, until his health gave way under the strain. He returned to the Ottawa district in 1928 and resumed the life of a farmer. The survivors are his wife, four sons, three daughters, four brothers, three sisters.

Loney — Returning to England after an operational flight over Europe, Pilot Officer James Wellington Loney, Com. '37, was

killed when his bomber was shot down, according to official word received in Canada on August 19. He was the veteran of several flights over Germany and German-occupied territory. Pilot Officer Loney was born at Cornwall, Ontario, in 1916. He entered Queen's in 1934 and graduated with his B.Com. degree three years later after an

excellent record as a student. He joined the staff of an accounting firm in Toronto, leaving to enlist in the spring of 1940. He re-

PO. J. W. LONEY

ceived his wings at Camp Borden in January of this year.

Love—After a brief illness Flying Officer Hubert R. Love, Arts '22, died at Macleod, Alberta, on August 8. He had been a member of the R.C.A.F. for only two months. Prior to enlisting, he had been a teacher at Calgary School of Commerce for seventeen years. He specialized in bookkeeping subjects. Flying Officer Love was born at Lyndhurst, Ontario, in 1894, and attended schools at Athens and Brockville before entering Queen's in 1915. After two years as an intramural student he completed his course extramurally. The survivors are his wife and two daughters, his mother, and two brothers and two sisters.

McCallum—While performing an operation at the Niagara Falls General Hospital, Dr. Samuel McCallum, Arts '04, Med. '06, died suddenly August 23. Cause of death was given as coronary thrombosis. Dr. McCallum was born at Brewers Mills, Ontario, and received his preliminary education in the nearby town of Gananoque. He enrolled in the Arts Faculty at Queen's in 1879, and received his M.A. degree in 1904. Two years later he obtained his M.D., C.M. degrees. In 1903 he won the medal in chemistry. After graduation he studied for two years at St. John's Hospital, New York City. He then went to Niagara Falls, Ontario, where he established a private practice. He was keenly interested in athletics, particularly badminton, tennis, and golf. Surviving are his wife, two sons, and a daughter.

MacKellar—For forty years a medical missionary in India under the Canadian Presbyterian Mission and later the United Church of Canada, Dr. Margaret MacKellar, Med. '90, LL.D. '29, died August 25 at the General Hospital, Toronto, Ontario, in her eightieth year. Since her retirement in 1930 she had lectured extensively throughout Canada. Born at Mull, Scotland, Dr. MacKellar received her early education in the public schools of Bruce County and the Collegiate Institute of Ingersoll, in Ontario. She entered Queen's in 1886 and graduated four years later with the degrees of M.D., C.M. After a brief time spent in postgraduate study at London, England, and Edinburgh, Scotland, she went to India under the Canadian Presbyterian Mission. As a pioneer doctor at Neemuch, Central India, she was responsible for the building of a fifty-two bed hospital. During the first Great War she took part in the training of twelve Indian women doctors and was a member of a committee that selected suitable women for medical war work. She was attached to the R.A.M.C. at the Freeman Thomas Hospital, Bombay. For seventeen years Dr. MacKellar served as secretary of the Women's Christian Medical College in Ludhiana, Punjab, and for the past five years of her residence in India was chairman of the governing body of that institution. During her term of missionary service she was a member of the editorial staff of the "United

Church Review," North India, and also the "Journal for Medical Women in India." She was present, by invitation, at the Coronation Durbar of the late King George V, and Queen Mary, Delhi. In recognition of her services in India she was awarded the Kaiser-i-Hind Medal. Dr. MacKellar was a prolific writer of articles concerning missionary interests and travel topics, contributing over a period of fifty years to magazines and other periodicals. She was one of the University's most distinguished graduates and was given an honorary LL.D. degree in 1929.

Martin—A medical missionary in the Far East for a quarter of a century, Dr. Stanley Haveland Martin, Med. '15, died on July 24. He had recently returned to America for reasons of health. Dr. Martin was born at St. Johns, Newfoundland, in 1890, and attended the Methodist College there. He graduated in medicine from Queen's in 1915 and spent a year's internship at Montreal General Hospital. He then sailed for Korea. The first ten years of his work were spent at St. Andrew's Hospital in South Manchuria, which was built under his supervision. Having worked for years under Dr. Grenfell of the Labrador Mission he was well fitted for pioneer work. Later he went to Seoul, Korea, as a representative of the United Church of Canada, in charge of the department of medicine, at the Severance Union Medical College. In 1923 he took postgraduate work at Harvard University and in 1930-31 he studied at Vienna, London, and other centres. A tribute to him in the "United Church Observer" said, in part, "It was the passing of a great heart and multitudes will bless God for what he meant as fellow-missionary and healer of the sick and suffering." He is survived by his wife and six children.

Sanders—For twenty-six years a minister in Congregational and United Churches, Rev. Frank Sanders, Theol. '26, died at Toronto, Ontario, September 22. Five years ago he suffered a fractured skull from a fall on the ice at Chalk River, Ontario, and he retired from the active ministry. Mr. Sanders was ordained as a Congregational minister at Middleville, Ontario, in 1910, and he served charges in Burford, Guelph, and Kingston. After church union he held pastorates in the United Church in Brockville, Fernie, B.C., and Chalk River. He was always active in Y.M.C.A. work. Mr. Sanders was born in Worcester, England. He attended Birmingham Technical School before coming to Canada in 1899. He graduated from McGill University and in 1925 he enrolled in Theology at Queen's. Surviving are his wife, one daughter, four sons, including Rev. L. H. Sanders, Arts '32, and Dr. E. A. Sanders, Med. '34, and one brother.

Webster—Retired mining inspector of the Ontario Department of Mines, Arthur Robert Webster, Sc. '04, died on September 4 in the General Hospital at Kingston, Ontario. He had been ill for two weeks. Mr. Webster was born at Lansdowne, Ontario,

in 1874, and received his early education there and at Brockville. He entered Queen's in 1898, enrolling in Arts, and later transferred to the Faculty of Applied Science. In 1904 he obtained his B.Sc. degree in electrical engineering. For more than ten years he served as superintendent of the Cobalt Light and Power Company and later was appointed mining inspector, from which post he resigned a year ago. He resided in Toronto. The survivors are his wife, a daughter, and a brother.

Willingdon—Former Governor-General of Canada, Viceroy of India, and one of Britain's outstanding public servants, the Marquis of Willingdon, LL.D. '26, died at London, England, August 12, at the age of seventy-four. Educated at Eton and Cambridge, his first important diplomatic post was governor of Bombay, where he was stationed from 1912 to 1919, when he was appointed governor of Madras. These early years in India gave him a valuable background for his term as viceroy, particularly because of the civil disobedience campaign of Mahatma Ghandi, which he was credited with checkmating. He became Governor-General of Canada in 1926, the first to represent the King and not the British Government. He succeeded Lord Byng, LL.D. '21, after the constitutional crisis of 1926, and soon became one of the most popular governor-generals that Canada ever had. In 1931 he was appointed viceroy of India. He returned to Britain in 1936 and was made a marquis. Since then he has made two trips to South America on cultural and trade missions. He had been in poor health since February of this year.

Notes

1880-1889

Dr. R. G. Feek, Arts '82 (M.D. Toronto), has retired from practice and is living in Ausable Forks, N.Y.

1890-1899

Rev. A. McMillan, Arts '99, has moved from Naramata, B.C., to Okanagan Mission, B.C.

Rev. Dr. J. S. Shortt, Arts '94, D.D. '32, minister of St. Andrew's Presbyterian Church, Barrie, Ont., for the past seventeen years, has been appointed pastor of High Park Presbyterian Church, Toronto, for the duration of the war.

1900-1909

E. J. Bolger, Sc. '06, is now on the staff of McLennan Gold Mines Limited, Geraldton, Ont. He was previously connected with Messrs. Futterer and Reid, mining engineers, Toronto.

Meeting war-time needs

THE NEW
**"VICTORY
 POLICY"**

Whatever your job, whatever your income, you should be investing regularly in War Savings Certificates. Yet your family needs adequate protection, too!

The new "Victory Policy" developed by The Mutual Life of Canada enables you to meet both these essential needs. Premiums are exceedingly low for a fixed period of years, while you are investing in War Savings Certificates. And even at the end of this period, when the rate is adjusted, the premium is still lower than you would normally pay. You will be able to use the proceeds of your War Savings Certificates as they mature to pay the premiums.

Permanent protection

The "Victory Policy" is a permanent plan of life insurance. It has been specially prepared to meet your immediate needs and to provide future protection as well. The new "Victory Policy" is available to every adult who is insurable . . . and is especially attractive to men and women with modest incomes.

Ask your nearest Mutual Life representative for complete details of this plan. Or write to The Mutual Life of Canada, Waterloo, Ont.

D. L. Rigsby, Sc. '40, of the British Air Commission has been transferred from the Canadian Car and Foundry Company, Montreal, to San Diego, Calif., where he is inspector-in-charge of the Consolidated Aircraft Corporation.

A. G. Scobie, Sc. '37, is now employed on the research department staff of the Hudson's Bay Mining and Smelting Co., Flin Flon, Man.

W. P. Shirreff, Sc. '35, who returned recently from overseas, has been promoted from the rank of captain to that of major in the 1st Canadian Armored Division.

G. W. Smith, Arts '37, is headmaster of Lakefield Preparatory School, Lakefield, Ont.

Dr. I. Sugarman, Arts '34, Med. '36, is practising in Montreal. His office is in the Medical Arts Building.

F. D. Thompson, Arts '35, is meteorologist in the Department of Transport, Malton, Ont.

B. F. Vowles, Arts '40, has joined the staff of Canadian Celanese Limited, Drummondville, Que.

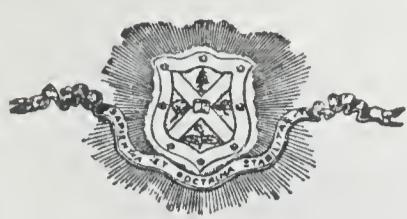

Miss Lamoine West, Arts '32, has been appointed to the staff of the collegiate institute in Brantford, Ont.

Dr. H. G. Young, Med. '38, is at present urological resident in Long Island College Hospital, Brooklyn, N.Y.

General

Prof. L. M. Arkley, head of the Department of Mechanical Engineering, has been appointed representative of the National Labour Supply Council to act in National War Services, Administrative Division "C," with headquarters in Kingston.

Hon. Charles A. Dunning, chancellor of the University and former minister of finance in the Dominion Government, was recently elected to the board of the Bell Telephone Company of Canada to succeed Right Hon. Arthur B. Purvis, who was killed in an aeroplane crash of the Royal Air Force Ferry Command in England on August 14.

CENTENARY CONVOCATION

Front Row, Left to Right Vice-Principal McNeill, Dean Clark, Rt. Hon. Ernest Lapointe, Principal Wallace, Chancellor Dunning, Dr. J. M. Macdonell, Dean Luther Weigle; Middle Row: Dr. Charlotte E. Whilton, Dr. Irving Langmuir, Dr. J. B. Collip, Principal F. Cyril James, Rev. Dr. G. H. Donald, Monseigneur Camille Roy, Mr. A. Y. Jackson, and Principal Kent; Back Row: President A. Stanley Walker, Dean Etherington, Dr. H. E. Sigerist, Rt. Hon. Arthur Meighen, Dr. N. L. Bowen, Mr. J. S. McLean, Dr. H. P. Whidden, Dean Matheson, Principal Micklem, Rev. Dr. Richard Davidson.

QUEEN'S UNIVERSITY CENTENARY, OCTOBER 16-18

FROM all over the world hundreds of loyal Queen's alumni converged on the University for the Centenary celebrations October 16-18.

The exact number of those who attended is not known, but it was larger than expected. A large group registered at the Students' Union, and hundreds more were in town for the occasion. In addition, those alumni who could not attend were present in their thoughts and countless numbers listened in to the special coast-to-coast broadcasts.

A full programme was packed into the three days. From the time the registration opened on Thursday morning until the University Reception and the General Alumni Association dance on Saturday night, there were many interesting things to do and see.

Glorious weather prevailed with the exception of Saturday afternoon, when the Weather Man apparently thought it would not do to let the alumni take him for granted. So it rained, but that did not matter. True, the football game suffered to some extent, and it was not so pleasant to travel around the campus, but the alumni refused to let the elements detract from their pleasure.

That it was a stimulating experience is evident from the remarks made. "I wouldn't have missed this for anything," said one grand old man who had come hundreds of miles. "I really feel uplifted," was the comment of another. "I don't know how many times there was a lump in my throat," said a former football "great," referring to the alumni-student meeting. And so it went.

Practically every possible class was represented. Rev. Hugh Cameron, Arts '76, Ottawa, who heads the graduate seniority list with P. A. Macdonald, Art '76, Winnipeg, was present, and Mr. Macdonald sent a message of congratulation. Miss Annie Fowler, senior living woman graduate and a member of the class of

1884, was also an honoured guest. Class reunions were precluded by the scope of the celebrations, but the class of 1888 and the class of 1896 were among those that managed to hold a meeting anyway.

Visitors arriving by train were met at the Outer Station by a committee headed by Dr. J. E. Hawley. Here an information booth was set up and the guests were directed to their proper destinations.

Registration headquarters were in the Students' Union, under the direction of Prof. Arthur Jackson. A capable staff of young men and women received the guests, registered them, and issued identification cards. Student guides were on hand, and were also posted at the various University buildings. The three Queen's publications, D. D. Calvin's *Queen's University at Kingston*, *Some Great Men of Queen's*, and Prof. W. Gordon's *Daniel M. Gordon: His Life*, enjoyed a brisk sale at the registration booth.

October 16 has long been known in Queen's history as University Day because the Royal Charter was issued October 16, 1841. The Centenary programme opened on Thursday afternoon with a service of thanksgiving and remembrance in Grant Hall. It was fitting that the service was conducted by Rev. J. F. Wedderburn, Arts '14, Theol. '17, minister of St. Andrew's Church, because the latter had been closely associated with Queen's for many years. In some sense the College was born there in 1839; it was certainly saved there in 1869. The Royal Charter of 1841 provided that the College should not be more than three miles distant from the Church. For seven years the Rev. Dr. Machar, minister of St. Andrew's Church, held an interim appointment as Principal, though serving his congregation all the while.

The sermon was preached by the Rev. Dr. Neil Leckie, Arts '97, Theol. '02, past president of the Queen's Theological

Alumni Association. The lessons were read by Chancellor Dunning and Principal Wallace. The University choir, under the direction of Dr. F. L. Harrison, resident musician, sang two hymns, and Dr. Harrison played an organ prelude.

The service was followed by the first of the Centenary Addresses, delivered in Convocation Hall by Rev. Dr. Nathaniel Micklem, principal of Mansfield College, Qxford University, and formerly on the staff of Queen's. The chairman was President H. J. Cody of the University of Toronto. Dr. Micklem spoke on "A Hundred Years in Theological Thought."

PRESENTATION OF DELEGATES

On Thursday evening the presentation of delegates and representatives was a colourful ceremony. They were individually introduced by Vice-Principal McNeill and received by Chancellor Dunning and Principal Wallace. Church and state and the press and universities and learned societies were represented and gave their greetings to the Chancellor. The chairman was Mr. J. M. Macdonnell, chairman of the Board of Trustees.

Among those present during the celebrations were the following: .

Church — The Most Reverend M. J. O'Brien, archbishop of the Roman Catholic Diocese of Kingston; The Rt. Rev. John Lyons, Bishop of Ontario, representing the Church of England; The Rt. Rev. James B. Skene, moderator of the Presbyterian Church in Canada; Rev. Dr. G. A. Sisco, general secretary of the United Church of Canada; Rev. H. P. Whidden, former chancellor of McMaster University, representing the Baptist Church.

The State — Dominion of Canada, Prime Minister W. L. Mackenzie King, the Rt. Hon. Ernest Lapointe, Hon. Angus L. Macdonald, the Rt. Hon. Arthur Meighen, Major-Gen. H. F. H. Hertzberg, and Brigadier F. Logie Armstrong; the province of Ontario, Hon. P. M. Dewan; city of Kingston, Mayor H. A. Stewart.

The Press—W. R. Davies, president of The Canadian Press.

Universities and societies — The University of Edinburgh, Sir Robert Falconer, former president of the University of Toronto; the University of Glasgow, Prof. Andrew Hunter; University of Aberdeen, Dr. G. S. Melvin; University of St. Andrew's, Major F. J. Ney; Royal College of Physicians of Edinburgh, Dr. James Miller; Royal College of Surgeons of Edinburgh, Dr. Edwin Robertson; Trinity College, Dublin, Dr. F. H. Cosgrave; Queen's University of Belfast, Prof. J. L. McKee; Oxford University, Rev. Dr. Nathaniel Micklem; Cambridge University, Dr. G. G. Coulton; University of London, the Earl of Athlone; University of Liverpool, Dean Ernest Brown; University of Birmingham, Prof. O. W. Ellis; University of Leeds, Prof. J. H. Richardson; Royal Society, G. R. Thomson; Royal College of Physicians of London, Dr. J. C. Meakins; Royal College of Surgeons of England, Dr. Alexander Primrose;

Harvard, Dean W. S. Ferguson; Yale, Dean L. A. Weigle, Dr. Kenneth McLean; University of Pennsylvania, Dr. H. C. Bazett; Brown University, Dr. E. G. Taylor; Union College, Dr. F. L. Bronner; University of Virginia, Dr. S. A. Mitchell; Amherst College, Mr. E. D. Hardy; Hobart College, Dr. E. J. Williamson; Mount Holyoke College, Dr. Elizabeth Laird; State University of Iowa, Dr. R. M. Anderson; University of Wisconsin, Dr. J. E. Hawley;

University of Minnesota, Dr. John Stanley; Vassar College, Mrs. Gregory Vlastos; Swarthmore College, Dr. Gregory Vlastos; Cornell University, Dr. W. L. Malcolm; University of California, Dr. Ernest Flammer; Wellesley College, Mrs. P. S. Mahood; Smith College, Mrs. D. P. Cruikshank; Vanderbilt University, W. S. Vaughan; Johns Hopkins University, Dr. H. E. Sigerist; University of Southern California, Dr. R. B. von KleinSmid; Bryn Mawr College, Miss Winnifred Kydd; University of Chicago, Dr. R. O. Earl; William Smith College, Dr. E. J. Williamson;

American Philosophical Society, Dr. S. A. Mitchell; National Academy of Science, Dr. S. A. Mitchell; American Asso-

ciation for the Advancement of Science, Dr. Irving Langmuir; Geological Society of America, Dr. N. L. Bowen; University of Sydney, Australia, Dr. T. G. Taylor; University of Melbourne, Dr. J. A. Gray; University of New Zealand, Dr. Diamond Jenness;

National Conference of Canadian Universities, Rev. H. J. Cody; University of King's College, President A. S. Walker; Dalhousie University, President C. W. Stanley; Acadia University, President F. W. Patterson; St. Francis Xavier, Hon. P. M. Dewan; University of New Brunswick, President Norman MacKenzie; Mount Allison University, President G. J. Trueman; McGill, President F. C. James; Bishop's University, Principal A. H. McGreer; Laval, the Rector, Monseigneur Camille Roy; University of Montreal, the Rector, Monseigneur Olivier Maurault; Trafalgar School for Girls, Rev. Dr. G. H. Donald; University of Toronto, Pre-

sident H. J. Cody; University College, Principal M. W. Wallace;

Ontario College of Education, Dean J. G. Althouse; Toronto Conservatory of Music, Sir Ernest Macmillan; Victoria University, President W. T. Brown; Emmanuel College, Principal Richard Davidson; Regiopolis College, Dean E. F. Chabot; University of Ottawa, Rev. Dr. Arthur Caron; University of Trinity College, Provost F. H. Cosgrave; Albert College, President Bert Howard; University of Western Ontario, President W. S. Fox; McMaster University, Dean C. E. Burke; Frontier College, Principal E. W. Bradwin; University of Manitoba, President S. E. Smith; University of Saskatchewan, Dr. G. H. Ling; University of Alberta, Dr. Glen Shortliffe; University of British Columbia, Dr. J. D. MacLean;

Royal Society of Canada, Dr. H. M. Tory; National Research Council, Dr. C.

SPECIAL CONVOCATION

Front Row, Left to Right: His Excellency, the Earl of Athlone, Governor-General of Canada; Miss Dorothy Wardle, Principal Wallace; Middle Row: Vice-Principal McNeill, Her Royal Highness, Princess Alice, Countess of Athlone; Mr. C. R. McLean, Principal Kent, Dr. J. M. Macdonnell; Back Row: Mayor H. A. Stewart, Commander Sherwood, Chancellor Dunning.

J. Mackenzie; Ontario Research Foundation, Dr. H. B. Speakman; Canadian Group of Painters, Mr. A. Y. Jackson; National Gallery of Canada, Mr. H. O. McCurry; Canadian Geographical Society, Dr. B. R. MacKay; Canadian Historical Association, Dr. Gustave Lanctot.

Canadian Political Science Association, Prof. H. Mitchell; Canadian Physiological Society, Dr. J. B. Collip; Canadian Institute of Mining and Metallurgy, Prof. W. G. McBride; Engineering Institute of Canada, Dr. C. J. Mackenzie; Professional Institute of the Civil Service of Canada, Mr. J. M. Wardle; Civil Service Commission of Canada, Mr. C. H. Bland;

National Council of Education in Canada, Dr. F. J. Ney; Association of Head-mistresses, Miss Janet Vertue; Ontario Educational Association, Mr. Lloyd White; Canadian Chamber of Commerce, Mr. J. S. McLean; Canadian Manufacturers Association, Mr. H. W. Macdonnell; Dominion Association of Chartered Accountants, Mr. W. G. H. Jephcott; Institute of Chartered Accountants of Ontario, Mr. F. C. Hurst;

Canadian Bar Association, Mr. D. H. Laird; Law Society of Upper Canada, Mr. G. W. Mason; Canadian Medical Association, Dr. T. C. Routley; Medical Council of Canada, Dr. J. F. Argue; College of Physicians and Surgeons of Ontario, Dr. M. H. V. Cameron; Canadian Institute of International Affairs, Dr. M. W. Wallace; League of Nations Society in Canada, Senator Cairine Wilson; Canadian Welfare Council, Dr. Charlotte Whitton.

DISTINGUISHED VISITORS SPOKE

The Chancellor gave an address of welcome and responses were made on behalf of the delegates by the Rt. Hon. Ernest Lapointe, minister of justice; Hon. P. M. Dewan, minister of agriculture in Ontario; Dr. G. G. Coulton, fellow of St. John's College, Cambridge; Dr. Rufus B. KleinSmid, president of the University of Southern California; Prof. T. Griffith Taylor, representing the University of Sydney, Australia; Dr. C. J. Mackenzie, acting president of the National Research Council of Canada; Monseigneur Olivier

Maurault, rector of the University of Montreal; Rev. Dr. H. J. Cody, president of the National Conference of Canadian Universities.

Sir Robert Falconer, former president of the University of Toronto, delivered the second of the Centenary Addresses. He spoke on "A Hundred Years in the Humanities and Social Sciences."

TWO CENTENARY ADDRESSES

Two Centenary Addresses were given on Friday morning. At the first, in Grant Hall, an address prepared by Sir Thomas Holland on "The Progress of Science and Applied Science in a Hundred Years" was read by Dr. Irving Langmuir, prominent physicist with the General Electric Company, Schenectady, N.Y. The chairman was Dr. S. A. Mitchell, Arts '94, LL.D. '24, director of the Leander McCormick Observatory, University of Virginia. The second was given in Convocation Hall by Dr. Henry Sigerist, professor of the history of medicine at Johns Hopkins University, on "A Hundred Years in Medicine." The chairman was Dr. Alexander Primrose, former dean of the Faculty of Medicine at the University of Toronto.

The Centenary Convocation on Friday afternoon was a ceremony that will live long in the memories of those fortunate enough to be present. Conferring of honorary degrees on a score of distinguished leaders in the academic world, state, church, business, music, and art, the rendition of the Musical Ode, the reading of the Commemoration Ode, and Principal Wallace's address all combined to make a memorable programme.

After the invocation by the Chaplain, Principal Kent of Queen's Theological College, honorary degrees were conferred on the following: Doctor of Divinity—Rev. Richard Davidson, principal, Emmanuel College, Toronto; Rev. George Henry Donald, Church of St. Andrew and St. Paul, Montreal; Rev. Algernon Stanley Walker, president, King's College, Halifax; Rev. Luther A. Weigle, dean, Divinity School, Yale University, New Haven, Conn.; Rev. Howard Primrose Whidden, former chancellor of McMaster University, Hamilton.

Doctor of Laws — Dr. Norman L. Bowen, Charles L. Hutchinson Distinguished Service Professor of Petrology, University of Chicago, Chicago; Dr. James B. Collip, director, Research Institute of Endocrinology, McGill University, Montreal; Dr. James B. Conant, president, Harvard University, Cambridge, Mass. (*in absentia*); Sir Thomas Holland, principal, Edinburgh University, Edinburgh, Scotland (*in absentia*); Alexander Y. Jackson, Studio Building, Toronto; Dr. F. Cyril James, principal, McGill University; Right Hon. Ernest Lapointe, minister of justice, Ottawa; Dr. Irving Langmuir, General Electric Company, Schenectady, N.Y.; James M. Macdonnell, president and general manager, National Trust Company, Toronto; J. Stanley McLean, president, Canada Packers, Toronto; Sir Ernest MacMillan, principal, Toronto Conservatory of Music; Lieutenant-General A. G. L. McNaughton, commander, Canadian Corps overseas (*in absentia*); Senator Arthur Meighen, Ottawa; Rev. Nathaniel Micklethwaite, principal, Mansfield College, Oxford, England; Sir Edward Peacock, governor, Bank of England, London (*in absentia*); Hon. J. L. Ralston, minister of national defence, Ottawa (*in absentia*); Monseigneur Camille Roy, rector, Laval University, Quebec; Dr. Henry E. Sigerist, director of Institute of History of Medicine, Johns Hopkins University, Baltimore, Md.; Dr. Charlotte Whitton, executive director, Canadian Welfare Council, Ottawa.

PRESENTED TO CHANCELLOR

Presentation to the Chancellor of the recipients of honorary degrees was made by Principal Wallace. Principal Kent hooded those receiving the degree of Doctor of Divinity, and Deans Clark, Matheson, and Etherington, those receiving the degree of Doctor of Laws. Brief addresses of acknowledgment were made by Dean Weigle, Monseigneur Roy, and Lieutenant-General McNaughton (by transcription).

The Ode of Remembrance, music for mixed chorus, organ, and pianoforte, was composed for the Centenary by Dr. F. L.

Harrison, resident musician. The text was taken from Robert Bridges' *Ode to Music* and Isaac Watts' hymn, *O God, our Help in Ages Past*.

The Commemoration Ode, Queen's University, 1941, was read by its author, Dr. George Herbert Clarke, head of the department of English at Queen's. Principal Wallace delivered his address, "Looking Forward in Education."

CITY OF KINGSTON BANQUET

On Friday evening, the City of Kingston gave a banquet to which were invited the delegates, special guests, trustees of the University and the Board of Management of Queen's Theological College, the University Council, alumni directors and councillors, officers of the University, and members of staff. Mayor H. A. Stewart acted as toastmaster.

Among the distinguished speakers was Rt. Hon. W. L. Mackenzie King, prime minister of Canada, who replied to the toast to the Dominion. Others who spoke included the Mayor, Mr. J. M. Macdonnell, chairman of the Board of Trustees, Dr. Carleton Stanley, president of Dalhousie University, Hon. J. M. Dewan, provincial minister of agriculture, Dean W. S. Ferguson of Harvard University, Chancellor Dunning, Dr. Sidney E. Smith, president of the University of Manitoba, and Hon. Angus Macdonald, minister of national defence for naval services.

During the course of the evening Mrs. Tania Plaw and Dr. F. L. Harrison played a short two-piano recital. The programme started at 8 o'clock, and it was after midnight before it was concluded.

Perhaps the ceremony with the most popular appeal was that presented in Grant Hall on Saturday morning in which the alumni and the students participated. Particularly outstanding were the addresses by Rev. Hugh Cameron, Arts '76, one of the two oldest living graduates, the "Story of Queen's," as told by Dr. W. E. McNeill, the conferring of honorary degrees on His Excellency, the Earl of Athlone, Governor-General of Canada, and Her Royal Highness, the

Princess Alice, and the rectorial address by the Earl of Athlone.

For the first part of the programme the chairmen were E. A. Collins, Sc. '05, president of the General Alumni Association, and Dr. Hilda Laird, alumnae president. Both presented greetings from their respective organizations.

OLDEST GRADUATE POPULAR

Rev. Hugh Cameron proved to be one of the "hits" of the proceedings. As head of the seniority list of Queen's alumni he was greeted enthusiastically and after his very fine speech, filled with reminiscences of the Queen's of yesteryear, he was shown the appreciation of the audience by prolonged applause.

Greetings from alumni scattered all over the world also caught the fancy of the audience. Particularly appealing were the messages from graduates now serving with the armed forces. These greetings emphasized the fact that though the majority of alumni were not present in person they were there in thought.

Representatives of the various alumni branches presented scrolls containing greetings to the University as a further reminder of goodwill throughout the world. Included among these were several that were works of art. All contained heart-warming sentiments. These scrolls are being placed on exhibition in the Douglas Library and will ultimately be put in the University archives.

Dr. McNeill's story of the University history was, in the words of one alumnus, "a masterpiece." Time and time again the audience rocked with laughter as the Vice-Principal made a humorous reference to some incident in Queen's past. This address was printed in full as the leading article in the last issue of the *Review*.

On the arrival of His Excellency, Her Royal Highness, and their party, a special Convocation was held. Principal Wallace presented the Earl of Athlone and the Princess Alice to the Chancellor, who laureated them with the honorary degree of Doctor of Laws. Vice-Principal McNeill hooded the distinguished guests.

At this point Miss Dorothy Wardle, president of the Alma Mater Society, took

over the chairmanship of the meeting and introduced the Governor-General, who delivered his rectorial address. His Excellency was thanked on behalf of the meeting by Mr. C. R. McLean, vice-president of the Alma Mater Society.

After this function members of the Vice-Regal party were entertained at luncheon at the Principal's Residence. More than four hundred alumni and friends gathered at the Gymnasium, where luncheon was provided by the Women's Association of Queen Street Church. This affair proved to be highly popular as it provided the graduates with a meeting place that had been missing on previous reunions.

REVIEWED QUEEN'S C.O.T.C.

In the afternoon the Governor-General reviewed the Queen's Contingent of the Canadian Officers' Training Corps in the Richardson Stadium. Although rain fell steadily throughout and the field was muddy, the cadets gave a highly creditable display that earned the praise of His Excellency.

After the inspection an Eastern Rugby Football Union league game was played between the Montreal Bulldogs and the Toronto Argonauts. Despite the rain there was a large crowd present to see the Argos whip their rivals by a score of 12-1. It was a well-played game, considering the unfavourable conditions, and was much closer than the score would indicate. The alumni expressed approval that it had been found possible to arrange for a first-class football attraction for the reunion week-end. At half-time the Queen's pipe band played several numbers that were very well received.

In the evening the Drama Guild presented Thornton Wilder's *The Happy Journey* in Convocation Hall, and every seat was filled. This play was presented under the direction of Dr. William Angus.

The University Reception in Grant Hall attracted hundreds of alumni, guests, and members of staff, who were received by Chancellor Dunning, Principal and Mrs. Wallace, Dr. and Mrs. J. M. Macdonnell. A stage presentation, "One Hundred Years of Queen's Fashions," proved to be a popular feature with Mr.

K. C. Corbett acting as master of ceremonies. The models were women students, and the costumes were lent by friends. During the evening, appropriate music was rendered by the Glee Club, and dainty refreshments were served.

Also popular on Saturday evening was the General Alumni Association dance in the Gymnasium. More than twelve hundred people gathered here to enjoy themselves and if they did not have much room to dance at least they had an opportunity to meet and talk over old times.

A University Church service on Sunday morning in Convocation Hall, under the direction of the Alma Mater Society, brought the Centenary celebrations to an end. Rev. Dr. Nathaniel Micklem, principal of Mansfield College, Oxford, was the preacher. Dr. F. L. Harrison was the organist.

Thus passed into history Queen's one hundredth anniversary. As a ceremony the celebration had dignity and character and pomp. As a reunion it was the biggest and best of all. If there had not been a war the invasion of Kingston would have been of staggering proportions; under present conditions the representation of graduates from the far corners of the earth was nothing short of remarkable.

Cha gheil! Cha gheil! Cha gheil!

Great Grandson Of First Student Now In Attendance At Queen's

A FRESHMAN in Arts, William H. G. Wardrope of Ottawa is a link with the first class in the history of Queen's, for he is a great grandson of Rev. Dr. Thomas Wardrope, who attended the opening sessions.

An inkling of the changes wrought in a century is to be noted in the time it took William to travel from his home to Queen's this year and the journey of his ancestor from Guelph in 1841. William needed only a few hours, while his great grandfather's trip, according to D. D. Calvin's *Queen's University at Kingston*, required five and a half days, "driving with the same wagon and team of horses about forty miles a day."

Rev. Dr. Wardrope was one of the founders of the Dialectic Society, out of

which later grew the Alma Mater Society, student-governing body. He lived until 1914, and during his lifetime continued to take a deep interest in the University.

NEW ALUMNI PRESIDENT INSTALLED IN OFFICE

AT the annual meeting of the General Alumni Association in the Red Room on the evening of October 18, D. A. Gillies, Arts '05, Arnprior, Ontario, was formally installed as president of the Association for the ensuing year. A hearty vote of thanks was tendered to the retiring president, E. A. Collins, Sc. '05, Copper Cliff, who had served so capably for the past two years.

It was decided that Mr. Gillies should write a letter to the alumni branches urging full co-operation in the University's efforts to build up endowment.

The following were appointed to the nominating committee for next year: W. F. Noonan, Sc. '15, Kingston (chairman), Miss Hilda Cram, Arts '34, Carleton Place, A. L. Brooks, Arts '14, Welland, A. K. Light, Sc. '17, Ottawa, R. A. Blakely, Sc. '28, Montreal, and Dr. J. E. Nichol, Med. '31, Toronto.

C. I. L. Establishes Fellowship

CANADIAN Industries Limited is contributing \$750 a year for a graduate fellowship to be awarded annually in chemistry, pure and applied. This announcement was made at the Board of Trustees meeting on October 18.

Dr. Brovedani Returns

AFTER an enforced stay of more than a year in Italy, Dr. J. H. Brovedani, professor of Spanish and Italian languages and head of the department, has resumed his duties at the University. Difficulty in obtaining transit visas held up his departure for Canada.

MR. D. A. GILLIES

NEARLY 1600 STUDENTS ENROL THIS SESSION

IN the enrolment of the University this year there was a decrease of 98 students or approximately 7 per cent from the 1940-41 record. Total intramural registration is 1591 at time of writing. This is a 12 per cent decrease from the 1939-40 total.

Registration at the Queen's Theological College is also down, with only twelve in attendance as compared with twenty-one last year. This figure does not include those registered in Arts.

Tabulated totals for intramural registration are as follows:

	1939	1940	1941
Arts—			
First Year	261	262	246
Other Years	621	565	501
Science—			
First Year	189	167	199
Other Years	456	432	384
Medicine—			
First Year	44	46	45
Other Years	236	220	219
Gross Total	1807	1692	1594
Less registered in two faculties	2	3	3
	1805	1689	1591

PLAQUE COMMEMORATES REV. ROBERT McDOWALL

A PLAQUE to the memory of Rev. Robert McDowall, who was active in the founding of Queen's University, was placed in Convocation Hall at the time of the Centenary celebrations. It was a gift from three great-granddaughters of Mr. McDowall: Miss Jessie C. Polson, Arts '96, Mrs. H. W. Davis (Isabel Polson), Arts '10, and Miss Hannah W. Polson, Arts '16.

The plaque is not the first memorial to Mr. McDowall at Queen's. Largely through the efforts of the late Rev. James Cumberland, Arts '77, the McDowall Scholarship was founded and first became available in 1907. It is now being used as an honours matriculation scholarship in physics, but originally was for general proficiency.

Direct descendants of Mr. McDowall, in addition to those named above, include the late J. A. McDowall, Arts '67, Dr. J. L. McDowall, Med. '03, Lt.-Col. S. M. Polson, Arts '05, Med. '10, R. J. McDowall, Sc. '12, Dr. J. A. Polson, Arts '07, Med. '10, and H. W. Davis, Arts '42.

UNIVERSITY RECEIVES THREE VALUABLE GIFTS

QUEEN'S received three valuable gifts during the past month. The Aluminum Company of Canada established annual bursaries totalling \$750 for worthy students in need of financial assistance; Mrs. James A. Richardson of Winnipeg, widow of the former chancellor of Queen's, contributed \$5,000 a year for two years, with the possibility of further continuation, to assist in research work and investigation in any field of university activity; and the widow and family of the late Rev. Dr. Alexander MacLachlan, Arts '84, D.D. '11, presented the sum of \$1,000, the interest from which is to be used annually as a prize for the best essay on the promotion of enduring world peace.

The Aluminum Company gift will be known as the "O. M. Montgomery Memorial Fund," in honour of the late O. M. Montgomery, Sc. '05. Mr. Montgomery joined the Company as a draftsman in 1906 and had risen to the post of vice-president and general manager at the time of his death in December, 1940. As a youth he had had to work hard in order to be able to attend college, and this fund will assist others in similar straitened circumstances.

The Richardson contribution will make possible a wider research programme at a time when finances would otherwise be restricted. The demands of the war have clearly illustrated the key position of the research worker in the time of national need; and Canadian universities are playing an important part in this field. With this gift Queen's will be in a position to go forward unimpeded in this essential work.

Known as the "Alexander MacLachlan Peace Prize," the MacLachlan family's gift will perpetuate the name of a man

who was himself a great force for international goodwill in his work in the Near East as president of International College, Smyrna. The memorial is the contribution of Mrs. Alexander MacLachlan, Rosalind M. Reed, M. B. MacLachlan, Arts '15, A. G. MacLachlan, Sc. '22, and Ian MacLachlan, Sc. '25.

D. A. GILLIES, ARTS '05 IS NEW ALUMNI PRESIDENT

D. A. GILLIES, Arts '05, Arnprior, Ontario, was elected president of the General Alumni Association for the ensuing year at the semi-annual meeting

DR. J. J. McCANN

MR. A. C. HANLEY

of the Board of Directors held at the University on the afternoon of October 18. Mr. Gillies succeeded E. A. Collins, Sc. '05, Copper Cliff, who had held the position for the last two years.

Other elections included that of Dr. J. J. McCann, Med. '09, Renfrew, and A. C. Hanley, Sc. '18, Kingston, as first and second vice-presidents, respectively. The resignation of Dr. W. G. Cornett, Arts '18, Med. '21, Hamilton, was accepted with regret. Dr. T. J. Goodfellow, Arts '07, Med. '08, Saratoga Springs, N.Y., Dr. McCann, and D. G. Geiger, Sc. '22, Toronto, were re-elected as co-optive members of the Directorate for the coming year.

An important decision was that the membership of all Queen's alumni on active service overseas should be maintained until their return after the war.

In his summary of the activities of the past twelve months, Mr. Collins made

particular reference to the assistance of the alumni branches in the efforts to increase the University endowment. He also gave an outline of the splendid war record of Queen's alumni. It was reported that the Association had purchased a \$500 War Loan bond.

The secretary-treasurer's report revealed that a new record membership of 1686 had been achieved during the year. The financial statement showed a small surplus after the sum of \$355 had been given to the University as a contribution towards the cost of publishing the Centenary booklet.

The appreciation of the meeting was expressed to C. A. Root, Arts '20, and J. B. Stirling, Arts '09, Sc. '11, and other Montreal alumni who had been largely responsible for securing the Montreal-Argos football game as an attraction for the Centenary week-end.

A motion of appreciation was also passed for the fine work that Mr. Collins had done as president of the Association. Special mention was made of the capable manner in which he had served as chairman of the Centenary alumni meeting.

The following directors or branch representatives were present: President E. A. Collins, Past President A. E. MacRae; Vice-President D. A. Gillies, Drs. J. H. Orr, James Wallace, G. G. McNab, W. R. Patterson, T. J. Goodfellow, E. L. Bruce; Messrs. A. C. Hanley, N. B. MacRostie, D. G. Geiger, C. D. Wight, J. C. Britton, and the secretary-treasurer. Mr. Britton, president of the South Africa branch, was given a hearty welcome.

Greetings Sent By Branches To Be Placed on Exhibition

TWENTY-FOUR branches presented greetings in the form of a scroll at the Centenary alumni meeting on the morning of October 18. Some of the scrolls were most elaborately done and all contained heart-warming expressions of goodwill and congratulations.

These scrolls are being placed on exhibition in the Douglas Library in order that the general public may have an opportunity to see them. Afterwards they will be put in the University archives.

ADDRESSES CONVOCATION IN RADIO RECORDING

AMONG the recipients of honorary degrees at the Centenary Convocation on October 17 was Lt.-Gen. A. G. L. McNaughton, C.B., C.M.G., D.S.O., commander of the Canadian Corps in Britain. This distinguished soldier received his degree *in absentia*, but by means of a radio-beam recording he was able to express his appreciation.

In his remarks Lieutenant-General McNaughton spoke highly of the value of extramural studies arranged by the Canadian Legion and the universities and other educational organizations for the men on active service. He said "The initiative in forming the system through which university credits and certificates for work done in these courses lies with the principal and staff of Queen's University, and it is because of this evidence of your continued thought and care for the interests of the men and women of Canada who are overseas that I particularly value the great honour which you have conferred on me today and for which I most sincerely thank you."

The General's remarks were originally recorded in England and a copy was sent to Queen's by ship and another by bomber. Neither reached their destination. By means of a radio beam the message was relayed from London to Ottawa, where a recording was made in time to be played at the Convocation.

Austin Cross Urges Reunions Be Held Even in War Years

AUSTIN F. CROSS, Arts '23, well-known Canadian newspaperman, enjoyed himself so much at the Centenary celebrations that he made the proceedings the sole topic of one of his columns. He said, in part, "There were big doings for three days. Wonderful speeches were made, great sights were seen, and yards of academic silk were dropped over so many inches of neck.

"All that interests me only so much. What really put the Centenary over, as far as I am concerned, was to see so many of the old boys, and (not so) old girls, back. . . . The ritual was all very fine, but to see the old gang was even better.

Therefore I should urge the solons and satraps of Queen's that, even during war years, they have some sort of get-together every year. For an old Queen's man, it is tonic to the soul."

GREETINGS FROM ALUMNI PROVED POPULAR FEATURE

ONE of the most popular features of the Centenary celebrations was the reading of greetings from alumni scattered all over the world.

Among those heard from were Rt. Hon. Lord R. B. Bennett, LL.D. '26, London, Eng.; P. A. Macdonald, Arts '76, Winnipeg, Man., one of the two oldest living graduates; Rev. R. G. Fry, Arts '21, Portadown, Northern Ireland; Wing Commander N. W. Timmerman, Sc. '36, London, Eng.; Surgeon-Lt. J. L. Johnston, Med. '39; Sir Edward Peacock, Arts '94, London, England; G. H. Cliff, Sc. '20, Big Bell Mines, Cue, Australia; Major D. T. Burke, Med. '32, overseas; A. W. McNeil, Sc. '28, H. R. Rice, Sc. '31, R. H. Bauld, Sc. '28, W. M. B. Harvey, Sc. '24, G. T. Warren, Sc. '38, J. L. Reid, Sc. '38, R. L. Johnston, Sc. '39, D. C. McDonald, Sc. '38, all of Northern Rhodesia, Africa; Capt. H. C. Rogers, Med. '37, Cairo, Egypt; Sir Frederick Carson, Arts '08, E. A. Sully, Sc. '23, Mrs. Sully (Vera Ferrier), Arts '21, and Paul Sykes, Com. '23, Bombay, India; Hugh Crumley, Arts '30, Singapore, S.S.; Pilot Officer A. W. Tustin, Arts '38, overseas; H. H. Merritt, Sc. '31, Tanganyika, East Africa; Dr. J. S. Dickson, Med. '13, Arts '20, Canberra, Australia; Dr. Leo Zealand, Arts '12, Med. '14, Bristol, England; Dr. G. M. Brown, Med. '38, Oxford, England; Major H. T. Ewart, Arts '26, Med. '35, overseas; Rev. Dr. J. H. Burry, Arts '15, Med. '23, Aberdeen, Scotland.

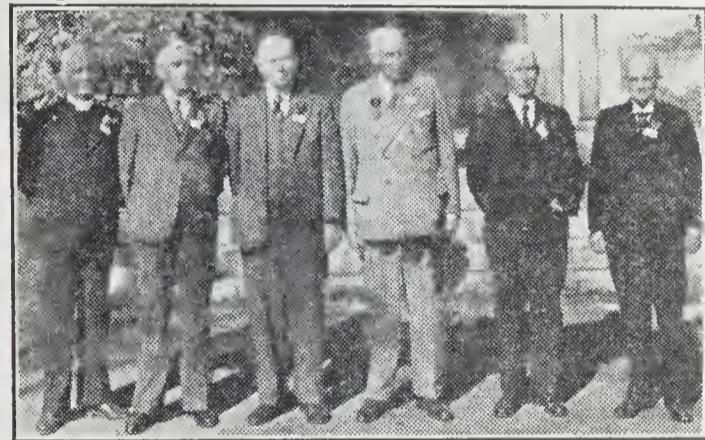

The alumni residing at Talara and Negritos, Peru, sent a letter of congratulations and the following signed their names: Dr. L. H. Fraser, Med. '08, B. P. Rapley, Sc. '23, J. O. Higgins, Sc. '25, Basil Davis, Sc. '36, J. O. Giles, Sc. '37, C. O. Cole, Sc. '38, and Mrs. Cole (Ruth Howard), Arts '38.

The communication from Rev. Robert Fry of Portadown, Northern Ireland, re-

ceived a particularly enthusiastic reception from the audience assembled in Grant Hall on the morning of October 18. The message read: Congratulations I promise alumni one pound annum."

CLASS OF ARTS '88 HOLDS SUCCESSFUL REUNION

THE class of Arts '88 found time in the crowded schedule of the Centenary celebrations to hold a reunion. Six of the remaining eighteen members met at noon on October 16 for a luncheon in the Students' Union. Among those present were Rev. J. A. MacDonald, Kingston,

ARTS '88 REUNION

Left to Right: Rev. J. A. MacDonald, Dr. G. W. Morden, Mr. A. H. D. Ross, Mr. Scott Griffin, Rev. R. C. H. Sinclair, and Rev. Dr. G. E. Hartwell.

Ontario, Mr. Scott Griffin, Toronto, Rev. Dr. G. E. Hartwell, Toronto, Rev. R. C. H. Sinclair, Aultsville, Mr. A. H. D. Ross, Ottawa, and Dr. G. W. Morden, Napanee. Also present as guests were J. M. Farrell, Arts '89, Kingston, Perry Mahood, Arts '89, Kingston, and E. J. Corkill, Arts '86, Napanee.

After the luncheon a memorial service was held in Morgan Chapel, conducted by Messrs. MacDonald, Hartwell, and Sinclair. This was followed by a meeting in the room formerly occupied by Principal G. M. Grant. Letters were read from those unable to attend and reminiscences were exchanged. Mr. Ross contributed an interesting history of the members of the class that was greatly appreciated.

Marty Scholarship Applications Must Be Received By January 1

APPLICATIONS for the Marty Memorial Scholarship for women graduates should reach the Registrar not later than January 1, 1942. Candidates

must have the Master's degree when they hold the scholarship, but not necessarily when they apply for it. The scholarship may be awarded to the same woman for a second year, and may be withheld in any year for financial or academic reasons. Further information may be obtained from the Registrar's Office.

RADIO RIGHTS SOLD TO "WHIG-STANDARD"

SALE of the University's radio rights to the Kingston *Whig-Standard* was approved at the fall meeting of the Board of Trustees held in the Douglas Library on October 18.

For some years Queen's radio station CFRC has been operated jointly by the University and the *Whig-Standard*. Now the latter has organized a company called the Allied Broadcasting Corporation and has obtained a license for a 1000-watt station on Wolfe Island. When the new station is erected CFRC will withdraw from the advertising field, in consideration of a payment by the Corporation, and become an educational station. It will probably not be regularly on the air when that time comes.

It was announced that Dr. Hilda Laird, who had been a member of the Ban Righ Board on direct appointment of the Board of Trustees, had become an *ex officio* member as president of the Alumnae Association. The Trustees appointed Mrs. James Richardson in her place.

The following additions to the University staff were approved: Mr. C. A. Curtis (M.A. Queen's), lecturer in economics; Mr. A. M. Fox (University of Toronto), instructor in Spanish; Dr. F. X. O'Connor (M.D., C.M. Queen's), demonstrator in anatomy in the absence of Dr. C. R. Salsbury; Mr. J. D. Lee (B.Sc. Queen's, M.Sc. University of Iowa), lecturer in civil engineering; Dr. S. D. Lash (B.Sc. London, M.Sc. Birmingham), lecturer in civil engineering; J. E. Staples (B.A. Queen's), instructor in mathematics; Dr. F. L. Harrison and Mr. André Biéler, previously known as resident musician and resident artist, respectively, have been given the rank of assistant professor in their subjects.

Among the out-of-town guests were the following: Chancellor Dunning, Dr.

W. C. Clark, Senator A. C. Hardy, Mr. A. E. MacRae, and Dr. B. M. Stewart, Ottawa, Dr. J. M. Macdonnell (chairman), Dr. Dennis Jordon, and Messrs. G. C. Bateman, D. D. Calvin, V. K. Greer, D. I. McLeod, Toronto; Mr. E. A. Collins, Copper Cliff; Dr. J. G. Dwyer, New York, N.Y.; Dr. T. H. Farrell, Utica, N.Y.; Mr. D. H. Laird, Winnipeg; Rev. Dr. Leslie Pidgeon, Mr. R. D. Harkness, and Mr. John Irwin, Montreal.

CENTENARY BROADCASTS ARRANGED FOR ALUMNI

FOR the benefit of the many alumni who were unable to attend the Centenary celebrations, a special Queen's programme was broadcast over the C.B.C. national network on the evening of October 18. This event was publicized as much as possible through the branches of the General Alumni Association and in the public press.

The commentator for the programme was Lorne Greene, Arts '37, well-known announcer. Messages of goodwill were heard from Principal Wallace, Vice-Principal McNeill, and Lt.-Gen. A. G. L. McNaughton. Also featured were Rev. Hugh Cameron, Arts '76, one of the two oldest living graduates, "Pep" Leadlay and Harry Batstone of football fame, and Alfie Pierce, "trainer emeritus." Queen's songs and ballads, college yells, and bag-pipe selections rounded out the half-hour entertainment.

Judging from the comments of graduates, the broadcast was popularly received. Among those heard from were Dr. G. W. Fiddes, Med. '40, and Mrs. Fiddes (Dorothy Wilson), Arts '37, at Port Simpson, British Columbia, where Dr. Fiddes is on the staff of Canada's most westerly hospital. He wrote, "It was a delightful experience and brought to us that half-nostalgic feeling one associates with Christmas in a strange land." J. E. Hanna, Arts '38, Penns Grove, New Jersey, said, "It was a programme that I listened to with a great deal of pride. The work of the University choir was particularly praiseworthy." W. F. Rannie, Arts '38, Fort Smith, North West Territories,

wrote, "It certainly made me wish that I were once again pounding the streets of Kingston instead of tramping about Fort Smith in a parka."

Other parts of the Centenary proceedings were broadcast either locally or nationally and elicited similar comments.

THEOLOGICAL ALUMNI HOLD FORTY-NINTH CONFERENCE

PRINCIPAL of Mansfield College, Oxford, and formerly on the staff at Queen's, Rev. Nathaniel Micklem delivered the Chancellor's Lectures at the forty-ninth annual conference of the Theological Alumni Association October 20-23. "What We Are Thinking in Britain; A Semi-Theological Survey," was the general theme of the lectures.

Other speakers who participated in the programme included Rev. Dr. H. A. Kent, principal of Queen's Theological College; Prof. F. A. Knox and Mr. André Bieler of the University staff; Rev. P. L. Jull, Arts '11, Theol. '14, Brooklin, Ontario; Rev. N. M. Leckie, Arts '97, Theol. '02, D.D. '30, Grimsby; Rev. W. R. Alp, Arts '16, Perth.

Devotions were led by Rev. G. M. Chidley, Napanee, Rev. A. P. Menzies, Arts '09, Theol. '12, Westboro, and Rev. Donald Munro, Theol. '89, Carleton Place.

A reception for members and friends was held at the home of Principal and Mrs. Kent on the afternoon of October 22.

In the election of officers the following officers were re-appointed for the ensuing year: president, Rev. A. D. Cornett, Arts '07, Theol. '11, Oshawa; vice-president, Rev. Mr. Menzies; secretary, Rev. H. W. Cliff, B.D., Kingston; treasurer, Rev. J. R. Watts, Arts '01, Theol. '04, D.D. '26, Kingston.

Arts '96 Held Class Reunion During Centenary Celebration

MEMBERS of the class of Arts '96 got together during the Centenary celebrations for a dinner at the LaSalle Hotel. Afterwards they adjourned to the University Reception in Grant Hall.

Among those present and some of their guests were A. H. Brown, Arts '96, Ot-

tawa, Ont., R. W. Anglin, Arts '97, and Mrs. Anglin, Toronto, Mrs. W. L. MacFarland (Ethel McDowell), Arts '96, Dr. A. L. MacLennan, Arts '97, Pasadena, Calif., Miss Mary Grenfell, Vancouver, B.C., Miss Elizabeth MacNab, Arts '01, Ottawa, F. R. Anglin, Arts '95, Kingston, Dr. J. B. MacDougall, Arts '96, Toronto, A. E. Attwood, Arts '96 Ottawa. Col. W. M. O. Lochead, Arts '96, Kitchener, and A. M. Robertson, Arts '96, Goderich, sent telegrams regretting their inability to attend.

History of "Fighting Eighty-Eights" Written By A. H. D. Ross of Ottawa

REPRESENTING months of research, a history of the members of the class of Arts '88 has been compiled by Mr. A. H. D. Ross of Ottawa. It was presented at the class reunion during the Centenary celebration and proved to be a highly popular feature.

In his foreword Mr. Ross says, "Fifty-seven years ago an enthusiastic group of forty-five students registered in the Faculty of Arts and, before graduation day arrived, four more had joined the gallant band of 'The Fighting Eighty-Eights.' . . . Eighteen or nineteen are still living; the eldest is eighty-four, the youngest seventy-two, and the average seventy-seven, so they must be a pretty tough, hard-boiled lot."

Proceedings of Centenary Celebrations To be Published in Book Form

THE proceedings of the Centenary celebrations will be published in book form and will be brought out in the near future. It is planned to include the various addresses, the Musical and Commemoration Odes, and a list of the delegates and recipients of honorary degrees, together with a foreword by the Principal.

Sent To Wrong Address

A TORONTO alumnus has written to the Alumni office complaining that University mail is not sent to his correct address. Unfortunately there was no signature to the letter, so that it has not been possible to make a correction.

FORMER PRINCIPALS SENT WARM GREETINGS

UNABLE to attend the Centenary celebrations, former Principals W. H. Fyfe and R. Bruce Taylor sent warm greetings to the University.

Dr. Fyfe, principal and vice-chancellor of the University of Aberdeen, cabled "Loyal congratulations, grateful memories, confident hope." The official greetings from Aberdeen read in part as follows: "Famous for its contributions to Canadian men and women, and still more notably for the life-long loyalty of its alumni to their Alma Mater, Queen's University is assured of a future as brilliant as the record of its past. May its second century be as rich as its early years have been in the fruits of service to Canada and the British Commonwealth of Nations!"

Dr. Taylor, recuperating after a severe illness, wrote from his residence in Victoria, British Columbia. Regretting that he was unable to attend, he said, "One thinks with wonder and admiration of the courage and patience of those who carried the University through its critical decades, but I think there was no time in which these same qualities were needed more than they are now, when the life of the University and everything else that we hold dear is at stake. . . . Please convey to the Convocation my earnest hopes for the future of Queen's and my confidence that tomorrow will be better than any of the yesterdays."

Three Queen's Publications May Be Purchased At Special Rates

THE Centenary celebrations gave an impetus to the sale of the three Queen's publications: D. D. Calvin's *Queen's University at Kingston*, *Some Great Men of Queen's* (edited by Principal Wallace), and Miss Wilhelmina Gordon's *Daniel M. Gordon: His Life*. The books were on exhibition at Registration headquarters in the Students' Union, and many graduates bought all three.

Alumni may purchase these books through the Queen's Post Office at the special rates of \$2, \$1.25, and \$3 respectively.

ON HIS MAJESTY'S SERVICE

FOUR women graduates were among the 150 to be accepted for the first class of the Canadian Women's Auxiliary Air Force. These alumni are Miss Barbara Rooke, Arts '40, Miss Voligny Robertson, Arts '36, Miss Annette Schalburg, Arts '39, and Miss Geneva Prud'homme, Arts '38.

* * * *

Sgt. J. B. Anderson, Arts '42, has been posted missing as a result of air operations. Sergeant Anderson joined the Royal Canadian Air Force while attending Queen's and went overseas last February as a wireless air gunner.

* * * *

Sub-Lt. F. L. G. Askwith, Sc. '40, took part in a successful naval attack on a German convoy off Murmansk recently. He is with the Royal Navy.

* * * *

Lieut. C. J. Metcalfe, Arts '34, was recently appointed executive lieutenant upon one of H.M.C. ships. He joined the R.C.N.V.R. in 1940 as an ordinary seaman. Later he transferred to the Royal Navy and was one of the first Canadians to graduate from the training college abroad. After he obtained his full lieutenancy he was engaged in mine-sweeping, and last September he accepted a transfer back to the R.C.N.V.R.

* * * *

After having taken part in several campaigns and having travelled 18,000 miles in nine months, Spr. W. D. Keeley, Sc. '38, is now taking an officers' training course in South Africa. He joined the South African Engineers in 1940 and participated in the fighting that drove the Italians back to Addis Abeba. Since then he has served in Egypt and on the Libyan front.

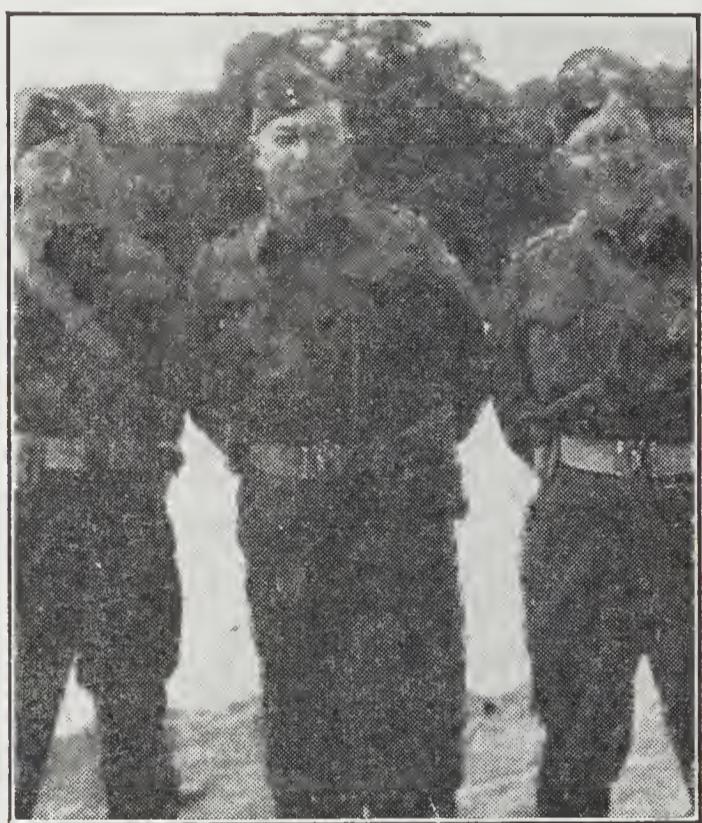

* * * *

Pilot Officer D. B. Annan, Sc. '40, was reported seriously injured in an accident in Canada in October. Since then he has made a rapid recovery and was able to attend the Centenary celebrations at the University. Major C. D. T. Mundell, Com. '24, Med. '30, received serious injuries overseas, but is said to be making a rapid recovery.

Lt.-Cmdr. D. T. MacTavish, Arts '20, of the R.C.N.V.R., has been appointed Assistant Judge Advocate-General. He serves at National Defence, Headquarters, Ottawa.

* * * *

Of the eight officers with the No. 2 Road Construction Company, Royal Canadian Engineers, somewhere in England, four are Queen's graduates: Capt. J. A.

WITH THE CANADIAN ARMY OVERSEAS

Left to Right Lieut. C. H. Gerenraich, Capt. J. A. Edmison, and Lieut. H. B. Zavitz.

Edmison, Arts '26, Capt. J. T. Williams, Sc. '38, Lieut. C. H. Gerenraich, Sc. '33, and Lieut. H. B. Zavitz, Sc. '38. Three of these are shown in the above picture.

* * * *

Number twenty in the series of monthly lists of those who are serving their King and country is as follows:

Royal Canadian Air Force—FO. J. J. Barry, Med. '39, PO. C. S. Burchill, Arts '30, AC. J. L. Burrows, Sc. '40, AC. A. C. Cameron, Arts '41, AC. J. B. Conlin, Arts '43, AC. W. H. Conway, Com. '41, PO. W. D. Daly, Com. '32 (Administrative Branch), PO. H. T. Davoud, Arts '34 (Navigation Branch), PO. H. M. Everson, Arts '38 (Administrative Branch), AC. T. M. Galt, Arts '43, AC. B. L. Gu-

selle, Arts '43, AC. Newton Harrison, Sc. '44, PO. J. W. Hay, Sc. '39 (Aeronautical Engineering Branch), PO. H. D. Heffernan, Arts '31 (Navigation Branch), AC. William Howe, Sc. '42, PO. L. G. W. Jarvis, Sc. '42, PO. H. T. Lingham, Sc. '42, PO. H. A. McLarn, Arts '34 (Regional Control Branch), AC. B. T. O'Beirn, Arts '36, PO. I. F. Rankin, Sc. '41, AC. R. V. Stuart, Sc. '44, PO. F. G. Sturm, Arts '29 (Link Trainer Branch).

Royal Canadian Army Medical Corps—Lieut. Clarence Benton, Med. '33, Lieut. P. H. Bernstein, Med. '34, Lieut. A. E. Broome, Med. '19, Lieut. G. S. Burton, Med. '31, Lieut. R. M. Cairns, Med. '14, Lieut. A. A. Cameron, Med. '20, Lieut. W. R. Crowe, Med. '22, Lieut. F. C. Dobie, Med. '40, Lieut. C. R. Graham, Med. '12, Lieut. Edmond Larocque, Med. '14, Capt. C. B. Munro, Med. '40, Lieut. W. M. R. Palmer, Med. '06, Lieut. G. W. Telfer, Med. '31, Lieut. A. F. Thomson,

Med. '21, Lieut. C. K. Whitelock, Med. '14, Lieut. J. C. Wilson, Med. '37, Lieut. Louis Zacks, Med. '38.

Royal Canadian Engineers—Lieut. J. M. Bracken, Sc. '33.

Royal Canadian Naval Volunteer Reserve—Lieut. C. J. Metcalfe, Arts '34.

Royal Canadian Corps of Signals—Lieut. J. B. Conacher, Arts '38.

Royal Canadian Ordnance Corps—Lieut. H. W. Richardson, Com. '34.

Royal Canadian Army Service Corps—Lieut. R. A. Young, Com. '25.

Infantry—Lieut. G. W. MacInnes, Arts '32 (Royal Canadian Highlanders, Black Watch).

Canadian Chaplain Service—Capt. J. R. Leng, Arts '35, Theol. '38.

Canadian Women's Auxiliary Air Force—AW2 Barbara Cooke, Arts '40, AW2 Voligny Robertson, Arts '36, AW2 Annette Schalburg, Arts '39, and AW2 Geneva Prud'homme, Arts '38.

THE BOOKSHELF

Principal of Queen's

DANIEL M. GORDON: HIS LIFE. By Miss Wilhelmina Gordon, Arts '05. Published by the Ryerson Press, Toronto.

IF ever a man had a difficult position to fill, it was the one who had to succeed George Monro Grant as principal of Queen's. The presidency of an educational institution is never a sinecure and in this particular instance it was a decided handicap to follow a man who had come to mean so much to Queen's. The choice fell on one of Grant's friends, Daniel Miner Gordon, a man who had laboured long in the ministry of the Presbyterian Church and who was a prominent Canadian in his own right. That the selection was a happy one was soon proved. For fifteen years he served as principal in a manner that has earned the everlasting gratitude of the Queen's constituency.

A summary of what was accomplished during Principal Gordon's regime is im-

pressive. In 1912, the College was separated from the Presbyterian Church and became a university. In 1902, when Principal Grant died, the Trustees of Queen's had full authority only in Arts and Theology. When Principal Gordon retired in 1917, Queen's was a well-integrated university, with a single Board of Trustees in control of property, finance, and appointments; with a representative Senate exercising general academic supervision; with Faculties of Arts, Medicine, Applied Science, and Education, administering their own affairs, subject to Trustees and Senate; and with a legally independent but closely affiliated Theological College. The plant increased from six to thirteen buildings.

Principal Gordon gave Queen's sound leadership. He never acted in haste, but always tried to weigh the arguments on both sides of a question. He was eagerly sought after as a speaker and did much to make the University known from coast to coast. He consistently made

personal sacrifices for Queen's; he asked the Trustees to reduce his salary from \$4,000 to \$3,000, and, when they refused, he made a voluntary gift of \$5,000 towards the endowment fund of the time.

The Queen's phase was only the crowning achievement of an already-full life, however. He had held important pastorates in Ottawa, Winnipeg, and Halifax. He had served as Moderator of the Presbyterian Church in Canada. He had been a professor at Pine Hill Theological College. He was a man of wide interests and experiences. All this is told with love and understanding by his daughter, from whom many classes of Queen's students have learned to appreciate the treasures of the English language.

The foreword by Dr. W. E. McNeill, vice-principal and treasurer of Queen's, adds greatly to the interest of this book for Queen's people.

OUT OF THE PAST

A Story of Yesteryear

ALL incoming and outgoing mail for Queen's is handled smoothly and efficiently through the University's own post office housed in the Douglas Library; but it was not always thus. In fact at several periods of the University's history the service was decidedly haphazard and uncertain.

For many years there were no facilities to enable undergraduates to receive mail at the University. A long-felt want was supplied in 1874 when Principal Snodgrass arranged that the students might obtain and post their letters every morning at the College Post Office in the Old Arts Building. On John Cormack, janitor, fell the duties of postmaster.

Complications soon developed. "In unpremeditated efforts to make some return, however inadequate, for this important service," wrote the late Adam Shortt, Arts '83, LL.D. '11, "one or another of

the more diminutive students was occasionally passed through the wicket in reverse order. These favours not being received in the spirit in which they were presented, the letter delivery via the wicket was discontinued, and that long-suffering and patient Christian, John Cormack . . . was forced to contend with Ephesian wild things, in the open."

By 1880 letters were being deposited on a bench in the hall, mauled about, stepped upon, and otherwise abused, says W. Donald McHoull, Arts '34, in his illuminating thesis, *The Founding and Early History of Queen's University*. Eventually this distribution was taken over by the Alma Mater Society, and some order was restored.

This scheme worked excellently for a time, as the student postmasters were in a position to sell tickets for all kinds of events, take subscriptions, and perform a myriad of other services that could not be expected to come within the scope of an ordinary postal clerk. The University staff was never satisfied with the arrangement, however, probably because the student administration was not particularly concerned whether mail addressed to professors or members of staff ever reached its destination or not.

Eventually control passed once more into the hands of the University authorities, where it has remained ever since, conducted along more prosaic and orthodox lines.

Companies Sent Representatives

SEVERAL companies which are connected with the Industrial Relations Section of the School of Commerce at Queen's, sent representatives to the Centenary celebrations. Among those present were Mr. J. H. Brace, Bell Telephone Company of Canada, Mr. L. L. H. Miles, assistant to the president, Canadian Industries Limited, Mr. E. C. Wood, director, Imperial Tobacco Company; Mrs. James A. Richardson, president, James Richardson and Sons Limited; and Dr. J. B. Challies, vice-president, Shawinigan Water and Power Company.

STUDENT ACTIVITIES

FOR the first time in the eighty-four years' history of the Alma Mater Society, a woman student was elected president, when Miss Dorothy Wardle, Arts '42, Ottawa, was returned as chief officer for the current academic year.

MISS DOROTHY WARDLE

C. R. McLean, final-year Medical student from Saskatoon, was the runner-up, and will serve as vice-president. The Levana Society candidate also won the junior election, Miss Sylva Rowley, Arts '43, Montreal, being named as secretary. W. A. Young, Med. '43, Kingston, obtained the next highest number of votes and was declared treasurer. Mrs. R. C. Wallace was the unanimous selection of the students as honorary president.

The election proceedings were conducted without any untoward incidents. Levana put on the cleverest campaign, replete with slogans, songs, and a parade around the campus. Theatre night lived up to its rowdy tradition, but damages were kept comparatively low.

* * * *

The major social event of the fall season was the Formal At-Home of the Aesculapian Society held in Grant Hall on the evening of October 17. Corsages were not allowed and, instead, V for Vic-

tory pins were sold for \$1.50 each, the proceeds being turned over to the war effort. Music was provided by Bert Niosi and his orchestra. The convener of the committee in charge was D. R. Johnston, Med. '42, Kingston. The patrons and patronesses were Dean and Mrs. Etherington, Dr. L. J. Austin and Miss Austin, Dr. and Mrs. W. F. Connell, Dr. and Mrs. E. M. Boyd, Dr. and Mrs. R. C. Burr. * * * *

With the full support of the Alma Mater Society, the Queen's War Aid Committee is again consolidating all student war aid on the campus. The first activity was a variety night in Convocation Hall, on October 25, when \$50 was realized. * * * *

With the ban on Intercollegiate sports, the emphasis is on intramural sports. The Science team won the track meet, but the individual star was Dick Stewart, Arts '44, who placed first in four events. . . . The junior football team, entered in a local league, has yet to lose a game.

* * * *

The A. M. S. has established a committee to co-operate with the Kingston Blood Donor organization and to conduct a campaign on the campus. . . . President Nathaniel Micklem of Mansfield College, Oxford, was the preacher at the first University Church Service of the year, on October 19. . . . Freshmen regulations this fall included tams and ribbons and the customary no-fussing rule, plus a few odds and ends of regulations. . . . A special issue of the *Journal* was brought out on October 16, in honour of the Centenary. . . . The annual Science sophomore banquet was held in Grant Hall on October 29. A good time was enjoyed by all — at the freshmen's expense. . . . Several students are organizing a dance orchestra and will make their first public appearance in the near future. . . . The pipe band has established a \$25 scholarship for the best freshman piper. . . . Miss Ruth Langford, Arts '44, has been elected president of the Queen's Debating Union for the current year.

AT THE BRANCHES

Peterborough

ON October 24, Queen's alumni and the Queen's Summer School Association members of the Peterborough district met at the Kawartha Golf and Country Club for their annual reunion dinner. The reception committee consisted of President J. A. Bannister, Arts '98, and Mrs. Bannister, Vice-President C. M. Scott, Arts '12, Med. '14, and Mrs. Scott (Katherine McNabb), Arts '17, and Mr.

Gordon Hunt, president of the local branch of the Q.S.S.A.

Dr. R. O. Earl, head of the biology department at Queen's, and Mrs. Earl were special guests for the occasion. They were warmly welcomed by former classmates and students of Dr. Earl.

A report of the Centenary proceedings and a welcome to the 1941 Peterborough graduates were given by the chairman, Dr. Bannister. Dr. A. G. Howson, Med. '15, proposed the toast to the University. In response, Dr. Earl outlined the programme of military training now being carried on at Queen's. He also stressed the importance of every-day academic routine, hoping that careful attention to this ground-work would provide a solid foundation for post-war reconstruction. He felt that, like Tennyson's flower in the cranny of the wall, things of beauty will spring from the often seemingly unimportant work of today.

The singing of Queen's songs led by R. L. Hale, Arts '28, and A. J. Nofall, Arts '41, and a piano solo by J. L. Engler, Arts '40, added to the enjoyment. A programme of folk dancing was conducted by Mr. David Burns of the Toronto Normal School staff and the guests participated gaily. Round dancing concluded the after-dinner activities.

A. J. NOFTALL

Officers for the ensuing year were named by the nominating committee, under the convenership of Miss Alexandria Howson, Arts '09, as follows: president, Dr. Scott; vice-presidents, Miss Verna Burgess, Arts '36, and R. G. Lawlor, Arts '02; secretary, Miss Fern Rahmel, Arts '40; associate secretary, Miss Amelia Thompson, Arts '22; treasurer, Mr. Nofall; committee—Miss Helen McGregor, Arts '30, Dr. H. N. M. Young, Med. '26, C. M. Krug, Arts '37, Mr. Percy Windrim, and R. G. Corneil, Sc. '23.—M. C.

Niagara Peninsula

AT the annual meeting held in St. Catharines on October 24, J. C. Pattinson, Arts '37, was elected president of the branch for the ensuing year. Mr. Pattinson, succeeds A. L. Brooks, Arts '14.

J. C. PATTINSON

Plans were made for several meetings and it is expected to have a party in November and the annual dinner dance early in the new year. The meeting was followed by a bridge party and there were ten tables in play.

The complete slate of officers appointed was as follows: honorary president, Mr. Brooks; president, Mr. Pattinson; secretary-treasurer, C. R. Buss, Sc. '27; vice-presidents, T. R. Gauld, Com. '31, G. A. Tobias, Sc. '18, Miss Ruth Fishleigh, Arts '36; district representatives — Niagara Falls, Ont., Miss Marjorie Schrader, Mrs. H. Evans (Elizabeth Simmons), Arts '28, M. F. Ker, Sc. '18; Niagara Falls, N.Y., Mrs. S. A. McNeight, D. G. Estey, Sc. '39; Buffalo, N.Y., Dr. W. E. Cudmore, Med. '27; Dunnville, V. C. Miller, Arts '30; Thorold, W. H. Mable, Sc. '40; Ridgeway, M. I. Beesly, Arts '15; Port Colborne, L. S. Renzoni, Sc. '35, William McIntosh, Sc. '23; Welland, T. H. Adair, Sc. '31, F. S. Durdan, Sc. '33; Fort Erie, C. E. Craig, Sc. '38; St. Catharines, Mrs.

C. P. MacLean (Vera Cavanaugh), Sc. '31, R. T. Sawle, Sc. '34, M. F. Pummell, Arts '32.

Windsor

A STAG PARTY was held on the evening of October 24 when approximately forty Queen's men and their friends visited the local establishment of the Royal Canadian Volunteer Naval Reserve. Lieut. K. D. Heath, Com. '34, and Lieut. M. S. Hatch, Com. '38, welcomed the guests and showed them around.

Afterwards the party went to the Dominion Golf Club, where two movies, "The Army on Wheels" and "East of Bombay," were shown. Dr. J. M. Young, Arts '02, Med. '04, gave an interesting account of the Centenary celebrations at the University.

Kent County

A PLEASANT evening was spent at the home of A. T. De Muy, Arts '38, and Mrs. De Muy (Eva Bouchard), Arts '24, Chatham, on October 14. C. E. Leeder, Arts '31, was elected president for the ensuing year. Other officers appointed were as follows: vice-president,

Mr. De Muy; secretary-treasurer, K. C. Annable, Arts '33.

Regina

THE Queen's Centenary was fittingly observed at the home of L. A. Thornton, Arts '01, Sc. '06, and Mrs. Thornton, on the evening of October 18, when about fifty guests gathered for the occasion. Mr. Thornton acted as master of ceremonies.

Speakers and singers included Rev. L. M. Outerbridge, Theol. '25, Rev. H. B. Campbell, Arts '16, Mrs. R. J. McDonald (Mary MacFarlane), Arts '04, Mrs. G. R. Dolan (Mabel Taylor), Arts '03, D. A. R. McCannel, Sc. '14, W. F. Marshall, Arts '98, H. C. M. Brown, Arts '11. Many a tale of derring-do was recounted as the reminiscences flowed freely.

Mrs. J. W. D. Farrell (Aretta Totten), Arts '13, and Miss Don Cathro, Arts '05, helped entertain in the living room and Mrs. McCannel ushered to the tea room, where the honours were performed by Mrs. E. G. W. Bell and Mrs. McDonald, assisted by Mrs. Brown, Mrs. A. H. Friedgut, Mrs. C. C. Lingard, and Mrs. E. K. Sauer (Eleanor Quinn), Arts '20.

A formal gathering is being planned for later in the season.

ALUMNI NEWS

Births

Alderson—On September 3, at Mombasa Nursing Home, Mombasa, Kenya Colony, South Africa, to F. M. Alderson, Arts '31, and Mrs. Alderson, a son.

Allmark—At the Ottawa Civic Hospital, on October 17, to M. Gordon Allmark, Arts '33, and Mrs. Allmark, a son.

Binks—At the Kingston General Hospital, on October 27, to Pilot Officer W. R. Binks, Sc. '40, and Mrs. Binks, Victoria, B.C., a daughter (Carolyn Patricia).

Boyd—On September 12, at the General Hospital, Parry Sound, Ont., to W. E. Boyd, Sc. '38, and Mrs. Boyd, a son (Edwin).

Clark—At the General Hospital, Brandon, Man., on September 6, to Dr. K. J. Clark, Med. '39, and Mrs. Clark, a daughter (Robertta Esther).

Fraser—At the Private Patients' Pavilion, Toronto General Hospital, on October 22, to

Capt. Neil C. Fraser, Arts '24, and Mrs. Fraser, a daughter.

Gertsman—At the Ottawa Civic Hospital, on October 17, to S. L. Gertsman, Arts '39, and Mrs. Gertsman, a daughter.

Gilbert—At the Ottawa Civic Hospital, on October 21, to Capt. W. D. Gilbert, Sc. '32, and Mrs. Gilbert, a daughter.

Hinch—At the General Hospital, Syracuse, N.Y., on October 8, to Mr. J. A. Hinch and Mrs. Hinch (Elizabeth Stedman), Arts '26, a son.

Juvet—At the Ottawa Civic Hospital, on October 24, to Capt. C. S. Juvet, Com. '23, and Mrs. Juvet, a daughter (Barbara Harrison).

Magee—In England, on October 9, to Lieut. E. D. B. Magee, Sc. '39, and Mrs. Magee, a daughter.

Mahaffy—On October 24, in Sudbury, Ont., to Dr. W. G. Mahaffy and Mrs. Mahaffy

(Marion Plaunt), Arts '35, a son (William Guy).

Morse—At Hartford Hospital, Hartford, Conn., on October 19, to Dr. L. R. Morse, Med. '26, and Mrs. Morse (Edna Chown), Arts '22, a son.

Murphy—At St. Mary's Hospital, Montreal, on October 13, to F. B. Murphy, Com. '38, and Mrs. Murphy, twin sons.

Reid—At the Kingston General Hospital, on September 19, to Clifford Reid, Arts '32, and Mrs. Reid, a daughter (Roma Marguerite).

Ritter—On October 25, at Chesley Hospital, Chesley, Ont., to Flying Officer A. C. Ritter, Arts '32, and Mrs. Ritter (Anne Milne), Arts '31, of Leamington, Ont., a son.

Sugarman—At the Jewish Hospital, Montreal, on October 12, to Dr. Irwin Sugarman, Arts '34, Med. '36, and Mrs. Sugarman (Miriam Cohen), Arts '34, a son.

Young—At the Ottawa Civic Hospital, on October 18, to J. Cromwell Young, Arts '37, and Mrs. Young (Lillian Arnold), Arts '38, a son (John Cromwell).

Marriages

Barnard—On October 11, in the United Church, Port Hope, Ont., Helen Georgina Ward to John Keith Barnard, Arts '35, Toronto.

Briskin—On August 2, in Montreal, Ruth Liverman to Julius Briskin, Arts '38.

Christie-Sanderson—On October 8, in Morgan Memorial Chapel, Queen's University, Eva Margaret Sanderson, Arts '34, to John Morris Christie, Arts '32, Toronto.

Clark—At the home of the bride's parents, Hamilton, on October 4, Doris Belle Coulson to Norman John Clark, Sc. '41. They will live in Toronto.

Clarke—On October 28, in Morgan Memorial Chapel, Queen's University, Elizabeth Falley Clarke, Arts '35, daughter of K. S. Clarke, Sc. '10, and Mrs. Clarke, Copper Cliff, Ont., to Mr. Kendall Wright, Charlottetown, P.E.I. Miss Eleanor Clarke, Arts '39, was bridesmaid. They will live in Advocate, N.S.

Collins—On May 19, at Princess Street United Church parsonage, Kingston, Ont., Evelyn Louise Roblin to Kenneth Fawcett Collins, Sc. '41. They are living at 760 Morrison St., Niagara Falls, Ont.

Griffin—On October 25, in Blessed Sacrament Church, Ottawa, Helen Marguerite Quinn to Murray Griffin, Arts '38.

Horwood—On October 16, in Victoria B.C., Mary Orme to Dr. Hereward Clarence Horwood, Sc. '31. They are living in Toronto.

Jamieson—On November 1, in St. Simon's Church, Toronto, Elizabeth Fernsley Chapman to Rev. Herbert Allen Jamieson, Arts '40. They will live in Toronto, where Mr. Jamieson has been appointed rector of St. Savior's Church.

Jenkins—In Morgan Memorial Chapel, Queen's University, on October 16, Marion

Elizabeth Boyd to Dr. Jack Garner Jenkins, Med. '40.

Kelly—In St. James's Church, Kingston, on October 17, Grace Ellen Southall to Dr. Howard Garfield Kelly, Med. '40. They will live in St. Johns, Que., where Dr. Kelly is attached to the R.C.A.F.

ished his course extramurally. He obtained his B.A. degree and testamur in theology in 1912. The funeral service was conducted by Rev. T. J. Thompson, Arts '95, D.D. '29. He is survived by his wife.

Cartwright—In his eightieth year, Dr. Richard Conway Cartwright, Med. '84, died in the General Hospital at Kingston, Ontario, on October 19. Dr. Cartwright was born at Kingston, and was educated privately before coming to Queen's in 1830. He graduated with his M.D., C.M. degrees four years later, and took postgraduate work in London, Dublin, and Edinburgh. He then established a practice in Rochester, New York, which he carried on for twenty years. In 1906 he moved to Napanee, Ontario, to take charge of his father's estate and in 1916 he went to Kingston as manager of the Frontenac Loan Society. In 1936 he was made issuer of motor-vehicle licenses for Kingston, a position he held at the time of his death. The survivors are his wife, one sister, and five brothers, including A. D. Cartwright, Arts '85, Ottawa, Col. Robert Cartwright, Arts '88, Summerside, British Columbia, Dr. Conway Cartwright, Arts '98, Vancouver, British Columbia, and F. L. Cartwright, Arts '96, West Mersea, England.

Curle—At Montreal, Quebec, on June 18, William H. Curle, Arts '89, passed away at the age of seventy-two. An outstanding lawyer, he had retired from practice a few years ago. Mr. Curle was born at Chillicothe, Illinois, but moved to Canada at an early age. He matriculated from the high

school at Campbellford, Ontario, and entered Queen's when only sixteen. He had an excellent scholastic record and won a scholarship in his first year. He received his B.A. degree in 1889 and his M.A. the following year. For a long period he served as solicitor in the law department of the Canadian Pacific Railway Company at Montreal and in 1929 he was appointed general counsel. Mr. Curle was a King's Counsel and a life member of the General Alumni Association.

Kilburn—Chief exploration engineer for Consolidated Mining and Smelting Company, Trail, British Columbia, George Hay Kilburn, Sc. '09, died suddenly at Calgary, Alberta, on October 27. Mr. Kilburn was born at Stratford, Ontario, in 1885, and received his early education in the schools of that city. He entered Queen's in 1905 and graduated four years later with his B.Sc. degree in mining. He spent a year prospecting in Ontario silver fields and then joined the staff of Consolidated at the Trail smelter. From 1912 to 1917 he was engaged at Le Roi Mine, Rossland, as sampler, surveyor, geologist, shift boss, safety engineer, and assistant superintendent. In 1918 he was made field engineer in charge of operations at several properties. He is survived by his wife and one son.

Parmelee—Director of Protestant education for the Province of Quebec for nearly forty years, Dr. G. W. Parmelee, Arts '89, died at Quebec City on September 9, in his eighty-second year. Dr. Parmelee was born

at Waterloo, Ontario. He graduated from McGill Normal School before enrolling at Queen's in 1888 as an extramural student. He obtained his B.A. degree the following year. In 1902 he was given an honorary D.C.L. by Bishop's College, and, in 1911, an honorary LL.D. by McGill. He was the co-author of "The Siege of Quebec," and also wrote "Education in the Province of Quebec." In 1931 he was awarded the Order of Scholastic Merit for "distinguished service in the cause of education in the Province of Quebec." He is survived by his wife (Lea Tanner), Arts '25, four daughters, and two brothers.

Musgrove — Prominent amateur hockey player, William Roy Musgrove, Sc. '40, was instantly killed October 14 when he fell down a stope in the Hudson Bay Mining and Smelting Company mine in Flin Flon, Manitoba. He had been employed at the mine ever since graduating from Queen's. Mr. Musgrove was born at Winnipeg, and received most of his education in the west. He was always keenly interested in hockey and played on many championship teams. He graduated from the University of Manitoba with his B.A. degree in 1932. He took a business course and shortly after became private secretary to the general manager of the Hudson Bay Mining Company. Here he became interested in mining, and when he was offered the opportunity to play hockey with Wembley Lions in England he accepted so that he might study at the Royal School of Mines in London. While in attendance at the latter he won a £300 scholarship. To gain practical experience he worked for a while in mines at Jugoslavia. When war broke out he returned to Canada, completing his course at Queen's and graduating with honours as a mining engineer in 1940. He is survived by his parents and three brothers.

Perry — Manager of the Hydro division of the Windsor Utilities Commission, Oliver Mowat Perry, Sc. '09, died at his home in Windsor, Ontario, October 24. He had just returned from a motor trip and had not complained of being ill. Mr. Perry was the first and only head of Hydro's administrative forces in Windsor, and he was one of the most popular and widely known men in the city. Mr. Perry was born at Myer's Cave, Ontario, in 1885. He was educated at Perth before entering Queen's in 1905. Four years later he received his B.Sc. degree in electrical engineering. He went to work for the Canadian Pacific Railway in the company's Montreal shops. Shortly afterwards he took a position with the Toronto Electric Light Company, and in 1913 he went to

W. R. MUSGROVE

Windsor to lead the organization of Hydro in that area. Mr. Perry was keenly interested in the city's welfare and was a leader in all movements that sought to improve the standard of living in Windsor. He headed many financial campaigns for worthy organizations and he was an active member of the Chamber of Commerce. He is survived by his wife and two daughters.

Plaskett — One of the world's outstanding astronomers, Dr. John Stanley Plaskett, LL.D. '34, died suddenly on October 17 at his home in Esquimalt, British Columbia. He retired in 1934 as superintendent of the Dominion Government's Astrophysical Observatory on Little Saanich Mountain near Esquimalt. Dr. Plaskett was born near Woodstock, Ontario, in 1865, and was educated there and at the University of Toronto. He was appointed to the Astronomical Branch in 1903, becoming astronomer of the Dominion Observatory at Ottawa two years later. He was in charge of the Canadian eclipse expedition to Labrador in 1905; initiated radial velocity observation at Ottawa in 1910; and was instrumental in bringing about the project of a large Canadian reflector in 1911, supervising construction and erection of the 72-inch telescope on Little Saanich Mountain in 1918. He was honoured by Queen's with an honorary LL.D. degree in 1934. Dr. Plaskett is survived by his wife and two sons.

Wilkins — Suddenly at his home in Trenton, Ontario, Charles Vaughan Wilkins, Sc. '16, died on October 31. His death came as a great shock to the community. Mr. Wilkins was born at Belgrave, Ontario, in 1883, and received his early education in Trenton public and high schools. He was associated with the Mergenthaler Linotype Company at Montreal for some years and journeyed to South America as the company's representative, erecting the newly invented linotypes in newspaper offices in various cities. After three years he returned to Canada in 1912 and enrolled at Queen's. While attending university he enlisted with the Canadian forces, going overseas in 1916 with the 5th Field Company Royal Engineers. He received his degree of B.Sc. in mechanical engineering the same year. Returning to Canada in 1919 he entered the employ of Miller Brothers Company at Glen Miller as mechanical engineer and served in that capacity until his death. He was keenly interested in civic affairs and served on the Public School Board for many years, including several terms as chairman. The survivors are his wife, one son and one daughter, two sisters, and two brothers.

Notes

1880-1888

Rev. Dr. G. E. Hartwell, Arts '88, and Mrs. Hartwell, Toronto, recently celebrated the golden anniversary of their wedding at the home of their son, Mr. George Hartwell, Jr., London, Ont. Dr. and Mrs. Hartwell were two of the founders of the West China Mission of the United Church of Canada.

1890-1900

Wesley H. Collier, Arts '98 is retired and living at 9847—91st Ave., Edmonton, Alta.

W. A. Grange, Arts '98, barrister, recently completed thirty-six years as town clerk of Napanee, Ont. In recognition of his long years of service a presentation was made to him by the members of the Town Council on May 5 last. Mr. Grange was honorary chairman of the Victory Loan Campaign for Lennox and Addington last June.

Dr. J. B. MacDougall, Arts '96 (D.Paed. Toronto), assistant chief inspector of public and separate schools for Ontario, was honoured by the public and separate school inspectors of the Northern Ontario districts, when a testimonial dinner was given for him in North Bay recently. Among those who paid tribute to Dr. MacDougall's part in the educational development of the north were **V. K. Greer**, Arts '11, chief inspector of public and separate schools for Ontario, **P. W. Brown**, Arts '05, chairman of the testimonial dinner, **Dr. H. E. Amoss**, Arts '05, **L. L. Skuce**, Arts '29. **J. L. Moore**, Arts '09, made a presentation to Dr. MacDougall on behalf of the meeting.

Dr. J. N. Patterson, Med. '90, has practised in Burlington, Iowa, for over forty-three years. Shortly after graduating from Queen's he did postgraduate work at the New York Polytechnic Hospital, and later

he specialized in heart diseases at Barnes Hospital, St. Louis, Mo.

1900-1909

Dr. A. E. R. Boak, Arts '07, professor of history at the University of Michigan, Ann Arbor, Mich., represented Queen's University at the one hundredth anniversary of the founding of the University of Michigan's College of Literature which was held in Ann Arbor on October 15.

Dr. James A. Campbell, Arts '00 (M.D. Toronto), has retired from medical practice and is living in Keene, Ont.

W. A. Gilchrist, K.C., Arts '08, who received his LL.B. from the Saskatchewan Law School in 1911, has practised since that time in Saskatoon. He is at present chairman of the local advisory board of Toronto General Trusts Corporation and solicitor for Sifton newspaper interests.

Dr. George E. Kidd, Arts '06, Med. '10, of Vancouver, was bereaved in October by the death of his wife. Dr. and Mrs. Kidd were married in 1913 at Kingston when Dr. Kidd was head of the department of anatomy at Queen's.

Rev. Dr. I. A. Montgomery, Arts '06, minister of Kensington Presbyterian Church, Montreal, was guest preacher at both services in Calvin Presbyterian Church, Toronto, when the congregation celebrated the

DANIEL M. GORDON: HIS LIFE

By Wilhelmina Gordon. "Although it will be of greatest interest to people interested in the university which he served so well, this book must also be recognized as an important addition to Canadian history. Daniel Miner Gordon was very much a man of his time, and to study his life is to gain new knowledge of the movements in education and religion which exercised Canadians during the latter half of the last century and the first twenty years of this."—*Saturday Night*. \$3.50.

SOME GREAT MEN OF QUEEN'S

Edited by Principal R. C. Wallace, Queen's University. Every Queen's graduate will want to read and keep these lectures on six great men of Queen's: Grant, Watson, Dupuis, Cappon, Jordan, Shortt. "The sketches are excellently done, well rounded within their limitations of space, and they depict with fine clarity the zeal and faith and personality which went into the building of a great Canadian university."—*The Ottawa Journal*. \$1.50.

THE RYERSON PRESS
TORONTO

The History of Queen's University at Kingston

By D. D. Calvin

The book may be purchased directly from the University at a special price of \$2.00.

Every alumnus should own a copy.

An excellent present for any Queen's man or woman.

"Queen's and its graduates may thank Mr. Calvin for an excellent history written with love and understanding." — *Toronto Saturday Night*.

"For Queen's graduates, the book is a veritable gold mine of information, much of which will be new for those of recent years, and much of which will invoke pleasant memories for those who are older." — *Montreal Gazette*.

"An amazing amount of readable material has been packed into a volume of reasonable size." — *Toronto Globe and Mail*.

sixteenth anniversary of its founding on October 19.

Mrs. O. D. Skelton (Isabel Murphy), Arts '01, has moved from Ottawa to Montreal, where her address is Apt. 11, 472 Cote des Neiges Road.

J. N. Stanley, Arts '01, Sc. '08, of the Ontario Hydro Electric Power Commission, has been since September last construction superintendent on the DeCew Falls development near St. Catharines, Ont.

1910-1919

Dr. H. M. Barnes, Arts '14, Med. '20, Ottawa, has been appointed to the Canadian Pension Commission.

Dr. W. S. T. Connell, Med. '14, physician and surgeon of Hamilton, Ont., is now medical director for the Canadian Westinghouse Company in that city. He was made a Fellow of the American Association of Industrial Physicians and Surgeons in 1940.

Charles Hamm, K.C., Arts '18, is assistant crown attorney for the city of Toronto and the county of York.

Dr. W. R. Jaffrey, Med. '13, practises at 64 Highson St. S., Hamilton. He specializes in dermatology.

Rev. J. M. Laird, Arts '12, Theol. '16, is minister of Knox Presbyterian Church, St. Thomas, Ont.

Rev. C. R. F. MacLennan, Arts '16, Theol. '18 (M.A. Columbia), is minister of Trinity United Church, New Glasgow, N.S.

Dr. J. M. Munro, Med. '18, of Odessa, Ont., has been appointed coroner for the township of Ernestown in the County of Lennox and Addington, in addition to his appointment as coroner for the County of Frontenac.

Dr. E. L. Pennock, Med. '12, of Harrison, N.Y., while spending his vacation at Higgins Beach, Scarboro, Maine, risked his life in a vain attempt to rescue a fifteen-year-old girl from drowning. It is understood that Dr. Pennock and another man plunged into a heavy surf to assist the girl, who had been caught in an undertow two hundred yards from shore. Both men nearly lost their lives in the attempt. They were unconscious when removed from the water by other bathers.

M. J. Rodden, Arts '14, formerly of Toronto, is now with the Reliance Aircraft Company at Belleville, Ont. He and Mrs. Rodden (Mildred Wormwith), Arts '15, are living at 268 Church St., Belleville, Ont.

Dr. H. H. Sheldon, Arts '16 (Ph.D. Chicago), for the past eighteen years professor of physics at New York University, is now engaged in the practice of consulting engineering and industrial physics at 100 East 42nd St., New York City.

J. R. Sheppard, Arts '15, for many years with the Eagle Picher Lead Company, Joplin, Mo., is now a partner in the firm, Urbain-Sheppard Laboratories, Columbus, Ohio.

N. F. Tisdale, Sc. '19, metallurgical engineer for the Molybdenum Corporation of America, Pittsburgh, Penn., has been elected by the American Society for Metals as a National Trustee for two years. Two trus-

tees are elected each year from a membership of 15,000. Mr. Tisdale expects to be in Vancouver on November 21 to welcome a new chapter of the society, the third in Canada.

R. B. Whitehead, Arts '12, securities commissioner of Ontario, has been lent to the Dominion Government to assist in the administration of the Dominion Wartime Prices and Trade Board.

Dr. Charlotte Whitton, Arts '17, executive director of the Canadian Welfare Council, recently opened the community chest drive in Dayton, Ohio. From there she went to Cincinnati to open the autumn welfare conference and give an address on the community services in wartime. Later she spoke to the Carolina State Welfare Conference in Columbia, South Carolina, and was the guest of the University of South Carolina school of social work. From Carolina Miss Whitton went to Washington to confer with some of the United States federal welfare officials.

1920-1929

Miss Bertha Bassam, Arts '22, assistant professor of Library Science, University of Toronto, is this year taking a special course in library work at Columbia University, New York City.

E. S. Biggs, Com. '27, is a chartered accountant and auditor in Regina, Sask.

Austin Cross, Arts '23, Montreal, who was among those back for the Centenary celebrations at Queen's, had just before that returned from a long journey. He took a side-trip from Calgary to Helena, Montana. Then after a visit to the Turner Valley Oil fields he went to Vancouver. By plane he went to Whitehorse, Yukon Territory. After short visits to Victoria, Squamish, Harrison Hot Springs and Washington State he visited the Northwest Rebellion country at Batoche, and Prince Albert National Park. This was followed by a day in southern Manitoba and a ride through North Dakota. The trip was climaxed by a washout at Sioux Lookout which held him up for a short time. Mr. Cross expects to be in the Press Gallery, Ottawa, as usual, for the session.

Capt. A. E. Harbeson, Arts '27, Med. '29, who has been with the Royal Canadian Army Medical Corps in England for the past sixteen months, recently returned to Canada to do special duty.

G. R. Henderson, Sc. '25, is doing war work in England for the Shell Oil Company.

Miss Marion Hogg, Arts '28, teaches in the high school at Hanover, Ont.

T. S. Mathieson, Sc. '26, has accepted a position with Canadian Industries, Nylon Division, Montreal.

Harold M. Northmore, Arts '29, who has been on the office staff of the Sun Life Assurance Company of Canada at Montreal for the past eleven years, has joined the staff of the Aluminum Company at Kingston.

Dr. P. B. Rynard, Med. '26, formerly at Brechin, Ont., is now practising at 11 Coldwater St., Orillia, Ont.

THOROLD, ONTARIO

J. Buss, Sc. '19 C. R. Buss, Sc. '27

Rev. Gordon R. Taylor, Arts '28 (M.A. McGill), is associate minister of St. Giles Church, Ottawa, in the absence of Rev. J. Logan-Vencta, who is in the Canadian Chaplain Service overseas.

C. G. Thomson, Sc. '25, is vice-president of Bishop and Sons Limited, roofing and building paper manufacturers, Portneuf Station, Que.

Miss Marguerite Thomson, Arts '29, is advertising manager for the Robert Simpson Company's department store in Halifax, N.S.

Dr. H. L. Tobin, Med. '28, eye, ear, nose and throat specialist, Binghamton, N.Y., attended a meeting of the New York Ophthalmological Society held at Sherry's, New York City, on October 13, where he had been invited to present a case of unusual interest.

Miss Mary White, Arts '29 (M.A. Oxford), is lecturing in Classics at Trinity College, University of Toronto.

Very Rev. W. L. Wright, Arts '26, former rector of St. George's Church, Toronto, and recently appointed Dean of Algoma and Rector of St. Luke's Pro-Cathedral, Sault Ste. Marie, Ont., has received the degree of D.D. from Trinity College, Toronto.

1930-1941

H. G. Ames, Arts '40 (B.Sc. Saskatchewan), is geologist at the Perron Gold Mines, Perron, Quebec.

Miss Wilma Anglin, Arts '38, is on the staff of the high school at Elgin, Ont.

Morgan Brown, Com. '30, left the sales staff of the Imperial Tobacco Company in 1937 and has since been manager of the Leamington Hotel, Leamington, Ont.

W. C. Brown, Arts '30, of the Empire Life Insurance Company, Kingston, was this year made a fellow of the Actuarial Society of America and a Fellow of the American Institute of Actuaries.

R. W. Cohrs, **K. F. Collins**, **W. H. Harrington**, **T. J. Barry**, **A. J. Johnston**, **H. P. Thomas**, all of Sc. '41, are on the staff of the Welland Chemical Works, Niagara Falls, Ont.

Miss Kathleen Derry, Arts '30, is teaching at Glebe Collegiate Institute, Ottawa.

G. E. Dryburg, Arts '37, is principal of the Woodland Public School, Verdun, Que.

Dr. R. L. Empey, Med. '32, is practising in Cochrane, Ont.

Mrs. O. S. Fells (Mabel Anderson), Arts '34, is living at 566 Cheapside St., London, Ont. After the death of her husband in 1938 she resumed teaching and is now on the staff of Lorne Avenue School in London.

Bernhard Haffner, Sc. '41, is on the geological staff of Bunker Hill and Sullivan Mine, Kellog, Idaho.

Oswald Hall, Arts '35, and **Mrs. Hall** (Florence Tanner), Arts '35, are living at Providence, R.I., where Mr. Tanner is on the philosophy staff of Brown University.

A. A. Hesketh, Sc. '36, is chemist with the Shawinigan Chemicals Limited, Shawinigan Falls, Que. He lives at 17 Place du Marche, Shawinigan Falls.

Miss Marjorie Howie, Arts '41, is super-

vising gauge inspection at the Ontario Research Foundation, Toronto.

C. C. Humbert, Sc. '31, recently joined the staff of the Gaspeia Sulphite Company, Chandler, Que.

G. R. Hurd, Arts '35, has been appointed secretary-treasurer of the Sawyerville Manufacturing Company, Ltd., Sawyerville, Que.

Miss Katherine Inkster, Arts '40, is a social worker for the Ottawa Welfare Board. She holds a diploma of social science from the Department of Social Science, University of Toronto.

A. C. Ironside, Arts '36, is principal of the high school in Hazelwood, B.C.

W. Dennis Jordan, Arts '38, who entered Osgoode Hall in 1939, has been called to the Bar this year. He is now a member of the firm, Holden, Murdoch, Walton, Finlay and Robinson, Royal Bank Building, Toronto.

Dr. N. W. Kerr, Med. '32, formerly at Portland, Ont., is now practising in Elgin, Ont.

L. J. Langan, Arts '33, is separate school inspector at Windsor, Ont.

J. N. Langman, Sc. '32, of the R.C.A.F., has been promoted to the rank of Squadron Leader and is attached to No. 3 Training Command, Montreal, Works and Buildings Branch.

J. I. McAskill, Sc. '36, has joined the staff of the Bata Shoe Company, Frankford, Ont., as contact engineer.

William McCreary, Arts '38, is teaching at Hearst, Ont.

Leonard McFadden, Arts '36, has received his Ph.D. from Brown University, Providence, R.I.

H. R. MacKinnon, Sc. '39, is with the hydrographic service, Department of Mines and Resources, Ottawa.

R. H. Ohlson, Sc. '38, is geologist with the Socony Vacuum Company, Bogota, Colombia, South America.

R. L. Perkin, Arts '30, formerly at New Liskeard, Ont., is now principal of the collegiate institute in Picton, Ont.

F. R. J. W. Pollock, Sc. '37, is at No. 6 Air Observer School, Prince Albert, Sask.

Miss Nora Quigley, Arts '39, is teaching in the high school at Deseront, Ont.

F. H. Rand, Arts '30 (M.A. McGill, Ph.D. University of Paris), is the editor-in-chief of "The V," a weekly illustrated magazine printed for the troops in the Near East. His office address is 14, Sharia el Kassed, adjoining Bab-el-Louk Station, Cairo, Egypt.

W. F. Rannie, Arts '38, of the Hudson's Bay Company, has been transferred from Yellowknife to Fort Smith, N.W.T.

Dr. P. S. Rutherford, Med. '40, and **Mrs. Rutherford** (Phoebe Weir), Arts '36, left recently for Iroquois Falls, Ont., where Dr. Rutherford will practise.

David A. Sloan, Sc. '41, is geologist for the Consolidated Mining and Smelting Company at Yellowknife, N.W.T.

F. B. Smithersam, Arts '40, formerly principal of the public school at Callander, Ont., has been appointed to the staff of the Normal School, Toronto.

J. E. Staples, Arts '41, is back at the University this year studying for his M.A.

E. G. Tapp, Sc. '39, has been on the engineering staff of the Sullivan Mine, Kimberley, B.C., since last July.

H. M. Tennant, Arts '31, of the Lisgar Collegiate Institute staff, Ottawa, has been elected president of the Ottawa district of the Ontario Secondary School Teachers' Federation.

J. L. Thomas, Sc. '30, is with Sutton-Horsley Company Limited, Toronto.

Dr. G. K. Trotter, Med. '39, is assistant to Drs. Riggall and Riggall, Prairie Grove, Arkansas.

G. L. T. Vollmer, Sc. '38, is engineer and deputy chief inspector for the Canadian Drawn Steel Company, Hamilton, Ont.

Stuart Warrington, Com. '33, has enlisted with the engineers in the United States army and is now stationed at Fort Leonard Wood, Missouri. For the past five years he has been in New York City working in and around the theatre. For some time he was a partner in managing a repertory theatre on Long Island and between times wrote plays and stories.

I. S. Widdifield, Sc. '38, is with the General Engineering Company as electrical superintendent of their plant at Scarborough, Ont.

Kenneth Williams, Arts '40, is doing post-graduate work at Cornell University, Ithaca, N.Y.

Dr. J. E. Zbar, Arts '32, Med. '36, has announced the opening of an office for the practice of Otolaryngology at 133 East 58th St., New York City.

President of the General Alumni Association

AN IMPRESSION OF THE CENTENARY

By A. E. Prince*

THE Centenary celebration from October 16 to 18, planned and executed with an infinite capacity for taking pains amounting to genius in organization, was a memorable milestone in the history of Queen's.

In his fascinating address, Vice-Principal McNeill averred that he was neither born nor bred "a Queen's man," but that "when I die, there's a Queen's man dead." In this, as in other sentiments, he gave voice to the reflections of not a few in the vast audience who on that sunny Saturday morning crowded Grant Hall to the doors and beyond, or listened far afield among the unseen radio hearers. So eminent an "elder statesman" as the Hon. Charles A. Dunning assuredly gave assent. For on the previous evening the assemblage of celebrating banqueteers (growing slightly jaded by a surfeit of turkey and post-prandial discursiveness as midnight approached) was electrified and stirred by Dr. Dunning's brief but moving tribute to the Queen's magic of assimilation: whilst depressed in mood by an enforced retirement from public life on account of ill-health, he had received a timely invitation to become Chancellor of the University; thereby Queen's had given him a new lease on life and made him one of her own by grace and adoption.

Dr. McNeill's declaration of fealty to Queen's evoked a sympathetic echo of vibrant memories in another listener, who cheerfully stood at the back of the hall

through the three hours' proceedings. Twenty-seven years before, the present writer had known little of Queen's; it was merely one of the many promising "Colonial universities," void and without shape, or like the numbered blank oval in the key to an old-fashioned photograph. The ticket-office agent in the English city had probably never heard of the Canadian National Railway, and issued a ticket from Montreal to Kingston by the Canadian Pacific. Consequently—after arrival at Montreal by an Atlantic steamer—when in his hurry he took the first (a night) train, the writer found himself shot out in the wee sma' hours at a junction called Tichborne—to await the train for Kingston. There he spent three or four hours of his first night in Canada.

Little outside the tiny station could be seen except dark trees, obviously an impenetrable forest. His fellow-passengers in the waiting-room were more villainously-looking people than he had ever seen before anywhere, or since in Canada. Two "tough guys" were dressed in ten-gallon hats and cowboy chaps and took frequent swigs from hip flasks—afterwards it was learned that they were showmen travelling from one fall fair to another. He had read Wild Woolly West stories, and almost expected to see a sheriff and his posse rush in to round up these suspected gangsters; but the latter made no move to slit throats or even filch wallets before the newcomer boarded the connecting train.

As dawn broke, the sun shone upon the spires of Kingston's churches, revealing the city's exquisite silhouette; and as his

*Professor in the Department of History,
Queen's University.

friendly "chief," Prof. J. L. Morison, met him and drove past the fine limestone buildings, he realized that he was to be a citizen of "no mean city," and a member of "no mean university." Any Tichborne-fostered apprehensions were at once dispelled that he would find Queen's redolent of its early days in a Colborne Street frame house, or deserving the designation, as the "rummiest university," given it in the forties by a distinguished official visitor.

And there was verily nought to complain of in the quality of the history students—even (!) the co-eds, when members of the classes included two ladies who in the recent Centenary celebrations figured so prominently, viz., Honorary LL.D. Charlotte Whitton and Dr. Hilda Laird. Moreover, the youthful junior lecturer was now privileged to enjoy the company of Cappon, Watson, Morison, W. L. Grant, Skelton, Matheson, E. F. Scott, Morgan, Jordan, Principals Gordon and Ross, and a host of other giants.

It was the first year of the World War, and the members of staff furnished a whole platoon in the Officers' Training Corps. One gray wintry day the University contingent was inspected by the Governor-General, H. R. H. the Duke of Connaught; on the Centenary Saturday afternoon, amidst a downpour of rain, the 1941 O. T. C. was inspected by His Excellency the Earl of Athlone, the present Governor-General.

Queen's added grace to a courtesy during the Centenary, when, in conferring honorary degrees upon the Governor-General and Princess Alice, the students asked the Earl to honour them by accepting the office of Rector of the University. His Excellency showed deep appreciation of the students' action and paid them the compliment of a finely phrased, thoughtful address, filled with

mature wisdom—as both his immediate predecessors, the late Hon. Norman Rogers and the Rt. Hon. R. B. Bennett, had done on like occasions. (When Mr. D. D. Calvin brings out a second edition of his excellent *History of Queen's University*, he might well include these and one or two other select addresses in an appendix.)

The significance of His Excellency's pronouncements seems to have been overlooked by most of the Canadian press. He did not indulge in what Lord Tweedsmuir once characterized as platitudinous "Governor-generalities." He made a vigorous declaration in favour of federation as a solution of the post-war problem of permanent security. He quoted with approval the words of Victor Hugo written a century ago on the walls of the room in Paris where he died: "I represent the party which does not yet exist. This party will make the twentieth century. There will issue from it first the United States of Europe, then the United States of the World." The Earl of Athlone went further and boldly championed the concept of the United States of the World, suggesting, "It might be better to cut out the intermediate step of the United States of Europe." He diagnosed the existing political international organization of over seventy sovereign states as an "anachronism" and as "anarchy," and prescribed as a salutary remedy a federalism on the model of the United States constitution; this patently involved a limitation of the sovereignty of the separate nation-states.

Another highlight was the address of Dr. W. E. McNeill. Few more eloquent speeches have been made in the history of Queen's; and appropriately enough, the subject matter was the story of the University. Compact of wit, humour, felicitous literary quotation and sensitive

luminous style, it was charged with disciplined emotion and passionate loyalty, while it was a masterpiece of exact historical condensation and of vivid characterization. Dr. McNeill juggled with facts, dates and statistics with a deftness of skill and a sure mastery of an oratorical Conquevalli; not one fell to earth ineptly; not one failed to land in the pocket or to balance on the cue as required. It was a breath-taking artistry, a veritable *tour de force*. Not even L. W. Brockington, "the Orator of Canada," could have surpassed it. The Vice-Principal sketched the origins of Queen's and compassed its hundred years of struggle and progress with a swift scythe-like sweep.

Dr. McNeill dealt with education at Queen's in the past. Principal Wallace, in a masterly, thought-provoking address, surveyed the future of education in general, based on a scientific analysis of and commentary upon recent trends. An inspiring, prophetic blue-print was traced. All in a democracy must be educated, but there must be no levelling-down—the intellectual élite must not be held back and forced to mark time to conform with the pace of the slower, weaker brethren. The Principal judiciously advocated a balance between the claims of cultural and of technical professional training, between the humanistic and the practical, vocational studies.

There was a tremendous galaxy of intellectual stars among the invited delegates—and as for their resplendent shining robes, soutanes and pendulous hoods, surely all of Solomon's glory could not compare with these grand raiments! The air of those Centenary days palpitated with colour and vibrated with brilliant, penetrating and profound ideas. The full-length addresses of Siegerist, Holland and Micklem were steeped in know-

ledge, animation and discernment. But a few of the congratulating delegates suffered from *cacoethes loquendi*, and consequently a keenly awaited paper on "A Hundred Years in the Humanities and Social Sciences" by that fine Christian scholar and humanist, Sir Robert Falconer, was unhappily truncated by the time guillotine. It may shortly, however, be available in its entirety.

Not soon forgotten will be the eloquent tribute paid by President Klein-Smid of Southern California, the piquant greeting in French by Mgr. Marault of Montreal University, the encomiums of the statesman Ernest Lapointe (whose recent death is so widely mourned), the graceful and learned historical comments of Dr. G. G. Coulton, the octogenarian representative of Cambridge University; and the breezy, gusty remarks of Griffiths Taylor, the Australian cyclone with its present centre in Toronto, were sheer joy.

Mention of the impressive Service of Remembrance and Thanksgiving with which the Centenary proceedings opened and at which Dr. Neil Leckie delivered the sermon should not be omitted; it was marked by poetic prose, wide literary knowledge and deep spirituality. The Commemoration Ode, composed for the occasion by Dr. George Herbert Clarke and read by him at Convocation, was a noble, winging tribute in the cadences of poetry. A moving thrill went through the audience at the same gathering when the crisp tones of the voice of Lieutenant-General A. G. L. McNaughton, expressly relayed from his G. H. Q. in England, stressed thankfulness for the "succeeding generations of young Canadian men and women who have stayed here (at Queen's) awhile, partaken of your discipline, gained priceless equipment for their life's work, and then

moved on to play their part and do their service to this time and generation and to posterity."

At the banquet given by the City of Kingston to symbolize the harmonious relations between town and gown, Mr. (now LL.D.) J. M. Macdonnell, chairman of the Board of Trustees, responded to the main toast, that of the University, with his customary scintillating whimsicality, deep earnestness of purpose, and passionate devotion to Alma Mater. Professor (now the Hon.) Duncan McArthur was sorely missed during the proceedings, and not merely as Queen's representative in the Ontario Government. Prime Minister Mackenzie King, who in the afternoon had paid a fine tribute to Norman Rogers at the unveiling of his portrait in Kingston's Memorial Hall, said some weighty things on Canadian-American relations and on the importance

of the universities in moulding and reflecting public opinion.

At least as significant as the formal celebrations, was the warm fraternizing of the graduates, from the perennially young clergyman of the class of '76 to the most recent acquirer of a degree. There were dances, college songs and classic music, an official reception, a students' one-act play, a hundred years' fashion show—as well as the football game, attended by the one and only Alfie Pierce, the perennial mascot. At these functions and in the intervals, class contemporaries met again and descended into anecdote and reminiscent mood with the recurring *motif* "Do you remember . . . ?"

Surrounded by a cloud of visible and invisible witnesses, Queen's University dramatically moved out of her first and into her second century of progress.

QUEEN'S MEN MISSING

THREE Queen's men were reported missing in recent official casualty lists of the Royal Canadian Air Force. They are Flying Officer Bruce McIver, '40, Sergeant Marshall R. R. Vair, Arts '38, and Flying Officer John G. G. Weir, Arts '42.

As a student at Queen's, Bruce McIver was awarded the K. B. Carruthers scholarship in mining and metallurgy, and on graduating won the departmental medal in mining. He had been in England for some months and was reported missing in air operations over Berlin on November 8. He had completed 175 hours bombing and flying and was to have returned to this country as an instructor in astral navigation when he had completed 200 hours. In one of his recent letters he wrote: "You know, it sounds funny how casually we take all this (raids over Germany), but when you consider how big the sky is, the chances are pretty well in our favour, and it has to be a lucky hit to put you out. Even then you have a 50-50 chance to bail out. A lot of the

boys originally reported missing have either turned up as prisoners of war or have escaped through France, where the common people still hate Hitler and will help you out."

Sergeant Vair was reported missing on November 13, and it is believed he was lost over German-held France. A graduate of Humberside Collegiate Institute, Toronto, before enrolling at Queen's, he enlisted in the R. C. A. F. in August, 1940. After training at Brandon, Man., Prince Albert, Sask., and Camp Borden, Ont., where he received his wings, he proceeded overseas in April of this year. He continued his training at air schools in England, Scotland and Northern Ireland.

Flying Officer John Weir, 22, son of Lieutenant-Colonel J. G. Weir, D.S.O., M.C., and Mrs. Weir, Toronto, failed to return from air operations on November 8. He spent a year at Queen's after graduating from Upper Canada College, where he was a fine athlete and won many honours. He also attended the University of Toronto. His elementary flying training was received at Winnipeg, and he went overseas last October.

H. J. HAMILTON JOINS WARTIME BUREAU STAFF

HERBERT J. HAMILTON, Arts '32, secretary-treasurer of the General Alumni Association and manager of the University Employment Service since January, 1939, has been called to Ottawa to join the staff of the Wartime Bureau of Technical Personnel.

H. J. HAMILTON

In response to the urgent request of the Ottawa bureau and upon the recommendation of the Advisory Committee of the Alumni Association, President D. A. Gillies granted leave of absence to Mr. Hamilton for the duration of the war or for as long as his services were needed at Ottawa. Similar action was taken by the Service Control Committee of the Engineering Society, with regard to the Employment Service.

The Wartime Bureau of Technical Personnel was organized some months ago under the aegis of the Federal Department of Labour, to serve as a clearing-house and a co-ordinating centre in connection with technical employment throughout the Dominion. Its prime purpose is to see that the technically trained personnel of Canada is so distributed that the greatest effectiveness is given to the war effort.

Mr. Hamilton joined the staff of the Alumni office in December, 1937, as assistant editor of the *Queen's Review*. Upon the resignation of Gordon J. Smith, Arts '12, Sc. '15, at the end of 1938, he

was appointed secretary-treasurer of the Alumni Association and editor of the *Review*, and also took over from Mr. Smith the management of the Employment Service. In addition he has been permanent secretary of the Alma Mater Society and editor of the *Proceedings of the Engineering Society*. His three years' employment experience at Queen's particularly fitted him for the work of the Wartime Bureau of Technical Personnel.

At the request of the president of the Alumni Association and of the Service Control Committee, Mr. Gordon Smith is supervising the activities of the Association and the Employment Service for the time being, in addition to his duties as director of endowment for the University.

DEAN DOUGLAS DISCUSSES I. F. U. W. FELLOWSHIPS

“ETHICS and economics alike cry aloud for a practical internationalism and every influence that tends in this direction is of immense importance,” said Dr. A. Vibert Douglas, dean of women at Queen’s, in an interesting article on the fellowships granted by the International Federation of University Women. Dr. Douglas is Canadian representative on the International Fellowship Award Committee.

This year there were fifteen applications from eleven national associations, three of whom sponsored German or Austrian refugee scholars. Two fellowships and one grant were available. The grant was given to an applicant from Latin America for dental research in Buenos Aires, and the fellowships were awarded to a Swedish mathematician and to an Indian Sanskrit scholar.

There have been fourteen fellowships given since 1928, and the wide distribution of nationalities of the recipients, of subjects chosen for research, and of countries to which the scholars proceeded are proof of the lasting contribution that the Federation is making to the furtherance of goodwill, trust and understanding among nations.

STUDENTS AND STAFF ATTEND MEMORIAL SERVICE

REMEMBRANCE DAY was fittingly solemnized this year by a short service in Grant Hall, when Dr. H. A. Kent, principal of the Theological College, spoke to the students and faculty.

Dr. Kent pointed out that, because the sacrifices of the last war had been almost forgotten in the scope and immediacy of the present world conflict, it was wrong to consider the years 1914-18 as a total waste of human endeavour. Then, it is true, men were too obstinate to modify their justice, and too weak to enforce it. But those who died, died willingly; they paid the greatest price of mankind for truth, honour and freedom — freedom which today is even more cherished throughout the world. A splendid deed can be accomplished again.

Dr. Kent's address was followed by Vice-Principal McNeill's impressive reading of Lawrence Binyon's poem, *For the Fallen*.

DR. WALLACE OFFICIATES AT CARNEGIE FUNCTION

ON Tuesday, November 18, in the offices of the Carnegie Corporation in New York City, a committee of prominent Canadian educationists, headed by Principal Wallace, made a presentation to Dr. Frederick P. Keppel, the retiring head of the Corporation's board of trustees. The gift was a book, bound in heavy leather, containing the acknowledgments and thanks of the many Canadian institutions and organizations that had benefited by the gifts of the Carnegie Corporation and its allied or subsidiary trusts. The volume—a very fine example of the art of bookmaking—was bound by Douglas Duncan and illuminated by Scott Carter, both of Toronto. In it were inscribed the signatures of the representatives of all the Canadian beneficiaries of the Carnegie trusts.

Dr. Keppel, who had been president of the Carnegie Corporation since October 1, 1923, has been a warm and consistent friend of Canada. In presenting the book, Dr. Wallace stated that the gift was

made to Dr. Keppel for his "sympathy and understanding in the assistance that the Corporation has given to education, science and the fine arts" in Canada during the nineteen years of his term of office. The book was accompanied by a letter of presentation, written by Dr. J. W. Dafoe, editor of the *Winnipeg Free Press*, on behalf of Dr. Keppel's Canadian friends and admirers. Part of the letter ran as follows:

Your administration has exemplified in ample measure the wise generosity and noble vision which inspired the foundation of this trust: a generosity that planned practical encouragement for services, however varied, that widened the horizons and served the true interests of man, a vision that transcended the boundaries of nations and continents and made mankind its beneficiary.

In Canada its beneficiaries, in their aggregate, have been princely; and they have been made with sympathy, understanding and knowledge. Established universities, colleges, libraries and art galleries have received invaluable assistance at your instance; but your gifts have gone far beyond these bounds and have made possible experiments in economic rehabilitation and in adult education which are of the highest promise. To the generosity of the educational benefactor you have added the wisdom and foresight of the statesman. Your contribution cannot, at this time, be adequately appraised or finally acknowledged; it embraces intangibles that in their widening influence will be part of our cultural, intellectual and national future.

The story of the Carnegie benefactions is summarized in a recently published book, *Forty Years of Carnegie Giving*, by Robert M. Lester. This volume shows that the Carnegie benefactions have been made through some twenty-six associated trusts, of which perhaps the best known are those for free library buildings, the Endowment for International Peace, the Hero Fund, the Foundation for the Advancement of Teaching (of which Principal Wallace is a trustee), the Trust for the Universities of Scotland, and the Carnegie Corporation of New York.

Canada has received a very generous share of the Carnegie largesse, amounting, it is estimated, to about \$80,000,000. To the Carnegie trusts this country owes one hundred and twenty-five public libraries, erected at a cost of more than \$2,500,000, and there are few Canadian

universities that have not received handsome benefactions from these sources.

The largest single Carnegie gift to Queen's, amounting to \$250,000, was made in 1919 in recognition of the University's valuable contribution to Canada's war effort from 1914 to 1918. There have been many gifts since. Volumes on art and architecture to the value of more than \$8,000 are to be found in the art room of the Douglas Library. Books for diversified undergraduate reading were bought with a fund of \$15,000. Music for choral work, recordings, bound scores, a radio-phonograph, and other material for the music room — a further \$15,000. Towards the University staff pension scheme, \$25,000 was contributed; and it is estimated that about \$260,000 has been paid to individual Queen's annuitants under the original Carnegie gratuitous pension plan. Contributions for the payment of refugee scientists, for the carrying-on of scientific research, for Canadian-American Affairs and other special conferences, and for various projects have amounted to some \$16,000. All in all, more than \$600,000 has been received by Queen's and her dependents from the Carnegie Corporation and its associated organizations.

Queen's owes a great deal to the Carnegie trusts, and it was only appropriate that the University should have a part, through Dr. Wallace, in recognizing the valuable services of Dr. Keppel.

ALMOST HALF OF STUDENTS CONTRIBUTE TO BLOOD BANK

TO the recent call for blood donors in the Kingston area, Queen's students made splendid response. Seven hundred and fifty-seven — 47 per cent of the University registration — answered the appeal.

The lead was taken by Medicine, with 230 donors or 88 per cent of the enrolment; then came Science, with 292 or 50 per cent; Arts followed with 137 or 32 per cent; and Levana had 90 or 30 per cent.

Sponsored by the Queen's Student Assembly, and with the backing of the Alma Mater Society and the War Aid Com-

mission, the all-out drive began with a blood-bank campaign rally in Convocation Hall, at which appeals were made by a Red Cross representative, by Miss Dorothy Wardle, president of the A. M. S., and by Earl Baxter, chairman of the War Aid Commission. An educational movie was shown; and Dr. E. M. Boyd, head of the department of pharmacology and director of the University blood clinic, gave a talk on transfusions and answered pertinent questions.

Later, in commending the donors, Dr. Boyd stated that Queen's was one of the leaders among Canadian universities participating in the drive. While the campaign had not yet been completed on some campuses, Queen's was now at the top on a per-capita basis.

LEIGH CRUESS APPOINTED TO IMPORTANT POST

IT was announced recently by Lewis W. Douglas, LL.D. '38, president of the Mutual Life Insurance Company of New York, that Leigh Cruess, Arts '15, had been appointed vice-president and manager of selection for the company. He was formerly underwriting vice-president of the Home Life Insurance Company and resigned this position to assume his new one.

Born in Oakwood, Ontario, Mr. Cruess received his early education at Lindsay. He entered Queen's in 1911, receiving his B.A. in 1915, and his M.A. in 1919. While at the University he won the Greer prize in mathematics. He joined the staff of the Home Life Insurance Company, New York City, in 1919, and has been with this company since then.

JANITOR STAFF SENDS CIGARETTES TO SOLDIERS

THROUGH the efforts of the janitor and maintenance staff of the University, 45,300 cigarettes were despatched to Canadian soldiers overseas as a Christmas present. Shortly after the beginning of the war, this University group started a plan whereby six of its members who were overseas would be sent a monthly supply of "smokes." Each of the group,

which numbers about thirty, agreed to contribute ten cents a week, with the result that \$10 worth of cigarettes has gone forward each month. Some time ago a special Christmas parcel was decided upon, and by the sale of lucky tickets \$151 was raised for this purpose.

DR. NORMAN BOWEN WINS HIGH GEOLOGICAL AWARD

DR. NORMAN L. BOWEN, Arts '07, Sc. '09, one of Queen's most distinguished graduates, has been awarded the Penrose Medal, regarded by geologists as the most important recognition in their field. Dr. Bowen is the youngest scientist ever to receive this honour, which will be conferred upon him at the annual meeting of the Geological Society of America in Boston on December 30.

In the announcement of the award, it was stated that it went to Dr. Bowen in recognition of his achievements in the application of the principles of physical chemistry to the study of the origin of igneous rocks. His early experiments in molten rock had brought forth fundamental facts that made possible advances in ceramics and in the glass-making industry. While working for the United States War Industries Board during the Great War, he had supervised the production of optical glass, a work that was recognized as of prime military importance. He was also a co-discoverer of mullite, a basic constituent of fire-clay refractories.

This eminent alumnus obtained his M.A. at Queen's in 1907 and his B.Sc. in 1909. Three years later he received his Ph.D. at the Massachusetts Institute of Technology. From 1912 to 1937 he served as petrologist at the Geophysical Laboratory in Washington, D.C., with the exception of one year, 1919-1920, which he spent at Queen's as professor of mineralogy. In 1937 he was appointed Charles L. Hutchinson Distinguished Service Professor in the department of geology at the University of Chicago.

At the tercentenary celebrations of Harvard University in 1936, Dr. Bowen was one of the distinguished international group of sixty-two scholars and scientists

to be given an honorary degree; and at the recent centenary convocation at Queen's he was honoured with the degree of LL.D.

"WHAT HAPPY, CAREFREE DAYS THOSE WERE!"

THE letter printed below was received on November 14 by Mr. Gordon Smith, Director of Endowment for the University. It gives an indication of the loyalty to Alma Mater and the fond memories of student days that remain deep in the hearts of Queen's alumni wherever they may be or under whatever stress and strain they may be carrying on.

Few students of Queen's have taken a more prominent part in the life of the University than did Alex Edmison during the four years (1923-1927) that he spent within her halls. He was a leader in many student activities.

During more recent years, as a barrister in Montreal and as a member of the Montreal city council and of various other civic bodies, Mr. Edmison was a tireless servant of his fellow-citizens. He is now serving in a still wider field.

No. 2 Road Construction Coy.,
Royal Canadian Engineers,
Canadian Army, England,
Oct. 20/41.

Dear Gordon:

I think you may be interested in the diary entry I made following my cable to you earlier to-day. Please let me know how the festivities came off.

With all good wishes. Please remember me especially to Dr. McNeill and Dean Matheson.

Sincerely,
J. A. EDMISON/Captain.

Thoughts on the 15th Reunion of Arts '26—Queen's University

20/41—Today I sent this cable to Gordon J. Smith, Queen's University Kingston—

"Convey Arts '26 Reunion my heartiest greetings. See you all five years hence."

J. A. Edmison,
Permanent President.

How we had looked forward to this get-together—the 15th Anniversary of our graduation and the 100th of the founding of Queen's!

What happy, carefree days those were for us "on The Old Ontario Strand." . . . No money worries (the collapse of '29 was yet to come). . . . No concern about post-graduation jobs (firms actually sent representatives to bid for promising graduates). . . . No thought of war (Germany had been beaten, we had faith in the League of Nations and we smiled to contemplate the unthinking youths who wasted their time in the C.O.T.C.).

Life was such a glorious song. We gayly cut leaves in the Sweet Manuscript of Youth. . . . Those Grant Hall dances (\$1.00 per couple, including refreshments—a nice 'date' from the Avonmore, phone 504—"Who Stole My Heart Away?"—"Linger Awhile—I've Something to Tell You, So Linger Awhile"—"It's Three O'Clock in the Morning, We've Danced the Whole Night Through"). . . . Cinnamon toast at Peter Lee's. . . . Sleigh Drives for two. . . . Walks through Macdonald Park 'when red leaves are falling'. . . . Daring visits to Madame Cohen's Dance Hall. . . . Invitations to Ban Righ and Levana Tea Dances. . . . Thrilling football victories (26 straight—Leadley to Batstone to Harding—McKelvey for a touchdown—Evans through the centre—Thomas and Britton get Snyder—and 'Alfie' Pierce again dances to "Queen's College Colours"). . . . Alma Mater Society Elections ("Dirty Science"—"Bum Arts"—"Vote Meds-Science"—"Vote Arts-Levana-Theology"—"We Must Have a Students' Union"). . . . Boarding house debates (on a hundred and one subjects, mainly highly theoretical, because the World looked good and needed little reforming!)

And 15 momentous years have passed. . . . The Market Crash. . . . The Great Depression. . . . and now War! Our Brave New World in flames. Instead of being in Old Kingston this week, "Bud" Thomas is in Scotland, Hugo Ewart and I in small English hamlets,—the three of us far removed from "The Old Familiar Faces" of Arts '26. No Reunion Dinner for us—we are at the mercy of army cooks! No Grant Hall Reunion Dance for us this Saturday night, we are more likely to hear the crash of bombs than of music. What an uncertain thing Life is

—three more unlikely soldiers never lifted a 1926 Red Room tea-cup, or phoned for a 25c Kingston taxi, or took an ice cream soda at the Superior, or tried to get a ticket for the Plumbers Ball! Yet, here we are in this embattled Britain, listening anxiously to the B.B.C. news reports on Russia, watching the planes of the Royal Air Force heading daily for the Continent, and contemplating the possibilities of a Hitler invasion.

We can picture our old Pals back there in the Limestone City. . . . How are you, Earl Patton, and you, 'Red' Mason, and you, Tommy Marshall? Have a good time—please give us a passing thought, and remember, despite everything, we "hope to see you all five years hence"!

COMMERCE CLUB HEARS DR. W. A. MACKINTOSH

DR. W. A. MACKINTOSH, Arts '16, special adviser to the deputy minister of finance at Ottawa, and former director of the School of Commerce and Administration at Queen's, spoke at the Commerce Club luncheon on November 29. Over one hundred were present in Grant Hall to hear his address on wartime shortages and their effect on Canada and on Canada's war effort.

Dr. Mackintosh pointed out that at the beginning of the war the economic problem that most worried the Government was the scarcity of foreign exchange, and at the outset the Foreign Exchange Control Board had established strict supervision. While this first shortage had lessened in urgency and Lease-Lend funds were now available, nevertheless Canada still found it necessary to send gold to the United States to pay for war materials.

The second shortage was that of raw materials, which had become a greater problem owing to the fact that, as the United States had swung into production, material requirements for American industry had increased, thus cutting into the supply available for Canada.

The third shortage was that of trained men. At the beginning of the war skilled workers in Canada were very few, but training schools were now rapidly increasing the supply.

The speaker concluded with the observation that all these shortages were being overcome, and that Canada's war production and effort would eventually be much greater as a result.

Dr. Mackintosh, who left the University in December, 1940, on leave of absence, has had a brilliant record. He became assistant professor at Queen's in 1919, associate professor in 1922, and was appointed head of the department of economics and political science in 1927. He founded the School of Commerce and Administration, which is now considered one of the best of its kind in Canada. He has been a member of numerous commissions of the Dominion Government and is editor of the *Journal of the Canadian Bankers' Association*. He has been a director of the General Alumni Association for several years.

MEDICALS TO GRADUATE TWO MONTHS EARLIER

ARRANGEMENTS have been made whereby the work in final-year Medicine at Queen's will be condensed this session so that the students may graduate in March, and try their Canadian Medical Council examinations in the latter part of that month, instead of in May as formerly.

At the request of the Dominion Government, Queen's and the other Canadian universities gave consideration last spring to the possibility of speeding up medical training in order that the expected shortage of doctors in the armed forces and in civilian life might be met as quickly as possible. The universities suggested that the desired result might be achieved by making the medical course almost continuous, through the elimination of a large part of the regular vacation periods. By this means, the time required for the course would be reduced by about one-third.

The universities pointed out, however, that such a schedule would seriously curtail the students' summer earnings—which in most cases were essential to the continuance of their course—and that the plan would be practicable only if the Government set up a substantial student-

loan fund, with no or very low interest charges. The Government was not willing to establish such a fund, and so the proposal was unanimously dropped.

Subsequently, however, certain universities decided to adopt the plan, without any provision for student financial assistance. The final-year classes in Medicine at these institutions consequently began their work last July or August instead of at the end of September, and will graduate correspondingly early next spring. To meet this situation, the Ontario examinations of the Canadian Medical Council—which all doctors must pass before they are allowed to practise in this country—were advanced from May to the latter part of March.

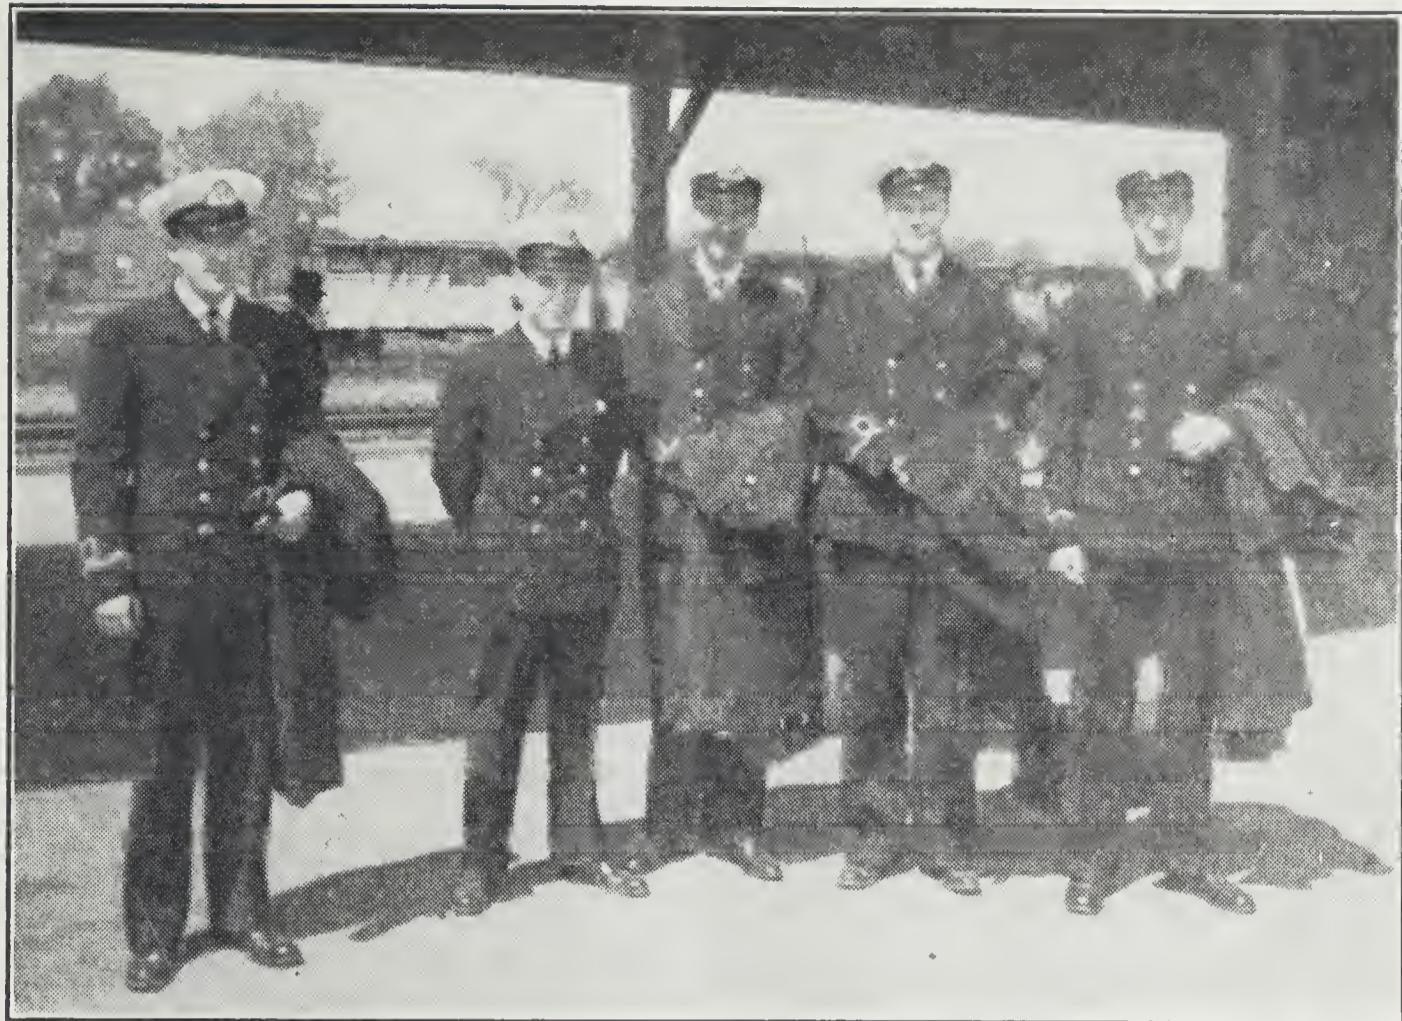

Queen's has now shortened its final year by two months so that a second set of Dominion tests may be avoided, and in order that the new doctors may enter their internship, thus releasing others for duty in the national services and in civilian life.

QUEEN'S LOSES EMINENT HONORARY GRADUATE

WITH the death on November 26 of the Rt. Hon. Ernest Lapointe, minister of justice and great Canadian statesman, Queen's lost one of her most recent and most notable honorary graduates. At the Centenary convocation in October the honorary degree of Doctor of Laws was conferred upon him by Chancellor Dunning, to whom he was presented by Principal Wallace with the following words: "I present Ernest Lapointe, jurist and statesman, trusted leader of French Canadian political thought, unwavering exponent of the part that all Canadians must play in the world struggle, a great Canadian, to receive the degree of Doctor of Laws, *honoris causa*."

ANOTHER LETTER FROM OVERSEAS

PROFESSOR D. S. ELLIS, head of the civil engineering department at the University, received the letter published below from John A. Savory (now an engineer lieutenant in the Royal Canadian Navy attached to the Royal Navy),

ENGINEER LIEUTENANTS, R. C. N.

D. L. McCann, B. R. Hepburn, W. M. Martin, D. P. Lambert, J. A. Savory.

who graduated last spring and with several other Queen's men immediately joined the Navy.

The accompanying picture was taken by Professor Ellis at the Kingston station when the men were leaving for Halifax.

H. M. S. *Devonshire*.*
c/o G. P. O., London.

Dear Sir:

This letter comes to you from somewhere at sea. I would like very much to tell you of my trips since leaving Halifax, but am forbidden to do so. From the above address you will see that I am on one of the county-class cruisers. These ships displace about 10,000 tons and carry eight-inch guns.

I suppose you are all interested in Queen's men in general. All those who went to Halifax with me did very well and at the present time they are scattered all over the globe. Our course in Marine Engineering was given to us by a Lieutenant Engineer who had recently returned to the R. C. N. from the R. N. The course lasted till the 16th of August, and from then on until I left on the 28th men were leaving to go to their appointments.

Some went to the R. C. N. Mitchell and McKeown are on the *Prince David*.

"Scoop" McCann is on the *Prince Henry*. George Van Roche had to go to New York to pick up his ship, while Lambert, Hepburn and myself were sent together with nine others to the U. K. for disposal. Lambert is now on the *Norfolk* (a similar cruiser to the *Devonshire*) and "Rick" Hepburn has been sent to the *Renown*. So among the seven of us we should see a great part of the world before getting back to Canada.

While in England I saw a little of the damage that has been done to the cities and towns. In our own ship's company there are a large number of men who have lost their homes. It is remarkable the way they can laugh the matter off with a wise-crack of some kind.

I certainly never realized how fortunate we are in Canada both in regard to our own freedom from immediate danger and also in our abundance of food.

I wish, sir, that you would give my regards to

Yours, etc.,

(Sgd.) JOHN A. SAVORY.

*On December 1 the Admiralty announced that the *Devonshire* had sunk an armed German merchant raider in the South Atlantic on November 22. The *Devonshire* suffered no damage.—Ed.

QUEEN'S DOCTORS DOING GOOD WORK IN ENGLAND

IN a recent letter to Principal Wallace, Major Stuart W. Houston, Med. '24, who is now in England as a member of the staff of No. 5 Casualty Clearing Station, Canadian Army, wrote in part as follows:

"We have been very busy since coming over, but it apparently is good for us, as no one has been ill and all are in the best of spirits. We have eight nursing sisters, three of whom are graduates of Miss Baillie's and Miss Acton's at the Kingston General Hospital. N-Sr. Galbraith is in charge of the operating-room, and N-Sr. Helen Gardiner and N-Sr. Betty Crothers are towers of strength in the post-operative wards and resuscitation wards.

"Our X-ray is in charge of Desmond Burke, Med. '32, and our anaesthetist is Pat J. Maloney of '31. Don Templeton of '35 is with us, and Perry White of '34, a very well trained G. U. surgeon. Our O.C. is Lt.-Col. W. W. McKay of '17. So of the nine medical men, six are from Queen's.

"In our position as a C. C. S., we see a great number of the regimental and ambulance medical officers, and one is surprised at the number who are our boys. It is very delightful renewing acquaintances. It seems to me there are a great many more from Queen's than from any other Canadian university. Queen's must have taught some patriotism as well as medicine. It is particularly satisfying when bad cases come in—so badly smashed up that they should be dead—to find, on looking up the name of the M.D. that had done such excellent work, a signature one recognizes as that of a Queen's graduate of a few years ago. This has happened time and time again."

DR. MICKLEM REACHES ENGLAND SAFELY

THE many friends of Dr. Nathaniel Micklem, Principal of Mansfield College, Oxford University, will be glad to learn that he has arrived safely back in England after attending the Queen's Cen-

tenary celebrations, as official delegate from Oxford, and delivering the Centenary theological address. Dr. Micklem, who was for some years professor of Old Testament literature and language at Queen's Theological College, was among those who received honorary degrees at the Centenary convocation in Grant Hall on October 17. While in Kingston he also delivered the Chancellor's lectures at the annual conference of the Theological Alumni Association.

TWO QUEEN'S WING COMMANDERS HONOURED

TWO Queen's air aces, Wing Commander N. W. Timmerman, D.F.C., D.S.O., Sc. '36, and Wing Commander Paul Davoud, Sc. '34, were signally honoured by meeting H. M. King George VI on November 13, when His Majesty paid his first visit to a Royal Canadian Air Force squadron.

Wing Comamnder Timmerman is now the leader of a Hampden bomber squadron and is the only Canadian squadron commander who holds the Distinguished Service Order. Some months ago he was awarded the Distinguished Flying Cross for outstanding gallantry and devotion to duty. Born in Kingston in 1913, he attended the Kingston Collegiate Institute and then spent three years in Arts and Science at Queen's. He left in the winter of 1935-36 to go to England, was made a flying officer in 1939, an acting flight lieutenant last February, then a squadron leader and more recently wing commander.

Wing Commander Paul Davoud graduated from the Royal Military College and then entered Queen's in 1932. After leaving the University, he joined the staff of the Hudson's Bay Company and later the R. C. A. F. He has taken part in a large number of raids over Germany and occupied France, and early in November was cited for shooting down into the sea a raiding Dornier 217 bomber. His two brothers, graduates of Queen's, are also serving their country: Gordon, Arts '37, as a research worker at Oxford University, and Tandy, Arts '34, as a pilot officer in the R. C. A. F.

A Merry Christmas for Queen's

If you are not already contributing to the Centenary Fund, will you not begin now and have your first contribution come as a Christmas gift to your Alma Mater?

If each alumnus of Queen's would at the Christmas season—or at any other time of the year—make an annual donation to the University, Queen's financial road would be much easier. The total of such gifts would be equivalent to a very substantial increase in endowment.

As your Alma Mater enters her second century, she needs your help. Will you give it by means of an annual contribution or in any other way you choose?

Will you help Queen's to help others as Queen's helped you?

R. C. Wallace
Principal.

For Queen's "A Merry Christmas"

I now enclose \$..... as my 19..... contribution to the
CENTENARY FUND OF QUEEN'S UNIVERSITY and as a Christmas
Gift to my Alma Mater.

Name Class

Address Date

CHEQUES OR MONEY ORDERS SHOULD BE MADE PAYABLE TO QUEEN'S UNIVERSITY, AND BE
MAILED TO THE DIRECTOR OF ENDOWMENT, QUEEN'S UNIVERSITY, KINGSTON, ONTARIO.
CONTRIBUTIONS TO QUEEN'S UNIVERSITY ARE DEDUCTIBLE ITEMS IN COMPUTING DOMINION AND ONTARIO
INCOME TAXES.

DR. WHITTON RESIGNS FROM WELFARE COUNCIL

LEADING Canadian social worker, Dr. Charlotte Elizabeth Whitton, C.B.E., Arts '17, has resigned her position as executive director of the Canadian Welfare Council. Dr. Whitton was in a large measure responsible for the creation and organization of the Council and for its development to its present position of national importance.

Miss Whitton is a forceful speaker and a brilliant organizer, and her efforts on behalf of the Council have carried her to every part of the Dominion and to many other countries, and Canada has benefited greatly from her wide experience and deep understanding of social-service work.

In 1934, recognition by the Crown was given to her outstanding achievements in this field when she was created Commander of the Order of the British Empire.

In spite of the heavy demands of her position, Dr. Whitton has always taken the keenest interest in the affairs of Queen's and served from 1928 to 1940 as a member of the Board of Trustees. At the Centenary Convocation, the University recognized her splendid contribution to the progress of Canadian welfare work by conferring on her the degree of Doctor of Laws.

DR. WHITTON

outstanding achievements in this field when she was created Commander of the Order of the British Empire.

Born at Renfrew, Ont., Miss Whitton came to Queen's in 1914, and had a distinguished academic career. She also took part in many student activities, serving on the A. M. S., Year, Polecon, Levana, and Year-Book executives, and in addition was associate editor of the *Queen's Journal*. Graduating in 1917 with her M.A. degree, she won the University medals in English and history, and the Governor-General's medal in education. On leaving Queen's, she served for four years in Toronto as assistant secretary of the Social Service Council of Canada. In 1922 she went to Ottawa as private secretary to the Hon. T. A. Low, Minister of Trade and Commerce. She was appointed executive secretary of the Canadian Council on Child Welfare in 1925, and shortly afterwards became director of the organization.

Dr. Whitton has always given generously of her great ability and industry to many organizations outside her own particular sphere of work. She has been a member of the advisory body of the League of Nations' Child Welfare Commission at Geneva, of the board of social work of the Church of England in Canada, of the national executive of the I. O. D. E., of the national executive of the Canadian Women's Press Club, of the Employment Service Council of Canada, and of the Council for Immigration of Women. She has also found time to publish various monographs on immigration, child welfare and divorce.

Dr. Whitton's resignation from the Welfare Council was received with great regret, and she carries with her the best wishes of her associates for success in whatever new work she may undertake.

ON HIS MAJESTY'S SERVICE

COL. N. M. HALKETT, Med. '14, who has served for ten years as an officer in the R. C. A. M. C., was recently raised from the rank of lieutenant-colonel and made commanding officer of No. 7 General Hospital, which arrived in England in November. He was embarkation

M. O. for the sailing of the First and Second Canadian divisions.

* * * *

Lt.-Col. W. A. Jones, formerly director of the department of radiology at the Kingston General Hospital and professor of radiology at Queen's, has been pro-

moted to the rank of colonel and appointed divisional assistant director of medical services for the Department of National Defence. Colonel Jones, a veteran of the Great War, resigned from the staff of the K. G. H. shortly after the start of the present conflict and proceeded to Ottawa.

* * * *

Colonel Sir Frederick Carson, Arts '08, has been promoted to the rank of brigadier and is now in charge of army transportation in Iraq. He was sent to that country to reorganize its transportation facilities shortly after it was occupied by the British Army. Sir Frederick had done valuable work in connection with the railways in India, for which he was knighted last February by H. M. King George VI. More recently he was chief engineer in charge of the repairs and clearance of bomb damage in England.

* * * *

When twelve Royal Canadian fighter planes shot down at least two and possibly three Messerschmidt 109's during a sweep over occupied territory in the middle of November, Flying Officer E. L. Neal, Sc. '38, and a sergeant pilot shared the credit for the second one. The Canadians sighted a formation of enemy machines after they had crossed the coast and swept down to attack them. All the Canadian planes, Spitfires armed with cannon and machine guns, returned without even a bullet hole, according to the Air Ministry's report.

* * * *

Ronald W. Smith, curator of the University biology museum since the Carnegie Foundation helped to re-establish it two years ago, is leaving Queen's to join the R.C.A.F.

After graduating in biology at Acadia University Mr. Smith spent two years in the Victoria Museum at Ottawa. He was then sent with an expedition to survey wild life along the Hudson Bay Railway. He subsequently obtained his M.A. in ornithology at the University of California. His work at Queen's has been the collection and preparation of over 30,000 museum specimens.

Among the Canadian officers who are returning to Canada to take a course at the Royal Military College, Kingston, is Major Stuart Wilder, Sc. '31. Major Wilder was a member of the staff of the Kingston Collegiate Institute previous to the outbreak of war and was granted leave of absence to enlist in the army.

* * * *

Number twenty-one in the series of monthly lists of those who are serving their King and Country is as follows:

Royal Canadian Air Force—PO. C. O. Bartels, Com. '27 (Administrative Branch), FO. J. J. Barry, Med. '39 (Medical Branch), PO. J. B. Collins, Arts '43, FO. A. S. Collins, Arts '42, PO. J. P. Doncaster, Sc. '42, PO. R. H. Dunn, Arts '38 (Link Trainer Branch), PO. H. M. Everson, Arts '38, FO. J. E. Gibson, Arts '37, Med. '40 (Medical Branch), PO. G. M. Godfrey, Sc. '38, FO. Ewart Lindsay, Med. '28 (Medical Branch), PO. L. W. Lockett, Sc. 23 (Aeronautical Engineering Branch), PO. P. L. P. Macdonnell, Arts '40 (transferred from Infantry), PO. W. M. Mair, Arts '24 (Administrative Branch), PO. R. R. Remmer, Arts '41, AC. Stanley Tucker, Arts '41, PO. T. R. Vout, Arts '31.

Royal Canadian Army Medical Corps—Lieut. E. J. Bracken, Med. '09, Lieut. W. H. Hicks, Med. '16, Lieut. M. W. Sloane, Med. '30, Capt. A. E. L. Winsor, Med. '29.

Royal Canadian Engineers—Lieut. G. E. Atkinson, Sc. '40, Lieut. H. F. Ditchburn, Sc. '41, Lieut. W. A. Marshall, Sc. '37, Lieut. A. E. May, Sc. '41, Lieut. J. F. Miles, Sc. '39, Lieut. George Reynolds, Sc. '38.

Canadian Chaplain Service—Hon. Flt. Lt. A. G. Macperson, Arts '31.

Infantry—Lieut. J. A. Camelford, Sc. '33 (Dufferin and Haldimand Rifles), Lieut. J. H. Peters, Com. '36 (Queen's Own Rifles of Canada).

Royal Canadian Ordnance Corps—Lieut. J. A. Stewart, Sc. '34.

Royal Canadian Corps of Signals—Lieut. W. D. Houser, Sc. '43.

STUDENT ACTIVITIES

HUGH A. BLACK, Arts '42, Lindsay, has been named as editor of the forthcoming edition of the Queen's annual year-book, the *1942 Tricolor*.

* * * *

At the first meeting of the Queen's branch of the Canadian Institute of Chemistry, Dr. E. M. Boyd, Arts '28, Med. '32, of the pharmacology department, spoke on "The Chemical Changes of Oysters in Storage."

* * * *

Last year the Arts Society inaugurated a scheme whereby a number of freshmen were allocated to each senior for guidance and counsel. The senior was to coach the freshmen in their academic work and offer advice concerning extramural activities. The plan met with considerable success and, with a few minor changes, is being followed again this session. Students in the scientific courses, who can obtain such instruction from their demonstrators, are not included in the scheme.

* * * *

H. R. Hammond, Arts '42, Ottawa, has been chosen as president of the Queen's Ski Club for the current year. Miss Doreen Jeffs, Arts '42, Toronto, is vice-president. Last winter the Club had a membership of 165.

* * * *

Miss Ethel Graham, secretary of the Canadian branch of the International Grenfell Association, addressed the Levana Society on November 12, describing her nursing experiences with the Grenfell Mission in Labrador.

* * * *

The second in the series of monthly non-denominational church services under the direction of the A. M. S. was held in Convocation Hall on Sunday, November 16. The preacher was Rev. Dr. Gerald Cragg, of the United Theological College, Montreal. The University Choir led the congregation in the singing of the hymns and also sang Bach's lovely anthem "Thy will, O Lord our God, be done."

Mr. Charles Hicks, secretary-treasurer of the Athletic Board of Control, has been appointed permanent secretary-treasurer of the Alma Mater Society, vice H. J. Hamilton, Arts '32, who has joined the staff of the Wartime Bureau of Technical Personnel, Ottawa, for the duration of the war.

* * * *

The first movement to bring into closer relationship the regular students of the University and the members of the R. C. A. F. who are studying wireless at Queen's was made on November 29 when the latter, as well as a number of nurses from the Kingston General Hospital, were invited to an "open house" in Grant Hall.

* * * *

On November 27, A. F. G. Cadenhead, Arts '13, director of plant research for Shawinigan Chemicals, Limited, and a former Queen's professor, addressed a joint meeting of the Queen's branch of the C. I. C., the Kingston Chemical Society and the Baconian Society. The subject was "Recent Technical Advances in Products from Calcium Carbide and Acetylene."

* * * *

In Toronto, on November 14, the Queen's debating team won a decision over Osgoode Hall, Queen's upholding the affirmative of a resolution in favour of conscription. Osgoode Hall retaliated in the Douglas Library on November 19, when its representatives argued successfully that "there should be restriction of the press in war-time."

* * * *

At an open meeting of the Engineering Society on November 21, Mr. W. L. Hill, Jr., of the Canadian Bitumuls Company, Limited, Leaside, Ont., gave an illustrated lecture on soil treatment and its importance in paving work.

* * * *

Surgeon Commander McCallum, director of medical service for the Royal Canadian Navy, addressed the members of the Aesculapian Society on November 24 on the subject, "Medicine in the Navy."

In accordance with the decision reached by Canadian universities during the summer of 1940 curtailing intercollegiate sports for the duration of the war, athletics at Queen's have been confined again this year almost entirely to interfaculty and local competition.

In football, the juniors won the City of Kingston championship, defeating teams from the R. M. C., the Army, and the K. C. V. I. They then won an exhibition game, 18-0, with Hamilton Canadians, Eastern Canadian junior champions. Medicine took the interfaculty championship in a closely contested match with Science by an 8-5 score.

A team entered in the Van Horne hockey series has yet to be defeated. A few Queen's men are also playing in the Kingston Combines, in the O. H. A. senior "A" group.

The men's intramural tennis tournament was won by Fred Miller, Arts '43, of Ingersoll, Ont., and the women's by Helen Lake, Arts '45, of Kingston, Jamaica.

Basketball and boxing and wrestling are also being restricted to interfaculty and city competition.

The Glee Club, under the direction of Dr. Frank Harrison, professor of music at the University, are arranging to present the *Pirates of Penzance* during the first week of February.

K. S. Twitchell, Sc. '08, now residing in Burlington, Vt., gave a fascinating talk to the Engineering Society on November 7 on Saudi Arabia, where he had spent several years developing the mining and other resources and serving as adviser to King Ibn Saud in connection with this work. His lecture was illustrated with films and slides.

The annual Arts sophomore-freshman banquet, at which the members of the second year are hosts to those of the first, was held in Grant Hall on the evening of November 13. Prof. F. A. Knox, Arts '23, of the School of Commerce, gave the main address, on "Post-War Reconstruction," and H. J. Hamilton, Arts '32, permanent secretary of the A. M. S., briefly outlined the functions of the Society.

In Convocation Hall on November 12, Mr. Gilbert Labine, explorer, prospector and discoverer of the radium deposits at Great Bear Lake, gave an illustrated address to the Engineering Society on the mining and refining of radium. Mr. Labine paid high tribute to the important part that Queen's graduates had played in the development of the radium industry in Canada.

* * * *

Six students of Queen's will attend the five-day conference of the Student Christian Movement, to be held during the Christmas vacation at St. Andrew's College, Aurora, Ont. About seventy-five students and as many graduates from fourteen college areas across Canada will join in this twenty-first anniversary of the founding of the movement in this country.

* * * *

In addition to their work in the University Red Cross room, Queen's girls are adding a personal touch to their war effort by visiting soldiers in hospital, and taking them magazines and cigarettes.

* * * *

In Grant Hall on November 13, Principal Wallace gave the first of his three regular annual addresses to the freshmen and freshettes. The subject was "The Sciences and What They Have Contributed to the World of Knowledge."

* * * *

Dr. C. F. Gummer, of the mathematics department, spoke to the Math and Physics Club on November 14 on "Some Systems of Conics."

* * * *

Mr. J. S. Willis, educational director for Canada Packers, Limited, Toronto, addressed the Commerce Club on "Industrial Relations in the Meat-Packing Industry" at a luncheon in Grant Hall on November 12.

* * * *

At the beginning of the fall term the Queen's War Aid Commission set an objective of \$4000 for the 1941-42 session. Tentative plans are that the sum raised will be used for the purchase of War Savings Certificates.

AT THE BRANCHES

Toronto

CAPTAIN R. G. CAVELL, soldier, traveller and diplomat, was guest speaker at the annual dinner-meeting of the Toronto branch, held in Eaton's Round Room on the evening of Friday, November 17. The President, Dr. R. W. Patterson, Arts '02, Med. '06, was in the chair, and about one hundred and twenty-five members were present.

Captain Cavell, who served for twelve years as a cavalry officer in India, fought in Mesopotamia during the First Great War, lived more recently in China, and since then has resided in Toronto, chose as the subject of his address "The Empire, the War and the Future."

For an hour he held the rapt attention of his audience with his descriptions of the countries he knew so well, his analyses of their local, Empire and international problems, and his summaries of the parts that these countries are playing in current world affairs. Of especial interest was his explanation of the great difficulties attached to the development of a practicable "home rule for India." In speaking of Canada's part in the present conflict, Captain Cavell took issue with those who are "so bitter about our own war effort." He stated that he had been greatly impressed with the way this country's industrial power had been thrown into the fight. He felt, however, that Canadians should do more realistic thinking with regard to the war.

Dr. W. S. Kirkland, Arts '00, expressed to Captain Cavell the sincere thanks of the branch for his extremely interesting and instructive address.

Principal Wallace, Vice-Principal McNeill, Mr. Gordon Smith, Director of Endowment for the University, Mr. Elmer Davis of Kingston, a member of the Board of Trustees, and Mr. H. E. Armstrong, Arts '22, Com. '24, past president of the Toronto branch and now living in Buffalo, N.Y., were also guests at the dinner. The first three of these spoke briefly.

The Principal spoke about the recent Centenary celebrations, emphasizing their deep spiritual effect, the evidence displayed of the abiding loyalty of Queen's alumni, the confidence that all of this gave for the future of the University, and the pride and humility that had been inspired in him at being a part of Queen's. "The roots of Queen's indeed go very deep," commented Dr. Wallace in closing his remarks.

Dr. McNeill referred to the financial situation of the University and appealed to the alumni for their continued support; this was needed now more than ever before. He finished with a high tribute to Principal Wallace.

Mr. Smith told of a few of the Queen's alumni who had been associated with various works in India and China that had been mentioned by Captain Cavell. In referring to the Queen's Spirit which had been so splendidly demonstrated during Centenary week, he read an inspiring letter that had been received just that day, and which is printed elsewhere in this issue.

During the course of the dinner, a number of Queen's songs were sung under the able leadership of N. G. (Pat) Stewart, Arts '11, Sc. '15, with S. M. Ketcheson, Arts '33, at the piano.

In a short business interlude, President Patterson presented a summary of the activities of the branch during the year; and upon the recommendation of the nominating committee, R. E. Story, Arts '30, was elected president for the ensuing year, A. E. Harkness, Sc. '21, was re-elected as secretary, and a representative executive committee was appointed.

Winnipeg

ON the afternoon of October 30, members of the Winnipeg branch entertained at tea at the Fort Garry Hotel in honour of Principal Wallace, who was on a trip through the West in his capacity as chairman of the special committee of the theological colleges of the United

Church. About fifty alumni and their friends were present on this occasion, which proved to be one of the most enjoyable functions ever held by the branch.

In a brief address, Dr. Wallace told of the recent Centenary celebrations and of the splendid stimulus that they had given to the University as she crossed the threshold of her second hundred years. He was thanked by R. D. Guy, Arts '05, president of the branch.

Among the guests were His Honour the Lieutenant-Governor of Manitoba, Mr. R. F. McWilliams, K.C., J. W. Dafoe, LL.D. '29, chancellor of the University of Manitoba, and Mrs. Dafoe. Judge C. A. Cameron, Arts '13, of Belleville, was also present and received a special ovation as son of one of the oldest living graduates, Rev. Hugh Cameron, Arts '76. Presiding at the tea table were Mrs. W. W. Cross (Katherine McConkey), Arts '05, and Mrs. R. M. Fisher (Mabel Scholes), Arts '13. Mr. Guy and the secretary of the branch, J. Lorne MacDougall, Arts '31, were largely responsible for the arrangements in connection with this very successful affair.

Dr. Wallace also spoke to the Winnipeg Board of Trade while in the city, dealing with the problems that will have to be faced during the post-war period.

Montreal

AT the annual meeting of the Montreal branch, held in the convention room of the Mount Royal Hotel on October 28, G. R. Maybee, Sc. '25, Arts '27, was elected as president for the coming year. The retiring president, C. A. Root, Arts '19, was in the chair.

Other members of the executive elected were as follows: first vice-president, A. F. White, Sc. '27; second vice-president, R. A. Blakely, Sc. '28; secretary, P. G. Cranston, Sc. '29; treasurer, G. V. Roney, Sc. '26; committee—J. E. Neilson, Sc. '28, E. M. Patton, Arts '26, H. J. Rowley, Sc. '20, C. W. MacDougall, Com. '38, Prof. J. U. MacEwan, Sc. 22, J. R. Bain, Sc. '28, H. B. Elliott, Sc. '28, J. M. Courtright, Sc. '41.

Following the installation of officers, the activities for the coming year were discussed, and the new president gave an interesting account of his visit to Queen's at the time of the Centenary.

The meeting unanimously adopted a resolution, expressing appreciation to the Aluminum Company of Canada for its recent establishment of a \$750 scholarship at Queen's in memory of the late O. M. (Monty) Montgomery, Sc. '05, whose death occurred some months ago.

Guelph

THE annual Banquet of the Guelph branch was held on the evening of November 21 in the Royal Hotel, Guelph, with Mr. J. C. Macfarlane, Arts '11, of Toronto, a past president of the General Alumni Association, as guest speaker. Mr. Macfarlane reviewed the history of

J. C. MACFARLANE

Queen's, told the story of the Centenary, and predicted a bright future for the University.

His address, which was replete with anecdote and humour, was particularly suited to the occasion, in view of the special interest in Queen's aroused by the recent

hundred-year celebration.

The growth of Canadian universities was outlined, showing their development in four stages: the Catholic colleges, the Anglican colleges, the anti-Anglican, and the state or provincial colleges. Queen's, the speaker pointed out, arose partly from the need in Canada for Presbyterian ministers and was established in 1841. At first only Arts and Theology were taught, but gradually the other faculties were added as need arose.

Brief mention was made of the six principals during the years 1841 to 1877. Mr. Macfarlane then spoke in greater detail of the tremendous contribution made by Principal Grant, whose eloquence and ability as a statesman gained great prestige for the University. Reference was made to Principal Gordon, whose bio-

graphy had been recently written by his daughter, Miss Wilhelmina Gordon, Arts '05; to Principal Taylor, who had now returned to Canada from Southern France; to Principal Fyfe, who left Queen's to return to Aberdeen; and to the present head of the University, Principal Robert C. Wallace, who is considered a "second Grant."

Mr. Macfarlane responded to the toast to our Alma Mater, proposed by Prof. R. R. Graham, Arts '02. The president of the branch, Dr. G. G. McNab, Arts '02, presided. Greetings were brought from the Ontario Agricultural College by Prof. J. Laughland, and from the University of Toronto by Dr. W. E. Shute. J. P. Devenny, Sc. '22, presented greetings from the Kitchener-Waterloo branch. Community singing was led by Mr. D. Johnston, with Mr. Harold Riddolls at the piano. The evening ended with dancing.

New York

ON Wednesday, November 12, the New York Society of Queen's University held a dinner at the New York University Faculty Club. About one hundred alumni and guests were present.

Among the representatives of sister Canadian institutions were Miss Vera Waugh, University of Saskatchewan; Mr. Owen Charlton, University of Toronto; Mr. H. W. Turnbull, Royal Military College; and Lt.-Col. F. Gendron, McGill University.

No special speaker was featured for the occasion, the evening being devoted to the renewal of old friendships and associations, to song and laughter—in short, it was an old-fashioned, jolly Queen's rally.

Dr. N. A. Brisco, Arts '98, dean of the School of Retailing of New York University and president of the Queen's New York Society, presided. He called upon a few of the guests for brief five-minute speeches.

In responding, Vice-Pres. H. P. Salter, Com. '23, briefly reviewed the work and purpose of the General Alumni Association and the part played in the war by Queen's alumni.

Mr. Turnbull touched on the lighter and more humorous side of college life,

mentioning the rivalry that existed between Queen's and her neighbour across the Cataraqui River. He also contributed greatly to the pleasure of the evening by his impromptu and excellent song leadership.

The work of the executive was summarized in the report of the treasurer, Neil Morrison, Sc. '23; Harold Searle, Sc. '22, programme chairman, asked for suggestions for future social evenings.

Dean Brisco commented on the high percentage of paid-up members, and, while making no appeal for funds, pointed out the desirability of supporting, with small contributions, the Centenary Fund. He spoke a word of welcome to one of Queen's oldest medical graduates, Dr. George Hayunga, Med. '90, who first organized the New York Society of Queen's University.

Dr. J. G. Dwyer, Arts '02, Med. '05, LL.D. '27, member of the Board of Trustees of the University, gave a vivid, concise account of the highlights of Centenary week. He paid tribute to Principal Wallace and Vice-Principal McNeill, and predicted that the achievements of Queen's would be even more brilliant in the future.

The interesting but all too short film, *The Paths of Learning*, depicting life at Queen's, brought to an early close a very successful evening.

Lanark County

ON November 18 the Lanark County branch held its annual meeting in Smiths Falls, Ont. J. W. Forde, Arts '13, was chosen as president. Other officers elected were as follows: vice-presidents—Dr. W. G. Blair, Med. '16, Perth, Rev. W. J. Scott, Arts 14, Theol. '18, Almonte, Miss Isobel Sinclair, Arts '22, Carleton Place, and D. W. Boyd, Arts '23, Smiths Falls; secretary-treasurer—M. W. Lever, Arts '37, Smiths Falls; representatives to the Athletic Board of Control—Dr. D. C. Bews, Med. '35, Carleton Place, and Dr. W. G. Blair, Perth; councillors—W. F. Thom, Arts '36, and Grant MacLennan, Arts '31, Almonte, Rev. W. R. Alp, Arts '16, and E. A. Fleming, Arts '25, Perth, Misses Olive Powell, Arts '31, and Hilda Cram,

Arts '34, Carleton Place, Mrs. Charles O'Reilly (Mae Ryan), Arts '13, and H. Rickard, Arts '25, Smiths Falls.

Edmonton

QUEEN'S alumni and friends to the number of seventy-five gathered for a reception and dinner in honour of Principal Wallace at the Corona Hotel, Edmonton, on November 4. Rev. D. C. Ramsay, Arts '06, president of the Edmonton branch of the General Alumni Association, was chairman and toastmaster.

At the head table were: Principal Wallace, Rev. D. C. Ramsay and Mrs. Ramsay, Rev. Dr. S. W. Dyde, Arts '83, and Mrs. Dyde, Dr. J. M. McEachran, Arts '02, and Mrs. MacEachran, Dr. J. W. Campbell, Arts '13, and Mrs. Campbell (Ruby Kilgour), Arts '15, Dr. J. E. Carmichael, Sc. '09, Med. '11, and Mrs. Carmichael, and Miss Edith Forester, Arts '12.

After the toast to the King, the chairman introduced the guest of honour and proposed the toast to Queen's. This was drunk to the strains of "Here's to good old Queen's, Drink her down."

Dr. Wallace acknowledged the toast and gave an exceedingly interesting and interpretative description of the Centenary celebrations at the University. He supplemented his remarks with his conception of what the future policy of Queen's should be, setting it forth as follows: 1. It should produce virile men and women with independent minds. 2. It should maintain an equitable balance between the professional and the humanistic studies. 3. It should develop men and women of national outlook, who, for example, would establish and maintain sympathetic relationship between management and labour.

The Principal went on to say that educators have realized now the great mistake that was made in the separation of religious and lay education. He stated that the Roman Catholic Church had seen further and plainer in this matter by keeping these two phases of education co-ordinated, and in his opinion their reunion was necessary from the point of view of society.

S. H. McCuaig, K.C., Arts '13, on behalf of the Queen's alumni and friends present, replied in a fitting and able way to Dr. Wallace's address and expressed the opinion that Queen's was indeed fortunate in having as principal a man of Dr. Wallace's outstanding ability and achievements. The gathering closed with Queen's Doxology.

Present at the dinner, in addition to those mentioned at the head table, were: Dr. E. L. Fuller, Arts '07, and Mrs. Fuller, Dr. Donalda Dickie, Arts '10, Dr. S. H. Gandier and Mrs. Gandier (Nell Clinton), Arts '17, H. C. Gourlay, Arts '27, and Mrs. Gourlay, A. W. Haddow, Sc. '07, and Mrs. Haddow, David Hutchinson, Sc. '24, and Mrs. Hutchinson, W. J. Kelly, Arts '12, and Mrs. Kelly, Miss Elizabeth McLennan, Arts '99, Dr. M. R. Bow, Arts '08, Med. '11, and Mrs. Bow, Dr. J. F. Brander, Med. '06, and Mrs. Brander, Rev. J. G. Brown, Arts '33. Theol. '36, Mrs. R. C. Gillespie, J. W. S. Chappelle, Sc. '04, W. H. Collier, Arts '98, and Mrs. Collier, L. E. Drummond, Sc. '05, and Mrs. Drummond, Rev. Dr. J. E. Duclos, Arts '84, and Mrs. Duclos, Dr. A. W. Macbeth, Med. '11, and Mrs. Macbeth, S. H. McCuaig, Arts '13, and Mrs. McCuaig, Rev. J. M. Miller, Arts '22, Theol. '26, W. W. Preston, Sc. '35, J. P. Page, Arts '13, and Mrs. Page, Dr. E. L. Pope, Arts '95, Dr. W. C. Redmond, Med. '01, and Mrs. Redmond, Miss Annie Robinson, Arts '21, J. E. Somerville, Sc. '12, and Mrs. Somerville. Rev. Dr. J. Fraser Smith, Med. '88, and Mrs. Smith, Miss Smith, G. H. Steer, Arts '12, and Mrs. Steer, Dr. G. E. Story, Med. '07, and Mrs. Story (Edith Malone), Arts '99, Rev. E. G. Turnbull, Arts '31, Theol. '32, and Mrs. Turnbull, Dr. J. R. Tuck, Arts '08, Mrs. Jean Walton, Arts '22, Miss Ada Wilkie, Arts '16, Rev. O. R. Lavers, Arts '13, and Mrs. Lavers (Margaret Carr), Arts '13, Mrs. F. W. Wootton (Christina Dyde), Arts '21, J. S. McCormick, Arts '15, and Mrs. McCormick (Mamie McDougall), Arts '15, Mr. and Mrs. A. E. Ottewell, Mrs. W. N. Condell, R. W. Ross, Miss V. Foster, Mr. J. R. McRuer, K.C., and Mrs. H. E. Smith.

Vancouver

ABOUT eighty graduates, with their wives and husbands, gathered on the evening of November 6 at the home of His Honour Judge A. M. Harper, Arts '00, president of the Vancouver Alumni branch, to extend greetings to Principal Wallace. The guests were received by Judge and Mrs. Harper, and by Mrs. Wiedrick (Ethel Hedley), Arts '23, the Vancouver Alumnae president.

W. H. MacInnes, Arts '02, Theol. '05, gave a report on the Centenary ceremonies, which he attended as a delegate from Vancouver. Principal Wallace then delighted his listeners with a further review of the Centenary, and an outline of the course he hoped that Queen's might be able to pursue in the coming years in fulfilling its destiny as a great national institution.

Representatives of almost every decade of Queen's history were present. The senior graduate was T. A. Brough, Arts '93. A close second was T. S. Scott, Arts '94, Sc. '97—the first student to graduate in Science, and later a member of the staff. Other former members of staff were Professor S. F. Kirkpatrick, LL.D. '22, and Dean Daniel Buchanan, now of the University of British Columbia. From the nineties, there were also present Rev. Robert Herbison, Arts '96, Rev. W. A.

Alexander, Arts '97, Albert Scott, Arts '99, and Miss M. E. Grenfell, Arts '99.

Graduates from the "naughty" years were Judge Harper, '00; W. H. MacInnes, '02; Dr. F. C. Bell, H. S. Wood and D. A. McGregor, '05; Rev. Wm. Stott, F. O. Orr and Mrs. S. E. Beckett (Annie S. Macfarlane), '07; Alfred Cummings, Dr. Isabel MacInnes and Miss Jessie J. MacKenzie, '08; Dr. M. Y. Williams and Mrs. Williams (Lulu M. Philp), '09.

From the next decade were Alex. R. Lord, '10; Dr. R. A. Simpson and Mrs. W. L. Uglow (Mattie B. Robertson), '11; Mrs. S. J. Schofield (Florence Tait) and Dr. C. W. Topping, '12; Miss Helen McArran and Miss Ruby Nash, '13; J. M. Brough and Miss M. A. Higginson, '14; Mrs. R. B. Crummy (Ruth Harrop), '18; and E. H. Morrow, '19.

And of more recent vintage were Miss Janet Grieg, Mrs. C. W. Topping (Marjorie M. Ellis) and E. S. Meek, '20; R. O. Campney, '21; Mrs. C. A. Wiedrick and O. F. Lundell, '23; Mrs. Lundell (Freda Collier), '24; G. F. Macdonnell, '26; H. M. McIlroy and Rev. T. E. Holling '28; A. W. Currie, '29; Mrs. Currie (Madeline McNeely), '31; H. A. Elliott, '34; W. M. Robson, '36; D. C. Crothers and Rev. A. J. Grant, '37; Dr. J. E. Hill, Dr. J. W. Pickering and Dr. H. G. Weaver, '41.

ALUMNI NEWS

Births

Clapp—On June 10, at Corning Hospital, Corning, N.Y., to C. W. Clapp, Sc. '32, and Mrs. Clapp (Phyllis Wells), Arts '34, a son (Roger Wells).

Foot—On June 7, at Montreal, to J. R. Foot, Sc. '28, and Mrs. Foot, a son (Andrew Braithwaite).

Hart—On November 15, at the Private Patients' Pavilion, Toronto General Hospital, to H. L. Hart, Com. '31, and Mrs. Hart (Eileen MacFarlane), Arts '33, a daughter.

Hay—At the Kingston General Hospital, on November 13, to Robert H. Hay, Sc. '36, and Mrs. Hay (Helen Lancaster), Arts '34, a son (Robert William).

Jarvis—At St. Mary's Hospital, Montreal, on June 22, to G. W. Jarvis, Sc. '30, and Mrs. Jarvis, a son (John Frederick).

Kent—In the Norfolk General Hospital, Simcoe, Ont., on November 9, to F. K. Kent and Mrs. Kent (Eileen Hancock), Arts '35, a daughter.

Merriam—At St. John General Hospital, St. John, N.B., on December 4, to Sub-Lt. R. C. Merriam, Arts '38, and Mrs. Merriam, a daughter (Sandra Jean).

White—At the Women's College Hospital, Toronto, on November 12, to D. W. White, Com. '36, and Mrs. White, a daughter (Merriel Jo-Anne).

Marriages

Booth—On November 22, in St. Andrew's Presbyterian Church, Ottawa, Marjorie Annette McKinnon to Charles Rowley Booth, Sc. '38, son of C. Jackson Booth, Arts '86, and the late Mrs. Booth. Flt. Lt. Neville Spence, Sc. '36, was best man. Among the ushers was Lieut. James Peters, Com. '36.

Doncaster — In St. Mathias Anglican Church, Westmount, Que., on October 11, Mary Watt to Pilot Officer John Phipps Doncaster, Sc. '42, of the R. C. A. F.

Fox — In Hamilton, Ont., on December 6, Doreen Ivy Snelling to John Edward Fox, Sc. '41.

Hayunga — In St. James's Chapel of St. Mary's Cathedral, Kingston, on November 22, Alice Marie Hayunga, Arts '41, daughter of Dr. George Hayunga, Jr., Med. '40, and Mrs. Hayunga, New York City, and granddaughter of Dr. George Hayunga, Sr., Med. '90, to Sergeant George Latimer Ward, R.C.A.F., Dauphin, Man.

Jones — On November 4, at Ewell, Surrey, England, Eileen Marsh to Capt. Campbell W. Jones, Sc. '39, R.C.O.C.

Lewis — On November 12, in Knox Presbyterian Church, Toronto, Ethel May Oulton to John Ackart Lewis, Com. '37, of Pittsburgh, Penn.

McKenna — On November 29, in St. Joseph's Church, Ottawa, Mary Eleanor Kerwin to Lieut. John Joseph McKenna, Arts '33, R.C.A.

Welch — On November 29, at the private chapel of St. Joseph's Church, Ottawa, Marian Louise Mackell to John Lawrence Burke Welch, Com. '38. They will reside in Ottawa.

Winn — On December 6, in Niagara Falls, Ont., Kathryn Williams to Neil Lackner Winn, Sc. '39.

Deaths

Baker — A resident of Richmond Hill, Long Island, N.Y., since 1907, Dr. Alfred Edwin Baker died Tuesday, April 29, of coronary thrombosis after an illness of two and one-half weeks. Dr. Baker was born in Aultsville, Ont., in 1877, and received his preliminary education at Morrisburg. He obtained his M.D., C.M. degree in 1906 at Queen's, served as an interne at City Hospital, Welfare Island, N.Y., and in 1910 became associated with Jamaica Hospital, Richmond Hill, N.Y. Five years later he was appointed to the visiting staff, and immediately began to organize the department of obstetrics and gynaecology, which he headed until his death. He was also obstetrician at Creedmoor State Hospital, and consulting obstetrician and gynaecologist at Queens General Hospital, Queens County, N.Y. He conducted a private practice at his home as well. He was a fellow of the American College of Surgeons, and a member of the American Medical Association, the New York State Medical Society and the Medical Society of the County of Queens. Dr. Baker was also a member of Ridgewood Chapter, 263, R.A.M., Woodhaven; Pilgrim Commandery, 71, Knights Templar, Richmond Hill; and Kismet Temple, Brooklyn. Besides his wife, he is survived by a son, and by three brothers, J. C. Baker, Sc. '03, of Toronto, F. M. Baker, of Vermilion, Alta., and H. G. Baker, of Edmonton, Alta.

"Any loot, darling?"
"Yes, thank goodness—lots of Sweet Caps."

can be smoked."*

Hume—In his eighty-second year, John Patterson Hume, Arts '81, died suddenly on November 27 at his home in Goderich, Ont. The late Mr. Hume was born in Seymour East, received his preliminary education in Campbellford and Kingston, and entered Queen's in 1877 at the age of seventeen, holding the Leitch memorial matriculation scholarship in mathematics. He was a brilliant student, won numerous prizes and scholarships throughout his university course, and upon graduation with the degree of B.A. in 1881 was awarded the gold medal in mathematics and physics and the gold medal in chemistry. (He recently returned one of these medals to the University as a Centenary gift along with a cash contribution.) After graduating from Queen's, Mr. Hume taught for five years in the high schools at Brampton and Dunnville. He then spent ten years in business, in partnership with his younger brother, after which he returned to teaching. He was in Campbellford High School for ten years; in Waterford High School, as principal, for four years; and after a year in Ingersoll he became principal of Goderich Collegiate Institute, where he remained for nineteen years, until his retirement in 1937. Surviving are three sons, James S. Hume and T. Donald Hume, of Toronto, and J. A. Hume, of Ottawa; and one daughter, Miss Esther B. Hume, of Goderich.

McCallum—Solicitor for many years in Winnipeg, Man., James Frederick McCallum, Arts '07, passed away in the Winnipeg General Hospital on November 16 after a brief illness. Mr. McCallum was born in 1885 at Brewers Mills, Ont., a son of the late Mr. and Mrs. Peter McCallum. He received his preliminary education at Gananoque, entered Queen's in 1903, and obtained his B.A. degree in 1907. Shortly afterwards he began the practice of law in Winnipeg, and at the outbreak of the Great War went overseas with the Royal Canadian Artillery, rising to the rank of captain. In 1919 he married Miss Susan Poole of London, England, and upon returning to Canada, resumed his law work in Winnipeg. He was a great lover and student of Shakespeare, and was a member of the United Church of Canada. Surviving are his widow and two sons; three brothers, Rev. Dr. J. A. McCallum, Arts '99, Philadelphia, Pa., Peter McCallum, Los Angeles, Calif., and Dr. Donald McCallum, Rose Valley, Sask., and two sis-

ters, Mrs. Janet M. Jones and Miss Elizabeth McCallum, Gananoque, Ont. The late Dr. Samuel McCallum, Arts '04, Med. '06, of Niagara Falls, Ont., was another brother.

Revelle—A veteran of the First World War, Adrian I. Revelle, Arts '15, died in the Kingston General Hospital on November 10, following a heart attack on October 31. Born in 1893 at Hartington, Ont., Mr. Revelle was the elder son of the late Mr. and Mrs. W. E. Revelle. He received his preliminary education at Sydenham, Ont., and entered Arts at Queen's in 1911, obtaining his B.A. degree in the spring of 1915. Just before graduation he enlisted with the Princess Pats, and shortly afterwards proceeded overseas. Later he transferred to the Queen's Engineers, to which unit his father was attached, and remained with them until the end of the war. Upon his return to Canada, he attended Osgoode Hall, where he graduated with honours in 1922. He then began the practice of law in Kingston and continued until his fatal illness. For a number of years he was in partnership with A. E. Day, Arts '95. Mr. Revelle was actively associated with the Kingston Humane Society for many years. He was also a member of the Kingston Horticultural Society, and of the Royal Edward Lodge, No. 585, A.F. and A.M. He is survived by one brother, Dr. Ian E. Revelle, Arts '15, Med. '27, of Nipigon, Ont. While Adrian Revelle and his brother were at Queen's, their mother, who had previously taken some extramural work, attended the University with her two sons and received her B.A. in 1916. She later did postgraduate work and obtained her M.A. in 1921.

Notes

ings Bank of Pasadena, Calif., which position he has held for more than twenty-two years. He has been associated with Pasadena banks since 1902. On November 28 the "Pasadena Star News" in an editorial paid high tribute to his work both as a banker and as a writer of outstanding ability. The editorial read in part as follows: "James S. Macdonnell has resigned the presidency of the First Trust and Savings Bank. He can never resign as one of California's greatest citizens. He can never resign as a generous contributor to the welfare of Pasadena. He must not resign as a contributor to American literature. His writings will continue to live beyond his splendid banking achievements."

Dr. E T. Seaton, Arts '97, retired as public-school inspector for the city of Hamilton, Ont., in 1939. After leaving Queen's, Dr. Seaton received a high-school assistant's certificate, a specialist certificate in mathematics and a high-school principal's certificate. He also took his D.Paed degree from the University of Toronto. After teaching in the high schools at Vankleek Hill, Port Dover, Port Hope, Cayuga and Caledonia, he was appointed master in mathematics in the Hamilton Normal School, where he served for fourteen years until his appointment as public-school inspector in 1922.

1900-1909

R. H. Eldon, Arts '01, has retired from the principalship of the Central High School of Commerce, Toronto, which position he has held since 1926.

J. L. Moore, Arts '09, is inspector of public schools at Farry Sound, Ont.

John Sears, Arts '02, Sc. '05, has been in Windsor, Ont., for the past few months doing work for the Clarke, Hill and Frances Company, of New Liskeard, Ont. This firm is building wartime houses in the Windsor district.

W. B. Timm, Sc. '06, has been appointed director of the mines and geology branch of the Department of Mines and Resources, Ottawa. He was formerly chief engineer in the ore-dressing and metallurgy division.

1910-1919

Dr. J. A. Blezard, Arts '14, Med. '17, London, Ont., was bereaved on November 22 by the death of his eldest daughter, Mildred Joan, aged fourteen years.

J. C. Bonham, Sc. '15, is now assistant chief engineer for the Ford Motor Company of Canada, Windsor, Ont.

Miss Margaret Brown, Arts '12, on leave from her missionary work in Shanghai, China, is at present spending some time in New York City, where her address is 99 Claremont Ave.

Mrs. F. C. Casselman (Cora Watt), Arts '12, member of parliament for Edmonton East, and **Dr. Charlotte Whitton**, C.B.E., Arts '17, LL.D. '41, Ottawa, were guests of honour recently at a tea given by Ottawa alumnae in the Chelsea Club. The tea table was presided over by **Mrs. T. K. Waddell**.

(Jean Govan), Arts '20, and Mrs. J. E. Plunkett (Marion Moffatt), Arts '26.

Miss Elizabeth Chown, Arts '15, St. Catharines, Ont., was bereaved on September 30 by the death of her mother, Mrs. H. R. Chown.

Dr. R. A. Dick, Canora, Sask., Dr. A. C. Scott, Indian Head, Sask., and Dr. M. H. MacDonald, Weyburn, Sask., all of Med. '11, were recently elected members of the council of the College of Physicians and Surgeons for the Province of Saskatchewan.

G. A. Oatway, Arts '16, Smiths Falls, Ont., and Miss Isabel Oatway, Arts '26, Oshawa, Ont., were bereaved late in November by the death of their mother.

R. M. Smith, Sc. '14, deputy minister of highways for Ontario, was the author of an excellent article in the October issue of the "Canadian Geographic." The article dealt with the development of Northern Ontario and the enormous potentialities of this great area.

Leonard Wheelton, Arts '19, superintendent of schools for Windsor, Ont., reports that at the secondary-school principal's meetings in that city the attendance is completely Queen's — W. D. Lowe, Arts '02, principal of Windsor-Walkerville Vocational School; A. F. S. Gilbert, Sc. '20, Arts '21, principal of Kennedy Collegiate Institute; J. L. Forster, Arts '27, principal of the Sandwich Collegiate Institute; G. E. Marshall, Arts '19, principal of Patterson Collegiate Institute. W. N. Ball, Arts '16, acting principal of Walkerville Collegiate Institute; K. C. Hortop, Arts '24, principal of Gordon McGregor School.

1920-1929

Rev. H. E. D. Ashford, Theol. '24 (B.A. Mount Allison, B.D. Union College), of the Canadian Chaplain Service, is now stationed at No. 2 Wireless School, Calgary, Alta.

I. W. Boyd, Sc. '24, is superintendent of Connaught Laboratories, University of Toronto.

C. E. Cobb, Sc. '21, has been appointed county engineer for Lennox and Addington, to succeed H. L. Schermerhorn, Sc. '23, who recently enlisted with the Royal Canadian Engineers.

C. F. Davison, Sc. '26, formerly with Canadian Industries Limited in Windsor, Ont., is now manager of one of the company's wartime plants in St. Thérèse, Que.

J. R. Foot, Sc. '28 was recently appointed general purchasing agent for the Aluminum Company of Canada, Montreal.

H. A. Graves, Sc. '28, is now employed as mine superintendent of Golden Manitou Mines, Val D'Or, Quebec.

Miss Katherine Keenan, Arts '27, has been appointed by the Unemployment Insurance Commission of Canada as employment and claims officer for the Kingston district. She was formerly head of the Kingston welfare department.

Dr. J. R. McAuley, Med. '26, of Perrysburg, Ohio, was bereaved on November 16 by the death of his mother.
